

Subcommittee chairmen and representatives of the NRC Staff regarding the proposed NRC Safety Research Program and related budget for FY-82.

Portions of this session will be closed as necessary to discuss Proprietary Information and information the release of which would frustrate the ACRS in the accomplishment of its statutory responsibilities.

3:30 p.m.-6:00 p.m.: Executive Session (Open)

The Committee will hear and discuss the report of its Subcommittee and consultants who may be present regarding development of quantitative risk criteria. Proposed ACRS comments regarding the April 19, 1980 incident at the Davis-Besse Nuclear Power Plant, Unit 1 will also be discussed.

Saturday, June 7, 1980

8:30 a.m.-3:30 p.m.: Executive Session (Open)

The Committee will complete discussion of and prepare its reports to the NRC regarding matters considered during this meeting. In addition, the Committee will discuss proposed reports to the NRC regarding safety related items identified by individual members including shutdown heat removal in nuclear power plants, and systematic analysis of routinely reported information from operating nuclear facilities.

A status report of the ACRS Subcommittee on Regulatory Activities and the schedule for future Committee activities will also be discussed.

The Committee will discuss the qualifications of candidates proposed for appointment to the Committee.

Portions of this session will be closed as necessary to discuss Proprietary Information and information the release of which would frustrate the ACRS in the accomplishment of its statutory responsibilities. Portions of this session will also be closed as necessary to protect information the release of which would represent an unwarranted invasion of privacy.

Procedures for the conduct of and participation in ACRS meetings were published in the *Federal Register* on October 1, 1979 (44 FR 56408). In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Committee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture and television cameras during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a telephone call to the ACRS Executive Director (R. F.

Fraley) prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the ACRS Executive Director if such rescheduling would result in major inconvenience.

I have determined in accordance with Subsection 10(d) Pub. L. 92-463 that it is necessary to close portions of this meeting as noted above to protect Proprietary Information (5 U.S.C. 552b(c)(4)), to protect information the release of which would constitute a clearly unwarranted invasion of personal privacy (5 U.S.C. 552b(c)(6)), and to enable frank discussions with members of the NRC Staff regarding budget information which would not be possible if held in public. Such discussions must be held in closed session to prevent frustration of the ACRS in performance of its statutory responsibilities (5 U.S.C. 552b(c)(9)(B)).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley, or in his absence the ACRS Deputy Director, Mr. Marvin C. Gaske, (telephone 202/634-3265), between 8:15 a.m. and 5:00 p.m. EDT.

Dated: May 19, 1980.

Advisory Committee Management Officer.

**Northeast Nuclear Energy Co.,
Hartford Electric Light Co., Western
Massachusetts Electric Co. and
Connecticut Light & Power Co.;
Issuance of Amendment to Provisional
Operating License**

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 67 to Provisional Operating License No. DPR-21, issued to Northeast Nuclear Energy Company, the Hartford Electric Light Company, Western Massachusetts Electric Company, and Connecticut Light and Power Company (the licensees), which revised the Technical Specifications for operation of the Millstone Nuclear Power Station, Unit No. 1 (the facility) located in Waterford, Connecticut. The amendment is effective as of its date of issuance.

The amendment revises the Appendix A Technical Specifications to add an automatic initiation of the Isolation Condenser on reactor vessel low-low water level and to allow credit for the Isolation Condenser System in the Emergency Core Cooling System performance calculations.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the

Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 19, 1980, and supplements thereto dated April 16, 1980, April 29, 1980 and May 2, 1980 and the licensee's letter dated February 14, 1980, (2) Amendment No. 67 to License No. DPR-21, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., 20555, and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut 06385. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 8th day of May 1980.

For the Nuclear Regulatory Commission,
Dennis M. Crutchfield, Chief,

Screening Committee for Lawyer Vacancies on the Licensing Board Panel; Meetings

Notice is hereby given in accordance with Section 10 of the Federal Advisory Committee Act that the NRC's Advisory Screening Committee for Lawyer Vacancies on the Licensing Board Panel will hold its third, fourth, and fifth meetings on May 27, 1980, June 6, 1980, and June 9, 1980, respectively. Each meeting will be held in the Chairman's Conference Room at 1717 H Street, N.W., Washington, D.C. on each of the days noticed.

Notice of the third meeting of this advisory committee was first published on page 28030 of the *Federal Register* for Friday, April 25, 1980. That notice gave the time and location of the meeting as 9:30 a.m. at East-West Towers, 4350 East-West Highway, Room 415, Bethesda, Maryland 20014. This notice announces that the time for the third meeting has been changed to 9:00 a.m. and that all three meetings will be held at the H Street location. The time for the fourth and fifth meetings on June 6 and June 9 is 9:30 a.m.

