INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs

Decided: October 16, 1979.

In our decisions of September 11, 18, 25, and October 2 and 9, 1979, a 9.5-percent surcharge was authorized on all owner-operator traffic, and on all truckload traffic whether or not owner-operators were employed. We ordered that all owner-operators were to receive compensation at this level.

Although the weekly figures set forth in the appendix for transportation performed by owner-operators and for truckload traffic is 9.8 percent, we are authorizing that the 9.5-percent surcharge on this traffic remain in effect. All owner-operators are to continue to receive compensation at the 9.5-percent level. In addition, no change will be made in the existing authorization of a 1.7-percent surcharge on less-than-truckload traffic performed by carriers not utilizing owner-operators.

Further, by virtue of our decision in Ex Parte No. 311 (Sub-No. 2B), served October 12, 1979, motor carriers of passengers are permitted to file for a maximum 3.6-percent surcharge in accordance with the provisions of Special Permission No. 79-2800. According to the index, no change will be made in the existing 3.6-percent surcharge on this traffic.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy to the Director, Office of the Federal Register, for publication therein.

It is ordered: This decision shall become effective Friday, 12:01 a.m., October 19, 1979.

By the Commission, Chairman O'Neal, Vice Chairman Stafford, Commissioners Gresham, Clapp, Christian, Trantum, Gaskins and Alexis. Chairman O'Neal, Vice Chairman Stafford and Commissioner Christian were

absent and did not participate in the disposition of this proceeding.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

[Directed Service Order No. 1398; Supplemental Order No. 4]

Kansas City Terminal Railway Co.—Directed To Operate Over Chicago, Rock Island & Pacific Railroad Co., Debtor (William M. Gibbons, Trustee)

Decided: October 12, 1979.

This decision is being issued to amend two provisions of the initial Directed Service Order (decided and served September 26, 1979; published in the Federal Register on October 1, 1979 at 44 FR 56343).

The first amendment regards the monetary threshold for distinguishing between major and minor rehabilitation for rail cars and other nonlocomotive equipment. The second amendment concerns the matter of approval for continuation of preexisting

arrangements and agreements by the directed rail carrier (DRC).

Equipment Maintenance

At present, the Directed Service Order requires the DRC to obtain prior Commission approval for all rehabilitation for car and other nonlocomotive equipment which exceeds \$250 per unit. See page 25 [44 FR 56348 columns 1 and 2]. Upon further consideration, we believe this figure to be too low.

In the original order, we differentiated between "major" and "minor" equipment repairs, and expressed our belief that advance Commission approval should only be required for the former. We initially set the upper threshold for "minor" at \$250 for cars and other nonlocomotive equipment. However, after more thorough review, we believe an upper limit of \$1,200 per unit to be a more realistic gauge of normal equipment maintenance. Accordingly, we shall amend the language of the original Directed Service Order to read as follows:

Page 25 [¶4] [44 FR 56348, 2nd column, 1st paragraph]—In line 3 of paragraph 4, change the phrase "\$250 per unit" to read: "\$1,200 per unit".

Page 25 [¶4] [44 FR 56348, 2nd column, 1st paragraph]—Insert before the last sentence in the "Minor Rehabilitation" section the following sentence: "No repairs of this type should be initiated unless they can be completed well within the 60-day statutory time frame."

Continuation of Existing RI Arrangements

At present, the DRC is required to obtain Commission approval in order to continue any existing Rock Island (RI) arrangements or agreements essential to its operation of the directed lines. See pages 33-35 [44 FR 56349, 3rd column through 56350, 1st column] and ordering paragraph 10 (page 40) [44 FR 56351, 1st column].

Substantial time and money would be spent in submitting, reviewing, and passing upon the hundreds of existing RI arrangements covering routine operational matters which the DRC must assume in order to provide directed service. This would result in a needless burden on both Commission and DRC resources. Moreover, continuation of essential prior arrangements would in no way alter the preexisting status quo, but would simply maintain conditions to the extent necessary for the provision of directed service. Thus, we do not believe it necessary to consider individually each continuation of an existing RI agreement or arrangement. Rather, we shall permit the DRC to continue those RI agreements or

arrangements which are essential to the provision of directed service without or advance approval.

Accordingly, we shall amend the language of the original Directed Service Order to read as follows:

Page 33 (§3) [44 FR 56349, 3rd column]—End sentence 2 of paragraph 3 after the word "operations". Also, delete the rest of the sentence.

