day only when the servicing intermediary finds that the additional time is warranted. The primary effect of this change will be to prevent payment for more than one day in those situations where additional time is not needed to arrange for postdischarge care.

2. Availability of Skilled Nursing Facility Beds. Several of those who commented were concerned that the lack of available skilled nursing facility beds in their localities would make transfers during the 1-day grace period difficult, if not impossible. The regulatory change does not affect current policies and procedures that allow a hospital inpatient requiring a skilled level of nursing care to continue to receive payment for care at the hospital until an available skilled nursing facility bed can be found for the patient within the hospital's locality (42 CFR 405.1627(a)(2)). Thus, Medicare beneficiaries subject to §1814(a)(7) should not be increased hardship because of this change.

3. Inconsistent “Grace Periods”. Several commenters expressed concern that the grace period under sections 1879 and 1158 of the Social Security Act, which under routine circumstances allow payment for only 1 day, are not consistent with the grace period payment allowed under section 1814(a)(7) of the Act, which routinely allows payment for up to 3 days following a notice by the provider's utilization review committee. As a result, they fear that Medicare beneficiaries will be treated differently under these provisions.

Section 1814(a)(7) permits payment for 3 days of institutional care following the day upon which an institution receives a utilization review committee notice that further care is not medically necessary, if the patient remains in the institution. However, unlike sections 1879 and 1158, section 1814(a)(7) applies only when services rendered up to the time of the utilization review committee's finding are medically necessary. Also, unlike sections 1879 and 1158, section 1814(a)(7) does not expressly offer any discretion in the number of days for which such payments are to be made. Section 1879 leaves the length of the “grace period” to the discretion of the Secretary. Section 1158 mandates 1 day, but authorizes a PSRO to approve up to 2 additional days of payment, for a total of 3 days, if the patient requires more time to arrange for postdischarge care.

Since payment for “grace period” days under section 1814(a)(7) cannot be changed by regulation, the change being made here will result in an apparent inconsistency. However, it should be noted that section 1814(a)(7) applies only to hospitals and skilled nursing facilities which are not under PSRO review. PSRO implementation in hospitals is already well along and the application of section 1814(a)(7) should eventually be phased out entirely. Therefore, we think changing this regulation now will achieve as much consistency as possible.

5. Determining Need for Additional Time. One commenter expressed concern that the regulation provides for the intermediary to make the decision as to whether more time is required to arrange for postdischarge care. Another suggested that the regulation should put more emphasis on requiring the provider to demonstrate that more time is required to arrange for postdischarge care. The regulation is consistent with the overall claims review responsibility of intermediaries for determining the amount of payments due providers under Medicare, and for making such payment. The intermediary’s determination will be based on information or recommendations from varied sources and forwarded by the provider from, for example, an attending physician, the utilization review committee, a social service agent or some other party familiar with the beneficiary’s situation. Thus, the provider or other sources must demonstrate to the intermediary sufficient need for additional time to arrange for postdischarge care to justify an extension of the grace period.

6. Need for Regulations Change. Several commenters questioned the need for the regulation change, suggesting that it would increase paperwork and would not result in any significant savings.

We do not believe that the regulation change will substantially increase paperwork. Furthermore, we believe that the change will result in reduced Medicare payments for noncovered services under section 1879, by encouraging providers and patients to make more timely arrangements for postdischarge care.

In our view, any increase in administrative costs will be far outweighed by the savings in Medicare payment.

Accordingly, the amendments are adopted without change, as set forth below.

42 CFR 405.330 is amended by revising paragraph (b) to read as follows:

§ 405.330 Payment for certain nonreimbursable expenses.

(b) Payment under this provision may be made for inpatient hospital services, post hospital extended care services, and home health services (as defined in §§ 405.116, 405.125, and 405.236 respectively) furnished on the first day after which ever of the following days is the earlier:

   (1) The day on which the individual, to whom such items or services were furnished, has been determined, under § 405.333(a), to have knowledge, actual or imputed, that such items or services were excluded from coverage by reason of § 405.310(g) or § 405.310(k);

   or

   (2) The day on which the provider of services, which furnished such items or services, has been determined, under § 405.332(b), to have knowledge, actual or imputed, that such items or services were excluded from coverage by reason of § 405.310(g) or § 405.310(k).

If it is determined by the fiscal intermediary that more time is required in order to arrange post discharge care, payment may be made for services furnished for up to 2 additional days.

