Title 3—THE PRESIDENT

Executive Order 11285

DESIGNATION OF CERTAIN FOREIGN COUNTRIES AS ECONOMICALLY LESS DEVELOPED COUNTRIES FOR PURPOSES OF THE INTEREST EQUALIZATION TAX

WHEREAS notice was given on December 7, 1965, that I intended to notify the Senate and House of Representatives of my intention to terminate the designation of Abu Dhabi, Bahrain, Iran, Iraq, Kuwait-Saudi Arabia Neutral Zone, Libya, Qatar, and Saudi Arabia as economically less developed countries for purposes of the tax imposed by section 4911 of the Internal Revenue Code; and

WHEREAS the Senate and House of Representatives have been duly notified of my intention to terminate the designation of these countries as economically less developed countries for such purposes;

NOW, THEREFORE, by virtue of the authority vested in me by section 4916(b) of the Internal Revenue Code of 1954, as added by section 2 of the Interest Equalization Tax Act, approved September 2, 1964 (Public Law 88-563), by section 301 of title 3 of the United States Code, and as President of the United States, it is hereby ordered as follows:

SECTION 1. *Economically less developed countries.* For purposes of the tax imposed by section 4911 of the Internal Revenue Code, the following areas are designated as economically less developed countries:

(a) All foreign countries (including Trust Territories) in existence on or after the effective date of this order, other than Australia, Austria, Belgium, Canada, Denmark, Federal Republic of Germany, France, Iran, Iraq, Ireland, Italy, Japan, Kuwait, Kuwait-Saudi Arabia Neutral Zone, Libya, Liechtenstein, Luxembourg, Monaco, Netherlands, New Zealand, Norway, Portugal, San Marino, Saudi Arabia, Spain, Sweden, Switzerland, Union of South Africa, United Kingdom, and any foreign country within the Sino-Soviet bloc, as defined in section 2;

(b) Each territory, department, province, and possession (other than Abu Dhabi, the Bahamas, Bahrain, Bermuda, Hong Kong, and Qatar), of any foreign country in existence on or after the effective date of this order, other than a foreign country within the Sino-Soviet bloc, as defined in section 2, if the territory, department, province, or possession is overseas from the foreign country of which it is a territory, department, province, or possession; and

(c) The Commonwealth of Puerto Rico and all possessions of the United States.

SEC. 2. *Definition of the term "foreign country within the Sino-Soviet bloc."* For purposes of this order, the term "foreign country within the Sino-Soviet bloc" shall mean Albania, Bulgaria, any part of China which is dominated or controlled by International Communism, Cuba, Czechoslovakia, Estonia, Hungary, any part of Korea which is dominated or controlled by International Communism, Latvia, Lithuania, Outer Mongolia, Poland (including any area under its provisional administration), Rumania, Soviet Zone of Germany and the

Soviet Sector of Berlin, Tibet, Union of Soviet Socialist Republics and the Kurile Islands, Southern Sakhalin, and areas in East Prussia which are under the provisional administration of the Union of Soviet Socialist Republics, and any part of Viet Nam which is dominated or controlled by International Communism.

SEC. 3. *Prior commitments to acquire.* Notwithstanding the provisions of sections 1 and 2 of this order, any area which had the status of an economically less developed country under Executive Order No. 11224 prior to the effective date of this order shall be deemed to be an economically less developed country for purposes of section 4916 with respect to an acquisition of stock or a debt obligation—

(a) If such acquisition is made pursuant to an obligation to acquire which, prior to December 7, 1965, was unconditional or was subject only to conditions contained in a formal contract under which partial performance had occurred; or

(b) If, with respect to such acquisition, the acquiring United States person (or, in a case where two or more United States persons are making acquisitions as part of a single transaction, a majority in interest of such persons), had taken every action prior to December 7, 1965, to signify approval of the acquisition under the procedures ordinarily employed by such person (or persons) in similar transactions and had sent or deposited for delivery to the foreign person from whom the acquisition was made written evidence of such approval in the form of a commitment letter, memorandum of terms, draft purchase contract, or other document setting forth, or referring to a document sent by the foreign person from whom the acquisition was made which set forth, the principal terms of such acquisition, subject only to the execution of formal documents evidencing the acquisition and to customary closing conditions.

SEC. 4. *Rules and regulations.* The Secretary of the Treasury or his delegate is authorized to prescribe from time to time regulations, rulings, directions, and instructions to carry out the purposes of this order.