Page 33 (§3) [44 FR 56349, 3rd column]—Add the following sentence to paragraph 3 after the word "operations."

The DRC need not seek our prior approval to continue preexisting RI agreements or arrangements, even where such agreements or arrangements require the expenditure of funds. Any funds expended by the DRC according to the terms of any RI agreements or arrangements continued by the DRC shall be deemed reimbursable costs of directed service.

Page 34 (§1) [44 FR 56349, 3rd column]—In sentence 2, insert the word "and" between clauses (3) and (4); end the sentence after clause (4); and delete clause (5).

Page 34 (§3) [44 FR 56350, 1st column]—In the title to this paragraph, insert the word "and" between the words "Trustee," and "KCT's". Also, delete the words "and Continuation of RI Arrangements".

Page 34 (§3) [44 FR 56350, 1st column]—In line 5, change the word "four" to "three".

Page 34 (§3) [44 FR 56350, 1st column]—In sentence 1, insert the word "and" between clauses "(b)" and "(c)"; end the sentence after clause "(c)"; and delete clause "(d)".

Page 34 (§3) [44 FR 56350, 1st column]—In line 10, change the word "four" to "three".

Page 35 (§1) [44 FR 56350, 1st column]—In line 1, change the word "three" to "two".

Page 35 (§1) [44 FR 56350, 1st column]—In line 2, delete the words "and continuations of arrangements".

Page 35 (§2) [44 FR 56350, 1st column]—In line 7, change the word "four" to "three".

Page 40 (ordering §10) [44 FR 56351, 1st column]—Delete the second sentence.

It is ordered: (1) Directed Service Order No. 1398 is amended as indicated above.

By the Commission, Chairman O'Neal, Vice Chairman Stafford, Commissioners Gresham, Clapp, Christian, Trantum, Gaskins and Alexis, Commissioner Gresham concurring.
Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

Permanent Authority Decisions, Decision-Notice

The following applications, filed on or after March 1, 1979, are governed by Special Rule 247 of the Commission's *Rules of Practice* (49 CFR 1100.247). These rules provide, among other things, that a petition for intervention, either in support of or in opposition to the granting of an application, must be filed

with the Commission within 30 days after the date notice of the application is published in the *Federal Register*.

Protests (such as were allowed to filings prior to March 1, 1979) *will be rejected*. A petition for intervention without leave must comply with Rule 247(k) which requires petitioner to demonstrate that it (1) holds operating authority permitting performance of any of the service which the applicant seeks authority to perform, (2) has the necessary equipment and facilities for performing that service, and (3) has performed service within the scope of the application either (a) for those supporting the application, or, (b) where the service is not limited to the facilities of particular shippers, from and to, or between, any of the involved points.

Persons unable to intervene under Rule 247(k) may file a petition for leave to intervene under Rule 247(l) setting forth the specific grounds upon which it is made, including a detailed statement of petitioner's interest, the particular facts, matters, and things relied upon, including the extent, if any, to which petitioner (a) has solicited the traffic or business of those supporting the application, or, (b) where the identity of those supporting the application is not included in the published application notice, has solicited traffic or business identical to any part of that sought by applicant within the affected marketplace the extent to which petitioner's interest will be represented by other parties, the extent to which petitioner's participation may reasonably be expected to assist in the development of a sound record, and the extent to which participation by the petitioner would broaden the issues or delay the proceeding.

Petitions not in reasonable compliance with the requirements of the rules may be rejected. An original and one copy of the petition to intervene shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named.

Section 247(f) provides, in part, that an applicant which does not intend to timely prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

If an applicant has introduced rates as an issue it is noted. Upon request, an applicant must provide a copy of the tentative rate schedule to any protestant.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not*

be accepted after the date of this publication.

Any authority granted may reflect administrative acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the present and future public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the transportation policy of 49 U.S.C. 10101. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a petitioner, that the proposed dual operations are consistent with the public interest and the transportation policy of 49 U.S.C. 10101 subject to the right of the Commission, which is expressly reserved, to impose such terms, conditions or limitations as it finds necessary to insure that applicant's operations shall conform to the provisions of 49 U.S.C. 10930(a) [formerly section 210 of the Interstate Commerce Act].

In the absence of legally sufficient petitions for intervention, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of the decision-notice. To the extent that the authority sought below may duplicate an applicant's other authority, such duplication shall be construed as conferring only a single operating right.

Applicants must comply with all specific conditions set forth in the grant or grants of authority within 90 days after the service of the notification of the effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.
