b. Closure will be accomplished by multiple friction closures, (e.g., the insertion of more than one flap or tab), completely clinched staples, heat shrinking, or adhesives, or by tape. Paper tape must be a minimum of 60 pounds basis weight kraft. Shrink wrapping is acceptable on the exterior of otherwise acceptable boxes of multiple tape shipments.

121.752 *Tapes from 5 to 10 pounds.*

In addition to the guidelines in 121.751, closure will be accomplished only by the use of adhesives, tape or staples.

121.753 *Tapes from 10 to 20 pounds.*

Packaging and closure will be as above in 121.752 for the five to ten pound range, except that the container should be reinforced or banded in a direction which will provide the greatest support with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding. The use of reinforced tape is adequate for closure and reinforcement of these containers.

121.754 *Tapes from 20 to 40 pounds.*

Tapes in this weight range will be packaged in fiberboard boxes of 175 pound test. Closure will be as above in 121.753 for the 10 to 20 pound range, except that the container will be banded or reinforced at two points with reinforced paper or plastic tape, pressure sensitive filament tape, or firmly applied non-metallic banding, to provide the greatest support.

121.755 *Tapes from 40 to 65 pounds.*

Tapes in this weight range up to 65 pounds will be packaged, closed and reinforced as above in 121.754 for the 20 to 40 pound range, except that fiberboard containers of at least 200 pound test board or equivalent will be used. Containers over 65 pounds will be 275 pound test fiberboard or equivalent.

A Post Office Services (Domestic) transmittal letter making these changes in the pages of the Postal Service Manual will be published and will be transmitted to subscribers automatically. These changes will be published in the FEDERAL REGISTER as provided in 39 CFR 111.3.

(39 U.S.C. 401(2).)

ROGER P. CRAIG,
Deputy General Counsel.

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

[FPMR Amdt. B-39]

PART 101-11—RECORDS MANAGEMENT

Subpart 101-11.5—Microfilming

PROCESSING FILM

AGENCY: National Archives and Records Service, General Services Administration.

ACTION: Final rule.

SUMMARY: The National Archives and Records Service (NARS) conducts hyposulfite tests of film used to make photographic or microphotographic copies of permanent records for Federal agencies to determine whether it meets processing standards described in FPMR 101-11.504-3. This regulation is intended to inform agencies that the current fee charged by NARS for the tests is contained in a GSA FPMR bulletin.

EFFECTIVE DATE: This change is effective February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

James Megronigle, Director, Planning and Analysis Division, Office of the Executive Director, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, 202-523-3214.

Section 101-11.504-3 is revised as follows:

§ 101-11.504-3 Processing film.

The film used to make photographic or microphotographic copies of permanent records shall be processed so that the residual thiosulfate concentration shall be greater than zero but shall not exceed 1 microgram per square centimeter. An optimum concentration of 0.7 micrograms per square centimeter in a clear area is recommended. Agencies conducting their own microfilming program may determine whether their processed film meets this requirement by performing the tests specified in ANSI PH4.8; Methylene Blue Method for Measuring Thiosulfate and the Silver Densitometric Method for Measuring Chemicals in Films, Plates, and Papers; or by submitting a sample for testing from a clear area of the film, measuring at least 2 square inches, to the Office of the Executive Director (NAP), National Archives and Records Service, General Services Administration, Washington, D.C. 20408. A charge will be made for each sample tested. The fee charged for this service is announced in a GSA FPMR bulletin or can be obtained by writing to the above address. COM-produced microfilm of permanent records shall meet the processing standards above. If the processing is to be of the reversal type, it must be full photographic reversal and not the halide-type reversal.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)).

NOTE.—The General Services Administration has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 23, 1978.

JAY SOLOMON,
Administrator of General Services.

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amdt. E-215]

PART 101-30—FEDERAL CATALOG SYSTEM

Subpart 101-30.7—Item Reduction Program

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: This regulation announces the implementation of a Governmentwide item reduction program. The General Accounting Office concluded in a 1974 report to the Congress that the number of similar items within the Government supply system exists due to the lack of adequate agency guidelines. This amendment takes the necessary action by amending the GSA regulations to include an item reduction program.

