[TN-003; A-4-FRL 2219-5]

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; Tennessee: VOC Compliance Schedules, DuPont Operating Permit and Section 107 Redesignations

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The State of Tennessee has submitted revisions to its State Implementation Plan (SIP) for EPA's approval. The revisions include individual VOC compliance schedules and an individual operating permit. The State has also requested the redesignation of two areas to unclassifiable for TSP. EPA hereby approves these changes.

EFFECTIVE DATE: This action will be effective December 27, 1982 unless notice is received within 30 days that someone wishes to submit adverse or critical comments.

ADDRESSES: Written comments should be addressed to James Manning of EPA Region IV's Air Management Branch (see EPA Region IV address below). Copies of the material submitted by Tennessee may be examined during normal business hours at the following locations:

Public Information Reference Unit,
Library Systems Branch,
Environmental Protection Agency, 401
M Street, SW., Washington, D.C.
20460

Library, Office of the Federal Register,
1100 L Street NW., Room 8401,

Division, 150 9th Avenue, North,
Nashville, Tennessee 37203

Air Management Branch, Environmental
Protection Agency, Region IV, 345
Courtland Street, NE., Atlanta,
Georgia 30365.

FOR FURTHER INFORMATION CONTACT:
James Manning at the EPA Region IV
address above or call 404/881-3286 (FTS
257-3286).

SUPPLEMENTARY INFORMATION: After public hearing in conformity with 40 CFR 51.4 the Tennessee Air Pollution Control Board (Board) on January 27, 1982, adopted individual compliance schedules for several sources of volatile organic compounds (VOC), an operating permit, and the redesignation of two areas to unclassifiable. The VOC schedules were adopted for the following companies: Mid-Valley Pipeline Company, Hornsby and New Johnsonville; Westvaco Corporation, Cleveland; William L. Bonnell Company, Carthage; and the Trane Company, Clarksville. The schedules are for various sources at the installations. Each source has an individual final compliance date later than allowed by Rule 1200-3-18-41.

Summaries of the individual petitions are as follows:

1. Mid-Valley Pipeline Company in Hornsby and New Johnsonville is installing secondary seals on their floating roof crude oil storage tanks. The extended final compliance date of October 15, 1982, is necessary to allow time for installing the equipment as part of the company's multistate compliance program.

2. Westvaco Corporation in Cleveland is installing solvent recovery systems on two rotogravure presses. The extended final compliance date of December 31, 1985, has been satisfactorily

demonstrated as necessary to allow for equipment testing in their multistate compliance program.

3. William L. Bonnell Company in Carthage is installing applicators to be used with high-solids coatings being developed for their processes. The extended final compliance date of July 1, 1983, is necessary to complete development of those coatings.

4. The Trane Company in Clarksville is changing over to low solvent content in their product coatings. The extended final compliance date of May 1, 1982, allowed the paint testing and evaluation necessary for the process modification.

The compliance schedules were submitted in accordance with Rule 1200-3-18-42 of the Tennessee SIP which specifies the conditions of acceptability of individual compliance schedules. Therefore, EPA is today approving these alternative compliance schedules as a revision to the Tennessee SIP.

The operating permit adopted by the Board is for the Scrub Solids Kiln at E. I. DuPont de Nemours and Company, Inc., in New Johnsonville, Tennessee. The permit was issued in conformance with Rule 1200-3-7-10 of the Tennessee SIP which allows an alternate emission standard of 1.0 grains per dry standard cubic foot of stack gases (gr/dscf) for sources which meet the conditions of the Rule. This standard is in lieu of the limit of 0.25 gr/dscf required by Rule 1200-3-7-.04(2). EPA is approving this alternative emission standard as a revision to the Tennessee SIP.

On January 27, 1982, the Board also changed the attainment status of two areas in the State to unclassifiable for total suspended particulate matter (TSP) in relation to the NAAQS. The first area, that portion of Maury County in the northern section of Columbia, was designated as nonattainment for TSP in the March 3, 1978, Federal Register (43 FR 8962 at 9035). At the public hearing on December 3, 1981, the State presented information indicating that sufficient doubt exists as to the validity of the data used to determine the nonattainment area. After review of that information, EPA agrees with the State's contention and is approving this redesignation.