PART 1003—LIST OF FORMS

PART 1100 APPENDIX F—NUMBER OF COPIES OF DOCUMENTS

PART 1134—CONTROL OR CONSOLIDATION OF MOTOR CARRIERS OR THEIR PROPERTIES

Revision of Finance Forms

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Commission is revising certain finance forms used in applications to consolidate, merge, purchase, or lease operating rights and properties of a motor carrier, acquire control of a carrier, issue and sell securities, and temporarily operate a carrier sought to be acquired. The changes are intended to make the forms easier to understand and to conform statute citations to the recent codification of the Interstate Commerce Act. Several minor reporting changes have been made to meet the requirements of previous statutory and regulatory changes.

EFFECTIVE DATE: Applications filed on or after July 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, (202) 275-7292.

SUPPLEMENTARY INFORMATION: The Commission is taking this action so that these forms conform to previous changes in statutes and regulations and so they are easier to understand. The forms include OP-F-44, application to consolidate, merge, purchase, or lease operating rights and properties of a motor carrier, OP-F-45, application for authority to acquire control of a motor carrier or motor carriers through ownership of stock or otherwise, OP-F-46, application for approval of the temporary operation of motor carrier properties sought to be acquired under separately filed applications or of transfers of motor carrier certificates and permits, OP-F-200, application for authority to issue securities, or to assume obligation or liability in regard to securities of another person, and OP-F-210, special application for authority to sell securities without competitive bidding. In addition, the number of copies required to be filed with the Commission has been reduced to three, along with the original, in all cases. Except for these minor changes, no substantive changes have been made. Therefore, prior notice to the public is unnecessary, see 5 U.S.C. 553(b).

In accordance with The Energy Policy and Conservation Act of 1975, the Commission recently adopted rules at 49 CFR 1106. Each of the application forms complies with that Act and adopted rules, by requiring applicant to specify whether the proposed action under the application is a major regulatory action under the terms of that Act and to provide supplementary information where applicable. There is no reporting requirement in Form OP-F-46. That form concerns applications for approval of temporary operation of a motor carrier properties, thus falling outside the scope of the reporting requirements, see 49 CFR 1106.7(c).

Item 7 of Form OP-F-200 has been changed to bring it into agreement with Section 308 of the Railroad Revitalization and Regulatory Reform Act of 1976. The Commission adopted the new procedures listed in Item 7 in Ex Parte No. 279, Securities Regulations—Public Offerings (Form of Offering Circular Required for Public Sales of Securities Authorized under Section 20a or 21a of the Interstate Commerce Act), decided March 24, 1976 (not printed).

Finally, improved internal handling of these application forms has lessened the requirement for the number of copies needed by the Commission. In the future only an original and three copies need be filed. Appropriate sections of the Code of Federal Regulations, as indicated below, are modified to reflect these changes.

If persons wish to comment on the format or correctness of the attached forms, they may file comments with the Commission within 30 days of the service date of this notice. Please mail them directly to Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423.

By the Commission, Chairman O'Neal, Vice Chairman Brown, Commissioners Stafford, Gresham, Clapp,
and Christian. Vice Chairman Brown absent and not participating.

H. G. Homme, Jr.,
Secretary.

OPERATIONS UNDER THE RIGHTS SOUGHT TO BE ACQUIRED

Attach to original and each copy of this application the following appendices:

D-1. Map showing the operations sought to be acquired, authority, if any, to be retained by transferor, and all pertinent portions of transferee's present authority.

[ ] YES [ ] NO

If answer is YES and joinder or tacking is intended, indicate the points or areas where the involved authorities would connect and the territory that would be served through the joinder. Show on map the method by which tacking would be accomplished. Consideration must be given to the provisions of Ex Parte 55 (Sub-No. 8), Gateway Elimination, 119 M.C.C. 530.

(Attach pertinent portions of authority now held or sought in pending applications).

Dormancy will be assumed respecting operating authority for which no shipments are shown, and other supporting data will be required.

The abstract shall be accompanied by a summary reflecting total number of shipments and weight transported between origin and destination point. If regular routes are involved the summary shall indicate the routes over which the shipments moved.

D-5. If transferor is a carrier of passengers, or applicants will not rely on transferor's operations or the supporting evidence of public witnesses, describe the type of evidence which applicants rely upon to support their burden of proof.

