<sup>1</sup>Price subject to change.

This proposal does not affect the current use of ethyl acrylate, methylacrylate or their polymers in pet food or animal feed.

The agency has determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

In accordance with the Regulatory Flexibility Act, FDA has considered the effect that this proposal would have on small entities including small businesses and has determined that the effect of this proposal is to maintain current known uses of the substances as components of polymers that are covered under food additive regulations and prior-sanctioned listings. FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal, and the agency has determined that it will not result in a major rule as defined by that Order.

#### List of Subjects in 21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients; Spices and flavorings. Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Part 182 be amended in § 182.90 *Substances migrating to food from paper and*

*paperboard products* by removing "Methyl and ethyl acrylate" from the list of substances.

FDA is unaware of any other prior sanction for use of these substances as indirect human food ingredients under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The action proposed above will constitute a determination that excluded prior-sanctioned uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of such an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate regulation under Part 181 (21 CFR Part 181) or by affirming it as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

Interested persons may, on or before September 9, 1982 submit to the Dockets Management Branch (address above), written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 15, 1982.

William F. Randolph,  
Acting Associate Commissioner for  
Regulatory Affairs.

BILLING CODE 4160-01-M

#### 21 CFR Part 182

[Docket No. 80N-0196]

#### Japan Wax; Proposed Deletion From GRAS Status as an Indirect Human Food Ingredient

**AGENCY:** Food and Drug Administration.  
**ACTION:** Proposed rule.

**SUMMARY:** The Food and Drug Administration (FDA) proposes not to affirm Japan wax as generally recognized as safe (GRAS) as an indirect human food ingredient migrating to food from cotton and cotton fabrics used in dry food packaging and

to remove it from the list of substances that are GRAS. The safety of this ingredient is being evaluated under a comprehensive safety review being conducted by FDA. Because of the absence of sufficient safety information, it is not possible to affirm the safety of the ingredient for GRAS use. The proposed action does not affect the present food additive regulated use of Japan wax.

**DATE:** Comments by September 9, 1982.

**ADDRESS:** Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

#### FOR FURTHER INFORMATION CONTACT:

John W. Gordon, Bureau of Foods (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-9463.

**SUPPLEMENTARY INFORMATION:** FDA is conducting a comprehensive review of human food ingredients classified as GRAS or subject to a prior sanction. The agency has issued several notices and proposed regulations (see the *Federal Register* of July 26, 1973 (38 FR 20040)), initiating this review. Under this review, the safety of Japan wax has been evaluated. In accordance with the provisions of § 170.35 (21 CFR 170.35), the agency proposes to delete this ingredient from the GRAS list. The use of Japan wax as an indirect food ingredient will continue under existing food additive regulations.

Japan wax is a tallow obtained from the fruits of the oriental sumac, *Rhus succedanea* (Japan, Taiwan, and Indo-China), *R. vernicifera* (Japan) and *R. trichocarpa* (China, Indo-China, India, and Japan). Japan wax is prepared mostly from the mesocarp by hot pressing the immature fruit. Depending upon the method of preparation, the commercial tallow may contain more or less of the kernal fat that alters its melting range. Japan wax may be bleached by exposing flakes to sunlight for some days or weeks. The wax is unusual in that it contains glycerides of the C<sub>15</sub>-C<sub>23</sub> dibasic acids and also has a particularly high content of tripalmitin. The former are credited with giving Japan wax its characteristic properties of toughness and ability to be kneaded without crumbling.

Japan wax is used in the manufacture of candles, wax matches, pomades, creams, polishes, textile finishes, and sizing. It is also used as a lubricant for cordage and leather dressing.

