1-203. The hours for registration in United States Post Offices shall be the business hours during the days of operation of the particular United States Post Office. The hours for registration in United States Embassies and Consulates shall be those prescribed by the United States Embassies and Consulates.

1-3. Manner of Registration.

1-301. Persons who are required to be registered shall comply with the registration procedures and other rules and regulations prescribed by the Director of Selective Service.

1-302. When reporting for registration each person shall present for inspection reasonable evidence of his identity. After registration, each person shall keep the Selective Service System informed of his current address.

Having proclaimed these requirements for registration, I urge everyone, including employers in the private and public sectors, to cooperate with and assist those persons who are required to be registered in order to ensure a timely and complete registration. Also, I direct the heads of Executive agencies, when requested by the Director of Selective Service and to the extent permitted by law, to cooperate and assist in carrying out the purposes of this Proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand this second day of July, in the year of our Lord nineteen hundred and eighty, and of the Independence of the United States of America the two hundred and fourth.

7 CFR Part 905

[Orange, Grapefruit, Tangerine, and Tangelo Reg. 3, Amdt. 12]

Oranges, Grapefruit, Tangerines, and Tangelos Grown in Florida; Amendment of Grade Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment lowers the minimum grade requirements on domestic and export shipments of Florida Valencia and other late type oranges from U.S. No. 1 to U.S. No. 2 Russet. Specification of such minimum grade requirements for Florida Valencia and other late type oranges is necessary because of current and prospective supply and demand for such fruit, and to maintain orderly marketing conditions in the interest of producers and consumers.

EFFECTIVE DATE: June 30, 1980.

FOR FURTHER INFORMATION CONTACT: Malvin E. McGaha, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202-447-5975. The Final Impact Analysis relative to this final rule is available on request from the above named individual.

SUPPLEMENTARY INFORMATION: *Findings.* This final action has been reviewed under USDA procedures established in Secretary's Memorandum 1955 to implement Executive Order 12044, and has been classified "not significant". This regulation is issued under the marketing agreement and Order No. 905 (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida. The

agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The regulation is based upon the recommendations of the committee established under the marketing agreement and order, and upon other information. It is found that the regulation of shipments of Valencia and other late type oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

The amendment reflects the Department's appraisal of the current and prospective supply and market demand conditions for Florida Valencia oranges. Less restrictive grade requirements for such fruit are consistent with the character of much of the oranges available for fresh shipment.

This action was recommended at a public meeting at which all present could state their views. There is insufficient time between the date when information became available upon which this regulation is based and when the action must be taken to warrant a

60-day comment period as recommended in E.O. 12044, and it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the Federal Register (5 U.S.C. 553). It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time. This amendment relieves restrictions on the handling of Valencia and other late type oranges.

Accordingly, it is found that the provisions of § 905.303 (44 FR 59195; 65962; 66779; 69917; 72025; 74794; 45 FR 6591; 7999; 12773; 24446; 27739; and 35305) should be and hereby are amended by revising in Table I (applicable to domestic shipments of the specified fruit) and in Table II (applicable to export shipments of the specified fruit) the minimum grade applicable to Valencia and other late type oranges as follows:

§ 905.303 Orange, Grapefruit, Tangerine, and Tangelo Regulation 3.

[Valencia Orange Reg. 652, Amdt. 1;
Valencia Orange Reg. 653]

**Valencia Oranges Grown in Arizona
and Designated Part of California;
Limitation of Handling**

AGENCY: Agricultural Marketing Service,
USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of fresh California-Arizona Valencia oranges that may be shipped to market during the period July 4-July 10, 1980, and increases the quantity of such oranges that may be so shipped during the period June 27-July 3, 1980. Such action is needed to provide for orderly marketing of fresh Valencia oranges for the periods specified due to the marketing situation confronting the orange industry.

DATES: The regulation becomes effective July 4, 1980, and the amendment is effective for the period June 27-July 3, 1980.

FOR FURTHER INFORMATION CONTACT: Malvin E. McGaha, 202-447-5975.

SUPPLEMENTARY INFORMATION: *Findings.* This regulation and amendment are issued under the marketing agreement, as amended, and Order No. 908, as amended (7 CFR part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The action is based upon the recommendations and information submitted by the Valencia Orange Administrative Committee and upon other available information. It is hereby found that the action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1979-80 which was designated significant under the procedures of Executive Order 12044. The marketing policy was recommended by the committee following discussion at a public meeting on January 22, 1980. A final impact analysis on the marketing policy is available from Malvin E. McGaha, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202-447-5975.

The committee met again publicly on July 1, 1980 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of Valencia oranges deemed advisable to be handled during the specified weeks. The committee reports the demand for Valencia oranges is steady.

It is further found that there is insufficient time between the date when information became available upon which this regulation and amendment are based and when the actions must be taken to warrant a 60-day comment period as recommended in E.O. 12044, and that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the Federal Register (5 U.S.C. 553), and the amendment relieves restrictions on the handling of Valencia oranges. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective times.

1. Section 908.953 is added as follows:

§ 908.953. Valencia Orange Regulation 653.