The Committee will meet in closed session in all of these meetings. The Committee will interview candidates for the position of Chairman of the Atomic Safety and Licensing Board Panel and will consider the qualifications of applicants.

I have determined, in accordance with Subsection 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, that it is necessary to close these meetings in order to protect information the release of which would represent an unwarranted invasion of personal privacy, under Sec. 5 U.S.C. 552b(c)(6). Separation of factual information from information considered exempt from disclosure is not considered practical.

For further information contact Charles J. Fitti, Assistant Executive Secretary, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission 20555. (Telephone: (301) 492-7814).

Dated in Washington, D.C., this 19th day of May 1980.

[Docket No. 50-206]

Southern California Edison Co. and San Diego Gas & Electric Co.; Issuance of Modification To Relief Granted From ASME Section XI Inservice Inspection (Testing) Requirements

On September 26, 1979, the U.S. Nuclear Regulatory Commission (the Commission) issued Amendment No. 46 to Provisional Operating License No. DPR-13 to Southern California Edison Company and San Diego Gas & Electric Company (the licensees), which revised the Technical Specifications for operation of the San Onofre Nuclear Generating Station, Unit No. 1 (the facility) located in San Diego County, California. The amendment incorporated an inservice program in accordance with 10 CFR section 50.55a and granted relief from certain requirements of the ASME Code, Section XI (44 FR 58557, October 10, 1979).

By letter dated April 30, 1980, as supported by the Safety Evaluation (SE) pages 1, 11, 12, and 13 enclosed thereto, the Commission has modified the relief from certain requirements of ASME Code, Section XI discussed in Item I.A. 1 of the SE supporting Amendment No. 46 to: (1) Include relief from repairs of the pressure retaining boundary for Class 2 and Class 3 components and (2) require, in the event that the repaired cavity exceeds 10% of the minimum design wall thickness, performance of hydrostatic tests for piping, pump and valve repairs that do not penetrate through the pressure boundary.

The request for the revised relief complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the letter and the appropriate safety evaluation pages granting the modified relief.

The Commission has determined that the granting of the modified relief will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this action.

For further details with respect to this action, see (1) the licensee's submittal dated February 14, 1980, (2) Amendment No. 46 to License No. DPR-21, dated September 26, 1979, and the Commission's supporting SE, and (3) the Commission's letter to the licensee

dated April 30, 1980, and replacement pages 1, 2, 5, 8, 11, 12, 13, and 14 for the above referenced SE enclosed thereto. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Mission Viejo Branch Library, 24851 Crisanta Drive, Mission Viejo, California 92676. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda, Md., this 30th day of April 1980.

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

May 19, 1980.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Federal Reports Act (44 U.S.C., Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and

recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions, or reinstatements. Some forms listed as revisions may only have a change in the number of respondents or a reestimate of the time needed to fill them out rather than any change to the content of the form. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

The office of the agency issuing this form;

The title of the form;

The agency form number, if applicable;

How often the form must be filled out;

Who will be required or asked to report;

An estimate of the number of forms that will be filled out;

An estimate of the total number of hours needed to fill out the form; and

The name and telephone number of the person or office responsible for OMB review.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the *Federal Register* but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF-83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim. J. Tozzi, Assistant Director for Regulatory and Information Policy, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

POSTAL RATE COMMISSION

[Docket No. A80-9]

Huggins, Mo. 65484 (Laveta Kelley, Petitioner); Notice and Order of Filing of Appeal

May 15, 1980.

On May 5, 1980, the Commission received a handwritten letter from Laveta Kelley (hereinafter "Petitioner"), concerning alleged United States Postal Service plans to close the Huggins, Missouri, post office. Although the letter makes no explicit reference to the Postal Reorganization Act, we believe it should be construed as a petition for review pursuant to section 404(b) of the Act [39 U.S.C. 404(b)], so as to preserve Petitioner's right to appeal which is subject to a 30-day time limit.¹ The petition does not conform perfectly with the Commission's rules of practice, which also require a petitioner to attach a copy of the Postal Service's Final Determination to the petition.² However, section 1 of the Commission's rules of practice calls for a liberal construction of the rules to secure just and speedy determination of issues.³

The Act requires that the Postal Service provide the affected community with at least 60 days' notice of a proposed post office closing so as to "ensure that such persons will have an opportunity to present their views."⁴ The petition requests that the decision to close the Huggins post office be reversed. From the face of the petition it is unclear whether any hearings were held and whether a determination has been made under 39 U.S.C. 404(b)(3). (Petitioner failed to supply a copy of the Postal Service's Final Determination, if one is in existence.) The Commission's rules of practice require the Postal Service to file the administrative record of the case within 15 days after the date
