### PART 1010—SUSPENSION ORDERS

[Suspension Order S-895]

GILBERTON CO., PHILIP SPARACINO, ISLAND PUBLISHING CO., INC., EUGENE BLUMENTHAL, AND HOWARD CUMMINGS

Albert L. Kanter, Rose E. Kanter, Raymond N. Haas and Myer Levy, partners doing business under the trade name of

Gilberton Company, are engaged in the business of publishing comic magazines at 510 6th Avenue, New York City. Among the magazines they publish is Classic Comics, a title which they own. Philip Sparacino with offices at 24 Eldridge Avenue, Hempstead, Long Island, New York, is the owner and publisher of Long Island Independent and Nassau Bulletin, suburban weekly newspapers, Island Publishing Co., Inc. is a corporation wholly owned by Eugene Blumenthal with offices at 351 W. Olive Street, Long Beach, Long Island, New York and is engaged in publishing Long Beach Life, a suburban weekly newspaper. Howard Cummings with offices at 235 Braddock Avenue, Queens Village, Long Island, New York, is the owner and publisher of Queens County Times, Queens Home News, Sunrise Times and Richmond Hill Courier, suburban weekly newspapers.

At the close of 1943, Gilberton Company had exceeded its permissible quota of paper for the publishing of Classic Comics, by approximately 96 tons. Sparacino, Blumenthal and Cummings, who had no quotas for the publishing of magazines under Limitation Order L-244, contracted with Gilberton Company to publish reprints of Classic Comics to the extent of 90 tons annually for each of the newspapers published by each of them respectively, or 630 tons of newsprint for the seven newspapers. Pursuant to this agreement, Gilberton Company arranged for the purchase of newsprint and the printing and distribution of Classic Comics, and performed all of the functions of publisher, assuming the ultimate risk of the publishing venture. However, Sparacino, Blumenthal and Cummings lent the names of their newspapers, probably representing them to be the publishers of the various reprints of Classic Comics printed and published during the year 1944, and received financial benefits from the use of newsprint used to print and publish Classic Comics in violation of Limitation Order L-244. During the year 1944, Philip Sparacino thus caused to be used illegally 180,779 tons of newsprint; Island Publishing Co., Inc. and Eugene Blumenthal thus caused to be used illegally a total of 89,845 tons; and Howard Cummings thus caused to be used illegally a total of 350,874 tons of newsprint.

Sparacino, Blumenthal and Cummings also failed to furnish the printer with the certification required by Order L-244 but instead furnished certificates referring to Order L-241.

The Gilberton Company, through its individual partners and through Eugene Blumenthal, Island Publishing Company, Inc., Philip Sparacino and Howard Cummings and each of them individually, violated one or the other of Limitation Orders L-240, L-241, L-244, and Priorities Regulation 7A. Their actions were wilful and resulted in the diversion of critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.895 *Suspension Order No. S-895.* (a) Albert L. Kanter, Rose E. Kan-

ter, Raymond N. Haas, and Myer Levy, partners, doing business as Gilberton Company, Philip Sparacino, Island Publishing Co., Inc., and Eugene Blumenthal, and Howard Cummings, their respective publications, their successors, assigns, and persons or corporations acting for or on behalf of any of them, shall not use or cause to be used any newsprint for the printing or publishing of magazines, newspapers, periodicals or books so long as the allocation of such newsprint or paper is governed and controlled by any order or regulation of the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Albert L. Kanter, Rose E. Kanter, Raymond N. Haas, and Myer Levy, partners, doing business as Gilberton Company, Philip Sparacino, Island Publishing Co., Inc., and Eugene Blumenthal, and Howard Cummings, their respective publications, their successors, assigns, persons or corporations acting for or on behalf of any of them, from any restriction, prohibition contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the 29th day of August 1945.

Issued this 22d day of August 1945.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-898]

JOHN THOMAS AND HAROLD AMUNDSON

John Thomas of 1933 1st Avenue, Seattle, Washington was authorized by the War Production Board on March 15, 1945 to construct a six room three-bedroom house without garage at 3419 West 67th Street, Seattle, Washington, at an estimated cost of \$8000.00, incorporating therein 15,000 board feet of lumber, of which no more than 6500 board feet were to be new dimension lumber. Thereafter John Thomas and Harold Amundson of 5100 Shilshole Avenue, Seattle, Washington, his building contractor, commenced construction at that address of a six room house with attached garage at an estimated cost of about \$15,000, and ordered and accepted delivery therefor approximately 33,187 board feet of new lumber, of which 21,279 board feet was dimension and 11,908 board feet was board lumber. The carrying on of such construction at a cost in excess of the amount authorized by the War Production Board constituted a violation of Conservation Order L-41.

This violation has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.898 *Suspension Order No. S-898.* (a) Neither John Thomas nor Harold Amundson, their successors or assigns, nor any other person, shall do

any construction on the house or garage at 3419 West 67th Street, Seattle, Washington, including putting up or altering the structures, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve John Thomas or Harold Amundson, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 29th day of August 1945.

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 27, Interpretation 2]

The following interpretation is issued with respect to Priorities Regulation 27:

Priorities Regulation 27 provides that under certain conditions manufacturers who need small amounts of materials may use the AA-4 rating and Z-3 allotment symbol on orders calling for delivery of controlled materials and other production materials up to December 31, 1945.

