**PART 73—SPECIAL USE AIRSPACE
Modification of Restricted Area**

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to reduce the time of use and lower the ceiling of Restricted Area R-3803 at Fort Polk, La.

The Department of the Air Force has advised the Federal Aviation Agency that the time of use and the ceiling could be reduced to permit greater availability to the public of this area. Therefore, action is taken herein to reflect these changes. In the event that the area is required for special training and other activities during other than the scheduled times, a NOTAM will be issued by the using agency at least 24 hours in advance.

Since this amendment is less restrictive in nature to the public, notice and public procedure hereon are unnecessary and the amendment may be made effective immediately.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective upon publication in the FEDERAL REGISTER, as hereinafter set forth.

In § 73.38 (29 F.R. 17747; 30 F.R. 5831) the Designated altitudes and Time of designation of Restricted Area R-3803 at Fort Polk, La., are amended to read as follows:

Designated altitudes: Surface to 20,000 feet MSL.

Time of designation: Continuous from June 1 through August 31; other times as activated by NOTAM issued by the using agency at least 24 hours in advance.

Acting Director, Air Traffic Service.

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to realign Jet Route No. 65 between the Blythe, Calif., and Palmdale, Calif., VORTACs. This action will eliminate a dog leg and shorten the distance between these points by 9 miles. The alignment has been flight checked by the Agency with an MEA of flight level 18,000 feet and an MAA of flight level 45,000 feet approved for the entire segment.

Since this amendment is procedural in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective immediately.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0001, e.s.t., February 3, 1966, as hereinafter set forth.

Section 75.100 (29 F.R. 17776) is amended as follows:

1. In Jet Route J-65 delete "the INT of Blythe 272° and the Palmdale, Calif., 124° radials;" from the text of the description.

PRACTICES****Chapter I—Federal Trade Commission****PART 15—ADMINISTRATIVE
OPINIONS AND RULINGS****Cooperative Advertising Allowances****§ 15.10 Cooperative advertising allowances.**

(a) A manufacturer was informed in an advisory opinion that the requirements of section 2(d) of the amended Clayton Act will be satisfied where the proposed advertising allowance program reflects that alternative methods of promotion are available to customers unable to use the preferred method of advertising in the regular course of their business.

(b) As explained by the manufacturer, all of its customers will be offered advertising allowances equal to 1 percent of net purchases to defray up to a maximum of 50 percent of the actual cost of advertising its branded, first-quality products in any ACB (Advertising Checking Bureau, Inc.) daily and Sunday newspaper. Where a retailer is unable in a

practical business sense to advertise in such newspaper the program will provide him with adequate alternative methods of sales promotion such as, but not limited to, other newspapers, letter stuffers, or handbills as will enable him to earn the allowances specified. A retailer may use up to 30 percent of his allowance in Christmas catalog advertising where the brand name or label is prominently mentioned, payment for which is based on catalog circulation. New accounts and those with which the manufacturer has had less than 1 year's experience will be offered the same allowance, payment for which will be computed on the basis of purchases for the first full quarter year. All accounts will be notified of the program by first-class mail, by the manufacturer's sales representatives and by notices accompanying invoices.

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706(b), (c), 74 Stat. 399, 402; 21 U.S.C. 376(b), (c)), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (21 CFR 2.90), the Commissioner of Food and Drugs, based on a petition filed by Winthrop Laboratories, Rensselaer, N.Y., and other relevant material, finds that the color additive D&C Red No. 39 is safe for use as a color additive in externally applied drugs under the conditions prescribed in this order. SUBCHAPTER C—DRUGS

PART 148b—AMPHOTERICIN

Miscellaneous Amendments

Pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357), and delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.90), Part 148b is amended as set forth below to provide for certain changes in testing methods to effect corrections and consistency of existing regulations.

§ 148b.1 [Amended]

1. Section 148b.1 is amended as follows:

a. Paragraph (a) (1) (vii) is changed to read:

(vii) It exhibits absorption maxima at 272, 282, 295, 362, 381, and 405 $m\mu$ when dissolved in dimethyl sulfoxide and diluted with absolute methyl alcohol.

b. Paragraph (b) (2) (v) is amended by changing the term " $(B \times a) - (B \times A)$ ", in the denominator of the equation, to read " $(B \times a) - (b \times A)$ ".

2. Section 148b.2 is amended by changing the section heading and the first and seventh sentences in paragraph (a) (1) to read as follows:

§ 148b.2 Amphotericin B for injection.

(a) *Requirements for certification—*
(1) *Standards of identity, strength, quality, and purity.* Amphotericin B for injection is a dry powder containing in each immediate container 50 milligrams of amphotericin B, 41 milligrams of sodium desoxycholate, and suitable buffering substances. . . . The amphotericin B used conforms to the standards of § 148b.1(a) (1), except that its amphotericin A content is not more than 5.0 percent, its pH in a 3.0 percent aqueous suspension is not less than 3.5 and not more than 6.0, and its residue on ignition is not more than 0.5 percent. . . .

3. Section 148b.3(b) (1) is amended to read:

§ 148b.3 Amphotericin B lotion.

(b) *Tests and methods of assay—*(1) *Potency.* Dissolve an aliquot in sufficient dimethyl sulfoxide to produce a solution of convenient concentration. Proceed as directed in § 148b.1(b) (1). The amphotericin B content is satisfactory if it contains not less than 90 percent and not more than 125 percent of the number of milligrams of amphotericin B per milliliter that it is represented to contain.

4. Section 148b.4(b) (1) is amended to read:

§ 148b.4 Amphotericin B ointment.

(b) *Tests and methods of assay—*(1) *Potency.* With the aid of a high-speed glass blender dissolve an accurately weighed sample in sufficient dimethyl sulfoxide to produce a solution of convenient concentration. Proceed as directed in § 148b.1(b) (1). The amphotericin B content is satisfactory if it contains not less than 90 percent and not more than 125 percent of the number of milligrams of amphotericin B per gram that it is represented to contain.

The amendments included in this order do not affect the safety or efficacy of the drug amphotericin B and are neither restrictive nor controversial. I therefore find that the requirements of section 507 of the Federal Food, Drug, and Cosmetic Act have been complied with and find, further, that notice and public procedure and delayed effective date are not necessary in this instance.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER.

§ 9-1.705-3 Screening of procurements.

Proposed contracts for construction, and repair, maintenance, and alteration of structures having an estimated cost of more than \$500,000 shall not be set aside for exclusive small business participation.