SEC. 5. *Effective date.* This order shall become effective upon its filing for publication in the FEDERAL REGISTER.

SEC. 6. *Supersedure of Executive Order No. 11224.* The Executive Order No. 11224, dated May 13, 1965, is hereby superseded.

SUBCHAPTER B—EXPORT REGULATIONS

[10th Gen. Rev. of Export Regs., Amdt. 18]

MISCELLANEOUS AMENDMENTS

Parts 372, 373, 374, 375, 376, 377, 379, 382, and 385 of Title 15 of the Code of Federal Regulations are amended as set forth below.

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945, 26 F.R. 4487, 3 CFR 1959-1963 Comp.; E.O. 11038, 27 F.R. 7003, 3 CFR 1959-1963 Comp.)

Effective date: June 2, 1966.

RAUER H. MEYER,
Director, Office of Export Control.

I. Revision of Application for Export License, Form FC-419, and Export License, Form FC-628.

Purpose and effect: The Bureau of International Commerce has revised the format of Form FC-419, Application for Export License.

Substantively, this form remains unchanged. However, several revisions have been made to adapt the new form to the requirements of a more economical and faster method for issuing export licenses. These changes are as follows:

1. The new application is a four-part snap-out form as compared to the current three-part form. A new duplicate carbon copy has been added for Office of Export Control purposes. The present duplicate (OEC record copy) and triplicate (applicant's file copy) have been redesignated "Triplicate" and "Quadruplicate," respectively.

2. The items on the new form have been rearranged.

3. The new form is now printed in blue ink rather than green.

In preparing the "Commodity Description" item of the new form, exporters are reminded to describe the commodities in terms which correspond with the commodity descriptions on the Commodity Control List (§ 399.1 of the Comprehensive Export Schedule). It is important that this space not be used by the exporter for any other purpose, such as consignee information, additional required certifications, or similar information. If additional details as prescribed by the Export Regulations are to be included, this supplementary information should be inserted in the "Additional Information" item of the new form, or on an attachment thereto.

The format of Form FC-628, Export License, has also been revised without substantive change to conform with the new export application form.

One of two types of validated license documents will be issued, depending upon whether the application is submitted on the new form or on an older form. Either type of validated license will be accepted by Customs Officers.

Exporters are requested to start using the newly revised Form FC-419 (Rev. Jan. 1966) as soon as possible. Copies of the new form may be obtained from all Department of Commerce Field Offices listed on page 1 of the Comprehensive Export Schedule and from the Bureau of International Commerce, Washington, D.C., 20230.

Effective date of action: June 2, 1966.

Export license applications submitted on Forms FC-419 bearing a printed revision date prior to January 1966 will be accepted until October 1, 1966. After that date, all such applications will be returned without action to the applicant for submission on the new Form FC-419 (Rev. Jan. 1966).

Accordingly, the following sections of the Comprehensive Export Schedule are amended to read as set forth below: 372.4 (c) (2) (iv), 372.4(e), 372.5(a) (1), 372.5 (a) (4), 376.4(a), 377.5(a), 385.4(b); Note following 373.5(b) (4); and footnotes 1 to §§ 374.4(a), 375.2(a), 376.4(a), and 377.5(a).

PART 372—INDIVIDUAL AND OTHER VALIDATED LICENSES

§ 372.4 Applications for validated license.

(c) Requirement to disclose parties in interest. * * * (2) Definition of parties in interest. * * *

(iv) Purchaser. The person abroad who has entered into the export transaction with the applicant to purchase the commodities or technical data for delivery to the ultimate consignee must be named as the purchaser. If such person is the same as the ultimate consignee, the applicant should state in the "Purchaser in Foreign Country" item of Form FC-419 (Rev. Jan. 1966) Application for Export License, "Same as Item 3"; if such person is the same as the intermediate consignee, the applicant should state in the "Purchaser in Foreign Country" item of Form FC-419, "Same as Item 4". A bank, freight forwarder, forwarding agent, or other intermediary is generally not acceptable as the purchaser.

(e) Information regarding commodities. The applicant must state on the application for a validated license submitted on Form FC-419 (Rev. Jan. 1966), in accordance with the instructions set forth on such form (see Supplement S-2, and § 372.5(a) (4)), for each commodity listed therein:

- (1) The quantity to be shipped;
- (2) A description in sufficient detail to permit accurate identification, including its Export Control Commodity number;
- (3) The total selling price of the item and its price per unit; and
- (4) The proposed end use.

