Chapter IX—Consumer and Market-
ing Service (Marketing Agreements
and Orders; Fruits, Vegetables,
Nuts), Department of Agriculture

PART 906—ORANGES AND GRAPE-
FRUIT GROWN IN LOWER RIO
GRANDE VALLEY IN TEXAS

Order Amending Order Regulating
Handling

§ 906.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of the order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) Findings upon the basis of the hearing record. Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Edinburg, Tex., March 3, 1966, upon proposed amendment of the marketing agreement and to Order No. 906 (7 CFR Part 906) regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. Upon the basis of the evidence adduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as hereby amended, regulates the handling of oranges and grapefruit grown in the production area in the same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The said order, as hereby amended, is limited in its application to the smallest regional production area that is practicable consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of oranges or grapefruit grown in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of oranges and grapefruit grown in the production area is in the current of interstate or foreign com-

merce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found, on the basis hereinafter indicated, that good cause exists for making the provisions of this amendment effective on the date hereinafter specified; and it would be contrary to the public interest to postpone the effective date until 30 days after publication (5 U.S.C. 1001-1011). The provisions of this order would authorize paid advertising and sales promotion activities designed to expand the market and stimulate the sales of Texas oranges and grapefruit. Shipments of grapefruit are expected to begin on or about September 20 and oranges soon thereafter. The Texas Valley Citrus Committee, the agency charged with the administration of the program, has scheduled a meeting on August 30, at which time a marketing policy, recommendation for regulation, and paid advertising and sales promotion activities will be considered. Therefore, this order should be effective on August 29, 1966, so that such promotional activities may be considered and such project as may be indicated by the circumstances developed in accordance with such provisions. The provisions of this order are well known to producers and handlers. Copies of the text of the amendment to the order have been made available to all known producers and handlers, the provisions of this order do not impose any obligations on handlers until promotional projects are developed in accordance therewith; and compliance with such provisions will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective time of such regulations.

(c) *Determination.* It is hereby determined that:

(1) The "Marketing Agreement, as Amended, Regulating the Handling of Oranges and Grapefruit Grown in the Lower Rio Grande Valley in Texas," upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the citrus fruits covered by this order) who, during the period August 1, 1965, through June 15, 1966, handled not less than 50 percent of the volume of oranges and not less than 50 percent of the volume of grapefruit covered by the said order as hereby amended; and

(2) The issuance of this order, amending the aforesaid order, is favored or approved by at least two-thirds of the respective producers who participated in a referendum on the question of its approval and who, during the determined representative period (August 1, 1965, through June 15, 1966), were engaged, within the production area specified in the aforesaid order, in the production for market of oranges and grapefruit, respectively; such producers having also produced for market at least two-thirds of the volume of each fruit represented in such referendum.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of oranges and grapefruit grown

in the production area shall be in conformity to, and in compliance with, the terms and conditions of the said order as hereby amended as follows:

§ 906.19 [Amended]

1. Paragraph (b) of § 906.19 is amended by adding a sentence at the end thereof as follows: "Should a producer member or alternate member change his marketing affiliation during his term of office, he may continue to serve in such capacity during the remainder of such term."

2. The provisions of § 906.27 are amended to read as follows:

§ 906.27 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence or when designated to do so by the member for whom he is an alternate. In the event both a member and his alternate are unable to attend a committee meeting, the committee members present may designate another alternate of the same classification (handler or producer, and to the extent practical, independent, or co-op) to serve in such member's place and stead. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

3. Paragraph (a)(2) of § 906.35 is amended to read as follows:

§ 906.35 Accounting.

(a) * * *

(2) The committee, with the approval of the Secretary may carry over such excess into subsequent fiscal periods as a reserve: *Provided*, That funds already in the reserve do not equal approximately 1 fiscal period's expenses. Such reserve funds may be used for any expenses authorized pursuant to § 906.32 and for necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

4. The provisions of § 906.37 are amended to read as follows:

§ 906.37 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects, including paid advertising, designed to assist, improve, or promote the marketing, distribution, and consumption of fruit. Any such project for the promotion and advertising of fruit may utilize an identifying mark which shall be made available for use by all handlers in accordance with such terms and conditions as the committee, with the approval of the Secretary, may prescribe. The ex-

penses of such projects shall be paid from funds collected pursuant to § 906.34.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated, August 1, 1966, to become effective August 29, 1966.

