PART 803—GENERAL ORDERS

PAYMENT OF BONUS, GIFTS AND COMMISSIONS

The National War Labor Board has added paragraph (d) to General Order No. 10 to read as follows:

§ 803.10 *Payment of bonuses, gifts and commissions.* * * *

(d) The provisions of this order shall not apply to the payment of year-end bonuses by security underwriting, distributing, and brokerage companies. All such companies may pay year-end bonuses without the approval of the National War Labor Board in an amount not to exceed 6% of aggregate annual payroll of all employees of the company under jurisdiction of the National War Labor Board. The total bonus amount determined under this method must be distributed equitably and in such a manner as to avoid the creation of any intra-company inequities. Establishments that made payments totaling less than the 6% for the bonus years 1943 and

1944 may increase the payments made for those years up to 6% of aggregate annual payroll for those respective years without Board approval. For the purposes of this section, bonus year means the year during which the bonus was earned and not the year in which the bonus is paid.

For such companies, bonus payments of more than 6% must be submitted to the Board for approval regardless of the past practice of the company or Form 1 and Form 10 rulings previously issued by the National War Labor Board or its agents.

Companies filing Form 10 applications under the preceding paragraph must submit their applications to the Regional Office of the War Labor Board if the firm has no branches outside the region; and to the National Wage Stabilization Director in Washington if the firm has one or more branches outside the region in which it is located.

Approved: February 19, 1945.

PART 3293—CHEMICALS

[Conservation Order M-387]

ROSIN

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rosin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.646 *Conservation Order M-387*—(a) *Definitions.* (1) "Rosin" means gum rosin and wood rosin as defined in the Naval Stores Act of March 3, 1923, or the gum or wood rosin content of any intermediate product.

(2) "Intermediate product" means any product containing gum or wood rosin capable of use in the manufacture of a Schedule A or B product. The term includes but is not limited to mixing varnishes containing rosin, esterified rosin (ester gum), rosin-modified phenolic resin, rosin-modified maleic resin, and the following products as defined in General Preference Order M-340: heat-treated rosin, stabilized rosins, polymerized rosin and metal resinates.

(3) "Manufacturer" means any person who uses rosin in the manufacture of any product.

(4) "Producer" means any person who produces gum or wood rosin.

(5) "Rosin quota" means the amount of rosin any manufacturer may use in any calendar quarter for the manufacture of any product on Schedules A or B. Each manufacturer has a separate rosin quota for each product on Schedules A and B. His quota for a Schedule A product amounts to the percentage (set opposite that product) of the quantity of rosin he put into process for the manu-

facture of that product to fill all orders (both preferred and civilian) during the corresponding calendar quarter of 1944. His quota for a Schedule B product amounts to the percentage (set opposite each product) of the quantity of rosin he put into process for the manufacture of that product to fill civilian orders only during the corresponding calendar quarter of 1944.

(6) "Three months inventory" means a quantity equal to one quarter of a person's total consumption of gum and wood rosin (including gum and wood rosin put in process) during the calendar year 1944, for the manufacture of all products containing rosin. The term inventory includes inventory at factory, in storage on and off the premises, and in transit to factory or storage.

(7) "Six months inventory" means a quantity equal to one half of a person's total consumption of gum and wood rosin (including gum and wood rosin put in process) during the calendar year 1944, for the manufacture of all products containing rosin. The term inventory includes inventory at factory, in storage on and off the premises, and in transit to factory or storage.

(8) "Preferred order" means a purchase order for a product (i) if the order is rated under Preference Rating Orders P-65 or P-149; or (ii) if the product is to be delivered to, used on, or incorporated in material and equipment to be delivered to the United States Army, Navy, Marine Corps, Coast Guard, Veterans' Administration, Maritime Commission, War Shipping Administration, War Food Administration, Bureau of Engraving and Printing, United States Government Printing Office, Panama Canal, Office of Scientific Research and Development, or any Government agency, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(9) "Civilian order" means any purchase order that is not a "preferred order" as defined above.

(10) "Printing ink" includes any fluid or viscous material or composition of materials used in printing, impressing, stamping, or transferring upon paper or paper-like substances, wood, fabrics or metals by the recognized mechanical reproductive processes employed in printing, publishing and related service industries.

(11) "Protective coating" means any liquid organic coating, thinner, or remover which either alone or mixed with other materials is normally applied to any surface by brush, spray, dip, roller coat, or other method of application. The term includes but is not limited to paint, varnish, enamel, lacquer, dope, lacquer or dope thinner, paint or varnish remover, and stain. The term does not include adhesive, cement, printing ink, coating for the manufacture of coated fabric, coating for leather (limited to hides, skins and splits, etc., which have not been incorporated into any product) and coating for footwear (of any material, including leather).