§ 372.5 How to file an application for a validated license.

(a) Form and manner of filing—(1) Application form and processing card. An application for a validated license must be submitted on Form FC-419, Application for Export License (Rev. Jan. 1966), accompanied by Form FC-420, Application Processing Card (see Supplements S-1 and S-2 for facsimiles).¹ An application is incomplete and will be returned without action to the applicant if it is not accompanied by the Form FC-420 completely and correctly filled in.

(2) Requirements set forth on forms. All terms, conditions, provisions, and instructions, including the applicant's certification, contained in such form or forms are hereby incorporated as a part of the Export Regulations.

(3) Facsimiles of Form FC-419. Exporters may print facsimiles of Form FC-419 (Rev. Jan. 1966) with printed answers to many of the questions, provided the facsimiles are identical with the official form in size, color, ink, and typographic arrangement.

(4) Preparation of Form FC-419. The following instructions apply to the preparation of applications submitted on Form FC-419, Application for Export License, for all types of validated export licenses issued by the Office of Export Control, except as modified by special licensing procedures and provisions contained in the Export Regulations.

Enter the date the application is completed in the box titled "Date of Application."

Item 1. The name and address of the applicant must be entered. The postal ZIP Code must be included as it is an integral part of the address. Failure to include ZIP Code on an application may result in delay in mailing of the export license.

Item 2. The person named as purchaser should be the person abroad who has entered into the export transaction with the applicant or Order Party. If such person is the same as the ultimate consignee, applicant should state "Same as Item 3"; if such person is the same as the intermediate consignee, applicant should state "Same as Item 4." If no entry is made in this item, the applicant represents that the ultimate consignee is the foreign purchaser.

Item 3. The person named as ultimate consignee shall be the person abroad who is actually to receive the material for the end use designated in Item 10. A bank, freight

¹Forms FC-419 and FC-420 may be obtained at all U.S. Department of Commerce Field Offices listed on page 1, and from the U.S. Department of Commerce, Office of Export Control, Washington, D.C., 20230.

forwarder, forwarding agent, or other intermediary is not acceptable as an ultimate consignee, but should be disclosed as an intermediate consignee, where appropriate.

Item 4. An intermediate consignee may be a bank, forwarding agent, or other intermediary in a foreign country who participates as an agent for the exporter or for the purchaser or ultimate consignee for the purpose of effecting delivery of the export to the purchaser or ultimate consignee. All known intermediate consignees must be named. If no intermediary is to be used, state "None"; if unknown state "unknown." If no entry is made in this item, the applicant represents that there is no intermediate consignee.

Item 5. The country of final (ultimate) destination is to be entered, not a country through which the export may travel in transit to its final destination. The name of the country shall be stated in accordance with the country designation listed in "Schedule C, Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics," issued by the Bureau of the Census, unless otherwise specified in §§ 373.66-373.99 of the Export Regulations. The country designation may be a destination shown in a heading alongside of a Schedule C code number, or a destination listed in a further breakdown under such heading. For example, when an export is made to Crete, the name of the country shown in Item 5 of the application may be Greece, which appears alongside of Schedule C code number 484, or it may be Crete, which is listed as a destination in the breakdown under Greece.

Exporters are responsible for placing a statement of ultimate destination and prohibition against diversion on shipper's export declaration, bill of lading, and commercial invoice for various export shipments. Omission of the statement, or unauthorized diversion of commodities from country of final (ultimate) destination, not in accordance with the statement, are violations of the export regulations subject to denial of export privileges and to civil and criminal penalties.

Item 6. The applicant's reference number may be used for applicant's convenience.

Item 7. (a) Give the quantity to be shipped, using units specified in the Commodity Control List (§ 399.1).

Item 7. (b) Commodities must be described in terms which correspond with the commodity descriptions in the Commodity Control List (§ 399.1). Additional details as prescribed by the Export Regulations must be furnished to the extent necessary for identification of the specific items so classified. Include characteristics shown on the Commodity Control List such as basic ingredients, composition, type, size, gauge, grade, horsepower, etc. Where the Commodity Control List entry states "specify by name," all of the commodities to be included in the shipment must be listed by name on the application.

