

those members who are required by competent orders to perform specific multiple hazardous duties in order to carry out their assigned missions."

SEC. 2. Executive Order No. 10168 of October 11, 1950, as amended, is further amended as follows:

(a) The title is amended to read as follows:

"REGULATIONS RELATING TO SPECIAL PAY FOR SEA DUTY AND DUTY AT CERTAIN PLACES".

(b) Section 2(a) (2) is amended to read as follows:

"(2) While in a vessel pursuant to orders to temporary additional duty or temporary duty on that vessel issued by competent authority although based or stationed ashore, but only when such duty is eight days or more in duration in each case."

(c) Sections 4, 5, 6, and 7 are amended to read as follows:

"SEC. 4. Enlisted members entitled to receive basic pay shall be entitled to receive additionally, pay under the rates prescribed by section 305(a) of title 37 of the United States Code, while on duty at places that are outside the contiguous 48 States and the District of Columbia and that are designated for this purpose by the Secretary of Defense or, in the case of enlisted members of the Coast Guard when it is not operating as a service in the Navy, by the Secretary of the Treasury. Subject to the provisions of section 305 of title 37 of the United States Code, an enlisted member who is permanently assigned to duty at a place so designated is entitled to receive that pay during a period of authorized leave, temporary additional duty, temporary duty, or hospitalization, or while on an operational aircraft flight, but not for more than thirty days while he is away from that place.

"SEC. 5. Unless otherwise entitled to special pay in accordance with the last sentence of section 4, during periods spent on temporary additional duty or temporary duty, or on operational aircraft flights, pay in accordance with section 4 shall accrue to enlisted members only for periods of eight continuous days or more in duration at places designated, including the dates of arrival at, and the dates of departure from, those places.

"SEC. 6. Enlisted members shall not be entitled to additional pay under this order for duty which, under the provisions of supplementary regulations prescribed hereunder, does not constitute either sea duty or duty described in sections 4 and 5 hereof.

"SEC. 7. No enlisted member shall be entitled under this order to receive both sea-duty pay and pay for duty described in sections 4 and 5 hereof for the same period of time; nor sea-duty pay and credit for basic allowance for subsistence for the same period of time except periods during which messing facilities are temporarily out of operation to permit alterations or repairs and periods during which the member is on leave beyond the contiguous 48 States and the District of Columbia."

SEC. 3. Executive Order No. 10204 of January 15, 1951, is amended by adding the following new section:

"8. Unless the Secretary concerned, or his designee, determines that military operational conditions require otherwise, a commissioned officer without dependents who is in a pay grade above pay grade O-3 and who is assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service, appropriate to his grade or rank and adequate for himself, may elect not to occupy those quarters and instead to receive the basic allowance for quarters prescribed for his pay grade by section 403 of title 37 of the United States Code."

SEC. 4. The amendments made by this order shall be effective as of October 1, 1963.

JOHN F. KENNEDY

THE WHITE HOUSE,
October 2, 1963.

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter II—Employment and Compensation in the Canal Zone

PART 1202—FILLING POSITIONS

Methods of Filling Vacancies

Effective upon publication in the FEDERAL REGISTER, § 1202.1 is amended as follows:

§ 1202.1 Methods of filling vacancies.

In his discretion an appointing officer may fill any position either by competitive appointment from a Canal Zone Merit System register, by appointment or position change of a present or former Federal employee through noncompetitive action in accordance with the regulations in this part, or, when authorized under § 1202.13, by temporary appointment. He shall exercise his discretion in all personnel actions solely on the basis of merit and fitness. In determining merit and fitness of any person, there shall be no discrimination on the basis of religious or political affiliations, marital status, physical handicap, race, color, sex, national origin, or of nationality as between citizens of the United States and citizens or residents of the Republic of Panama or of the Canal Zone, except as required by § 1202.2.

CYRUS R. VANCE,
Secretary of the Army.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 28—COTTON CLASSING, TESTING AND STANDARDS

Subpart A—Regulations Under the United States Cotton Standards Act

Subpart D—Cotton Classification and Market News Services for Organized Groups of Producers

LICENSING OF WAREHOUSEMEN TO SAMPLE COTTON

On August 3, 1963, a notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 7952) regarding proposed amendments of the Regulations Under the United States Cotton Standards Act (7 CFR Part 28, Subpart A) and the Regulations for Cotton Classification and Market News Services for

Organized Groups of Producers (7 CFR Part 28, Subpart D).

Statement of considerations leading to amendment of regulations. The changes in the regulations are designed to protect the interests of the government and purchasers of cotton classed under the Form A service by providing (1) more effective supervision and control of sampling through the licensing of warehousemen to sample cotton, (2) detailed instructions on the drawing, handling, identification, and submission of samples for classification, and (3) procedures for withdrawal of licenses and the classing service from warehousemen and users of the service who violate, or attempt to violate, the regulations.