EFFECTIVE DATE: February 7, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. John I. Tait, Director, Regulations and Management Control Division, Office of the Executive Director, Federal Supply Service, General Services Administration, Washington, D.C. 20406 (703-557-1914).

SUPPLEMENTARY INFORMATION: Although an item reduction program has existed for several years, the number of items in the Federal supply system has remained relatively constant. This situation was recognized by the Comptroller General of the United States in his October 21, 1974, report to the Congress entitled "Number of Items in Federal Supply Catalog Can Be Reduced," B-146778, which recommended that an adequately defined and coordinated item reduction program be developed.

A subsequent GAO report to the Congress entitled "How the Item Reduction Program of the General Services Administration Could Be More

Effective," LCD-76-459, dated July 11, 1977, acknowledged the actions being taken by GSA in response to the 1974 GAO report, and offered additional recommendations relative to strengthening the item reduction program.

In consonance with a recommendation in the 1974 GAO report, the regulations of GSA are changed to incorporate provisions for a continuing item reduction program as an integral element of the Federal Catalog System and to authorize the issuance of the GSA Handbook, Item Elimination, as follows:

The table of contents for Part 101-30 is amended to add the following entries:

Subpart 101-30.7—Item Reduction Program

Subpart 101-30.7 is added to read as follows:

Subpart 101-30.7—Item Reduction Program

§ 101-30.700 Scope of subpart.

This subpart defines the objectives of the item reduction program and assigns responsibilities for its operation. Procedures implementing the policy set forth herein are contained in the GSA Handbook, Item Elimination (FPMR 101-30.7), issued by the Commissioner, Federal Supply Service.

§ 101-30.701 Definitions.

As used in this Subpart 101-30.7, the following terms shall have the meanings set forth in this § 101-30.701.

§ 101-30.701-1 Item reduction study.

"Item reduction study" means the study of a group of generally similar items which are subject to evaluation by physical and performance characteristics. This evaluation process identifies items determined to be unnecessarily similar or uneconomical for Government use and which will be considered for removal from Government supply systems. For items so identified, a replacement item shall be proposed. The result of item reduction studies will indicate items which are authorized for procurement or not authorized for procurement.

§ 101-30.701-2 Item standardization code.

"Item standardization code (ISC)" means a code assigned an item in the supply system which identifies the item as authorized for procurement or not authorized for procurement.

§ 101-30.701-3 Preparing activity.

"Preparing activity" means a Government agency responsible for the preparation of item reduction studies, or an activity authorized by the listed agencies to conduct an item reduction study. The DOD Standardization Directory SD-1 provides such a listing.

§ 101-30.701-4 Standardization relationship.

"Standardization relationship" means the relationship between the replaced item and the replacement item. The replaced item will contain an item standardization code designating the item as not authorized for procurement and therefore must have a replacement item. The relationship of the two items is displayed within the item reduction study by item standardization codes and, upon approval of the study, in the Federal catalog system data base at the Defense Logistics Services Center (DLSC).

§ 101-30.702 Determining item reduction potential.

Item reduction studies are required where there are large numbers of generally similar items which are subject to grouping and examination by item name, item name modifiers, or other characteristics such as sizes, grades, lengths, and materials. Before conducting a full scale item reduction study, the assignee activity shall determine whether sufficient item reduction potential appears to exist. Item reduction studies shall be undertaken only when the expected benefits outwiegh the costs of performing the study.

§ 101-30.703 Program objectives.

The objective of the item reduction program is to reduce the varieties and sizes of similar items in the Government supply system by:

(a) Implementing a coordinated item reduction process among supply managers of using activities;

(b) Standardizing items the Government uses;

(c) Ensuring that all participants in item reduction studies give priority to controlling and completing item reduction studies;

(d) Promptly recording decisions in the Federal catalog system data base; and

(e) Phasing out of the Government supply system those items identified in item reduction studies as not authorized for procurement to reduce cataloging, supply management, and warehousing costs; then following through to eliminate the items from agency catalog systems.

