(i.e., the product of their average weekly volume multiplied by the *Level 1* [representative] bid quotation at the time of compilation of the list). In addition, no issue shall be initially eligible for inclusion in the list, or continue to be eligible for such list when revised, whose average weekly volume is less than 750 shares at the time of compilation. [See Paragraph D below].

B. Additional OTC–NASDAQ List

The additional OTC–NASDAQ List shall include approximately 950 NASDAQ issues which have the next highest dollar value of average weekly volume (i.e., the product of their average weekly volume multiplied by the *Level 1* [representative] bid quotation at the time of compilation of the list).

Procedures for Self Regulatory Organization

The proposed amendments were developed by the Association's NASDAQ Committee and approved by the Board of Governors at its March 1980 meeting.

The NASD's Statement of Purpose of Proposed Rule Change

The proposed rule change will conform Schedule D to the dissemination of inside quotation requirements contained in SEC Rule 11Acl–2 (17 C.F.R. § 240.11Acl–2).

In addition, the proposed rule change amends the footnote to Section A of Part XI of Schedule D to reflect a technical change in the ranking formula for average weekly volume.

The NASD's Statement of Basis Under the Act for the Proposed Rule Change

Section 11A(c) of the Act provides that no self-regulatory organization may collect, process, distribute or publish any information with respect to quotations in contravention of such rules and regulations prescribed by the Commission. SEC Rule 11Acl–2 prohibits vendors from providing a representative bid or ask.

Comments Received From Members, Participants or Others on Proposed Rule Change

Article XVI of the Association's By-Laws does not require membership approval of changes to Schedule D. Therefore, no comments were solicited or received regarding this proposed rule change.

The NASD's Statement on Burden on Competition

As noted above, this rule change is filed in direct response to the adoption of SEC Rule 11Acl–2. The Association envisions no effects on competition beyond those considered by the Commission in the adoption of such rule.

On or before June 26, 1980, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) by order approve such proposed rule change, or

(b) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before June 12, 1980.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

Notice is hereby given that Sho-Me Power Corporation ("Sho-Me"), an electric utility company organized under the laws of Missouri, and each of the nine rural electric distribution cooperative corporations ("the Distribution Cooperatives") which own all of the issued and outstanding capital stock of Sho-Me, have filed an application for exemption pursuant to Section 3(a)(1) and (a)(2) of the Public Utility Holding Company Act of 1935 ("Act"). All interested persons are referred to the application, which is summarized below, for a complete statement as to the basis upon which the exemption is sought.

Sho-Me is the wholesale power supplier for the Distribution Cooperatives and for eighteen municipalities in Missouri, and serves approximately 8000 retail customers in rural Missouri. Sho-Me has 24,993 shares of common stock issued and outstanding which are owned equally by the nine Distribution Cooperatives. At December 31, 1979, Sho-Me reported total assets of $54,042,765, and, for the year then ended, gross operating revenues of $40,592,173.

Each of the Distribution Cooperatives is organized under the laws of and operates exclusively within Missouri. The Distribution Cooperatives are subject to regulation by the Rural Electrification Administration. They are not engaged in any business other than the business of supplying electric energy to their respective consumer members, and have no subsidiary companies other than Sho-Me. At December 31, 1979, and for the year ended, the Distribution Cooperatives reported total assets and operating revenues and patronage capital as follows:

Distribution cooperative	Total assets	Operating revenues and patronage capital
1. Crawford Electric Coop., Inc	$12,203,453	$4,815,103
2. Gascosage Electric Coop	3,858,079	2,247,549

7. Southwest Electric Coop	15,124,479	7,779,556
8. Webster Electric Coop	5,887,719	3,209,057

distant past. For example, at present the weighting parameter is chosen to give [20%] *10%* weight to the most current volume and less than 1% weight to the volume that occurred [13] *23* weeks ago. Thus, the significance of the reported volume as maintained for more than [one quarter] *6* months is virtually nil. Wherever average weekly volume requirements are mentioned in this Section, they are compiled in the above manner.

[2] To be supplied by amendment.

Section 3(a) provides, in part, that the Commission may exempt a holding company and its subsidiaries, as such, if:

(1) such holding company, and every subsidiary company thereof which is a public-utility company from which such holding company derives, directly or indirectly, any material part of its income, are predominantly intrastate in character and carry on their business substantially in a single State in which such holding company and every such subsidiary company thereof are organized; (or)

(2) such holding company is predominantly a public-utility company whose operations as such do not extend beyond the State in which it is organized and States contiguous thereto.

On the basis of the facts in the application, the Distribution Cooperatives state that they are entitled to an exemption under Section 3(a)(1) or (a)(2), and that the exemption would be in the public interest and interest of investors and consumers.

Notice is further given that any interested person may, not later than June 9, 1980, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants at the above-stated addresses and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted in the manner provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may take such other action as it deems appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including notice of the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Secretary.

BILLING CODE 4910-13-M

Timely Submission of Preapplications Under the Airport Development Aid Program (ADAP)

In order to allow sufficient time to process requests for Federal assistance under the Airport Development Aid Program (ADAP) (14 CFR Part 152) this fiscal year, airport sponsors are advised to submit preapplications no later than June 30. Unless this deadline is met, the Federal Aviation Administration (FAA) cannot assure processing of preapplications in time to allocate funds, including funds apportioned to the sponsors of air carrier airports. This deadline is necessary to assure the efficient administration and effective use of ADAP funds.

This deadline is intented for projects that require normal handling. Submission prior to June 30, however, cannot guarantee processing of any project. For projects involving time-consuming issues such as substantial environmental concerns, earlier submission will be necessary and timetables for these will have to be considered with FAA field offices on a case-by-case basis.

Sponsors may submit preapplications after June 30, but processing of late submissions may not be accomplished this fiscal year.