Item 7. (c) The Export Control Commodity Number, Processing Code, and Related Commodity Group Number, must be shown in this column. All commodities on a single application must have the same Processing Code and the same Related Commodity Group Number.

Item 7. (d) Unit price should be shown except where a large variety of products within a single Export Control Commodity Number makes such a breakdown extremely difficult. In such cases only total price need be shown. The applicant must show total price in the customary form of quotation such as f.o.b. (factory) f.a.s. (named port), c.i.f., or other form. The particular form of price quotation must be specified. The amounts entered in the total price column on the appli-

cation shall be rounded to the nearest whole dollar, except where the actual total value is less than \$0.50. For example: If the total price for a commodity listed on the application is \$2,375.49, it should be listed as \$2,375; \$2,375.50 should be listed as \$2,376; \$0.78 should be listed as \$1; and \$0.38 should be listed, unchanged, as \$0.38. Where the normal trade practice in a given commodity makes it impracticable to establish a firm contract price, the precise terms upon which the price is to be ascertained and from which the contract price may be objectively determined must be stated on the application. A mere statement by the exporter of "market price at the time of delivery of shipment," or other such general statement of price will not be acceptable.

Item 8. The name and address of the person, other than applicant, authorized by the applicant to receive the license, if issued, should be entered. The Postal ZIP Code must be included as it is an integral part of the address. Failure to include ZIP Code on an application may result in delay in mailing of the export license. The license will be transmitted only to applicant or to the person designated on the license application as the person entitled to receive the license on behalf of the licensee. The license will not be transmitted directly to the Customs Office at the port of exit, except for an emergency clearance, as set forth in paragraph 372.5(1), and in the note following § 372.13 of the Comprehensive Export Schedule.

Item 9. Leave blank if applicant is the producer of the commodities to be exported. Applicant so represents where item is blank. If applicant is not the producer, give supplier's name and address, or state "unknown," if unknown.

Item 10. End use of commodities or technical data covered by this application will be an important factor in determining issuance of license. Statement by ultimate consignee (and purchaser, if not same) as to ultimate destination and end use must be submitted for certain exports as required by the Export Regulations. (Applicant's reference to such statement does not relieve him of responsibility to fully disclose any additional or different information he may know.) Applicant must indicate clearly the end use intended by the ultimate consignee, stating what will be produced or manufactured, or what services will be rendered, and give the country or countries where this will take place. A complete and detailed description is required.

Item 11. If applicant is exporting for the account of a foreign principal, the name and address of the foreign principal must be shown and an explanation of the transaction given in full. If no entry is made in this item, the applicant represents that he is exporting for his own account.

Item 12. Enter additional information pertinent to the transaction or required by the Export Regulations, such as special certifications, names of parties in interest not disclosed elsewhere, explanation of documents attached, etc. If this application represents a transaction previously considered by the Office of Export Control and returned without action or rejected, give prior case number (application number) and indicate prior action by Office of Export Control.

Item 13. Application must be signed by applicant, or by an officer or duly authorized agent of the applicant. (If signed by agent of the applicant, title and firm name of agent must be shown.)

Item 14. Where the applicant did not receive the order directly from the foreign purchaser or ultimate consignee named in the application, or through his or their agents abroad, the person in the United States who

conducted the direct negotiations with the foreign party and originally received the order (the order party) must sign the application and complete this item.

PART 376—PERIODIC REQUIREMENTS LICENSE

§ 376.4 Application requirements.

(a) *How to prepare a PRL License application.* An application for a PRL License shall be prepared and submitted on Form FC-419, Application for Export License (Rev. II. Commodity description for validated license shipments.

Purpose and effect: The Export Regulations previously provided that the Shippers' Export Declaration must always include the same commodity description as shown on the related validated export license. The descriptions which appear on license applications and which are necessary for a proper licensing decision are often longer than is necessary to identify the items for Customs Officers in Commodity Control List terms.

Therefore, under the revised procedure for issuing validated export licenses, commodity descriptions on licenses will be underlined to indicate only the portions of a condensed description necessary to identify the item properly in Commodity Control List terms. The Export Regulations are revised to provide that, when the description on the license is underlined, only the underlined portions of the commodity description need appear in the commodity description on the Declaration. If a portion of the description is not underlined, the Declaration should include the full commodity description appearing on the validated license. The Bureau of the Census requires that the commodity description include sufficient detail to permit verification of the Schedule B number entered

on the Declaration. Therefore, in some cases to meet Bureau of the Census statistical requirements, it will be necessary to incorporate further detail in addition to that appearing on the license.