§ 101-30.704 Agency responsibilities.

§ 101-30.704-1 General Services Administration.

(a) The General Services Administration (GSA) will develop or authorize other Government agencies to develop item reduction studies on items within the Federal supply classification (FSC) classes for which GSA is the integrated material manager.

(b) GSA, as the civil agency coordinating activity for item reduction studies originated by both GSA and DOD, will:

(1) Distribute proposed item reduction studies, as appropriate, to all civil agencies recorded as users of the item in the DLSC data base. This distribution will be made by coordination letters in which a time frame for a response will be specified. GSA will interpret each nonresponse to a proposed study to mean that the activity concurs with the study. Extensions, when requested by an agency, will be granted by GSA.

(2) Respond to questions concerning proposed item reduction studies.

(3) Prepare a consolidated civil agency position paper (including comments and nonconcurrences) relative to each study upon receipt of user responses.

(4) Incorporate civil agency positions into proposed item reduction studies prepared by GSA or forward a consolidated civil agency position paper to appropriate preparing activities.

(5) Resolve controversies arising from proposed item reduction study recommendations.

(6) Review approved item reduction studies to ensure that concurrences and nonconcurrences from all civil agencies are accurately reflected.

(7) Register into the Federal catalog system, data base approved item reduction decisions concerning items within the FSC classes which are managed by GSA.

(8) Implement decisions documented in approved item reduction studies within the GSA supply system.

(9) Distribute approved item reduction studies to all recorded civil agency users. All civil agencies (except direct submitters of catalog data to DLSC) will also be forwarded covering letters which will request specific information relative to implementing the studies; i.e., inventory levels of items coded ISC 3. Activities not responding within the time frame specified (60 calendar days) will receive a followup notice before being automatically withdrawn as users of all items coded as not authorized for procurement.

§ 101-30.704-2 Other agencies.

Civil agencies participating in the Federal Catalog System shall:

(a) Conduct a review of the items included in the proposed study by the preparing activity with respect to the ISC to determine the impact the assigned code may have on the agency's supply system.

(b) Prepare and submit written comments on the proposed study to GSA within the time frame specified in the GSA coordination letter, concur with the study, or nonconcur on specific proposed standardization relationships. If comments cannot be prepared and submitted within the time frame specified, an extension shall be requested from GSA.

(c) Review the approved item reduction study and notify GSA in writing if the activity desires to remain or be deleted as a user of any item coded as not authorized for procurement. Those agencies which are direct submitters of catalog data to DLSC are excluded from the aforementioned requirement. Direct submitters of catalog data to DLSC shall promptly take all necessary cataloging actions resulting from the approved item reduction studies.

(d) Implement within the agency those item reduction decisions resulting from the study.

§ 101-30.705 GSA assistance.

Activities requiring assistance in fulfilling their responsibilities to the program shall contact the General Services Administration (FFL), Washington, D.C. 20406.

Subparts 101-30.8—101-30.48—[Reserved]

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

NOTE.—The General Services Administration has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 30, 1978.

JAY SOLOMON,
Administrator of General Services.

[6712-01]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 21457; RM-2941]

PART 73—RADIO BROADCAST SERVICES

Changes made in Table of Assignments; FM Broadcast Station in Bridgeport, Tex.

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: Action herein assigns a first Class A FM channel to Bridgeport, Tex. The station will provide a first full-time local aural broadcast service to the community.

EFFECTIVE DATES: March 16, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Bridgeport, Tex.). Docket No. 21457 RM-2941. Report and order. Proceeding terminated. See 42 FR 57974.

Adopted: January 25, 1978.

Released: January 31, 1978.

1. On October 28, 1977, the Commission adopted a Notice of Proposed Rule Making, 42 FR 57974, proposing the assignment of Channel 244A to Bridgeport, Tex., as its first FM assignment. Petitioner, Wise Media Inc., filed supporting comments reaffirming its intention to immediately make application for the channel, if assigned. No oppositions to the proposal were received.

