

of the insecticide was requested by Ciba-Geigy Corporation.

EFFECTIVE DATE: Effective on July 14, 1982.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: William H. Miller, Product Manager (PM) 16, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 211, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-2600).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the *Federal Register* of April 18, 1978 (43 FR 16400) which announced that Ciba-Geigy Corp., P.O. Box 11422, Greensboro NC 27409, had submitted a feed additive petition (8H5177) to the EPA proposing that 21 CFR 561 be amended by establishing a regulation permitting combined residues of the insecticide profenofos [*O*-(4-bromo-2-chlorophenyl) *O*-ethyl *S*-propyl phosphorothioate] and its metabolites converted to 4-bromo-2-chlorophenyl and calculated as *O*-(4-bromo-2-chlorophenyl) *O*-ethyl *S*-propyl phosphorothioate in cottonseed hulls with a tolerance limitation of 6.0 part per million (ppm) and soapstock at 9.0 ppm resulting from the application of the insecticide to growing cotton.

A notice was published in the *Federal Register* of September 24, 1980 (45 FR 58677) that the petitioner had amended to petition by increasing the proposed tolerance limitation for soapstock from 9.0 to 15.0 ppm.

No comments were received in response to these notices of filing.

The toxicological data considered in support of the tolerances have been evaluated and discussed in the related document [PP 8F2057/R462] establishing tolerances for residues of the subject insecticide in or on the raw agricultural commodities cottonseed; milk; eggs; and the meat, fat, and meat by-products of cattle, goats, hogs, horses, poultry and sheep which appears elsewhere in today's *Federal Register*.

Desirable data that are currently lacking and which the petitioner has agreed to provide and the projected dates for provision of these studies to the Agency are as follows:

1. A new rabbit teratology study not later than June 1, 1983.
2. A new neurotoxicity study not later than June 1, 1983.
3. A complete report on the previously submitted rabbit teratology study by July 1, 1982.

4. A new rat teratology study by August 1, 1982.

In the event that these studies are not submitted within the specified time or in the event that the new studies show any significant adverse effects, these tolerances will be subject to revocation and the registration subject to cancellation.

The insecticide is considered useful for the purpose for which the regulation is sought and it is concluded that the insecticide may be safely used in accordance with the prescribed manner when such uses are in accordance with the label and labeling registered pursuant to FIFRA, as amended (86 Stat. 973, 89 Stat. 751, U.S.C. 135(a) *et seq.*). Therefore, the regulation is established as set forth below.

Any person adversely affected by this regulation may file written objections with the Hearing Clerk at the address given above. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for a hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that the regulations establishing new food or feed additive levels, or conditions for safe use of additives, or raising such food or feed additive levels do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the *Federal Register* of May 4, 1981 (46 FR 24945).

Effective on July 14, 1982.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 346(c)(1)))

Animal feeds, Pesticides and pests.

Dated: June 28, 1982.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

PART 561—TOLERANCES FOR PESTICIDE IN ANIMAL FEEDS ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

Therefore, 21 CFR 561.53 is revised to read as follows:

§ 561.53 Profenofos.

A regulation is established permitting residues of the insecticide profenofos [*O*-(4-bromo-2-chlorophenyl)-*O*-ethyl-*S*-propyl phosphorothioate] and its metabolites converted to 4-bromo-2-chlorophenol and calculated as profenofos in cottonseed hulls at 6.0 ppm and in soapstock at 15.0 ppm resulting from the application of the insecticide to the growing crop, cotton.

Tolerances for Pesticides in Animal Feeds Administered by the Environmental Protection Agency; Chlorpyrifos

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a regulation to permit the combined residues of the insecticide chlorpyrifos and its metabolite in or on the feed commodity dried citrus pulp. This regulation to establish the maximum permissible level for the residues of chlorpyrifos was requested by The Dow Chemical Co.

EFFECTIVE DATE: Effective on July 14, 1982.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Jay Ellenberger, Product Manager (PM) 12, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 202, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-2386).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the *Federal Register* of December 16, 1981 (46 FR 61326) which announced that The Dow Chemical Co., P.O. Box 1706, Midland, MI 48640 had filed a feed additive petition (1H5322) with EPA proposing that 21 CFR 561.98 be amended by the establishment of a regulation permitting the combined residues of the insecticide chlorpyrifos [*O*,*O*-diethyl, *O*-(3,5,6-trichloro-2-pyridyl) phosphorothioate] and its metabolite 3,5,6-trichloro-2-pyridinol in dried citrus pulp at 5.0 parts per million (ppm).

No comments were received in response to the notice of filing.

The scientific data and other relevant material considered in support of this regulation are contained and discussed in a related document (PP 1F2575) that appears elsewhere in this issue of the Federal Register.

