Sec.
5A-72.502 Replenishment of standard stock catalog items, except buildings maintenance supplies.
5A-72.505 Buildings maintenance supplies.
5A-72.506 Buyers assigned to self-service stores.

Subpart 5A-72.5—Procurement of Items for Self-Service Stores

1. Section 5A-72.502 is revised as follows:

§ 5A-72.502 Replenishment of standard stock catalog items, except buildings maintenance supplies.

Standard stock catalog items stocked by self-service stores normally shall be replenished by an order from the store manager on GSA supply distribution facilities stocks in accordance with standard procedures. Whenever a store item cannot be replenished because of non-availability from GSA supply distribution facilities, the regional Chief, Order Branch, shall notify the regional Chief, Inventory Management Branch. The regional Chief, Inventory Management Branch, shall determine whether emergency local purchase action is necessary to meet the store requirement and take such action, or authorize purchase by the self-service store under small purchase procedures, furnishing appropriate source information and other procurement instructions to the store. The store may procure up to \$100 in value for a single line item of standard stock catalog items. (For different limitations applying to buildings maintenance items see § 5A-72.505.)

2. Section 5A-72.503 is revised as follows:

§ 5A-72.503 Replenishment of other self-service store items.

(a) Self-service store managers may be authorized to purchase up to \$500 in value of stocks required for replenishment of an item not carried in regular GSA supply distribution facilities. Such procurement shall be in accordance with the source information and procurement instructions furnished by the regional Procurement Division. Determination as to whether store managers shall procure such items under small purchase procedures shall be made on an item by item basis. (For special limitations regarding buildings maintenance items see § 5A-72.505.)

(b) Orders issued against Federal Supply Schedule contracts or other established sources of supply shall be prepared by the regional Inventory Management Branch or Division unless blanket purchase arrangements can be made with such sources whereunder store managers are authorized to place delivery orders.

(c) For items not available from established sources, the regional Procurement Division shall establish local term contracts or blanket purchase arrangements under which store managers shall be authorized to place delivery orders. When this is not feasible, but adequate local commercial sources of supply are available in the proximity of the store,

the regional Procurement Division shall furnish appropriate source information and purchase descriptions for use by the store manager for satisfying replenishment requirements by small purchase procedures, within the limitations prescribed in this Subpart 5A-72.5, using the procedures for imprest funds, Standard Form 44, etc.

3. Section 5A-72.504 is revised as follows:

(For special limitations regarding buildings maintenance items see § 5A-72.505.) If the requirement exceeds \$50 and the agency advises that it has no local purchasing facilities to procure the item, the requirement shall be forwarded to the regional Procurement Division or instructions shall be obtained from that Division for handling the requirement. Where the agency indicates a continuing need for a nonstock item, consideration shall be given to adding the item to self-service store stock.

4. The material covered in present § 5A-72.505 is transferred to § 5A-72.506 and the following new material is added under § 5A-72.505:

Store managers may be authorized to make purchases up to \$1,500 per line item and up to \$2,500 total for any one purchase of several line items of buildings maintenance supplies which are not available from stock when needed, provided Public Building Service (PBS) does not have its own procurement capability and the self-service store is supporting PBS on their buildings maintenance supply requirements. These purchases shall be made in accordance with the small purchase procedures prescribed in the Federal Procurement Regulations and the General Services Administration Procurement Regulations. The self-service store employee making these purchases must have received training in small purchase procedures. Formal delegation of authority shall be accomplished by regional implementation of the GSA Delegations of Authority Manual (ADM P 5450.39).

5. Section 5A-72.506 is added to incorporate revised material formerly set forth in § 5A-72.505.

§ 5A-72.506 Buyers assigned to self-service stores.

(a) When warranted by the volume of store purchases of items which are not available from GSA supply distribution facilities or which are not stocked for customer agencies, a full time buyer should be assigned to the self-service

store. This applies particularly to stores located in cities other than the regional headquarters cities. Buyers thus assigned shall be authorized to place orders directly on Federal Supply Schedule contracts and other established sources of supply within the limits provided in such contracts, and to handle open-market purchases up to \$2,500 in value.