The only significant change from the published proposal was the deletion of paragraph (g) of § 28.25 of the proposed amendments. This paragraph would have required warehousemen to sign a certification for each lot of samples submitted for Form A determination. After careful evaluation of the comments received on the proposed requirement and further review of the need for the requirement, it was determined that it could be deleted without impairing the effectiveness of the amendments. A few minor changes in wording were made for clarification.

For administrative reasons the effective date of the amendments will be November 15 instead of October 15 as indicated in the published proposal.

After consideration of all relevant matters presented pursuant to the notice, said regulations are hereby amended, pursuant to authority contained in section 10 of the United States Cotton Standards Act (42 Stat. 1519; 7 U.S.C. 61) and in section 3c of the Cotton Statistics and Estimates Act (50 Stat. 62; 7 U.S.C. 473c).

The Regulations under the United States Cotton Standards Act are amended as follows:

1. In § 28.2 the following new paragraphs (k) and (l) are added:

§ 28.2 Terms defined.

(k) *License.* A license issued under the Act by the Secretary to sample cotton.

(l) *Licensed warehouseman.* A cotton warehouseman licensed under the United States Cotton Standards Act to sample cotton.

§ 28.15 [Amendment]

2. In the first sentence of paragraph (a) of § 28.15, the words "public warehouse" are changed to "licensed warehouseman".

3. The following new center heading and sections are added immediately following § 28.19:

LICENSING OF WAREHOUSEMEN FOR SAMPLING

§ 28.20 When license is required.

Samples for Form A determination shall be accepted under this subpart from licensed warehousemen only. No license is required to sample cotton for Form C or Form D determination.

§ 28.21 Application.

Application for licenses to draw and submit samples for Form A determination shall be submitted by warehousemen on forms furnished by the Division.

§ 28.22 Authority granted by license.

Each license issued by the Division shall authorize the warehouseman to draw and submit samples for Form A determination from cotton stored in his warehouse.

§ 28.23 Suspension of license; revocation.

(a) After notice and opportunity for hearing has been afforded, the Deputy Administrator may suspend or revoke any such license whenever he is satisfied that such licensee has knowingly or carelessly sampled cotton improperly, or has submitted improper samples for classification, or has violated any provision of the Act or the regulations, or has used his license, or allowed it to be used for any improper purpose. Pending final action, the Deputy Administrator may temporarily suspend any license without hearing whenever he deems such action necessary.

(b) During any period when the license of the warehouseman is suspended or revoked, the Division will not accept any samples from the warehouseman for Form A determination, or for classification pursuant to §§ 28.901-28.917 of this Part 28.

§ 28.24 Surrender of license certificate.

The warehouseman, in the event his license is suspended or revoked, shall promptly surrender to the Division his certificate of license.

4. The center heading immediately preceding § 28.25 and §§ 28.25 through 28.30 are deleted and the following new center headings and sections substituted therefor:

DRAWING, SUBMISSION AND DISPOSITION OF SAMPLES

§ 28.25 Samples for Form A determination.

Samples for Form A determination shall be drawn, handled, identified, and shipped by a licensed warehouseman according to the methods and procedures specified in this section. Any samples or set of samples which does not meet these specified requirements may be rejected by the chairman of a board.

(a) Samples shall be freshly drawn.

(b) Each sample shall consist of two portions, one drawn from each side of

the bale. Each portion shall be at least six (6) inches wide and approximately twelve (12) inches long and shall weigh at least three (3) ounces.

(c) Where it is necessary to draw two sets of samples, separate cuts in the bale should be made for each set of samples. Split samples may be accepted, provided the split is made across the layers without separating the layers.

(d) Dressing, trimming, or discarding part of the sample is prohibited. No part of the cotton or pieces of bagging, leaf, grass, dirt, sand, or any other material shall be removed from either side of the sample.

(e) A coupon showing the correct warehouse bale number and name and address of warehouse shall be placed between the two portions of each sample.

(f) Samples shall be identified and sacked immediately after they are cut without further handling prior to shipment to the board.

(g) Samples shall be mailed, shipped, or delivered direct from the warehouse to the board serving the territory in which the warehouse is located. Samples mailed or shipped shall be prepaid.

(h) The chairman of the board may require that any licensed warehouseman shall provide the crop year, gin name and gin bale number for each sample submitted whenever he deems that such information is necessary in order to assure that each sample is properly identified with the correct bale of cotton.

(i) The licensed warehouseman shall cooperate with employees of the Division making inspections of sampling procedures, and shall draw or permit the drawing of such additional samples, without charge as may be deemed necessary to appraise sampling procedures.

§ 28.26 Samples for Form C determination.

Samples submitted for Form C determination shall be drawn under the supervision of a Division employee who shall retain custody or control of the samples until they are shipped prepaid or delivered at the applicant's expense to the board serving the territory in which the bales of cotton are located.

§ 28.27 Samples for Form D determination.

