Correction

In F.R. Doc. 62-10483, appearing at page 10249 of the issue for Friday, October 19, 1962, the following correction is made in § 989.158(c)(4)(i): In the fifth sentence, the word "reconditional" should read "reconditioned".

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

SUBCHAPTER D—AIRMEN [NEW]

[Reg. Docket No. 1179; Amdts. 61-1, 63-1, 65-1]

PART 61—CERTIFICATION: PILOTS AND FLIGHT INSTRUCTORS [NEW]

PART 63—CERTIFICATION: FLIGHT CREW MEMBERS OTHER THAN PILOTS [NEW]

PART 65—CERTIFICATION: AIRMEN OTHER THAN FLIGHT CREW MEMBERS [NEW]

Miscellaneous Amendments

The purpose of this amendment is to incorporate into Subchapter D—Airmen [New] of the Federal Aviation Regulations, several minor items of a clarifying nature. It also includes three items that had been omitted from the subchapter through inadvertence. The amendment is a part of the program of the Federal Aviation Agency, in conjunction with its recodification program, to deal with inconsistencies and discrepancies in its regulations that are brought to light in the recodification process, and that can be cured by a spot amendment to the regulation involved, particularly in those instances in which the issuance of a notice of proposed rule making will not be required by the Administrative Procedure Act.

Since the adoption of Subchapter D on August 6, 1962, certain minor discrepancies and inconsistencies have been discovered. A study of them has indicated that they can be resolved in a manner that is not burdensome to the persons affected thereby.

The amendments to §§ 61.15(d), 61.17, 61.27(a)(2)(ii), 61.33(a), 61.47(e), and 61.159 all relate to ratings placed on airman certificates. They are clarifying in nature in that they specify more clearly the kind of rating placed on airman certificates.

RULES AND REGULATIONS

The amendments to §§ 61.27(d) and 61.171(d)(4)(v) correct typographical errors.

The amendments to §§ 65.75(b) and 65.93(b) are made solely to clarify the intent of the present section.

The amendment to § 61.43(a)(3) and (b)(2) is made to state positively the duration of a medical certificate for operation requiring a free balloon pilot certificate.

The amendments to §§ 61.115(b) and 61.119(b) are made to correct inadvertent omissions in the text of those sections as recodified. The amendment to § 61.31 restates the requirements that an applicant for a pilot certificate, based on military competence, must meet. These requirements were fully set forth in Draft Release 62-14 dated April 2, 1962. The period for receiving comments on that proposal closed on June 7, 1962, and no adverse comments were received. The amendments to § 63.3 are made to state positively the duration of a medical certificate for operations requiring a flight engineer or flight navigator certificate. This duration was previously set forth in §§ 34.43 and 35.43, of the Civil Air Regulations.

Since this amendment is clarifying in nature, and merely restates the substance of the regulations in accordance with Draft Releases 61-25 and 62-20, I find that notice and public procedure hereon are unnecessary, and it may be made effective on less than 30 days' notice.

In consideration of the foregoing, Subchapter D—Airmen [New] of Chapter I of Title 14 of the Code of Federal Regulations is amended as follows, effective November 1, 1962.

This amendment is made under the authority of sections 313(a), 601, and 602 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1422).

A type rating is issued only for aircraft types that the Administrator has certificated for civil operations. This paragraph does not authorize a rating to be placed on an airline transport pilot certificate unless that rating is limited to commercial privileges.

§ 61.33 [Amendment]

7. By amending the second sentence of § 61.33(a) to read as follows: "If he has no ratings on that certificate, ratings under this section may be issued for those aircraft that he has flown for at least 10 hours as pilot in command, during the preceding 12 months."

§ 61.41 [Amendment]
