

PART 33—SPORT FISHING

Pablo National Wildlife Refuge,
Montana

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulation; sport fishing;
for individual wildlife refuge areas.

MONTANA

PABLO NATIONAL WILDLIFE REFUGE

Sport fishing on the Pablo National Wildlife Refuge, Mont., is permitted only on the area designated by signs as open to fishing. This open area, comprising 1,900 acres, is delineated on maps available at the refuge headquarters, National Bison Range, Moiese, Mont., 59824, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 730 Northeast Pacific Street, Portland, Oreg., 97208. Sport fishing shall be in accordance with all applicable State regulations, subject to the following special conditions:

Open season: The east side of the inlet canal and the north and east shorelines from the inlet canal to the south end of the main dike are open from July 15, 1966, through February 28, 1967, except during the migratory waterfowl hunting season.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective to May 1, 1967.

PAUL T. QUICK,
Regional Director, Bureau of
Sport Fisheries and Wildlife.

POWER AND WATER RESOURCESChapter I—Federal Power
Commission

[Docket No. R-257; Order No. 303-A]

PART 260—STATEMENTS AND
REPORTS (SCHEDULES)

System Flow Diagrams

MAY 10, 1966.

By order herein issued October 14, 1965 (34 FPC ----, 30 F.R. 13359), we granted reconsideration of Order No. 303, issued August 19, 1965 (34 FPC ----, 30 F.R. 11101) in which we amended our regulations by prescribing a system flow diagram to be filed by certain large natural gas pipeline companies subject to the provisions of the Natural Gas Act. In the October order we also extended the filing date for the initial submission of the diagram to "a date to be fixed hereafter."

We have given further careful consideration to the points raised in the ap-

plication for reconsideration and, in the light of the arguments advanced, have revised several of the subparagraphs included in paragraph (b) of § 260.8 as it was prescribed in Order No. 303. We recognize that the submission of the detailed information to be required is, to some extent, duplicative and that its preparation imposes a significant burden upon the companies required to report. We are still of the opinion, earlier expressed in our original order herein, that the information is necessary for regulatory purposes and that the public interest in this regard more than compensates for the added burden. Furthermore, the modifications of the original proposal which were incorporated in Order No. 303, together with those additional changes we are now adopting, make the burden as light as possible and yet at the same time supply information consistent with our minimum needs.

One reason for granting reconsideration of our original order was to provide the time necessary to complete the steps being taken in compliance with the Federal Reports Act of 1942 (5 U.S.C. 139c). Those steps have now been completed and the Bureau of the Budget has approved the collection of the information in the form here being prescribed. Items 12, 13, and 14 of that information (§ 260.8(b), (12), (13), and (14)) are subject to reapproval after 1 year.

Two other matters should be noted. First, Order No. 303 and our order granting reconsideration both contemplated that the initial report would cover the calendar year 1964. In view of the fact that reports will be required annually, our purposes will be served by having the initial report cover calendar year 1965 and, though succeeding reports will be due by June 1 of each year, we are providing that the initial report be filed by June 30, rather than June 1, 1966.

Finally, we recognize that the impact of the reporting burden will be heavier on some companies than on others due, mainly, to the diverse nature of system operations. The Bureau of the Budget, therefore, has asked us to remind the respondents of the provisions of § 1.7(b) of our Rules of Practice and Procedure (18 CFR 1.7(b)), pursuant to which we will entertain a petition to amend or waive rules. This rule provides the means whereby companies with unusual circumstances may apply for relief in connection with any of the detailed requirements of the report upon an adequate showing of a need for the relief requested. Such a petition is now pending before us and is being granted by separate order.

Upon further consideration of the matter, the Commission finds:

(1) Section 260.8(b) of the regulations under the Natural Gas Act prescribed by Order No. 303 issued August 19, 1965, herein should be revised for the reasons set forth above and in the manner hereinafter provided.

(2) For convenience, it is appropriate that paragraph (a) of § 260.8 and those subparagraphs of paragraph (b) which are not revised hereby be published together with the revised portions referred to above and, therefore, that the ordering paragraphs (A) and (B) of Order No. 303

be revised and adopted as hereinafter provided.

(3) From the circumstances referred to in the recitals set forth above, it is unnecessary in the public interest that further notice be had prior to the adoption of the revised regulations, and good cause exists for making it effective forthwith.