Samples for Form D determination shall be shipped or delivered at the owner's expense to the board serving the territory in which the samples are located. A tag or coupon showing the bale number of the bale from which the sample was drawn, or other identification, shall be placed between the two portions of each sample.

§ 28.28 Lost or damaged samples.

If any samples are lost, damaged, or mutilated, the secretary of the board shall inform the applicant.

§ 28.29 Return of samples.

When so stipulated in the classification request for Form A, C, or D determination, the samples submitted shall be returned to the applicant at his expense, at the time the memorandum is issued or when the request for classification is withdrawn or rejected.

§ 28.30 Samples not returned are property of Department.

Samples not returned in accordance with this subpart, and loose cotton separated from samples in the handling and classification thereof, shall become the property of the Department.

VIOLATIONS

§ 28.31 Denial of service.

The Deputy Administrator may for good cause, including the acts or practices set forth in § 28.32, debar any person, including the agents, officers, subsidiaries, or affiliates of such person, from any or all benefits of the Act for a specified period, after notice and opportunity for hearing has been afforded. Pending final action, the Deputy Administrator may temporarily suspend services to such person without hearing if he determines that the continuation of services rendered under the Act would seriously jeopardize the integrity of such services.

§ 28.32 Misrepresentation; deceptive or fraudulent acts or practices; violations.

Any of the following acts or practices may result in debarment from any or all benefits of the Act:

(a) Any knowing misrepresentation or deceptive or fraudulent act or practice made or committed, or attempted to be committed, by any person in connection with (1) any request for classification, (2) the drawing, handling, identifying, or submitting of any samples for classification, (3) the making, issuing, or using of any memorandum or certificate of classification issued by a board or (4) the changing of any warehouse bale tags or numbers after the cotton has been sampled for classification.

(b) Any knowing violation of the regulations in this subpart or of the Act.

(Sec. 10, 42 Stat. 1519; 7 U.S.C. 61)

5. Section 28.906 of the Regulations for Cotton Classification and Market News Services for Organized Groups of Producers is amended as follows:

§ 28.906 Approval and bonding of sampling agents.

The cotton of members of organized groups shall be sampled at cotton gins or cotton warehouses. All sampling agents at these sampling locations are subject to the approval of the Director or his authorized representatives.

(a) *Sampling at cotton gins.* At locations where sampling is done at cotton gins each sampling agent serving one or more cotton gins shall, as a condition for approval, execute and file with the Division a good and sufficient bond to the United States to secure the faithful performance of his duties as a sampler under the terms of the Act and this subpart. This bond shall be in such form and amount and shall have such surety or sureties as shall be approved by the Service: *Provided*, That said bond shall be in an amount not less than \$1,000 for each gin serviced less than five, and not less than \$5,000 for five or more gins serviced: *Provided further*, That such

surety or sureties shall be subject to service of process in suits on the bond within the State, district, or territory in which such sampler shall perform services under the Act and this subpart.

(b) *Sampling at cotton warehouses.* At locations where the Director or his representatives authorize sampling to be done at cotton warehouses, it shall be a condition for approval of each warehouse sampling agent that the warehouseman hold a valid license to sample cotton issued pursuant to § 28.22.

(c) *Sampling by Department of Agriculture employees.* The Director, or his authorized representatives, may direct that sampling be performed by employees of the Department of Agriculture for the purpose of appraising the sampling procedures of sampling agents at cotton gins or warehouses, or for the purpose of providing service to organized groups in special cases where approved sampling agents are not available.

(Sec. 3c, 50 Stat. 62; 7 U.S.C. 473c)

Effective date. These amendments shall become effective November 15, 1963.

Dated: September 30, 1963.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[F.R. Doc. 63-10502; Filed, Oct. 2, 1963; 8:47 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

PART 929—CRANBERRIES

Findings and Determinations Relative to Expenses To Be Incurred and Fixing of Rate of Assessment for 1963-64 Fiscal Period

On September 13, 1963, notice of proposed rule making was published in the FEDERAL REGISTER (28 F.R. 9945) regarding the expenses and the fixing of the rate of assessment for the 1963-64 fiscal period pursuant to the marketing agreement and Order No. 929 (7 CFR Part 929), regulating the handling of cranberries. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). After consideration of all relevant matters presented, including the proposals which were submitted by the Cranberry Marketing Committee (established pursuant to the marketing agreement and order) and set forth in the aforesaid notice, it is hereby found and determined that:

§ 929.203 Expenses and rate of assessment for the 1963-64 fiscal period.

(a) *Expenses.* The reasonable expenses to be incurred by the Cranberry Marketing Committee, established pursuant to the provisions of the marketing agreement and Order No. 929, for its maintenance and functioning during the fiscal period ending July 31, 1964, will amount to \$45,000.

(b) *Rate of assessment.* The rate of assessment to be paid by each handler

who first handles cranberries shall be 4 cents (\$0.04) per barrel of cranberries, or an equivalent quantity of cranberries, handled by him as the first handler thereof during the said fiscal period.