In view of the provisions of Priorities Regulation 29, which invalidate all AA ratings and allotment symbols after September 30, 1945, the rating and allotment symbol assigned in Priorities Regulation 27 will not be valid on orders calling for delivery after that date.

Any person operating under Priorities Regulation 27, who needs priorities assistance on orders calling for delivery of production materials after September 30, 1945, may apply for priorities assistance under the rules stated in Priorities Regulation 28, if he can meet the conditions stated in Priorities Regulation 28.

Issued this 30th day of August 1945.

## PART 984—LEAD

[General Preference Order M-38, as Amended  
Aug. 30, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M-38—(a) Scope of the order.* This order controls generally the use of lead and lead products. Lead and lead products may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the War Production Board relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, including any alloy containing 50% or more by weight of metallic lead. It includes soft and antimonial lead produced from foreign or domestic ores, scrap, drosses, or other lead bearing material, as well as scrap lead and alloys in which the lead content is 50% or more by weight.

(2) "Lead product" means lead in the form of sheet, pipe, ingot, castings, and foil.

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead or lead products in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be in-

corporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Use" means to melt, form or alloy lead for introduction into an end product or a component thereof.

(8) "Item" means any article or component thereof.

(c) *Prohibitions on use.* On and after April 1, 1945, no person shall use lead or lead products except for the items and purposes and subject to the qualifications set forth in List I of this order, and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other War Production Board orders.

(d) *Special directions.* The War Production Board may at any time issue special directions to any person respecting the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Metals Reserve Company.* Any person unable to obtain pig lead from the regular sources of supply and wishing to procure pig lead from the Metals Reserve Company must make application in writing to the War Production Board on Form WPB-95, not later than the 20th of the month preceding that of shipment.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of pig lead if the total inventory of pig lead in the hands of the person accepting delivery is, or by virtue of the acceptance will become, in excess of his reasonable anticipated requirements for permissible uses in the next 45 days (except where a minimum carload quantity requested by Office of Defense Transportation exceeds these restrictions). The restrictions of this paragraph do not apply to a refiner, dealer, or scrap dealer.

(g) [Deleted May 1, 1945]

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be by letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal, and filed with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. The appeal shall contain the following information:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information

as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

Attention is called to the requirement of Priorities Regulation No. 16 with respect to the statement of manpower requirements which must be submitted with any appeal.

(j) *Priorities Regulation No. 25.* Requests for exceptions from the restrictions of this order may not be made under the provisions of Priorities Regulation No. 25. The use of lead for production authorized under Priorities Regulation No. 25 prior to January 1, 1945, will be subject to the restrictions of this order.

(k) *Records.* All persons affected by this order must maintain accurate and complete records of all transactions as required by Priorities Regulation No. 1, 944.15. Such records must include complete statements of the amounts of lead consumed for the items specified in this order, and the amount of inventory on hand.

(l) *Required reports.* (1) On or before the 20th day of each calendar month each person who purchased or consumed 10 tons or more of lead during the preceding calendar month, or had in his possession or under his control 20 tons or more of lead, shall report such purchases, consumption and stocks on hand at the end of the preceding month to the War Production Board on Form WPB-95.

(2) The War Production Board may from time to time issue special directions requiring any refiner or dealer to file a report showing a schedule of his proposed deliveries of lead.

(3) All persons affected by this order shall execute and file with the War Production Board such other reports as may be required subject to the approval of the Bureau of the Budget.

(4) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Violations.* Any person, who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Communications of the War Production Board.* All communications and reports dealing with this order shall be addressed to: War Production Board, Tin, Lead and Zinc Division, Washington 25, D. C., Ref. M-38

Issued this 30th day of August 1945.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

## LIST I

Pursuant to the foregoing order, lead and lead products may be used only for the following items and purposes subject to such qualifications on use as are set forth next to the item or purpose; and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other War Production Board orders.

1. Ammunition for Military Orders.
2. Anchorages for military and industrial equipment and components, including expansion bolts and shields.
3. Anodes for electrolytic refining, chromium plating and for lead plating as permitted in Item 40 of this list.
4. Anti-vibration mats.
5. Babbitt for abrasives and grinding wheels and for securing hardware to radio insulators and for securing end connections of windings and/or for securing enclosures of wire wound restrictors.
6. Ballast for implements of war where available space does not permit the use of material of lower density, for submarines and for surface craft of sizes up to and including destroyers.
7. Bearing Metal.
8. Bolster metal for surgical, table and industrial cutlery.
9. Brake lining and clutch facings.
10. Brass and bronze.
11. Cable covering as permitted by Direction 63 of CMP Regulation #1.
12. Cable sleeving and other accessories necessary for the maintenance, repair and installation of lead covered cable.
13. Cable terminals and bushings for storage batteries.
14. Cames.
15. Caulking of cast iron pipelines (including lead wool) where other material such as sulphur compounds or cement does not provide a leak proof joint.
16. Chemicals subject to the restrictions of Conservation Order M-384.
17. Closure Spouts for drugs and chemicals.
18. Coating of wire and zinc plated sheet, including sheathing.
19. Collapsible tubes, subject to the restrictions of Conservation Order M-115.
20. Counterweights, weights and sliding poises for Military, Industrial and laboratory equipment, and implements of war where available space does not permit the use of material of lower density, other than automotive wheel balancing weights.