The Commission, acting pursuant to the authority heretofore set forth in Order No. 303, orders:

(A) Ordering paragraphs (A) and (B) of Order No. 303, issued herein on August 19, 1965 (34 FPC ----, 30 F.R. 13359), are deleted and the following is inserted in lieu thereof.

(A) Part 260, Statements and Reports, Subchapter G, Chapter I, Title 18 of the Code of Federal Regulations, is amended by adding a new § 260.8 to read as follows:

§ 260.8 System flow diagrams.

(a) Each Class A natural gas pipeline company, having a system delivery capacity in excess of 100,000 Mcf per day (measured at 14.73 p.s.i.a. and 60° F.), shall file with the Commission by June 1 of each year twelve (12) copies of a diagram or diagrams reflecting operating conditions on its main transmission system during the previous twelve months ended December 31. For purposes of system peak deliveries, the heating season overlapping the year's end shall be used. Facilities shall be those installed and in operation on December 31 of the reporting year. All volumes shall be reported on a uniform stated pressure and temperature base.

(b) The diagram or diagrams shall include the following items of information:

(1) Nominal diameter (inches) of each pipeline.

(2) Miles of pipeline (to nearest 0.1 mile) between points of intake, delivery, river crossings, storage fields, crossovers, compressor stations and connections with other pipeline companies.

(3) Direction of flow in the pipelines. If direction of flow can be reversed at compressor stations, so indicate.

(4) Maximum permissible operating pressure for each pipeline at discharge side of each compressor station, or other critical point, determined by the provisions set forth in the American Standards Association's publication B 31.8 "Gas Transmission and Distribution Piping System" or by the company's own standard (whichever governs the company's operation), provided that the company supplies an explanation of the standard used. Where company standards govern, so designate by appropriate symbol or legend.

(5) Total horsepower of compressor engines installed at each compressor station.

(6) Designed suction pressure for each compressor station, p.s.i.g.

(7) Designed discharge pressure for each station, p.s.i.g.

(8) Maximum volume, Mcf per day that can be compressed at each compressor station under conditions of suction and discharge set forth in subparagraphs (6) and (7) of this paragraph. If di-

rection of flow affects these factors provide the information for each direction of flow.

(9) The fuel requirement at each compressor station under conditions described in subparagraph (8) of this paragraph.

(10) Pressure in the pipeline at points of emergency interconnection with other pipeline companies which can normally be expected to exist, and the volume which could be delivered or received at such emergency interconnection points at such pressures. Give the name of the interconnecting company.

(11) For each storage field, connected to the system and operated by the respondent pipeline company, the maximum dependable daily and seasonal withdrawal volumes available under normal conditions of operation.

(12) The average and maximum (coincidental and noncoincidental) daily volumes delivered at each takeoff point during the reporting year. Where deliveries to a single customer are made at two or more points and conjunctive billing is used to determine charges, the volumes delivered shall be reported on the conjunctive basis. Small deliveries (less than 100 Mcf per day) which have little or no effect upon the operation of the pipeline may be grouped in an appropriate manner; i.e., between compressor stations or the last mainline compressor station and the end of the pipeline. If an estimate is used for a delivery, so indicate.

(13) The average daily volume received at each intake point to the transmission pipeline system.

(14) The volume received into the transmission pipeline system at each intake point on the day of maximum coincidental delivery.

(15) The information required by subparagraphs (12), (13) and (14), of this paragraph may be furnished in tabular form, or by reference to FPC Form No. 2, providing, that the information is suitably keyed to the diagram(s) by appropriate identifying symbol or number.

(Secs. 4, 5, 7, 16, 52 Stat. 823, 824, 825, 830; 15 U.S.C. 717c, 717d, 717f, 717o)

(B) This amendment shall be effective initially for the reporting year 1965 except that the last day for filing the flow diagrams depicting 1965 operations is postponed to June 30, 1966.

(B) In all other respects the provisions of Order No. 303 remain in full force and effect.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission,

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

Subpart D—Listing of Color Additives for Food Use Exempt From Certification

TAGETES EXTRACT; CONFIRMATION OF EFFECTIVE DATE

In the matter of listing tagetes extract as a safe color additive for use in chicken feed and exempting it from certification:

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b) (1), (c) (2), (d), 74 Stat. 399, 402; 21 U.S.C. 376 (b) (1), (c) (2), (d)), and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.120; 31 F.R. 3008), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of March 29, 1966 (31 F.R. 5069). Accordingly, the regulation promulgated by that order will become effective May 28, 1966.