It is hereby found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable cranberries from the beginning of such year; and (2) the current fiscal period began on August 1, 1963, and the rate of assessment herein fixed will automatically apply to all assessable cranberries beginning with such date.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: September 30, 1963.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[P.R. Doc. 63-10503; Filed, Oct. 2, 1963; 8:47 a.m.]

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order No. 126]

PART 1126—MILK IN NORTH TEXAS MARKETING AREA

Findings and Determinations and Class Prices

§ 1126.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the North Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the

price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than October 1, 1963. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of the said order are known to handlers. The recommended decision of the Assistant Secretary was issued September 16, 1963, and the decision of the Under Secretary containing all amendment provisions of this order was issued September 26, 1963. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective October 1, 1963, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 4(c), Administrative Procedure Act, 5 U.S.C. 1001-1011.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, That on and after the effective date hereof, the handling of milk in the North Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

Section 1126.51(a) is revised to read as follows:

§ 1126.51 Class prices.

(a) The Class I price shall be the basic formula price for the preceding month

(rounded to the nearest one-tenth cent) plus \$1.85 for the months of March through June, and plus \$2.25 for all other months; plus 10 cents for the months of October 1963 through March 1964; and subject to a supply-demand adjustment of not more than 50 cents computed as follows:

(1) Divide the total receipts of producer milk by the total volume of Class I milk (excluding interhandler transfers and any intermarket transfers that would result in the same milk being accounted for the second time as Class I milk) under this Part and Parts 1127, 1128, 1129, and 1130 of this chapter regulating the handling of milk in the North Texas, San Antonio, Central West Texas, Austin-Waco, and Corpus Christi marketing areas, respectively, in each of the following periods and round to one-tenth of one percent:

(i) The one-year period ending with the second preceding month;

(ii) The four-month period ending with the second preceding month; and

(iii) The four-month period ending with the second preceding month and the same period of the preceding year.

(2) Divide the utilization percentage computed pursuant to subparagraph (1) (iii) of this paragraph by the utilization percentage computed pursuant to subparagraph (1) (i) of this paragraph. Adjust the resulting "seasonal ratio" as follows:

(i) Add to the seasonal ratio a similar computation for each of the 11 preceding periods;

(ii) Divide 12 by the sum thus obtained; and

(iii) Divide the seasonal ratio by the quotient obtained in subdivision (ii) of this subparagraph.

(3) Compute the standard utilization percentage by multiplying the adjusted seasonal ratio of subparagraph (2) (iii) of this paragraph by 118.0.

(4) Subtract from the standard utilization percentage computed pursuant to subparagraph (3) of this paragraph the current utilization percentage computed pursuant to subparagraph (1) (ii) of this paragraph and round to the nearest full percentage. The result is the deviation percentage.

(5) Compute a sum of the deviation percentages for the current and the preceding month, excluding the deviation percentage for the preceding month when it is in the opposite direction from the deviation percentage of the current month, and excluding when it is the same direction, any amount by which such deviation percentage exceeds the deviation percentage for the current month.

(6) Compute the number of cents which is one times the sum of the plus or minus deviation percentages, as the case may be, computed pursuant to subparagraph (5) of this paragraph and increase or decrease, respectively, the Class I price by such sum: *Provided*, That after the first month in which this provision is effective if such adjustment varies from that for the preceding month by less than 4 cents, the supply-demand adjustment for the preceding month shall be the supply-demand adjustment for the current month.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: October 1, 1963.

Signed at Washington, D.C., on September 30, 1963.

GEORGE L. MEHREN,
Assistant Secretary.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES AND OTHER OPERATIONS

[C.C.C. Grain Price Support Regs., Amdt. 1]

PART 1421—GRAINS AND RELATED COMMODITIES

Subpart—General Regulations Governing Price Support for the 1963 and Subsequent Crops

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation published in 28 F.R. 2890 containing the General Regulations Governing Price Support for the 1963 and Subsequent Crops of grains and related commodities are hereby amended as follows:

Section 1421.02(a) is amended by deleting the entire paragraph and substituting in place thereof the following:

§ 1421.02 Administration.

(a) *Responsibility.* The Farmer Programs Division will administer the provisions of this subpart under the general supervision and direction of the Deputy Administrator, State and County Operations, in accordance with program provisions and policy determined by the CCC Board and the Executive Vice President, CCC. In the field such provisions will be administered by the Agricultural Stabilization and Conservation State and county committees (hereinafter called State and county committees), ASCS commodity offices and the ASCS Data Processing Center.

Section 1421.23(a) (2) is amended to change the word "support" to "subpart" so that the amended subparagraph reads as follows:

§ 1421.23 Inspection and delivery of commodities under purchase agreement.

(a) General. * * *

(2) If a producer who signs a purchase agreement wishes to sell the commodity to CCC, he shall have a 30-day period during which he must notify the county office in writing of his intention to sell. Such period shall end on the loan maturity date specified in the applicable commodity supplement to this subpart or on such other date as may be prescribed by the Executive Vice President, CCC.