The second area, that portion of Roane County within the Clymersville section of Rockwood, is currently designated by EPA as attaining the NAAQS TSP standard. The State, however, changed their designation of the area to nonattainment effective October 10, 1979. The redesignation was submitted for EPA's approval on October 15, 1979, but subsequently was withdrawn by the State before EPA

processed it. On January 27, 1982, the Board adopted an amendment redesignating this area as unclassifiable and the State is now requesting that EPA change its designation to unclassifiable also. Based on the review of the information submitted relating to this request, EPA is today redesignating the area as unclassifiable for TSP. There are now two areas of Rockwood which are unclassifiable for this pollutant.

Action: EPA today approves these revisions to the Tennessee SIP and the redesignation requests. This is being done without prior proposal because the actions are noncontroversial, being based on accepted procedures, have limited impact, and are expected to elicit no comments. The public should be advised that this action will be effective 60 days from the date of this Federal Register notice. However, if notice is received within 30 days that someone wishes to submit adverse or critical comments, this action will be withdrawn and subsequent notices will be published before the effective date. The subsequent notices will withdraw the final action and begin a new rulemaking by announcing a proposal of the action and establishing a comment period.

Under Section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 27, 1982. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

Under 5 U.S.C. 605(b), the Administrator has certified that SIP approvals do not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709.)

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Note.—Incorporation by reference of the Tennessee State Implementation Plan was approved by the Director of the Federal Register on July 1, 1982.

List of Subjects in 40 CFR Part 52

Air pollution control, Intergovernmental relations, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons.

(Secs. 107 and 110 of the Clean Air Act (42 U.S.C. 7407 and 7410))

for five sources of VOC, and operating permit for Du Pont de Nemours Company's scrub solids kiln at New Johnsonville, submitted on February 12, 1982, by the Tennessee Department of Public Health.

PART 81—[AMENDED]

Part 81 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart C—Section 107 Attainment Status Designations

2. In the Tennessee-TSP table of § 81.343, the first entry for Maury County (indicating nonattainment) is removed, the words "the remainder of" are removed from the remaining entry for Maury County, and a second entry for Roane County is added as follows:

399-1980.

SUPPLEMENTARY INFORMATION:

Background

Section 111(d) of the Clean Air Act, as amended, requires EPA to establish procedures under which States submit plans to control certain existing sources of certain pollutants. On November 17, 1975 (40 FR 53340), EPA began to implement Section 111(d) by promulgating Subpart B of 40 CFR Part 60, establishing procedures and requirements for adoption and submittal of State plans for control of "designated pollutants" from "designated facilities." Designated pollutants are those not already listed under Section 108(a) of the Act (National Ambient Air Quality Standards) or Section 112(b)(1)(A) (Hazardous Air Pollutants), but for which standards of performance for new source have been established under Section 111(b) (Standards of Performance for New Stationary Sources).

If a State does not have a designated facility within its borders, a State may submit a certification of negative declaration in lieu of a control plan.

On February 23, 1981, the State of Idaho Department of Health and Welfare submitted a letter of certification asking for a negative declaration for fluoride emissions from existing primary aluminum plants under Section 111(d) of the Clean Air Act. On May 13, 1981 (46 FR 26504), EPA published in the *Federal Register* a proposed approval of this negative declaration and no comments were received during the 30-day comment period. Therefore, EPA hereby approves the certification.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under Section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 27, 1982. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

List of Subjects in 40 CFR Part 62

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations.

(Sec. 111 and 301(a), Clean Air Act, as amended (42 U.S.C. 7413 and 7601).

Dated: October 18, 1982.

Anne M. Gorsuch,
Administrator.

PART 62—[AMENDED]

Part 62 of Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart N—Idaho

Section 62.3100 is added as follows:

Fluoride Emissions from Existing Primary Aluminum Plants

§ 62.3100 Identification of plan—negative declaration.

The State of Idaho Department of Health and Welfare submitted on February 23, 1981, certification that there are no existing primary aluminum plants in the State subject to Part 60, Subpart B of this chapter.

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 70

[Docket No. FEMA-5909]

Letter of Map Amendment for Maricopa County, Arizona Under National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule, map correction.