(Sec. 706 (b) (1), (c) (2), (d), 74 Stat. 399, 402; 21 U.S.C. 376 (b) (1), (c) (2), (d))

Dated: May 11, 1966.

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 10—DEFINITIONS AND STANDARDS FOR FOOD

Procedure for Establishing Food Standards Under the Federal Food, Drug, and Cosmetic Act

To clarify the procedural food standard regulations with respect to a petitioner withdrawing his petition without prejudice, Part 10 is amended as set forth below.

Accordingly, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055 as amended; 21 U.S.C. 341, 371) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120; 31 F.R. 3008), § 10.2 is amended by adding a new paragraph (d), as follows:

§ 10.2 Procedure for establishing food standards under the Federal Food, Drug, and Cosmetic Act.

(d) At any time prior to the issuance of an order acting on his proposal under section 701(e) (1) of the act, the petitioner may withdraw his petition without prejudice to a future filing. Notice of

withdrawal of the petition and termination of the rulemaking proceeding will be published in the FEDERAL REGISTER.

Notice and public procedure and delayed effective date are unnecessary prerequisites to the promulgation of this order, and I so find, since the amendment only involves procedural regulations.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER.

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SODIUM *n*-ALKYLBENZENESULFONATE

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 6L1875) filed by Monsanto Co., 800 North Lindbergh Boulevard, St. Louis, Mo., 63166, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of sodium *n*-alkylbenzenesulfonate in washing fruits and vegetables and as an emulsifier and/or surface-active agent in the production of articles or components of articles used in contact with food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (c) (1), 72 Stat. 1786; 21 U.S.C. 348 (c) (1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120; 31 F.R. 3008), Part 121 is amended as follows:

1. Section 121.1091(a)(2) is amended by adding alphabetically a new item to the list of substances, as follows:

§ 121.1091 Chemicals used in washing fruits and vegetables.

*	*	*	*	*
(a) * * *				
(2) * * *				

Substances	Limitations
* * *	* * *

Sodium <i>n</i> -alkylbenzenesulfonate (alkyl group predominantly C ₁₂ and C ₁₃ and not less than 95 per cent C ₁₀ to C ₁₄).	Not to exceed 0.2 percent in wash water. May be used in washing or to assist in the lye peeling of fruits and vegetables.
---	---

2. Section 121.2541(c) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2541 Emulsifiers and/or surface-active agents.

(c) List of substances:

Sodium *n*-alkylbenzenesulfonate (alkyl group predominantly C₁₂ and C₁₃ and not less than 95 percent C₁₀ and C₁₀), for use only as a component of nonfood articles complying with §§ 121.2507, 121.2514, 121.2524, 121.2526, 121.2534, 121.2535, 121.2559, 121.2562, 121.2569, 121.2571, and 121.2591.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER.

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

CELLOPHANE

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 5B1761) filed by E. I. du Pont de Nemours & Co., 1007 Market Street, Wilmington, Del., 19898, and other relevant material, has concluded that the food additive regulations should be amended to provide for the safe use of *n*-octyl alcohol as a defoaming agent in the manufacture of cellophane base sheet intended for use in food packaging. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.120; 31 F.R. 3008), § 121.2507(c) is

amended by inserting alphabetically in the list of substances a new item, as follows:

§ 121.2507 Cellophane.

(c) List of substances:

Limitations (residue and limits of addition expressed as percent by weight of finished packaging cellophane)

n-Octyl alcohol. For use only as a defoaming agent in the manufacture of cellophane base sheet.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. SUBCHAPTER C—DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

Zinc Bacitracin; Change in Expiration Date

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120; 31 F.R. 3008), the antibiotic drug regulations are amended to change the maximum expiration date for zinc bacitracin from 24 months to up to 60 months within certain conditions. Accordingly, § 146e.418 (c) (3) is amended to read as follows:

§ 146e.418 Zinc bacitracin.

(c) ***

(3) The statement "Expiration date _____", the blank being filled in with the date which is 24 months after the month during which the batch was certified, except that the blank may be filled in with the date that is 30 months, 36 months, 42 months, 48 months, 54 months, or 60 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed therefor by paragraph (a) of this section.

Notice and public procedure and delayed effective date are unnecessary prerequisites to the promulgation of this order, and I so find, since the changes are such that they cannot be applied to any specific product unless and until the manufacturer thereof has supplied adequate data regarding that article.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER.