2. Bridgeport (pop. 3,614), in Wise County, (pop. 19,687)[1], is located in north central Texas approximately 64 kilometers (40 miles) northwest of Fort Worth and approximatly 103 kilometers (64 miles) northwest of Dallas. Bridgeport has no local aural broadcast service.

3. Petitioner states that Bridgeport is the largest incorporated city in Wise County. We are told that its economy involves gas and oil production, stone and gravel production, as well as ranching and farming.

4. We have given careful consideration to the proposal and believe that Channel 244A should be assigned to Bridgeport, Tex. An interest has been shown for its use, and the assignment would provide the community with an opportunity to acquire its first local aural broadcast service which would be in the public interest. Assignment of Channel 244A to Bridgeport can be made in conformity with the minimum distance separation requirements, provided the transmitter site is located approximately 8 kilometers (5 miles) northeast of the community. Operation from such a site, the station would be able to provide the requisite city grade coverage to Bridgeport.

5. Authority for the action taken herein is contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

6. In view of the foregoing, *It is ordered*, That effective March 16, 1978, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, as regards Bridgeport, Tex., is amended as follows:

City: Bridgeport, Tex., Channel No. 244A.

7. *It is further ordered*, That this proceeding is terminated.

Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

Title 30—Mineral Resources

CHAPTER VII—OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT, DEPARTMENT OF THE INTERIOR

SURFACE MINING RECLAMATION AND ENFORCEMENT PROVISIONS

Collection, Submission or Retention of Information

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Final rules.

SUMMARY: These regulations confirm clearance by the General Accounting Office of surface mining reclamation and enforcement regulations requiring collection, submission or retention of information. Filing deadlines for submission of plans for the reconstruction of pre-existing, nonconforming structures and for applications for the small operator exemption are extended to March 1, 1978. In addition, the information to be filed by March 1, 1978, for pre-existing, nonconforming structures has been changed to require a written statement rather than a professionally engineered plan.

EFFECTIVE DATE: February 7, 1978.

ADDRESSES: Director, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240, 202-343-4237. Assistant Director, Regulatory Reports review, U.S. General Accounting Office, Room 5033, 441 G Street, NW., Washington, D.C. 20548.

FOR FURTHER INFORMATION CONTACT:

Peter Kelsey, 202-343-2107.

SUPPLEMENTARY INFORMATION: On December 13, 1977, the Secretary of the Interior promulgated regulations at Title 30, Code of Federal Regulations Chapter VII (42 FR 62639-62716) under the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87. A number of the regulations requiring collection, submission or retentin of information were adopted subject only to review by the General Accounting Office (GAO) pursuant to 44 U.S.C. 3512. The General Accounting Office solicited public comments on these regulations by public notice in the FEDERAL REGISTER on December 23, 1977 (42 FR 64436). GAO clearance of each of the regulations listed at 42 FR 62675 and 62714 except as noted below and of §§ 715.15(a)(9) and 715.15(b)(12) was given on February 3, 1978. Accordingly, these regulations are effective immediately.

Two of the provisions which were subject to GAO review, §§ 710.11(d)(2)(ii) and 710.12(d), contained filing dates of February 3, 1978. In view of the delayed effective date of these sections required by GAO review and clearance procedures pursuant to 44 U.S.C. 3512, it is necessary to revise the filing dates so as to allow reasonable notice and time for operators to avail themselves of these provisions. Therefore, the deadline for submission of a plan to the regulatory authority for the reconstruction of pre-existing, non-conforming structures is extended to March 1, 1978. Similarly, the deadline for submission of an application to the Director for a special exemption for small operators is extended to March 1, 1978.

As a result of the review process the reporting requirements under § 710.11(d)(2) for pre-existing nonconforming structures are being revised. The revision lessens the reporting burden while maintaining the obligation to provide justification for nonconforming structures which cannot physically be brought into conformance with applicable standards by May 4, 1978.