Effective date of action: June 2, 1966.

Accordingly, § 379.4(c) (2) of the Comprehensive Export Schedule is amended to read as set forth below:

PART 379—EXPORT CLEARANCE AND DESTINATION CONTROL

§ 379.4 Authentication of declaration.

(c) Schedule B number and commodity description—(1) Schedule B number. The seven digit Schedule B number, as shown in Schedule B (Statistical Classification of Domestic and Foreign Commodities Exported from the United States), shall be entered in column 13 of the Declaration regardless of whether the shipment is moving under a validated or a general license. However, if the shipment is being made under authority of a validated license issued prior to January 1, 1965, the five digit Schedule B number shown on the validated license shall be entered, in addition, in column 10 of the Declaration.

(2) Commodity description for validated license shipments. (i) The commodity description on the Declaration for a shipment moving under authority of a validated license shall include all of the commodity description shown on the related validated license if none of the commodity description shown on the license is underlined. If part of the description on the license is underlined, only the underlined portions need be included on the Declaration. However, since the commodity description shown on the license will be stated in Commodity Control List terms, it may be inadequate to meet Bureau of the Census statistical requirements. For statistical purposes, the Bureau of the Census requires that the commodity description shall give sufficient detail to permit verification of the Schedule B number assigned. Therefore, the commodity description on the Declaration shall incorporate further detail, in addition to that appearing on the license, whenever such further detail will aid in confirming that the proper Schedule B number is entered on the Declaration (e.g., size, material, or degree of fabrication of the specific commodity).

(ii) Many commodity classification descriptions in Schedule B are followed by instructions such as "Specify by name," "State species," etc. Where such instruction appears, the more specific information called for should be furnished in column 10 of the Declaration, in addition to all other information necessary to verify the Schedule B number assigned. When a single Shipper's Export Declaration covers more than one item classifiable under a single one of the classifications carrying the "Specify by name" or similar requirement, such as "State species" or "Specify type," separate quantities, values, and shipping

weights for the individual items are not required. Each item should be separately enumerated in Column (10), except that if more than five items are involved, all classifiable under one Schedule B number, only the five items of greatest value in the classification are required to be separately enumerated.

III. Special provisions for exports of molybdenum.¹

Purpose and effect: The following forms of molybdenum have become increasingly scarce in recent months:

Export control commodity No. and commodity description
28393 Molybdenum ores and concentrates.
51369 Molybdenum oxide.
51470 Molybdenum disulfide, 86 percent content or higher.
51470 Calcium molybdate.
51470 Ammonium molybdate.
51470 Sodium and potassium molybdate.
67160 Ferromolybdenum.
68942 Molybdenum or molybdenum alloys, unwrought.
68942 Molybdenum or molybdenum alloys, waste and scrap.
68942 Molybdenum or molybdenum alloy metal powders.

Among the measures taken to relieve the domestic shortage of these commodities is the release of molybdenum from the U.S. National Stockpile. Obviously, excessive exports of these scarce forms of molybdenum would tend to defeat this measure. To prevent this, the supplier is required to certify that the molybdenum which is available for export neither has been nor will be supplied through a release from the U.S. National Stockpile. Regardless of whether the supplier is also the exporter, this certification is required in support of an application for an export license.

Effective date of action: June 2, 1966. Accordingly, new §§ 373.21 and 373.36 and § 373.44(b) are added to the Comprehensive Export Schedule to read as set forth below:

PART 373—LICENSING POLICIES AND SPECIAL PROVISIONS

§ 373.21 Molybdenum ores and concentrates.

An application for a license to export molybdenum ores or concentrates, Export Control Commodity No. 28393, shall include or be accompanied by the following certification by the supplier of the commodities, regardless of whether the supplier is the applicant:

I (We) certify that the following molybdenum commodities, which are available to (name of applicant) for export, have not been and will not be supplied from commodities released from the U.S. National Stockpile:

Export control commodity No.	Commodity description	Quantity

¹ The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

¹ Forms FC-419, FC-420, FC-988 may be obtained at all U.S. Department of Commerce field offices (listed on page 1) and from the U.S. Department of Commerce, Office of Export Control, Washington, D.C., 20230.