Japan wax is currently listed in § 182.70 (21 CFR 182.70) as a GRAS substance migrating from cotton and

cotton fabrics used in dry food packaging, under a regulation published in the *Federal Register* of June 10, 1961 (26 FR 5224). As a regulated substance, Japan wax is listed in § 73.1(b)(2) (21 CFR 73.1(b)(2)) for use in diluents in color additive mixtures for coloring shell eggs, in § 175.105 (21 CFR 175.105) for use in adhesives, in § 175.350 (21 CFR 175.350) for use as an optional substance in vinyl acetate/crotonic acid copolymer, and in § 176.170 (21 CFR 176.170) for use as a component of paper and paperboard in contact with aqueous and fatty foods.

No information was requested on Japan wax during the National Academy of Sciences/National Research Council (NAS/NRC) survey of food manufacturers on the use of GRAS ingredients in food, and none was submitted. However, information from other sources indicates that in recent years total annual imports have varied from 321,000 pounds in 1968 to 97,000 pounds in 1972. From the largest annual import it may be calculated, assuming a population of 205 million, that about 2 milligrams are available per person per day. Most domestic consumption is apparently in nonfood uses. Thus, the quantity used in cotton packaging materials for dry foods is likely to be a fraction of a milligram per person per day. No data are available on the extent of migration of Japan wax from packaging material to food, but it is reasonable to assume that only a small percentage of the Japan wax that is present will migrate. It is probable, therefore, that exposure from this source is not more than a small fraction of a milligram per person per day.

Japan wax was the subject of a search of the scientific literature from 1920 to the present. The criteria used in the search were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) carcinogenicity, teratogenicity, or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection, and (13) processing. A total of 129 abstracts on beeswax and Japan wax was reviewed, and 11 particularly pertinent reports from the literature survey have been summarized in a scientific literature review. Of the abstracts, six dealt specifically with Japan wax, and one particularly pertinent report was summarized in the review. In addition, eight other sources containing data on Japan wax or its constituents were consulted.

The select Committee on GRAS Substances (the Select Committee), composed of qualified scientists chosen by the Life Sciences Research Office (LSRO) of the Federation of American Societies for Experimental Biology (FASEB), has examined the available information on Japan wax. The scientific literature review shows the following information, as summarized in the report of the Select Committee:

Only one early study, involving the feeding of Japan wax to four rats, was available to the Select Committee. Four rachitic rats were fed Japan wax at a 2 percent level (about 2 g per kg of body weight) in their rations. Two animals gained weight over 8 to 16 days and one lost weight; the fourth lost weight and died after 22 days. No antirachitic effect was produced by feeding the wax.

Digestibility of tripalmitin (M.P. 66.5° C), the major constituent of Japan wax, was determined in adult female rats fed rations containing 15 percent of the triglyceride (about 10 g per kg of body weight). Coefficient of digestibility was 12.8 for rations containing 7 percent of the Osborne-Mendel salt mixture (6.1 mg calcium and 0.9 mg magnesium per gram ration) and 27.9 for rations in which the calcium and magnesium salts had been omitted from the salt mixture. However, digestibility of tripalmitin as a component of a diet containing unsaturated fats may be higher since increasing the fluidity of saturated fats by the addition of unsaturated fat markedly increases the digestibility.

In vitro mutagenic evaluation of Japan wax was using *Saccharomyces cerevisiae*, strain D4 and *Salmonella typhimurium*, strains TA-1536, TA-1537, and TA-1538, with and without metabolic activation with liver, lung, kidney or testis homogenates from mice, rats, or monkeys revealed that it exhibits no genetic activity. Dimethylsulfoxide was used as the solvent; dose levels of the wax were 0.015 to 0.060 percent in the *Salmonella* tests and 0.125 to 0.500 percent in the tests with *Saccharomyces*.