Section 1421.25(c) is amended to provide that settlement for barley, flaxseed, grain sorghum, rye and wheat shall be based on the rate for the county in which the producer's customary shipping point

is located, except that if the producer is directed to deliver the commodity to a terminal market for which a support rate is established, settlement will be based on the support rate for such terminal market.

§ 1421.25 Settlement of loans and purchase agreements.

(c) *Other than approved warehouse storage.* (1) Settlement for corn, oats and soybeans delivered from other than approved warehouse storage shall be based (i) on the basic county support rate for the county where the commodity was produced and (ii) on the quality and quantity as shown on warehouse receipts and accompanying documents issued by an approved warehouse where delivery is being made, or if applicable, the quality and quantity as shown on a form prescribed by CCC for this purpose.

(2) Settlement for barley, flaxseed, grain sorghum, rye and wheat delivered from other than approved warehouse storage shall be based on the applicable support rate for the county in which the producer's customary shipping point (as determined by the county committee) is located, except that if the producer is directed to deliver his commodity to a terminal market for which a support rate is established, settlement shall be based on the support rate for such terminal market. Settlement shall be based on the quality and quantity as indicated on warehouse receipts and accompanying documents issued by an approved warehouse or if applicable, the quality and quantity as shown on a form prescribed by CCC.

(Sec. 14 and 15, 62 Stat. 1070, as amended; sec. 5, 62 Stat. 1072, secs. 101, 105, 301, 401, 405, 63 Stat. 1051, as amended; sec. 306, 76 Stat. 615, 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1447, 1421, 1425)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on September 30, 1963.

H. D. GODFREY,
Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 63-10508; Filed, Oct. 2, 1963;
8:48 a.m.]

[C.C.C. Grain Price Support Reg., 1963-Crop Wheat Supp., Amdt. 2]

PART 1421—GRAINS AND RELATED COMMODITIES

Subpart—1963-Crop Wheat Loan and Purchase Agreement Program

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation published in 28 F.R. 6959 and 9979, and containing specific requirements of the 1963-crop wheat loan and purchase agreement program are hereby amended as follows:

1. Section 1421.2105(b) (1) is amended to also make wheat grading No. 4, No. 5, or "Sample" because of damaged kernels eligible for loans or purchase agreements so that the amended subparagraph reads as follows:

§ 1421.2105 Eligible wheat.

(b) Grade requirements. * * *

(1) The wheat must be (i) wheat of any class grading No. 3 or better; (ii) wheat of any class grading No. 4 or No. 5 because of containing "Durum" and/or "Red Durum" but otherwise grading No. 3 or better; (iii) wheat of any class grading No. 4, No. 5, or "Sample" on the factor(s) of test weight and/or total damage (other than heat damage) provided the test weight is not less than 40 pounds per bushel and the wheat otherwise meets the requirements as stated in subdivisions (i) and (ii) of this subparagraph; or (iv) wheat of the class Mixed wheat, which consists of mixtures of grades of eligible wheat as specified in subdivisions (i), (ii), or (iii) of this subparagraph, provided such mixtures are the natural products of the field. In addition, wheat may have the special grade designations "Garlicky" and/or "Smutty."

2. Section 1421.2113(f) (2) is amended to provide discounts for wheat grading No. 4, No. 5, or "Sample" on account of total damaged kernels (other than heat damaged) so that the amended subparagraph reads as follows:

§ 1421.2113 Support rates.

(f) Discounts and premiums. * * *

3. Section 1421.2113(f) is amended to add a new subparagraph (5) to read as follows:

Cents per bushel

- (5) Weed control discount (where required by section 1421.27)..... -10c

4. The footnotes at the end of § 1421.2113(f) (2) are deleted and a new set of footnotes are added at the end of such subparagraph to read as follows:

¹ Not applicable to any of the undesirable varieties listed in the variety discount schedule.

² This discount is in addition to any other applicable numerical grade discount, and any other discounts which may be applicable.

³ Not applicable to any of the Mixed Wheats or Red Durum. For discounts applicable to Mixed Wheat containing Durum and/or Red Durum, see subparagraph (1)(ii) of this paragraph.

⁴ Where damage is no more than 30 percent, this discount shall be in addition to all other applicable discounts and wheat otherwise grading No. 1 Heavy, No. 1 or No. 2 shall be discounted 3 cents per bushel in lieu of the numerical grade premium or discount.

⁵ Premiums in subparagraphs (1) and (4) of this paragraph are not applicable.

⁶ No additional discounts shall be applied except the variety discount in subparagraph (3), the test weight discount when the wheat would grade "Sample" on account of test weight, and applicable discounts for protein and sedimentation.