^{1a} Forms FC-419 and FC-420 may be obtained at all U.S. Department of Commerce Field Offices listed on page 1, and from the U.S. Department of Commerce, Office of Export Control, Washington, D.C., 20230.

^{1b} Forms FC-419, FC-420, FC-917, or FC-843 may be obtained from all U.S. Department of Commerce field offices listed on page 1, from the U.S. Department of Commerce, Office of Export Control, Washington, D.C., 20230, and from U.S. consulates, embassies and other posts in Country Group "T" countries.

(Name of supplier)-----

NOTE: 1. As used in this certification, a commodity is "available" only if the supplier or the applicant has present legal title to the commodities and has access to such commodities for export purposes.

2. If the applicant is not the producer of the commodities, the certification shall be signed by the supplier shown in Item 9 of the application.

§ 373.36 Molybdenum disulfide and molybdates.

The following molybdenum commodities are subject to the special provisions set forth in § 373.21:

Export control commodity No. and commodity description

51369	Molybdenum oxide.
51470	Molybdenum disulfide, 86 percent content or higher.
51470	Calcium molybdate.
51470	Ammonium molybdate.
51470	Sodium and potassium molybdate.

§ 373.44 Other commodities in commodity section 6.

(b) *Molybdenum metals.* The following molybdenum metals are subject to the special provisions of § 373.21.

Export control commodity No. and commodity description

67160	Ferromolybdenum.
68942	Molybdenum or molybdenum alloys, unwrought.
68942	Molybdenum or molybdenum alloys, waste and scrap.
68942	Molybdenum or molybdenum alloy metal powders.

IV. Revision of General License GTDU.

Purpose and effect: Before exporting unpublished technical data relating to certain materials and equipment under the provisions of General License GTDU, the exporter must obtain from the importer a written assurance that neither the technical data nor the direct product thereof is intended to be shipped, either directly or indirectly, to Country Group W, Y, or Z. Effective July 5, 1966, the list of materials and equipment subject to this requirement for a written assurance is now extended to include technical data relating to the following commodities:

1. Phosphor compounds specially prepared for lasers, including but not limited to: neodymium-doped calcium tungstate, dysprosium-doped calcium fluoride, eu-trifluoroethenyl acetate, praseodymium-doped lanthanum trifluoride (Export Control Commodity No. 51500); and

2. Voltmeters, with a full scale sensitivity of 10 nanovolts or less (Export Control Commodity No. 72952).

Accordingly, § 385.2(c) (4) (iii) of the Comprehensive Export Schedule is amended to read as set forth below:

PART 385—TECHNICAL DATA

§ 385.2 General licenses.

(c) *General License GTDU; Unpublished Technical Data.* * * *

(4) *Requirement of written assurance for certain data, services, and materials.* * * *

(iii) Technical data relating to the following materials and equipment:

(w) Alpha trioxymethylene (trioxane) (Export Control Commodity Nos. 51208 and 51209);

(cc) Phosphor compounds specially prepared for lasers, including but not limited to: neodymium-doped calcium tungstate, dysprosium-doped calcium fluoride, eu-trifluoroethenyl acetate, praseodymium-doped lanthanum trifluoride (Export Control Commodity Number 51500); and

(dd) Voltmeters, with full scale sensitivity of 10 nanovolts or less (Export Control Commodity Number 72952).

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

Subpart D—Listing of Color Additives for Food Use Exempt From Certification

ULTRAMARINE BLUE; CONFIRMATION OF EFFECTIVE DATE

In the matter of listing ultramarine blue as a safe color additive for use in salt for animal feed and exempting it from certification:

1. Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706(b)(1), (c)(2), (d), 74 Stat. 399, 402; 21 U.S.C. 376(b)(1), (c)(2),

(d)), and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.120; 31 F.R. 3008), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of April 21, 1966 (31 F.R. 6104). Accordingly, the regulation promulgated by that order will become effective June 20, 1966.

2. Effective June 20, 1966, § 8.501 *Provisional lists of color additives* is amended by deleting from paragraph (e) the item "Ultramarine blue."

(Sec. 706(b)(1), (c)(2), (d), 74 Stat. 399, 402; 21 U.S.C. 376(b)(1), (c)(2), (d))

Dated: June 6, 1966.

J. K. KIRK,
Assistant Commissioner
for Operations.