(12) "Put into process" means the first change made by a manufacturer in the chemical or physical properties of

gum or wood rosin, or any intermediate product, in the manufacture of a Schedule A or B product.

(b) *Restrictions on use.* (1) During the period from February 28 through March 31, 1945, inclusive, no manufacturer shall put into process for the manufacture of any product on Schedule A or B, more rosin than $\frac{1}{2}$ of his rosin quota for the manufacture of that product.

(2) During the second calendar quarter of 1945, and during each calendar quarter thereafter, no manufacturer shall put into process for the manufacture of any product on Schedule A or B, more rosin than his rosin quota for the manufacture of that product.

(3) Rosin put into process to fill "preferred orders" for Schedule B products after February 28, 1945, shall not be charged against any rosin quota, notwithstanding paragraphs (b) (1) and (2) above.

(c) *End of quarter carry-over.* If, in any calendar quarter, a manufacturer does not use all of his rosin quota for the manufacture of any Schedule A or B product, the unused balance may be carried forward and used only in the succeeding calendar quarter for the manufacture of that product. For example, if a manufacturer has a quota of 50,000 pounds per quarter for the manufacture of adhesives, and uses only 30,000 pounds in the first quarter of 1945, he has a carry-over of 20,000 pounds which he may consume for the manufacture of adhesives in the second quarter of 1945 in addition to his regular quota of 50,000 pounds. If, however, in the second quarter of 1945, he actually consumes only 40,000 pounds for adhesives, he has a carry-over for the third quarter of 1945 of only 10,000 pounds, viz., the difference between what was actually consumed (40,000 pounds) and his regular quota for that quarter (50,000 pounds). The 20,000 pound carry-over from the first quarter of 1945 is disregarded in determining the unused balance of his quota at the end of the second quarter of 1945.

(d) *Toll arrangements.* For the purpose of this order a toll arrangement is an arrangement under which rosin owned by one person (referred to as "the owner") is manufactured into a Schedule A or B product for the owner by another person (referred to as the "processor"). Toll arrangements are subject to the following restrictions:

(1) Any quantity of rosin put into process for the production of any product on Schedule A or B under toll arrangement during any calendar quarter shall be charged against the owner's rosin quota instead of the processor's, if the owner manufactured the product himself or had it manufactured for him during the corresponding calendar quarter of 1944.

(2) Any quantity of rosin put into process, under toll arrangement during any calendar quarter, for the production of any product on Schedule A or B, must be charged against the rosin quota of the processor and not against the rosin quota of the owner, if the owner did not manufacture that product nor have it manufactured for him during the corresponding quarter of 1944.

(3) Any processor who is offered rosin for processing on toll arrangement shall assume that he is required to charge the rosin against his own rosin quota, unless he is advised in writing by the owner that the owner manufactured the same product during the calendar quarter of 1944 corresponding to the calendar quarter in which the rosin is to be put in process, and that the quantity offered can and will be charged against the owner's rosin quota.

(e) *Method of computing rosin content of intermediate products.* A manufacturer must charge against his rosin quota for the particular calendar quarter for the production of the particular Schedule A or B product, the rosin content of any intermediate product as well as the quantity of gum and wood rosin which he puts into process in that quarter for that purpose. Each manufacturer therefore may take into consideration, when figuring the amount of his rosin quota for that product, the rosin content of all intermediate products which he put into process in the manufacture of that product in the corresponding quarter of the year 1944, in addition to the quantity of gum and wood rosin which he put into process for the same purpose in that quarter. In figuring the rosin content of the intermediate products listed below, a manufacturer shall use the estimated rosin content appearing after each of those intermediate products in order to determine both his rosin quota and his current consumption. For all other intermediate products, the rosin content must be ascertained.

<i>Intermediate products</i>	<i>Estimated rosin content</i>
Mixing varnishes, containing rosin.....	1 $\frac{1}{4}$ lbs. of rosin per gal. of mixing varnish.
Esterified rosin.....	96 lbs. of rosin per 100 lbs. of resin.
Rosin-modified phenolic resin.....	85 lbs. of rosin per 100 lbs. of resin.
Rosin-modified maleic resin.....	80 lbs. of rosin per 100 lbs. of resin.
Heat-treated rosins.....	100 lbs. of rosin per 100 lbs. of heat-treated rosins.
Stabilized rosins.....	100 lbs. of rosin per 100 lbs. of stabilized rosins.
Polymerized rosins.....	100 lbs. of rosin per 100 lbs. of polymerized rosins.
Metal resinates.....	90 lbs. of rosin per 100 lbs. of metal resinates.