No. 193—2

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1989; Amdt. 628]

PART 507—AIRWORTHINESS DIRECTIVES

Cessna 190 and 195 Series Aircraft

Amendment 322, 26 F.R. 7695 (AD 61-17-1), which was issued following a fatal accident caused by fatigue failure of the front wing spar fuselage carry through lower cap, requires X-ray inspection of Cessna 190 and 195 Series aircraft with 4,500 or more hours' time in service. A recent fatal accident involving a similar fatigue failure of the same structure on an aircraft with relatively low service time makes it necessary to supersede Amendment 322 with a new directive requiring inspection and modification of all Cessna 190 and 195 Series aircraft within 10 hours' time in service after the effective date of the new directive.

As a situation exists which demands immediate action in the interest of safety, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days after date of publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

CESSNA. Applies to all Model 190 and 195 Series aircraft.

Compliance required as indicated.

As a result of a fatal accident involving fatigue failure of the front wing spar fuselage carry through lower cap the following corrective action is required:

(a) Within 10 hours' time in service after the effective date of this AD, conduct the following visual and X-ray inspections in accordance with Cessna Service Letter 190/195-1 dated May 13, 1960, or FAA approved equivalent unless already accomplished within the last 100 hours' time in service:

(1) Inspect using X-ray method for cracks in the lower cap of the front spar carry through member at both left and right sides of the fuselage in the area of the two most inboard steel rivets;

(2) Remove rear spar to fuselage attachments bolts and visually inspect these bolts using at least a 4-power magnifying glass for evidence of wear or partial shear failures;

(3) Visually inspect the rear spar to fuselage fittings of both the wing structure and carry through structure including the bolt bushings for wear or hole elongation;

(4) Visually inspect the steel plates of the rear spar to fuselage attachment fittings on the wing for cracks using at least a 4-power magnifying glass; and

(5) If any of the defects specified are found replace the parts with new parts or make an FAA approved repair and accomplish the modification required by (b) before further flight.

(b) Within 10 hours' time in service after the effective date of this AD, accomplish the

fuselage front spar modification as specified in Cessna Service Letter 63-40, dated September 27, 1963. This specifies replacement of the five existing inboard lower cap high shear steel pins with NAS 464P7-A64 bolts and attachment of two ½ x 1¼ 4130 steel reinforcement bars on each side of the lower spar cap in accordance with Cessna Service Kit No. SK-195-3 and SK-195-4, dated September 23, 1963.

(c) At each periodic inspection after the accomplishment of (b), visually inspect for cracks the visible portion of the lower spar cap and reinforcement bars at the inboard bolt location. If cracks are found, replace the cracked part with a new part or make an FAA approved repair before further flight.

This supersedes Amendment 322, 26 F.R. 7695 (AD 61-17-1).

This amendment shall become effective October 8, 1963.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on September 27, 1963.

G. S. MOORE,
Director,
Flight Standards Service.

[F.R. Doc. 63-10462; Filed, Oct. 2, 1963; 8:45 a.m.]

[Reg. Docket No. 1988; Amdt. 627]

PART 507—AIRWORTHINESS DIRECTIVES

Douglas Model DC3 Series Aircraft

Amendment 536, 28 F.R. 1371 (AD 63-4-1), as amended by Amendment 569, 28 F.R. 5232, requires inspection and modification of the wing lower surface attach angles and doublers on Douglas Model DC3 Series aircraft. It has subsequently been determined that the modifications should be made in accordance with the provisions of a later Douglas Service Bulletin and that closer tolerances are necessary for maximum service life. In addition, in response to numerous inquiries, Amendment 536, as amended by Amendment 569, is further amended for purposes of clarification and to permit the use of a 6-power rather than a 10-power magnifying glass. This amendment also sets forth additional information concerning FAA approved equivalent jig fixtures.

While certain of the provisions of this amendment are minor rules which either clarify or relax the present requirements, the additional requirements concerning closer tolerances and compliance with the later Service Bulletin require immediate action in the interest of safety. Therefore, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective on less than 30 days notice.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is amended as follows:

Amendment 536, 28 F.R. 1371, as amended by Amendment 569, 28 F.R. 5232, Douglas Model DC3 Series aircraft, is further amended by:

1. Changing next to the last sentence in paragraph (a) to read: "Reinspection must be made at periods not to exceed 450 hours' time in service from the last inspection."

2. Changing paragraphs (b) (1), (2), and (3) to read:

(1) All outer wing lower surface doublers, P/N's 570602-206 and -207 or P/N's 5115200-206 and -207 shall be replaced with new doublers fabricated from 0.072 material in the manner described in Douglas Service Bulletin DC-3 No. 262, reissued June 14, 1963.

(2) All outer wing lower surface doublers P/N's 570602-208 and -209 or P/N 5115200-208 and -209 shall be replaced with new doublers fabricated from 0.064 material in the manner described in Douglas Service Bulletin DC-3 No. 262, reissued June 14, 1963.