The reporting requirements contained in 30 CFR § 710.4(b), 710.11(d)(2)(ii), and 710.12(e) have been approved by the U.S. General Accounting Office under number B-190462 (R0493).

The reporting and recordkeeping requirements contained in 30 CFR § 715.11(c), 715.13(d), 715.15(a)(9), 715.15(b)(12), 715.17(j)(3), 715.18(b) (2) and (6), 715.19 (b), (c), (d), and (e)(4) have been approved by the U.S. General Accounting Office under number B-190462 (R0494).

The reporting requirements contained in 30 CFR 716.7(c), (d) and (e) have been approved by the U.S. General Accounting Office under number B-190462 (R0495).

The reporting requirements contained in 30 CFR 717.18(b) (2) and (6) have been approved by the U.S General Accounting Office under Number B-190462 (R0496).

The reporting requirements contained in 30 CFR 718.1(b) have been approved by the U.S. General Accounting Office under number B-190462 (R0497).

The reporting requirements contained in 30 CFR 720.13 have been approved by the U.S. General Accounting Office under number B-190462 (R0498).

The reporting and recordkeeping requirements contained in 30 CFR 725.15, 725.23(a) and 725.24 have been approved by the U.S. General Accounting Office under number B-190462 (R0499).

The reporting and recordkeeping requirements contained in 30 CFR 740.13 (a) and (b), 740.16(e), 740.18, 740.26, and 740.27 have been approved by the U.S. General Accounting Office under number B-190462 (R0500).

The reporting requirements contained in 30 CFR 795.11 (a) and (b), 795.12, 795.14, 795.16, and 795.17 have been approved by the U.S. General Accounting Office under number B-190462 (R0501).

The recordkeeping requirement contained in 30 CFR 837.16 has been approved by the U.S. General Accounting Office under number B-190462 (R0502).

This rulemaking includes amendments to the appropriate parts of 30 CFR Chapter VII to note that GAO clearance has been received as noted above for the identified recordkeeping and reporting requirements.

In keeping with GAO review and clearance procedures, the Office of Surface Mining will amend 30 CFR 715.17(b)(v) and 717.17(b)(v) to make the reporting time period consistent with EPA reporting periods under the NPDES system. The amendment will also provide the option to operators or submitting a copy of the report, or notification of where the report has been filed under NPDES requirements, if the report contains the same information and is filed at the same reporting intervals. This amendment will be published as soon as EPA's written concurrence is obtained as required by section 501(a) of the Surface Mining Control and Reclamation Act of 1977. GAO has indicated it will clear these sections as soon as EPA concurrence of the amendment is received.

The written comments received by the General Accounting Office and a letter responding to the comments from the Director, Office of Surface Mining Reclamation and Enforcement are available for public inspection at the Office of the Assistant Director, Regulatory Reports Review, U.S. General Accounting Office, Room 5106, 441 G Street NW., Washington, D.C. 20548.

DRAFTING INFORMATION

Principal authors of these regulations are William A. Gershuny and Peter B. Kelsey, Office of the Solicitor, Division of Surface Mining.

Dated: February 3, 1978.

WALTER N. HEINE,
Director, Office of Surface Mining Reclamation and Enforcement.

Chapter VII of Title 30 of the Code of Federal Regulations is amended as follows:

PARTS 710, 715, 716, 717, 718, 720, 725, 740, 795, 837 [Amended]

1. 30 CFR §§ 710.4(b), 710.11(d)(2)(ii), 710.12(e), 715.11(c), 715.13(d), 715.15(a)(9), 715.15(b)(12), 715.17(j) (3) and (5), 715.18(b) (2) and (6), 715.19 (b), (c), (d), and (e)(4), 716.7 (c), (d), and (e), 717.18(b) (2) and (6), 718.1(b), 720.13, 725.15, 725.23(a), 725.24, 740.13 (a) and (b), 740.16(e), 740.18, 740.26, 740.27, 795.11 (a) and (b), 795.12 (a) and (b), 795.14, 795.16, 795.17(a) (3) and (b), and 837.16 are effective on (date of publication)

