SECURITIES AND EXCHANGE COMMISSION

[File No. 2-21509 etc.]

TRAILER TRAIN CO.

Notice of Application and Opportunity for Hearing

NOVEMBER 3, 1964.

Notice is hereby given that Trailer Train Company (File Nos. 2-21509 (22-3554), 2-22896 (22-3774)) has filed an application pursuant to clause (ii) of section 310(b) of the Trust Indenture Act of 1939 (hereinafter referred to as the Act) for a finding by the Commission that the trusteeship of The First Pennsylvania Banking and Trust Company ("Bank") under an indenture with respect to an existing series of equipment trust certificates of the Company, namely Series 3, which was qualified under the Act, and the trusteeship of the bank under a new indenture which is proposed to be qualified under the Act is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of

investors to disqualify the bank from acting as trustee under the existing trusteeship and under the indenture to be qualified.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in that section), it shall within ninety days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subsection (1) of this section provides, with certain exceptions stated therein, that a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities, or certificates of interest or participation in any other securities of the same issuer are outstanding.

The present application, filed pursuant to clause (ii) of section 310(b)(1) of the Act seeks to exclude the existing indenture of the Company, under which the bank serves as trustee, from the operation of section 310(b)(1) of the Act.

The effect of the provision contained in clause (ii) of section 310(b)(1) of the Act on the matter of the present application is such that the existing indenture referred to above may be excluded from the operation of section 310(b)(1) of the Act if the Company shall have sustained the burden of proving, by this application to the Commission and after opportunity for hearing thereon, that the trusteeship of the bank under the presently outstanding indenture and under the proposed new indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the bank from acting as trustee under the indenture to be qualified.

The Company alleges that:

(1) The Company proposes to issue and sell approximately \$5,040,000 aggregate principal amount of its ---- percent Equipment Trust Certificates (Series 4) to be issued under a new indenture to be executed by the Company with the bank as trustee.

(2) The Company proposes to issue and sell the new equipment trust certificates to the public. On November 5, 1964, it will file a registration statement under the Securities Act of 1933 and an indenture to be qualified under the Trust Indenture Act of 1939.

(3) The bank, the proposed trustee under the indenture to be qualified, is presently the trustee under an indenture with respect to an existing series of equipment trust certificates of the Company, namely Series 3. The trust certificates comprising such series were registered under the Securities Act of 1933 and the indenture with respect thereto was qualified under the Trust Indenture Act of 1939 (File No. 2-21509 (22-3554)) \$4,560,000 in aggregate principal amount of such certificates is outstanding under the present trusteeship.

(4) Such differences as will exist between the indenture with respect to the

existing trusteeship and the new indenture will not give rise to a conflict of interest in the trustee as to make it necessary in the public interest or for the protection of investors to disqualify the bank from acting as trustee under the new indenture.

(5) The Company's Equipment Trust Certificates, Series 3, and the proposed Equipment Trust Certificates, Series 4, are secured by separate lots of identified railroad cars. In the event that the trustee should have occasion to proceed under any such indenture against the cars securing such indenture, this would not affect the security or the use of any such security under the other indenture, so that existence of the other indenture would in any way inhibit or discourage the trustee's actions.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission at 425 Second Street NW., Washington, D.C.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after November 24, 1964, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939. Any person may, not later than November 23, 1964, at 5:30 p.m., e.s.t., in writing submit to the Commission, his views or any additional facts bearing upon this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington, D.C., 20549, and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact and law raised by the application which he desires to controvert.

For the Commission (Pursuant to delegated authority).

ORVAL L. DuBOIS,
Secretary.