(3) All outer wing lower surface attach angles shall be replaced with new angles fabricated for proper installation with the new heavier doublers in the manner described in Douglas Service Bulletin DC-3 No. 262, reissued June 14, 1963, except that aircraft modified prior to the effective date of this amendment to incorporate doublers and attach angles described in Douglas Service Bulletins No. 220 and No. 146, respectively, are satisfactory until parts must again be replaced.

3. Deleting paragraphs (b) (4) and (5) and adding the following paragraphs (b) (4) and (5) to read:

(4) The wing center section lower surface shall be modified by incorporating witness holes and installing new wrap around doublers attached to wing skin and new attach angles as described in Douglas Service Bulletin DC-3 No. 262, reissued June 14, 1963, except that modifications made prior to the effective date of this amendment in accordance with Douglas Drawing 5406787 "D", "E", or "F" are satisfactory until parts must again be replaced.

(5) The proper installation alignment of the attach angles and doublers described in (b) (1), (2), (3), and (4) shall be maintained. This shall be accomplished by the use of satisfactory jigs or by FAA approved equivalent means. Douglas jig fixtures P/N's A652-5110506-1-1F2 and A652-511-0506-1F2 or P/N's C652-5110500-101-1-1F1 and C652-5110500-101-1F1 or those that meet the criteria of Advisory Circular AC 39-1, are considered to be satisfactory for alignment purposes.

4. Changing paragraph (c) (1) to read:

(1) Prior to the issuance of an original airworthiness certificate except as covered by (d).

5. Changing paragraph (c) (2) (ii) to read:

(ii) Have been modified in the manner prescribed by (b) but from the maintenance record the time in service since such modification cannot be verified, unless an inspection per (f) (1), (2), and (3) reveals no cracks and reinspection is then made at intervals not to exceed 2,000 hours' time in service. If cracks are found the aircraft must then be modified per (b).

6. Changing paragraph (c) (3) to read:

(3) Every 16,000 hours' total time in service since last modified as specified in (b) unless an inspection per (f) reveals no cracks and reinspection is then made per (e) (2).

7. Changing in the last sentence of paragraphs (f) (1) and (2) the reference to a "10-power magnifying glass" to a "6-power magnifying glass."

8. Deleting in paragraph (h) the reference "or for inspection per (f)."

9. Revising paragraphs (h) (1) and (2) to read:

(1) Compression angles attached to corrugation and stringers and the spar cap butt plates of the center wing must be held in plane with the wrap around doubler on the attach angle to a plus 0.004 inch/minus 0.000 inch.

(2) The waffle plates attached to the stringers and the spar cap butt plates of the outer wing must be held in plane with the wrap around doubler on the attach angle to a plus 0.006 inch/minus 0.000 inch.

10. Deleting the Note immediately following (h) (2).

11. Adding the following paragraph (h) (3) to read:

(3) Tolerances of a maximum of 0.010-inch interference to a maximum of 0.010-inch clearance between the compression angles and waffle plates are acceptable if previously accomplished. The tolerances set forth in (h) (1) and (2) shall be used for all attach angle installations subsequent to the effective date of this AD.

12. Adding the following note immediately after (h) (3) to read:

NOTE: The tolerance ranges set forth in (h) (1) and (2) will allow flush to a 0.010-inch interference between the compression angles and plates when the wing is installed. This interference fit assures the most effective distribution of loads across the joint and the maximum service life.

This amendment shall become effective October 3, 1963.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on September 27, 1963.

G. S. MOORE,
Director,
Flight Standards Service.

[F.R. Doc. 63-10463; Filed, Oct. 2, 1963; 8:45 a.m.]

[Reg. Docket No. 1902; Amdt. 626]

PART 507—AIRWORTHINESS DIRECTIVES

North American Model NA-265 (T-39A) Series Aircraft

A proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring inspection of the external center wing fuselage intersection area for evidence of fuel leakage, and repair if fuel leakage is detected on North American Model NA-265 (T-39A) Series aircraft was published in 28 F.R. 8326.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489),

§ 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

NORTH AMERICAN. Applies to Model NA-265 Serial Numbers 265-1 through 265-75, Model NA-265-20 Serial Numbers 270-1 through 270-8, and Model NA-265-40 Serial Number 282-1.

Compliance required as indicated.

Fuel leakage has occurred in the wing center section of NA-265 (T-39A) aircraft. Leakage was due to cracks in the flange radius of the front spar splice, and the front spar sealing pad. To stop the fuel leakage accomplish the following:

(a) Within the next 100 hours' time in service from the effective date of this AD, and thereafter at periods not to exceed 100 hours' time in service from the last inspection, visually inspect the external center wing fuselage intersection area for evidence of fuel leakage.

(b) If fuel leakage is detected, before further flight, attempt to stop the leak by retorquing the screws, or injecting sealant in the sealant grooves, per the Fuel System Section of the Maintenance Manual. If the leakage persists, inspection and necessary repair must be accomplished in accordance with the procedures called out in the North American Aviation Sabreliner Field Service Bulletin No. 63-1, or an equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA, Western Region. Repairs for locations not specifically covered by the Bulletin shall be made in accordance with a method approved by the Chief, Engineering and Manufacturing Branch, FAA, Western Region. The inspections in (a), however, must be continued.