D-6. Vendee affirms that if the authority being sought is granted, it shall not restrict, halt, or curtail service to and/or from any points previously served by vendor whether by tariff or otherwise. [ ] YES [ ] NO. If "no" explain.

For public disclosure purposes, these railroad securities are subject to the jurisdiction of the Securities and Exchange Commission. However, a railroad still must file with this Commission all material filed with the SEC. RULES AND REGULATIONS

feet depth or greater, it comes ashore to nest and lay eggs.

Courtship and mating are believed to occur in waters adjacent to nesting beaches just prior to the time of egg laying. Accordingly, the survival and recovery of the leatherback depends on the maintenance of suitable undisturbed nesting beaches and protection of waters adjacent to those beaches.

During the early summer of 1977 the U.S. Fish and Wildlife Service (FWS) identified a nesting aggregation of leatherback sea turtles occurring at the western end of St. Croix, U.S. Virgin Islands. Personnel of the FWS, NMFS, U.S. Coast Guard, and Government of the Virgin Islands conducted observation on St. Croix during the month of June. In excess of 70 leatherback nests were discovered on the 0.4 mile belt of Sandy Point Beach during those observations. This area constitutes a major beach under U.S. jurisdiction used for nesting by the endangered leatherback. The FWS designated Sandy Point Beach on St. Croix as critical habitat for the leatherback sea turtle September 26, 1978 (43 FR 43888).

Pursuant to an agreement between the FWS and the NMFS, the FWS has jurisdiction over sea turtles on the land and the NMFS over sea turtles in the marine environment. These regulations designate as critical habitat an area of the marine environment adjacent to a nesting beach previously designated as critical habitat by the FWS.

The Endangered Species Act Amendments of 1978 define the term "critical habitat" as follows:

(i) the specific areas within the geographical area occupied by the species, at the time it is listed in accordance with the provisions of section 4 of this Act, on which, among those essential biological features (I) essential to the conservation of the species and (II) which may require special management considerations or protection; and
(ii) specific areas outside the geographical area occupied by the species at the time it is listed in accordance with the provisions of section 4 of this Act, upon a determination by the Secretary that such areas are essential for the conservation of the species.

Since the area designated as critical habitat is used by the leatherback for courting and mating activities and provides an access to and from an important nesting beach, the NMFS believes the area is essential for the conservation of the species.

Since the area designated as critical habitat is used by the leatherback for courting and mating activities and provides an access to and from an important nesting beach, the NMFS believes the area is essential for the conservation of the species.
Written comments were received from Mr. Glen O. Clark, Acting Superintendent, Virgin Islands National Park, and from Ms. Laura Tangley, Defenders of Wildlife; both supported the proposed designation.

Mr. Clark indicated that staff of Christiansted National Historic Site and Buck Island Reef National Monument have inspected the proposed critical habitat area and concur in the designation of this area as critical habitat for the leatherback sea turtle.

Defenders of Wildlife noted that the proposed area is of critical importance to the leatherback in the course of carrying out its normal courting, breeding, and nesting activities, and fails within the definition of critical habitat under the Endangered Species Act of 1973 as well as the Act’s 1978 amendments. In addition to supporting this designation, Defenders of Wildlife further recommended that NMFS identify other areas under U.S. jurisdiction that may be essential to the conservation of the species and designate these areas as critical habitat.

Defenders of Wildlife expressed concern that although private activities in the Sandy Point Beach area such as commercial and recreational fishing, boating, swimming, and diving are not directly affected by designating the area as critical habitat, these private activities could potentially have a detrimental impact on leatherback sea turtles at times of courting, breeding, and nesting. Defenders of Wildlife recommended the NMFS investigate the impacts of these private activities on leatherback sea turtles, and should the research, if necessary, seasonally close the area to one or more of such private activities. Defenders of Wildlife further recommended that NMFS provide the turtles additional protection by publicly notifying their endangered status and by concentrating enforcement efforts in the area.

The NMFS received no requests for a public hearing on the proposal. The only activities that have been identified as possibly modifying this critical habitat of being impacted by its designation are recreational activities such as boating and swimming and sandmining. Recreational activities may result in disturbances in the water column that could affect the critical habitat, but designation of this habitat will not impact private recreational activities. Sandmining may result in increased turbidity in the water column which may result in adverse modification of this habitat.

