Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Subpart—Administrative Rules and Regulations

Subpart—Schedule of Payments

MISCELLANEOUS AMENDMENTS

Notice was published in the October 27, 1967, issue of the FEDERAL REGISTER

(32 F.R. 14896) regarding a proposal to amend Subpart—Administrative Rules and Regulations and Subpart—Schedule of Payments. The proposal was based, in part, on a proposal recommended by the Raisin Administrative Committee. These subparts are operative pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989; 32 F.R. 12157, 12555, 12710), regulating the handling of raisins produced from grapes grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "act".

The notice afforded interested persons opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted within the time prescribed therefor.

The amendment: (1) Revises subparagraph (3) of § 989.158(e) so as to provide that the inspector (of the inspection service), rather than the receiving packer, may enter the net weight of the raisins and the scale ticket number on the applicable memorandum report of inspection; (2) adds a new paragraph, paragraph (f), in § 989.158 providing rules and procedures whereby a handler may receive, without reinspection, natural condition raisins that had been inspected at a receiving station of a cooperative bargaining association; and (3) revises paragraph (c) of § 989.401 by increasing the rate of rental payment for the use of boxes and other containers in which reserve tonnage raisins are held for the account of the Committee beyond the crop year of acquisition.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Raisin Administrative Committee, and other available information, it is hereby found that the amendment, as hereinafter set forth, of Subpart—Administrative Rules and Regulations and of Subpart—Schedule of Payments, is in accordance with this part and will tend to effectuate the declared policy of the act.

Therefore, Subpart—Administrative Rules and Regulations (7 CFR 989.101 to 989.176) and Subpart—Schedule of Payments (7 CFR 989.401) are hereby amended as follows:

SUBPART—ADMINISTRATIVE RULES AND REGULATIONS

1. In § 989.158, subparagraph (3) of paragraph (e) is revised, and a new paragraph, paragraph (f), is added, to read:

§ 989.158 Natural condition raisins.

(e) Inspection of raisins on dehydrator's premises.

(3) *Packer's obligations.* Immediately upon a packer's receiving any such already inspected dehydrated raisins accompanied by the applicable memorandum report of inspection, the packer shall give to the inspector at the packer's inspection point where the dehydrated raisins were received, the original and one copy of such memorandum report so that the inspector may enter the net weight and scale ticket number on such memorandum report of inspection and copy thereof. Whenever a packer receives off-grade raisins from an authorized dehydrator he shall so advise the inspector at the packer's inspection point at the time of such receipt; and such raisins shall not be unloaded except in the presence of the inspector or in accordance with such prior arrangements as may have been made between the packer and the inspection service.

(f) *Inspection of raisins at cooperative bargaining association's receiving station—(1) Application and agreement.*

(i) In accordance with the provisions of this paragraph, any cooperative bargaining association may submit to the Committee for approval, and the Committee may approve, an application and agreement, on a form furnished by the Committee, providing that where the association receives from individual producers lots of natural condition raisins at any of its receiving points and the raisins are inspected and stored consistent with such application and agreement, such lots shall be eligible for delivery to handlers, pursuant to subparagraph (3) of this paragraph, without reinspection. Any raisins which upon inspection by the inspection service do not meet the applicable grade and condition standards shall be identified immediately following inspection and kept separate and apart from any other raisins in the association's possession.

(2) *Terms and conditions.* The provisions of such application and agreement shall include at least the following terms and conditions:

(i) That the association shall, prior to delivery of any raisins to handlers, arrange for inspection services at the association's receiving station(s), and cause to be submitted to the Committee a statement by the inspection service of such arrangement and of the association's having adequate laboratory and other facilities for such services available at the association's receiving station(s).

(ii) That the association shall maintain such facilities satisfactory to the inspection service.

(iii) That the association shall request inspection of each lot of raisins immediately upon physical arrival thereof at the association's receiving station(s), and shall provide the inspector with any assistance necessary in the inspection of

such raisins, including the movement of individual containers.

(iv) That the association shall fumigate all raisins received at the association's receiving station(s) as necessary to assure that the raisins are free from active infestation and maintain them as such while on such premises, and that fumigation shall be performed to the satisfaction of the inspection service.

(v) That the association shall, with respect to all raisins entering its premises which are not returned to the producer as provided in subdivision (vi) of this subparagraph, promptly affix to one or more containers in each lot, or to a container in each pallet if pallets are used, a Committee control card showing thereon such information as the Committee requires to maintain the producer identity of each lot and prevent commingling with any other lot. The association shall not move all or any portion of a lot of raisins on the premises of the association's receiving station(s) or load any such raisins for shipment, except in the presence of an inspector of the inspection service.

