Receipt of Amendment to Consolidated Tape Association Plan

December 15, 1982.

On November 1, 1982, the participants in the Consolidated Tape Association ("CTA") submitted to the Commission, pursuant to Rules 11Aa3–1 and 11Aa3–2 under the Securities Exchange Act of 1934 ("Act"), an amendment to the Restated and Amended Plan ("CTA Plan").[1]

I. Description of the Amendment

The amendment increases the ticker, ticker display, interogation unit and ticker line charges contained in schedules A–1 through A–4, attached to the CTA Plan as Exhibit D. Pursuant to Rule 11Aa3–2(c)(3) under the Act, the amendment became effective upon filing with the Commission. [Release No. 12905; 812-5319]

GIT Cash Trust; Filing of an Application

December 16, 1982.

In the matter of GIT Cash Trust, 1800 North Kent Street, Arlington, Virginia 22209 (812-5319).

GIT Cash Trust ("Applicant"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application and an amendment thereto for an order of the Commission pursuant to Section 6(c) of the Act, exempting Applicant from the provisions of Rules 2a-4 and 22c-1 thereunder to the extent necessary to: permit Applicant to compute its net asset value per share to the nearest one cent on a share value of $1.00; and to permit Applicant to purchase variable rate instruments. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and are referred to the Act and the rules thereunder for further information as to the provisions to which the exemption applies.

Applicant represents that it is a Massachusetts business trust that will maintain two separate portfolios, the "Regular Money Market Portfolio" ("Regular Portfolio") and the "Government Money Market Portfolio" ("Government Portfolio"), and that each portfolio will invest exclusively in money market instruments. Applicant seeks to achieve high current income consistent with investments in high quality debt securities appropriate to each of its portfolios. Applicant's Government Portfolio may only invest in U.S. Government securities and repurchase agreements involving the same. Applicant's Regular Portfolio may invest in "high grade", conventional, money market instruments denominated in U.S. dollars and issued or guaranteed by domestic banks, foreign branches of domestic banks, foreign banks and their domestic branches, savings and loan associations, finance companies, insurance companies, and other corporations. "High grade" securities in which the Regular Portfolio may invest include: (1) All U.S. Government securities; (2) commercial paper rated Prime-1 by Moody's Investors Service, Inc. ("Moody's") or rated A-1 by Standard & Poor's Corporation ("S&P"), or, if not rated, possessing a credit standing deemed equivalent by the adviser pursuant to procedures approved by the board of trustees; (3) corporate obligations with a remaining maturity of not more than one year that are rated Aa or better by Moody's or rated AA or better by S&P, or, if not rated, possessing a credit rating deemed equivalent by the adviser pursuant to procedures approved by the board of trustees; (4) any obligation of a bank or savings and loan association having total assets of at least $750 million as of the end of its most recent fiscal year, provided it earned a profit during that year; (5) money market instruments issued, accepted, or guaranteed by foreign banks, corporations or other entities, provided the investment is denominated in U.S. dollars and meets the same quality standards applicable to domestic investments; and (6) appropriate repurchase agreements.

Applicant represents that any loans of portfolio securities will conform with applicable guidelines established by the Commission and Applicant's board of trustees. In determining whether to lend securities to a particular broker, dealer, or other financial institution, Applicant's adviser will consider the credit of the borrowing institution. Applicant will not enter into any securities lending agreement having a duration of greater than one year, and any securities with maturities in excess of one year that Applicant receives as collateral for a particular loan will not become part of Applicant's portfolio either at the time the loan is made or in the event the borrower defaults on its obligation to return the loaned securities.

Applicant proposes to acquire variable rate instruments for each of its portfolios having the following features: (1) Each instrument would have an interest rate determined by a prescribed formula and adjusted at periodic intervals which do not exceed one year; (2) Applicant could at any time demand prepayment of the unpaid principal balance plus accured interest thereon and would be entitled to prepayment within a prescribed notice period not to exceed seven calendar days; (3) issuers could, at their discretion, prepay the outstanding principal plus accrued interest thereon upon notice to Applicant within a period comparable to the notice periods required of Applicant for demand prepayments; (4) an adjustment feature which causes the variable rate instrument to have a current market value which approximates its par value whenever a new rate is established; (5) absent an earlier exercise by Applicant or an issuer of their respective prepayment privileges, the principal under each instrument would be payable on a date exceeding one year from the date of purchase by Applicant; and (6) each variable rate instrument acquired by Applicant will be determined under procedures prescribed by Applicant's board of trustees to present minimal credit risks and will be rated by a major rating service consistent with the Applicant's rating restrictions for its portfolios, or, if not rated, will be determined pursuant to procedures approved by the board of trustees to be comparable to money market instruments of "high grade". Applicant represents that its board of trustees will reevaluate, at least on a quarterly basis, its variable rate instruments to ensure that they are of high quality. Applicant further represents that it will dispose of any variable rate instrument if, due to an adverse change in the issuer's credit, the investment is no longer of high quality. Applicant agrees to consider the maturity of its variable rate instruments, for purposes of computing its dollar-weighted average maturity, as the longer of: (i) The period remaining until the next interest rate readjustment, or (ii) the notice period required before Applicant is entitled to prepayment.

Section 6(c) of the Act provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision of the Act or of any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

In support of the relief requested, Applicant submits that the penny-rounding method of valuing its portfolio securities, including variable rate instruments, subject to the conditions enumerated above, will enable Applicant to offer the stability of principal and steady flow of predictable and competitive income that investors demand. The penny-rounding valuation