The insecticide is considered useful for the purpose for which the regulation is sought, and it is concluded that the insecticide may be safely used in accordance with the prescribed manner when such uses are in accordance with the label and labeling registered pursuant to FIFRA as amended, (86 Stat. 973, 89 Stat. 751, U.S.C. 135(a) *et seq.*). Therefore, the regulation is established as set forth below.

Any person adversely affected by this regulation may, on or before August 13, 1982, file written objections with the Hearing Clerk, at the address given above. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new food or feed additive levels, or conditions for safe use of additives, or raising such food and feed additive levels do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24945).

Effective on July 14, 1982.

BILLING CODE 6590-50-M

DEPARTMENT OF STATE

22 CFR Part 2

[Dept. Reg. 108.821]

Duration of Protection for Secretary of State

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department of State, by this regulation, authorizes security officers designated under 22 CFR 2.1 to provide protection to the Secretary designate and the departing Secretary. The purpose of the regulation is to clarify the continuity of protection for individuals who serve as Secretary of State.

The regulation requires that the Under Secretary of State for Management determine that such protection is necessary and, in the case of a departing Secretary, limits authorization to a maximum of 30 days.

EFFECTIVE DATE: July 8, 1982.

ADDRESS: Send written comments to: The Assistant Legal Adviser for Management, Department of State, Washington, D.C. 20520.

FOR FURTHER INFORMATION CONTACT: K. E. Malmberg, Assistant Legal Adviser for Management (202) 632-2350.

SUPPLEMENTARY INFORMATION: A successor to the Secretary of State has been designated but confirmation hearings will not be held during the present recess of the Congress. This presents an immediate emergency situation to which this regulation responds, making it impracticable to follow the procedures of Executive Order 12291 (46 FR 34263) [exemption (8)(a)(1)]. Similarly, on the basis of the present security emergency, the Department finds that notice and public procedure on this regulation are impracticable and contrary to the public interest. Because of the importance of the protection of the Secretary designate and departing Secretary to the conduct of foreign relations, the Department also finds that this regulation involves a

foreign affairs function of the United States.

As required by 22 U.S.C. 2666, this regulation has been transmitted, prior to its effective date, to the Speaker of the House of Representatives and the Chairman of the Senate Foreign Relations Committee.

List of Subjects in 22 CFR Part 2

Foreign officials, Security measures.

PART 2—PROTECTION OF FOREIGN DIGNITARIES AND OTHER OFFICIAL PERSONNEL

Accordingly, 22 CFR 2.1 is amended by designating the introductory paragraph as paragraph (a) and the present paragraphs (a) and (b) as paragraphs (a)(1) and (a)(2) respectively, and by adding at the end thereof the new paragraph (b) set forth below.

§ 2.1 [Amended]

(b) When the Under Secretary of State for Management determines that it is necessary, persons designated under paragraph (a) shall be authorized to provide protection to an individual who has been designated by the President to serve as Secretary of State, prior to his appointment, or to a departing Secretary of State. In providing such protection, they are authorized to exercise the authorities described in paragraphs (1) and (2) of paragraph (a). Such protection shall be for the period or periods determined necessary by the Under Secretary of State for Management, except that in the case of a departing Secretary of State, the period of protection under this paragraph shall in no event exceed 30 calendar days from the date of termination of that individual's incumbency as Secretary of State.

Dated: July 8, 1982.

Richard T. Kennedy,
Under Secretary for Management.

[AD-FRL-2145-4]

Method 20—Determination of Nitrogen Oxides, Sulfur Dioxide, and Oxygen Emissions From Stationary Gas Turbines; Corrections; Appendix A—Reference Methods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; Corrections.

SUMMARY: When the final version of Method 20, Appendix A of 40 CFR Part 60 was published in the September 10, 1979, *Federal Register* (45 FR 52801), certain inadvertent and typographical errors were made. The purpose of this action is to correct these errors and clarify some sections of the method.

EFFECTIVE DATE: July 14, 1982.

FOR FURTHER INFORMATION CONTACT:

Mr. Roger Shigehara, Emission Measurement Branch, Emission Standards and Engineering Division (MD-19), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone (919) 541-2237.

The following changes and corrections to Appendix A should be made in the *Federal Register* document 79-27993, Monday, September 10, 1979, appearing on pages 52801, 52802, 52803, 52804, 52805, 52806, and 52807:

1. Page 52801:

a. First column, paragraph 1.2, seventh line: change "OO₂" to "O₂."

b. Second column, paragraph 2.5, second and third lines: change "before and" to "from zero."

c. Second column, paragraph 2.6, second and third lines: change "before and" to "from the known concentration of the calibration gas."

d. Second column, paragraph 2.7: delete all of paragraph 2.7.

e. Second column, paragraph 2.8, first line: change "2.8" to "2.7."

f. Second column, paragraph 2.9, first line: change "2.9" to "2.8."

g. Second column, paragraph 3.3: delete all of paragraph 3.3.

h. Second column, paragraph 3.4, first line: change "3.4" to "3.3," and change "20" to "40;" second line: change "minutes" to "seconds."