No reports were available to the Select Committee on the acute toxicity, long-term feeding carcinogenicity or teratogenicity of Japan wax.<sup>1</sup>

All of the available safety information on Japan wax has been carefully evaluated by the Select Committee. It is the opinion of the Select Committee that:

Japan wax is a substance of plant origin which is [listed as] generally recognized as safe (GRAS) as a

substance migrating to food from cotton and cotton fabrics used in dry food packaging. However, the Select Committee found no information on the acute toxicity of this substance, or reports of long-term feeding studies, or studies of its carcinogenicity or teratogenicity.<sup>2</sup>

The Select Committee concludes that, in view of the nearly complete lack of biological studies, it has insufficient data upon which to evaluate the safety of Japan wax as a substance migrating to food from cotton and cotton fabrics used in dry food packing. After considering all available data, including the Select Committee's report, FDA agrees with the conclusion of the Select Committee. However, before deciding on a course of regulatory action, the agency approached a wax trade association to determine whether any of its members could supply additional safety data on Japan wax. The association's response was that there were no additional safety data available. FDA also inquired whether any of the association's members would be willing to conduct or sponsor an LD<sub>50</sub> study on the ingredient. The association responded that because the quantity of Japan wax used for food purposes is small, there is no interest in sponsoring this study. FDA concludes, therefore, that Japan wax must be removed from the GRAS list as an ingredient migrating to food from cotton and cotton fabrics because there is insufficient information to affirm it as GRAS. If, however, during the comment period, information is presented that supports the safe use of Japan wax in cotton and cotton fabrics for use in dry food packaging, FDA will reconsider its proposal to remove this ingredient from the GRAS list. Alternatively, FDA approval for this use of Japan wax may be sought through the GRAS or food additive petition procedures as outlined in § 170.35 (21 CFR 170.35) or § 171.1 (21 CFR 171.1).

FDA has reviewed the regulated uses of Japan wax as a diluent in color additive mixtures for shell eggs, as a component of adhesives, as an optional substance in vinyl acetate/crotonic acid copolymers, and as a component of paper and paperboard in contact with aqueous and fatty foods. The agency concludes that these regulated uses of Japan wax may continue pending their evaluation under the safety review of regulated food additives.

<sup>1</sup> Price subject to change.

This proposed action does not affect the present use of Japan wax in pet food or animal feed.

The agency has determined under 21 CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect that this proposal would have on small entities including

small businesses and has concluded that the removal of Japan wax from the GRAS list will not cause measurable economic effect. Therefore, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this proposal and the agency has determined that the proposal will not result in a major rule as defined by the Order.

#### List of Subjects in 21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients; Spices and flavorings.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Part 182 be amended in § 182.70 *Substances migrating from cotton and cotton fabrics used in dry food packaging* by removing the entry for "Japan wax".

The agency hereby gives notice that it is unaware of any prior sanction for the use of this ingredient in food under conditions different from those identified in this document. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal.

The regulation proposed above will constitute a determination that excluded prior-sanctioned uses would result in adulteration of the food in violation of section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342), and the failure of any person to come forward with proof of an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on it later. Should any person submit proof of the existence of a prior sanction, the agency hereby proposes to recognize such use by issuing an appropriate regulation under Part 181 (21 CFR Part 181) or affirming it as GRAS under Part 184 or 186 (21 CFR Part 184, 186), as appropriate.

Interested persons may, on or before September 7, 1982 submit to the Docket Management Branch (address above), written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 14, 1982.

William F. Randolph,  
Acting Associate Commissioner for  
Regulatory Affairs.

BILLING CODE 4160-01-M

# Estimate for Federal Labor

Friday  
July 9, 1982

---

## Part III

## Department of Labor

---

Employment Standards Administration,  
Wage and Hour Division

---

Minimum Wages for Federal and  
Federally Assisted Construction; General  
Wage Determination Decisions

## DEPARTMENT OF LABOR

Employment Standards  
Administration, Wage and Hour  
DivisionMinimum Wages for Federal and  
Federally Assisted Construction;  
General Wage Determination  
Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be

impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedes  
Decisions to General Wage  
Determination Decisions

Modifications and supersedes decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedes decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedes

decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Government Contract Wage Standards, Division of Government Contract Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

Modifications to General Wage  
Determination Decisions

The numbers of the decisions being modified and their dates of publication in the Federal Register are listed with each State.

| VA81-3084 (VA82-3022).....           | Nov. 27, 1981. |

Please note that we are changing the format for **Federal Register** wage decisions to coincide with the provisions of All Agency Memorandum No. 132 dated January 29, 1980 which provides that the Department will discontinue identifying fringe benefits separately. Rather, they will be stated as a composite figure which is the total hourly equivalent value of fringe benefits found to be prevailing. Fringe benefits which can not be stated in monetary terms will be shown in footnotes. This procedure is being phased in gradually.