(vi) That the association shall store any standard raisins and any off-grade raisins which are held by it after receipt and inspection on the premises of its receiving station(s) under conditions which protect the raisins from rain, infestation and contamination, and which can be expected to maintain their respective conditions except for normal and natural deterioration and shrinkage. Any raisins which after receipt and inspection are not accepted and held by the association shall be returned to the producer within 5 business days after the issuance of the inspection certificate.

(vii) That the association shall furnish the inspection service with a completed Committee form requesting issuance, at the time of loading any lot of inspected raisins for delivery to any handler's inspection point, of a memorandum report of inspection covering such lot.

(viii) That the association shall deliver to the handler at the time of receipt of any such lot of eligible raisins at the handler's inspection point the original and one copy of the inspection service's related memorandum report of inspection; and such original and copy shall accompany the shipment of such lot from the premises of the association's receiving station(s) to the handler's inspection point.

(ix) That the association shall maintain complete records of the receipt, holding and disposition of each lot of raisins and retain such records for at least 2 years after the crop year in which such transactions occurred.

(x) That the association shall file promptly with the Committee certified reports showing such information as the Committee may request relative to the association's receipts, holdings, and dispositions of raisins.

(xi) That the association shall permit the Committee, the inspection service, and the Secretary of Agriculture, through their duly authorized repre-

sentatives, to have access to the premises of the association's receiving station(s) to inspect such premises and any raisins thereon and any and all records with respect to the association's receipts, holdings and dispositions of raisins.

(xii) That upon approval of the application and agreement, the Committee will notify handlers of such approval and that eligible lots of inspected raisins will not require incoming inspection at handler inspection points; will notify the interested handlers of any suspension or revocation, for good cause, of the eligibility of a particular lot of raisins; and will notify handlers of any suspension or termination of the application and agreement.

(xiii) That the Committee will request the inspection service to establish a fee to the association for the services to be rendered at the same rate as is charged handlers.

(xiv) That the application and agreement may be suspended or terminated as provided therein.

(3) *Waiver of requirement for incoming inspection at handler inspection point.* Any lot of raisins which (i) is inspected on the premises of the association's receiving station(s) pursuant to an approved application and agreement, (ii) is in compliance with the provisions of such application and agreement and this paragraph, (iii) is moved under the surveillance of the inspection service to a handler's inspection point from the association's receiving station(s) after issuance of the related memorandum report of inspection, and (iv) is accompanied by such memorandum report to be furnished to the handler, may be received by the handler without the inspection as required by § 989.58(d) at time of receipt.

(4) *Handler's obligations.* With respect to such raisins received by the handler, the handler shall comply with all applicable requirements and procedures of this part, including, but not limited to, the inspection prescribed in § 989.59 and that required, as prescribed in § 989.58(d), prior to the handler acquiring reconditioned raisins. Immediately upon a handler receiving any such raisins accompanied by the applicable memorandum report of inspection, the handler shall give to the inspector at the handler's inspection point where such raisins are received, the original and one copy of the memorandum report so that the inspector may enter the net weight and scale ticket number on such memorandum report of inspection and copy thereof.

SUBPART—SCHEDULE OF PAYMENTS

2. Paragraph (c) of § 989.401 is revised to read:

§ 989.401 *Payment for services performed with respect to reserve tonnage raisins.*

(c) *Payment of rental on boxes containing reserve tonnage raisins held beyond the crop year of acquisition.* Each handler, producer, dehydrator, and other person who furnishes boxes in which re-

serve tonnage raisins are held for the account of the Committee on September 1 of any crop year (commencing with the crop year beginning Sept. 1, 1967) which were also so held on August 15 of the preceding crop year (but with respect to the 1966-67 crop year, held as surplus tonnage), shall be compensated for the use of such boxes at the rate of 30 cents per average net weight of raisins in a sweatbox, with equivalent rates for raisins in containers other than sweatboxes. The average net weight of raisins in each type of container shall be the industry average as computed by the Committee, for the containers in which the raisins are so held. No further compensation shall be paid unless the raisins are so held in the containers on the next succeeding September 1.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) This action authorizes and provides for the inspection of natural condition raisins at the receiving stations of a cooperative bargaining association and thus relieves part of the restrictions on handlers with respect to such inspection; (2) to compensate for increased costs, it increases the rental payments on boxes in which certain reserve tonnage raisins are held, for the account of the Raisin Administrative Committee, on and after September 1, 1967; (3) in view of the foregoing, this action should become effective promptly so as to maximize the benefits therefrom; and (4) handlers are aware of this action as recommended by the Committee and require no advance notice to comply therewith.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated November 30, 1967, to become effective upon publication in the FEDERAL REGISTER.

PAUL A. NICHOLSON,
Deputy Director,
Fruit and Vegetable Division.