Order. (a) The quantities of Valencia oranges grown in Arizona and California which may be handled during the period July 4, 1980, through July 10, 1980, are established as follows:

- (1) District 1: 308,000 cartons;
- (2) District 2: 344,000 cartons;
- (3) District 3: Open Movement.

(b) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" mean the same as defined in the marketing order.

§ 908.952 [Amended]

2. Paragraph (a) in § 908.952 Valencia Orange Regulation 652 (45 FR 43151), is hereby amended to read:

§ 908.952 Valencia Orange Regulation 652.

(a) * * *

- (1) District 1: 453,000 cartons;
- (2) District 2: 397,000 cartons;
- (3) District 3: Open Movement.

[Nectarine Regulation 12, Amendment 1]

**Nectarines Grown in California; Grade
and Size Requirements**

AGENCY: Agricultural Marketing Service,
USDA.

ACTION: Final rule.

SUMMARY: This amendment extends minimum grade and size requirements currently in effect for fresh California nectarine shipments for the balance of the 1980 season. Such action is designed to promote orderly marketing of suitable quality and sizes of fresh California nectarines in the interest of producers and consumers.

EFFECTIVE DATES: July 7, 1980, through May 31, 1981.

FOR FURTHER INFORMATION CONTACT: Malvin E. McGaha, Chief, Fruit Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250, telephone: 202-447-5975. The Final Impact Statement relative to this final rule is available on request from the above named individual.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum 1955 to implement Executive Order 12044, and has been classified as "not significant." Section 916.354 Nectarine Regulation 12, which established grade and size requirements for fresh shipments of nectarines for the period May 16-July 6, 1980, was published in the May 16, 1980, issue of the Federal Register (45 FR 32308).

Notice of proposed extension of these requirements was published in the Federal Register (45 FR 38386; 41962), on June 9, 1980, and it provided interested persons 15 days for filing written comments. None were received.

This amendment is issued under the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916), regulating the handling of nectarines grown in California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). This action is based upon the recommendations and information submitted by the Nectarine Administrative Committee established under the marketing agreement and order which requested that the regulatory provisions be effective through May 31, 1981, and upon other available information.

Under the amendment, California fresh nectarine shipments are required to grade at least U.S. No. 1, except that provision is made for a higher maturity standard based on color standards by variety or other specified tests. The grade requirements allow slightly less scarring, but an additional 25 percent tolerance is permitted for fruit not well formed but not badly misshapen. In addition, minimum size requirements are specified for 56 varieties of nectarines in terms of the number of

fruit in a No. 22D standard lug box, or in a 16-pound sample.

These grade and size requirements reflect the Department's appraisal of the need for regulating nectarines during the 1980 season, based on the available supply and market demand conditions. Production of 1980 season California nectarines is estimated at 185,000 tons compared with production of 172,000 tons in 1979, and 148,000 tons in 1978. Shipment of this season's nectarine crop, which is sizing well and of good quality, is currently underway.

After consideration of all matter presented, including the proposals in the notice and other available information, it is hereby found that this amendment is in accordance with the marketing agreement and order and it will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the *Federal Register* (5 U.S.C. 553) in that: (1) Nectarines are currently being shipped and the regulatory provisions should apply to all shipments in order to effectuate the declared policy of the act; (2) The regulatory provisions are the same as those currently in effect as well as those in the notice to which no comments were filed; and (3) Handlers have been apprised of such provisions and the effective time.

Therefore, § 916.354 Nectarine Regulation 12 (45 FR 32308) is amended to read as follows: (§ 916.354 expires May 31, 1981, and will not be published in the annual Code of Federal Regulations).

§ 916.354 Nectarine Regulation 12.

(a) During the period July 7, 1980, through May 31, 1981, no handler shall handle:

(1) Any package or container of any variety of nectarines unless such nectarines meet the requirements of U.S. No. 1 grade: *Provided*, That maturity shall be determined by the application of color standards by variety or such other tests as determined to be proper by the Federal or Federal-State Inspection Service: *Provided further*, That nectarines 2 inches in diameter or smaller, shall not have fairly light colored, fairly smooth scars which exceed the aggregate area of a circle $\frac{3}{8}$ inch in diameter, and nectarines larger than 2 inches in diameter shall not have fairly light colored, fairly smooth scars which exceed an aggregate area of a circle $\frac{1}{2}$ inch in diameter: *Provided further*, That an additional tolerance of 25 percent shall be permitted for fruit that is not well formed but not badly misshapen.

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D

standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 88 nectarines in the lug box; or

(ii) Such nectarines in any container when packed other than specified in subdivision (i) of this subparagraph (5) are of a size that a 16-pound sample representative of the nectarines in the package or container, contains not more than 78 nectarines.

(b) As used herein, "U.S. No 1" and "standard pack" means the same as defined in the United States Standards for Grades of Nectarines (7 CFR 2851.3145-3160); "No. 22D standard lug box" means the same as defined in § 1387.11 of the "Regulations of the California Department of Food and Agriculture." All other terms mean the same as defined in this marketing order.