i. Second column, paragraph 3.5, first line: change "3.5" to "3.4;" second line: after "span value," add "over the period of each test run." The specification for zero drift should read, "Less than ± 2 percent of the span value over the period of each test run."

j. Second column, paragraph 3.6, first line: change "3.6" to "3.5;" second line: after "span value," add "over the period of each test run." The specification for calibration drift should read, "Less than ± 2 percent of the span value over the period of each test run."

k. Third column, paragraph 4.1.2, second line: the line should read " * * stainless steel or Teflon tubing to transport * * *"

l. Third column, paragraph 4.1.5, second line: between the words "condenser" and "designed," add the words " * * or other type device

* * *;" fourth line: after the words "sample gas," add " * * while maintaining minimal contact between any condensate and the sample gas." The first sentence of paragraph "4.1.5 Moisture Removal Trap." should read "A refrigerator-type condenser or other type device designed to continuously remove condensate from the sample gas while maintaining minimal contact between any condensate and the sample gas."

m. Third column, paragraph 4.1.5, last line: add a period at the end of the line.

n. Third column, paragraph 4.1.8, fourth line: delete the words " * * type 316 * * *"

o. Third column, paragraph 4.3, first line: change "Calibration" to "Calibration;" second line: change "may" to "shall;" third line: change the comma following " * * NO in N₂" to a period and delete the rest of the line. Delete lines 4, 5, and 6 and " * * in N₂." of line 7. Paragraph 4.3 should read "NO_x Calibration Gases. The calibration gases for the NO_x analyzer shall be NO in N₂. Use four calibration gas mixtures as specified below:"

2. Page 52802:

a. First column, paragraph 4.4, first line: change "ambient air" to "purified air;" second line: add "O₂" after "percent;" fourth line: add "in N₂" after "O₂."

b. First column, paragraph 4.5: delete all of paragraph 4.5.

3. Page 52803:

a. Second column, paragraphs 5.5 and 5.5.1: delete paragraph heading "5.5 Residence and Response Time" and delete all of paragraph 5.5.1.

b. Second column, paragraph 5.5.2, first line: change "5.5.2" to "5.5 Response Time." The first line should read "5.5 Response Time. To determine response time, first * * *"

4. Page 52804:

a. First column, paragraph 5.6, first line: change "NO₂ NO * * *" to "NO₂ to NO * * *"

b. First column, paragraph 5.6: delete all the text of paragraph 5.6 from "Introduce to the * * *" through " * * approval of the Administrator." Replace this text with the following: "5.6.1 Add gas from the mid-level NO in N₂ calibration gas cylinder to a clean, evacuated, leak-tight Tedlar bag. Dilute this gas approximately 1:1 with 20.9 percent O₂, purified air. Immediately attach the bag outlet to the calibration valve assembly and begin operation of the sampling system. Operate the sampling system, recording the NO_x response, for at least 30 minutes. If the NO₂ to NO conversion is 100 percent, the instrument response will be stable at the highest peak value observed. If the

response at the end of 30 minutes decreases more than 2.0 percent of the highest peak value, the system is not acceptable and corrections must be made before repeating the check.

"5.6.2 Alternatively, the NO₂ to NO converter check described in Title 40 Part 86: Certification and Test Procedures for Heavy-Duty Engines for 1979 and Later Model Years may be used. Other alternative procedures may be used with approval of the Administrator."

c. Third column, paragraph 6.1.2.1, fourth line: change " * * * one sample point * * *" to " * * * eight plus one additional sample point * * *;" lines seven and eight: change " * * * one sample point for each 0.4 m² (4.4 ft²) of area, * * *" to " * * * 49 sample points (48 for circular stacks) * * *"

d. Third column, paragraph 6.1.2.2, third line: change "O₂" to "O₂."

e. Third column, paragraph 6.1.2.3, first line: change "O₂" to "O₂;" fourth line: change "O₂" to "O₂;" ninth line: change "O₂" to "O₂."

f. Third column, paragraph 6.1.2.4, third line: change "O₂" to "O₂."

5. Page 52807:

a. First column, paragraph 6.2.3, last five lines: delete "Alternatively, the test * * * rate are used." and replace with "Alternatively, recalibrate the measurement system and recalculate the measurement data. Report the test results based on both the initial calibration and the recalibration data."

b. Third column, paragraph 8, first line: change "Citations" to "Bibliography."

c. Third column, paragraph 8.1: following paragraph 8.1, add a new paragraph as follows:

8.2 Sigsby, John E., F. M. Black, T. A. Bellar, and D. L. Klosterman. Chemiluminescent Method for Analysis of Nitrogen Compounds in Mobile Source Emissions (NO, NO₂, and NH₃). "Environmental Science and Technology," 7:51-54. January 1973.

Dated: July 7, 1982.

Anne M. Gorsuch,
Administrator.