Under Secretary.

[Prune Reg. 4]

PART 925—FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREG.

Limitation of Shipments

Findings. (1) Pursuant to the marketing agreement and Order No. 925 (7 CFR Part 925), regulating the handling of fresh prunes grown in designated counties in Idaho and in Malheur County, Oreg., under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the recommendations of the Idaho-Malheur County, Oreg., Fresh Prune Marketing Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of fresh prunes, in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than August 5, 1966. A reasonable determination as to the supply of, and the demand for, prunes must await the development of the crop and adequate information thereon was not available to the Idaho-Malheur County, Oreg., Fresh Prune Marketing Committee until July 28, 1966; recommendation as to the need for, and the extent of, regulation of shipments of such prunes was made at the meeting of said committee on July 28, 1966, after consideration of all available information relative to the supply and demand conditions for such prunes, at which time the recommendation and supporting information were submitted to the Department; necessary supplemental data for consideration in connection with the specification of the provisions of this regulation were not

available until July 29, 1966; shipments of the current crop of such prunes will begin on or about August 5, 1966; and this regulation should be applicable, insofar as practicable, to all shipments of such prunes in order to effectuate the declared policy of the act; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

§ 925.305 Prune Regulation 4.

(a) *Order.* During the period beginning at 12:01 a.m., m.s.t., August 5, 1966, and ending at 12:01 a.m., m.s.t., January 1, 1967, no handler shall handle any lot of prunes unless such prunes meet the following applicable requirements, or are handled in accordance with subparagraph (4) of this paragraph:

(1) *Minimum grade requirement.* Such prunes grade at least U.S. No. 1: *Provided*, That prunes which are affected by healed hail marks may be shipped if they otherwise grade at least U.S. No. 1.

(2) *Minimum size requirement.* Such prunes shall measure at least 1½ inches in diameter: *Provided*, That any lot of prunes shall be deemed to meet such minimum diameter requirement if (i) not more than 10 percent of the prunes in such lot are smaller than 1½ inches in diameter; and (ii) if not more than 15 percent of the prunes contained in any individual container in such lot are smaller than 1½ inches in diameter.

(3) *Containers.* The net weight of prunes in any container, other than the one-half (½) bushel basket shall be either (1) less than 20 pounds, or (2) more than 30 pounds.

(4) Notwithstanding any other provision of this section, any individual shipment of prunes which, in the aggregate, does not exceed 150 pounds net weight may be handled without regard to the restrictions specified in this paragraph (a) or in § 925.41 (Assessment) and 925.55 (Inspection and certification).

(5) The terms "U.S. No. 1," "diameter," and "hail marks" shall have the same meaning as when used in the U.S. Standards for Fresh Plums and Prunes (§§ 51.1520-51.1537 of this title); and terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in the marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 2, 1966.

Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[948.352; Area 3]

PART 948—IRISH POTATOES GROWN IN COLORADO

Limitation of Shipments

Findings. (a) Pursuant to Marketing Agreement No. 97, as amended and Or-

der No. 948, as amended (7 CFR Part 948), regulating the handling of Irish potatoes grown in Colorado effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.) and upon the basis of recommendations and information submitted by the Area No. 3 Committee, established pursuant to the said marketing agreement and order, and other available information, it is hereby found that the limitation of shipments regulations as hereinafter established, limited the grade, size, and quality of such potatoes will tend to effectuate the declared policy of the act and thereby maintain orderly marketing conditions and tend to increase returns to producers of such potatoes.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, and engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003) in that (1) shipments of 1966 crop potatoes grown in Area No. 3 have begun; (2) to maximize benefits to producers, this regulation should be made effective as soon as practicable; (3) producers and handlers have operated under the said marketing order program since 1949 so special preparation on the part of handlers is not required; and (4) information regarding the Committee's recommendation containing the same requirements and effective period as herein has been disseminated to producers and handlers in the production area.