(c) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA, Western Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(North American Aviation Sabreliner Field Service Bulletin No. 63-1 pertains to this same subject.)

This amendment shall become effective November 4, 1963.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on September 26, 1963.

G. S. MOORE,
Director,
Flight Standards Service.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Havasu Lake National Wildlife Refuge, Arizona and California

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER. The limited time ensuing from the date of the adoption of the national migratory game bird regulations to and including the establishment of State hunting seasons makes it impracticable to give public notice of proposed rule making.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

HAVASU LAKE NATIONAL WILDLIFE REFUGE

Public hunting of migratory game birds on the Havasu Lake National Wildlife Refuge, Arizona and California, is permitted only on the area designated by signs as open to hunting. This open area, comprising 25,266 acres, is delineated on a map available at refuge headquarters, Parker, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico, 87103. Hunting shall be subject to the following conditions:

(a) Species permitted to be taken: Coots, gallinules, ducks (except canvas-back and redhead), and geese.

(b) Open season: All species—from 12 o'clock noon (standard time) to sunset October 8, and from one-half hour before sunrise to sunset October 9, 1963, through January 5, 1964, inclusive.

(c) Daily bag limits: Ducks 5, coots and gallinules 25, (singly or aggregate), geese 6. The daily bag limit of 5 ducks may not include more than 2 wood ducks and 1 hooded merganser. In addition to the limits on other ducks, the daily bag limit on American and red-breasted mergansers is 5, singly or in the aggregate of both kinds. The daily bag limit for geese may not include more than 1 Ross' goose; and the daily bag limit may not include more than 3 geese of the dark species, which on the California side of the Colorado River may not include more than 1 Canada goose or subspecies and on the Arizona side of the Colorado River may not include more than 2 Canada geese or subspecies.

(d) Methods of hunting:

(1) Weapons—Shotguns only (not larger than 10 gauge and incapable of holding more than 3 shells) fired from the shoulder.

(2) Dogs—Not to exceed two dogs per hunter may be used only to retrieve wounded or dead waterfowl, coots, and gallinules.

(3) Blinds—Temporary blinds of approved material may be constructed.

(4) Guides—Persons may employ guides while hunting on the area subject to restrictions of State laws and regulations.

(5) Boats—The use of boats, including boats with motors, is permitted, except shooting is not permitted from motor boats unless they are anchored or otherwise fastened to a fixed blind or the shore.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and in the current Federal Migratory Bird Regulations.

(2) A Federal permit is not required to enter the public hunting area.

(3) The provisions of this special regulation are effective to January 6, 1964.

IMPERIAL NATIONAL WILDLIFE REFUGE

Public hunting of migratory game birds on the Imperial National Wildlife Refuge, Arizona and California, is permitted only on the area designated by signs as open to hunting. This open area, comprising approximately 33,000 acres, is delineated on a map available at refuge headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico, 87103. Hunting shall be subject to the following conditions:

(a) Species permitted to be taken: Coots, gallinules, ducks (except canvas-back and redhead), and geese.

(b) Open season: All species—from 12 o'clock noon (standard time) to sunset October 8, and from one-half hour before sunrise to sunset October 9, 1963, through January 5, 1964, inclusive.

(c) Daily bag limits: Ducks 5, coots and gallinules 25 (singly or aggregate), geese 6. The daily bag limit of 5 ducks may not include more than 2 wood ducks and 1 hooded merganser. In addition to the limits on other ducks, the daily bag limit on American and red-breasted mergansers is 5, singly or in the aggregate of both kinds. The daily bag limit for geese may not include more than 1 Ross' goose; and the daily bag limit may not include more than 3 geese of the dark species, which on the California side of the Colorado River may not include more than 1 Canada goose or subspecies and on the Arizona side of the Colorado River may not include more than 2 Canada geese or subspecies.

(d) Methods of hunting:

(1) Weapons—Shotguns only (not larger than 10 gauge and incapable of holding more than 3 shells) fired from the shoulder.

(2) Dogs—Not to exceed two dogs per hunter may be used to retrieve wounded or dead waterfowl, coots, and gallinules.

(3) Blinds—Temporary blinds of approved material may be constructed.

(4) Guides—Persons may employ guides while hunting on the area subject to restrictions of State laws and regulations.

(5) Boats—The use of boats, including boats with motors, is permitted, except shooting is not permitted from motor boats unless they are anchored or otherwise fastened to a fixed blind or the shore.

(e) Other provisions:

(1) The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and in the current Federal Migratory Bird Regulations.

(2) A Federal permit is not required to enter the public hunting area.

(3) The provisions of this special regulation are effective to January 6, 1964.

DANIEL H. JANZEN,
Director, Bureau of
Sport Fisheries and Wildlife.