Signed at Washington, D.C., this 2nd day of July 1982.

**Dorothy P. Come,**

*Assistant Administrator, Wage and Hour Division.*

## FOOTNOTES:

A. 6 mos. to 5 yrs - 6%  
over 5 yrs. - 8% of  
basic hourly rate;  
plus seven paid holi-  
days.

## PAID HOLIDAYS:

A-New Years Day  
B-Memorial Day  
C-Independence Day  
D-Labor Day  
E-Thanksgiving Day  
F-Day after Thanksgiving  
G-Christmas DayWELDERS--receive rate prescribed for  
craft performing operation to which  
welding is incidental.UNLISTED classifications needed for  
work not included within the scope  
of the classifications listed may  
be added after award only as pro-  
vided in the labor standards con-  
tract clauses (29 CFR, 5.5 (a) (1) (ii)).

## LABORERS' CLASSIFICATION DEFINITIONS

- GROUP I - Construction laborer-concrete, wrecking, carpenters, dry-wall, mechanics, excavating, plumbers and electricians laborers, green cutter, blowpipe, and crete pump hose placer
- GROUP II - Semi-skilled labor - pipelayers, concrete, clay, and mechanical tool, cement mixer, wet or dry finishers and plasterers, mason tenders, mortar mixers, asphalt rakers and shovelers, creosote wood handlers, chuck tender
- GROUP III - Skilled "A" - Steelform setters, curb and gutters, grout and cement muckers
- GROUP IV - Skilled "B" - Swinging scaffold, barco, 90lb pavement breaker and burners
- GROUP V - Nozzelman (gunite, grout, and sandblasters); concrete pump (nozzel placer)
- GROUP VI - Powderman and blaster GROUP VII - Wagon drill

## POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

- GROUP I - Cranes, draglines, shovels and pilldrivers with a lifting capacity of 50 tons or over, and operators of all towers, climbing cranes, and derricks required to work 25 feet or over from the ground, blacksmiths, mechanics
- GROUP II - Hydraulic cranes, cherry pickers, backhoes and all derricks with a lifting capacity less than 50 tons, as specified by the manufacturers, all backhoes, tractor or truck type, all overhead and traveling cranes, or tractors with swinging boom attachments, gradalls, all above equipment irrespective of motive power, leverman (engineer), hydraulic or bucket dredges, irrespective of size
- GROUP III - HEAVY EQUIPMENT OPERATORS: All bulldozers, all front end loaders, all sidebooms, skytracks, all push tractors, all pull scrapers, all motor graders, all trenching machines, regardless of size or motive power, all back fillers all central mixing plants, 10S and larger, finishing machines, all boiler firemen high or low pressure, all asphalt spreaders, hydro truck crane, multiple drum hoist, irrespective of motive power, all rotary cable tool core drill or churn drill, water well and foundation drilling machines regardless of size, regardless of motive power and dredge tender operator
- GROUP IV - LIGHT EQUIPMENT OPERATORS: Oilerdriver motor crane, single drum hoists, winches and air tuggers, irrespective of motive power, winch or A-frame trucks, forklifts, rollers of all types and pull tractors, regardless of size, elevator operators inside and outside when used for carrying workmen from floor to floor & handling building material. Lad-A-Vator, conveyor, hatch plant, and mortar or concrete mixers, below 10S, end dump Enclid, pumcrete, spray machine & pressure grout machine, air compressors, regardless of size, all equipment, welding machines light plants, pumps, all well point system de-watering and portable pumps, space heater, irrespective of size, and motive power, equipment greaser, oiler, asphalt distributor, and like equipment, safety boat operator and deckhand.