SUMMARY: The Federal Emergency Management Agency (FEMA) published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included Maricopa County, Arizona. It has been determined by the Associate Director, State and Local Programs and Support, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for Maricopa County, Arizona, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: October 25, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, P.E., Chief, Engineering Branch, Natural Hazards Division, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287-0230.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 040037 Panel 0935A, published on October 6, 1980, in 45 FR

66116, indicates that Lots 15 through 31, 61 through 73, and 113 through 120, proposed Blue Hills Subdivision, being a 19.39 acre tract of land located in the SE¼ of the NE¼ of Section 29, Township 4 North, Range 3 East, Phoenix, Arizona, as recorded in Docket 16025, Page 271, in the Office of the Recorder, Maricopa County, Arizona, are located within the Special Flood Hazard Area.

Map No. H & I 040037 Panel 0935A is hereby corrected to reflect that the above-mentioned lots are not within the Special Flood Hazard Area identified on July 2, 1979. These lots are in Zone C.

Pursuant to the provisions of 5 USC 605(b), the Associate Director, State and Local Programs and Support to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice of technical amendments made to designated special flood hazard areas on the basis of updated information and imposes no new requirements or regulations on participating communities.

List of Subjects in 44 CFR Part 70

Flood insurance, Flood plains.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; Delegation of Authority to Associate Director, State and Local Programs and Support)

Issued: September 14, 1982.

BILLING CODE 6718-03-M

44 CFR Part 70

[Docket No. FEMA-6116]

Letter of Map Amendment for City of Santa Maria, California Under National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule, map correction.

SUMMARY: The Federal Emergency Management Agency (FEMA) published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of Santa Maria, California. It has been determined by the Associate Director, State and Local Programs and

Support, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Santa Maria, California, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: October 25, 1982.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, P.E., Chief, Engineering Branch, Natural Hazards Division, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287-0230.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 060336 Panel 0005B, published on July 22, 1981, in 46 FR 37653, indicates that Lots 1 through 3, 8 through 14, 47 through 50, 54, and 67 through 82, Stonebridge, Tract 5273, Santa Maria, California, as recorded in Book 97, Page 90 through 93, in the Office of the Recorder, Santa Barbara County, California, are located within the Special Flood Hazard Area.

Map No. H & I 060336 Panel 0005B is hereby corrected to reflect that the existing structures located on the above-mentioned lots are not within the Special Flood Hazard Area identified on June 1, 1981. These structures are in Zone B.

Pursuant to the provisions of 5 USC 605(b), the Associate Director, State and Local Programs and Support to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule if promulgated will not

have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice of technical amendments made to designated special flood hazard areas on the basis of updated information and imposes no new requirements or regulations on participating communities.

BILLING CODE 6718-03-M

44 CFR Part 70

[Docket No. FEMA-5909]

Letter of Map Amendment for Dade County, Florida Under National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: The Federal Emergency Management Agency published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included Dade County, Florida. It has been determined by the Associate Director, State and Local Programs and Support after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for Dade County, Florida, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: October 25, 1982.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Chief, Engineering Branch, Natural Hazards Division, Federal Emergency Management Agency, Washington, D.C. 20472, (202) 287-0230.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP), P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map Number H & I 125098, Panel 0275 D published on October 6, 1980 in 45 FR 66058 indicates that Lot 28, Block 2 of Lazarus on Richmond in Dade County, Florida according to the plat, recorded in Plat Book 110 at Page 99 of the Public Records of Dade County, is located within the Special Flood Hazard Area.

Map Number H & I 125098, Panel 0275 D is hereby corrected to reflect that the structure on the above-mentioned lot is not within the Special Flood Hazard Area identified on November 14, 1980. The structure is located in Zone C. However, the lot would still be inundated by a flood having a one-percent chance of occurrence in any given year.

Map Number H & I 125098, Panel 0275 D published on October 6, 1980 in 45 FR 66058 indicates that Lots 2 and 3 of Block 2 in "Deerwood Park of Industry Section 1" in Dade County, Florida, according to the plat thereof as recorded in Plat Book 118 at Page 31 of the Public Records of Dade County, are located within the Special Flood Hazard Area.

Map Number H & I 125098, Panel 0275 D is hereby corrected to reflect that the structures on the above-mentioned lots is not within the Special Flood Hazard Area identified on November 14, 1980. The structures are located in Zone C. However, the lots would still be inundated by a flood having a one-percent chance of occurrence in any given year.

Map Number H & I 125098, Panel 0375 D published on October 6, 1980 in 45 FR 66058 indicates that a portion of Section 14, Township 56 South, Range 38 East, in Dade County, Florida as recored in Deed Book 10650 at Page 278 of the Public Records of Dade County, is located within the Special Flood Hazard Area.
