**Bureau of Alcohol, Tobacco and

**27 CFR Part 9**

[T.D. ATF-95 Re: Notice No. 350]

**Guenoc Valley Viticultural Area**

**AGENCY:** Bureau of Alcohol, Tobacco and Firearms, Treasury.

**ACTION:** Final rule, Treasury decision.

**SUMMARY:** This rule establishes a viticultural area in Lake County, California, named "Guenoc Valley." The Bureau of Alcohol, Tobacco and Firearms (ATF) feels that the establishment of viticultural areas and their subsequent use as appellations of origin in wine labeling and advertising will allow wineries to better designate the specific grape-growing areas where their wines come from and will enable consumers to better identify the wines they purchase.

**EFFECTIVE DATE:** December 21, 1981.

**FOR FURTHER INFORMATION CONTACT:** Roger Bowling, Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226 (202-566-7626).

**SUPPLEMENTARY INFORMATION:**

**Background**

On August 23, 1978, ATF published Treasury Decision ATF-53 (43 FR 37672, 54624) revising regulations in 27 CFR Part 4. These regulations allow the establishment of definite viticultural areas. The regulations also allow the name of an approved viticultural area to be used as an appellation of origin on wine labels and in wine advertisements. Section 4.25a(e)(1) defines an American viticultural area as a delimited grape-

growing region distinguishable by geographical features. Section 4.25a(e)(2) outlines procedures for proposing an American viticultural area.

In response to a petition, ATF published a notice of proposed rulemaking on October 27, 1980, in the Federal Register (45 FR 70911) proposing the Guenoc Valley viticultural area in Lake County, California. ATF solicited public comment concerning the proposed area and held a public hearing on January 15, 1981, in Santa Rosa, California.

**Historical Evidence**

Based on the testimony received at the public hearing and information contained in the petition, ATF has determined that "Guenoc Valley" is the appropriate name for this viticultural area. Guenoc Valley has been locally known by that name, at least, since the original Mexican land grant in 1845. Grapes were grown in the area as early as 1887 when Lillie Langtry purchased Guenoc Ranch. Historical evidence also indicates that a winery existed on the property at that time. According to the testimony, the boundaries of the viticultural area reasonably delineate the area historically known as Guenoc Valley.

**Geographical Features**

In accordance with 27 CFR 9.3(b)(3), a viticultural area must possess geographical features which distinguish the viticultural features of the area from those of surrounding areas. Based on the evidence presented at the hearing and information presented in the petition, ATF has determined that Guenoc Valley possesses geographical features which distinguish the area viticulturally.

Commenters at the public hearing presented evidence indicating that Guenoc Valley is a smaller inland valley comprising an alluvial fan of Arroyo Seco and Conejo Loam series soils isolated from surrounding areas by rocky ridges. This geographical location also affects the climate. Guenoc Valley has slightly less rainfall than the nearby Middletown area. Guenoc Valley receives approximately 45 to 50 inches of rain per year, while Middletown receives approximately 60 inches per year. Guenoc Valley also experiences slightly greater seasonal temperature extremes, being warmer in the summer and colder in the winter. Also, due to the surrounding ridges, fog is generally less severe than in Middletown.

**Boundaries**

ATF is approving the Guenoc Valley viticultural area boundaries as proposed. While these boundaries

include some of the surrounding higher elevations, they reasonably delineate the area known as "Guenoc Valley." The language in § 9.26(c) has been changed to make the regulatory language clearer. The regulations describe the Guenoc Valley viticultural area through the use of angles and feet from one reference point to another. Basically, the viticultural area comprises 4,396.3 acres located south of McCreary Lake and east of Detert Reservoir.

**Executive Order 12291**

In compliance with Executive Order 12291 ATF has determined that this final rule is not a major rule since it will not result in—

(a) An annual effect on the economy of \$100 million or more;

(b) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(c) Significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

**Regulatory Flexibility Act**

This final rule relates to a notice of proposed rulemaking published prior to January 1, 1981, and therefore, is not subject to the requirements of the Regulatory Flexibility Act.

**Drafting Information**

The principal author of this document is Thomas Minton of the Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms.

**Authority and Issuance**

This Treasury decision is issued under the authority of 27 U.S.C. 205.

**Regulations**

On the basis of the foregoing, 27 CFR Part 9 is amended by the addition of § 9.26 as follows:

**PART 9—AMERICAN VITICULTURAL

(c) *Boundaries.* The Guenoc Valley viticultural area is located within Lake County, California. The beginning point of the boundary is Station 20 of Denton's Survey of Guenoc Rancho, presently marked by a 1½ inch galvanized pipe located atop Jim Davis Peak. On the approved maps, Jim Davis Peak is the unnamed peak (elevation 1,455 feet) located on the western boundary of Section 35, Township 11 North, Range 6 West. From this beginning point the boundary runs—

- (1) South 07°49'34" East, 9,822.57 feet to the USGS triangulation station "Guenoc;"