CONCLUSION
All information available to NMFS indicates that the area proposed as critical habitat needs to be protected to help conserve the leatherback sea turtle. In addition, the economic and other impacts of this designation are either speculative or nonexistent. Based on the best scientific and commercial data available, the Assistant Administrator for Fisheries hereby determines that the waters adjacent to Sandy Point Beach, St. Croix, U.S. Virgin Islands are critical habitat for the leatherback sea turtle.

EFFECT OF THE RULEMAKING
The major effect of designating this area as critical habitat will be to require any Federal department or agency that authorizes, funds, or carries out activities that might result in the destruction or adverse modification of the critical habitat to comply with Section 7 of the Act. At this time there are no known Federal activities planned for this area.

Private activities are not directly affected by designating an area as critical habitat. The taking of any endangered turtle is presently prohibited by the provisions of the Endangered Species Act of 1973.

NATIONAL ENVIRONMENTAL POLICY ACT
The Assistant Administrator for Fisheries has determined that this action is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(c) of the National Environmental Policy Act of 1969. An environmental assessment has been prepared in conjunction with this rulemaking. It is on file in the NMFS Office of Marine Mammals and Endangered Species, 3300 Whitehaven Street, N.W., Washington, D.C. 20503, and may be examined during regular business hours or obtained by mail.

MISCELLANEOUS
On October 4, 1978, NMFS proposed to add a new Part 226, entitled Designated Critical Habitat, to Title 50 of the Code of Federal Regulations; and, to designate the Port Canaveral Navigation Channel, Cape Canaveral, Florida, as a critical habitat under 50 CFR Part 226 (43 FR 45905). The public comment period on establishing a new Part 226 closed on December 4, 1978. The designation of the Port Canaveral Navigation Channel is still pending. Nevertheless, no comments were received on the general provisions of the proposed new 50 CFR Part 226, and NMFS considers it appropriate to promulgate these general provisions at this time.

Under Executive Order 12044 (43 FR 28170) and Department of Commerce Administrative Order 218-7 (44 FR 2082), the Assistant Administrator for Fisheries has made an initial determination that this is not a significant regulation.

The primary author of this rulemaking is Mr. Richard B. Roe, Office of Marine Mammals and Endangered Species, National Marine Fisheries Service, (202) 634-7287.

REGULATION PROMULGATION
Accordingly, 50 CFR is amended by adding a new Part 226 as follows:

PART 226—DESIGNATED CRITICAL HABITAT

Subpart A—Introduction

Sec. 226.1 Purpose of regulations.
226.2 Scope of regulations.

The list of these species is found in 50 CFR § 222.23(a) for endangered species and 50 CFR § 227.4 for threatened species.

§ 226.2 Scope of regulations.

(a) The critical habitat designations contained in this Part apply only to the endangered and threatened species listed in this Part.

(b) Regulations implementing section 7 of the Endangered Species Act, as amended, are found in 50 CFR Part 402.

(c) The provisions in this Part are in addition to, and not in lieu of other regulations of Parts 217-227 and 402 of this Chapter.

SUPPLEMENTARY INFORMATION:
The Farmers Home Administration amends a portion of Exhibit B of Subpart A, Part 2003, Chapter XVIII, Title 7 in the Code of Federal Regulations. The function of the St. Louis Field Operations Branch was inadvertently published as though it was a subordinate element of the St. Louis Finance Office; whereas, it should have been shown as subordinate to the Business Services Division of FmHA's Washington headquarters. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is not published for proposed rulemaking since the change is only to correct the organizational structure and publication in prior rule making form is unnecessary. Therefore, Exhibit B to 7 CFR Part 2003 is amended by transferring the information under "St. Louis Field Operations Branch" which is under "Finance Office," in column 3 on page 59043 of the Federal Register for December 19, 1978 to appear just before the heading "Communications Center" which is under the "Business Services Division" on page 59059 as follows:

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling
AGENCY: Agricultural Marketing Service, USDA.
ACTION: Final rule.
SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period March 25-31, 1979. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.
EFFECTIVE DATE: March 25, 1979.

SUPPLEMENTARY INFORMATION: Findings. This regulation is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee, and upon other information. It is hereby found that this action will tend to effectuate the declared policy of the act. This regulation has not been determined significant under the USDA criteria for implementing Executive Order 12044.

The committee met on March 20, 1979, to consider supply and market conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is improving.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the Federal Register (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.491 Lemon Regulation 191.
Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period March 25, 1979, through March 31, 1979, is established at 235,000 cartons.
(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.