2. In 30 CFR 710.11 paragraph (d)(2) is revised to read as follows:

§ 710.11 Applicability

* * * * *

(d) * * *

(2) Any pre-existing, nonconforming structure or facility which is used in connection with or to facilitate mining after the effective date of these regulations shall comply with the requirements of the regulations, unless—

(i) The permittee submits to the regulatory authority by March 1, 1978, a statement in writing demonstrating that it is physically impossible to bring the structure or facility into compliance by May 4, 1978. The statement shall include the steps to be taken to reconstruct the structure or facility in conformance with applicable performance standards and a schedule for reconstruction including the estimated date of completion;

(ii) The regulatory authority finds in writing that it is physically impossible to bring the structure or facility into compliance by May 4, 1978;

(iii) The construction work is to be performed in accordance with plans designed by a professional engineer; and

(iv) the construction work is to be started and completed as soon as possible and in no event is to be started later than May 4, 1978 and completed later than November 4, 1978.

§ 710.12 [Amended]

3. In 30 CFR 710.12 paragraph (d) is revised to read as follows:

* * * * *

(d) Application for an exemption under this section shall be submitted to the Director of the Office by March 1, 1978 with a copy to the State regulatory authority.

4. Included after § 710.12 in Part 710 is the following note:

NOTE.—The reporting requirements contained in 30 CFR § 710.4(b), 710.11(d)(2)(ii), and 710.12(e) have been approved by the U.S. General Accounting Office under number B-190462 (R0493).

§ 715.20 [Amended]

5. Included after § 715.20 in Part 715 is the following note:

NOTE.—The reporting and recordkeeping requirements contained in 30 CFR § 715.11(c), 715.13(d), 715.15(a)(9), 715.15(b)(12), 715.17(j)(3), 715.18(b) (2) and (6), 715.19 (b), (c), (d) and (e)(4) have been approved by the U.S. General Accounting Office under number B-190462 (R0494).

§ 716.7 [Amended]

6. Included after § 716.7 in Part 716 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 716.7 (c), (d) and (e) have been approved by the U.S. General Accounting Office under number B-190462 (R0495).

§ 717.20 [Amended]

7. Included after § 717.20 in Part 717 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 717.18(b) (2) and (6) have been approved by the U.S. General Accounting Office under B-190462 (R0496).

§ 718.1 [Amended]

8. Included after § 718.1 in Part 718 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 718.1(b) have been approved by the U.S. General Accounting Office under number B-190462 (R0497).

§ 720.13 [Amended]

9. Included after § 720.13 in Part 720 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 720.13 have been approved by the U.S. General Accounting Office under number B-190462 (R0498).

§ 725.25 [Amended]

10. Included after § 725.25 in Part 725 is the following note:

NOTE.—The reporting and recordkeeping requirements contained in 30 CFR 725.15, 725.23(a) and 725.24 have been approved by the U.S. General Accounting Office under number B-190462 (R0499).

§ 740.28 [Amended]

11. Included after section 740.28 in Part 740 is the following note:

NOTE.—The reporting and recordkeeping requirements contained in 30 CFR 740.13 (a) and (b), 740.16(e), 740.18, 740.26, and 740.27 have been approved by the U.S. General Accounting Office under number B-190462 (R0500)

§ 795.19 [Amended]

12. Included after § 795.19 in Part 795 is the following note:

NOTE.—The reporting requirements contained in 30 CFR 795.11 (a) and (b), 795.12, 795.14, 795.16 and 795.17 have been approved by the U.S. General Accounting Office under number B-190462 (R0501).

§ 837.16 [Amended]

13. Included after § 837.16 in Part 837 is the following note:

NOTE.—The recordkeeping requirement contained in 30 CFR 837.16 has been approved by the U.S. General Accounting Office under number B-190462 (R0502).

(Secs. 201 and 501, Pub. L. 95-87, 91 Stat. 445 (30 U.S.C. 1201).)