(f) *Inventory restrictions on gum and wood rosin.* On and after February 28, 1945:

(1) No manufacturer (who is not also a producer) shall accept any delivery of gum or wood rosin which shall result in his having more than a three months inventory of gum and wood rosin in the aggregate.

(2) No manufacturer (who is also a producer) shall accept any delivery of gum or wood rosin which shall result in his having more than a six months inventory of gum and wood rosin in the aggregate.

The term inventory includes inventory at factory, in storage on and off the premises, and in transit to factory or storage.

(g) *Restrictions on delivery of gum and wood rosin.* No producer or distributor of gum or wood rosin, shall deliver gum or wood rosin to a manufacturer and no manufacturer shall accept delivery, unless the manufacturer certifies to the producer or distributor that acceptance of delivery will not result in his having an inventory in excess of the applicable restrictions in paragraph (f) of this order. The certification, signed manually or as provided in Priorities Regulation No. 1, may be endorsed on or attached to the purchase order, and should read substantially as follows:

Inventory certified—Ref: M-387, paragraph (g).

(Name of purchaser)

By _____
(Name and title of duly authorized official)

(h) *Inventory restrictions on intermediate products.* On and after February 28, 1945, no manufacturer shall consume gum or wood rosin, or intermediate products, in quantities which shall result in his having an inventory of intermediate products at any time in excess of the total rosin content of all intermediate products produced by him during the previous calendar quarter. The production of intermediate products shall be regarded as completed when no further processing remains to be done. The term inventory includes inventory at factory, in storage on and off the premises, and in transit to factory or storage.

(i) *One time report.* On or before March 10, 1945, each manufacturer who put into process more than 2,700 pounds (5 drums) of rosin in the aggregate for all products (including Schedule A and B products and intermediate products) during any calendar quarter of 1944, shall file a one time base period use and inventory report on Form WPB-4132, in the manner prescribed therein. One copy of the report shall be retained and one copy shall be forwarded to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-387. Separate reports are to be filed for each plant.

(j) *Quarterly report.* Each manufacturer who puts into process more than 2,700 pounds (5 drums) of rosin during any calendar quarter for the production of Schedule A or B products, shall file a use and inventory report for that quarter on Form WPB-4131, in the manner prescribed therein, on or before the 20th day of the month following the close of that quarter. The initial reports, covering the first quarter of 1945, are due April 20, 1945. One copy of each report shall be retained and one copy shall be forwarded to the War Production Board, Chemicals Bureau, Washington 25, D. C. Separate reports are to be filed for each plant.

(k) *Appeals.* Any appeal from this order must be filed by letter in duplicate addressed to the Chemicals Bureau, War Production Board, Washington 25, D. C., Ref: M-387, setting forth the reasons for the appeal and the necessary supporting information. Such information should include:

(1) The Schedule A or B product for which the rosin will be used, and if a Schedule A product, what quantity of the rosin will be used to fill preferred orders and what quantity to fill civilian orders.

(2) Period of time, not exceeding one calendar quarter, for which relief is requested.

(3) Monthly schedule of the amount of rosin appellant would like to use for the particular product and the portion of this which is in excess of the quota permitted by the order.

(4) If the appeal is for an increase in quota to fill preferred orders, state the name of the procuring agency, the end use description, prime contract numbers and dates when the orders were received.

(5) If the appeal is filed because the restrictions of the order will prevent the filling of civilian orders of extreme urgency, give exact information as to the use of the product in which the rosin would be used, names of the customers, and preference ratings, if any, covering the orders.

(6) Any other information pertinent to the appeal.

Ordinarily consideration will be given only to those appeals where compliance would work an exceptional and unreasonable hardship which is not suffered generally by others in the same industry or activity, and which show that the quota limits on the consumption of rosin will prevent the filling of "preferred orders" or more essential "civilian or-

ders". Attention is called to the provisions in Priorities Regulation No. 16 with respect to manpower requirements which must be submitted with the appeal.

(l) *Budget Bureau approval.* The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(n) *Violations.* Any person who willfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(o) *Communications to War Production Board.* Communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-387.

Issued this 28th day of February 1945.

WAR PRODUCTION BOARD,

Recording Secretary.