## CARPENTERS:

ZONE 1  
MACOMB, MONROE, OAKLAND,  
ST. CLAIR & WAYNE COS.;  
LIVINGSTON CO. (Town-  
ships of Brighton, Deer-  
field, Genoa, Harland,  
Osceola & Tyronne); SANI-  
LAC CO. (That part East  
of a line projected  
North & continuing to  
East Lapeer Co. & West  
St. Clair Co. lines and  
to South Huron County  
line

ZONE 2E  
ARENAC, BAY, CLARE, CLIN-  
TON, GENESEE, GLADWIN,  
GRATIOT, HURON, INGHAM,  
ISABELLA, IOSCO, JACKSON,  
LAPEER, LENAWEE, MIDLAND,  
OGEMAN, SAGINAW, SHIA-  
WASSEE, TUSCOLA & WAITE-  
NAW COS. LIVINGSTON &  
SANTILAC COS. (Remainder  
of Cos.); EATON CO. (all  
but the Townships of  
Bellevue, Kakamo, Ver-  
montville & Walton);  
IONIA CO. (Townships of  
Danby, Orange, Portland  
& Sebawa)

ZONE 2W  
ALLEGAN, BARRY, BRANCH,  
CALHOUN, CASS, HILLSDALE,  
KALAMAZOO, KENT, LAKE,  
MANISTEE, MASON, MECOSTA,  
MONTCALM, MUSKEGON, NE-  
WAYGO, OCEANA, OTTAWA,  
ST. JOSEPH & VAN BUREN  
COUNTIES; EATON & IONIA  
COS. (Remainder of Cos.);  
BERRIEN CO. (All but the  
Townships of Chickaming,  
New Buffalo & Three  
Oaks); BENZIE CO. (Town-  
ships of Blaine, Colfax,  
Crystal Lake, Gilmore,  
Joyfield & Weidon)

ZONE 3LP  
ALCONA, ALPENA, ANTRIM,  
CHARLEVOIX, CHEBOYGAN,  
CRAWFORD, EMET, GRAND  
TRaverse, KALKASKA, LEE-  
LANAU, MISSAUKIE, MONT-  
MORENCY, OSCEOLA, OSCO-  
DA, OSTEGO, PRESQUE ISLE,  
ROSCOMMON & WEXFORD  
COS.; BENZIE CO. (Re-  
mainder of Co.)

## LABORERS LABORERS CLASSIFICATION DEFINITIONS

GROUP I - Construction laborer-concrete, wrecking, carpenters, dry-wall, mechanics, excavating, plumbers and electricians laborers, green cutter, blowpipe, and crete pump hose placer

GROUP II - Semi-skilled labor - pipelayers, concrete, clay, and mechanical tool, cement mixer, wet or dry finishers and plasterers, mason tenders, mortar mixers, asphalt rakers and shovelers, creosote wood handlers, chuck tender

GROUP III - Skilled "A" - Steelform setters, curb and gutters, grout and cement muckers

GROUP IV - Skilled "B" - Swinging scaffold, barco, 90lb pavement breaker and burners

GROUP V - Nozzelman (gunite, grout, and sandblasters); concrete pump (nozzle placer)

GROUP VI - Powderman and blaster GROUP VII - Wagon drill

## POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP I - Cranes, draglines, shovels and piledrivers with a lifting capacity of 50 tons or over, and operators of all towers, climbing cranes, and derricks required to work 25 feet or over from the ground, blacksmith, mechanics

GROUP II - Hydraulic cranes, cherry pickers, backhoes and all derricks with a lifting capacity less than 50 tons, as specified by the manufacturers, all backhoes, tractor or truck type, all overhead and traveling cranes, or tractors with swinging boom attachments, gradalls, all above equipment irrespective of motive power, leverman (engineer), hydraulic or bucket dredges, irrespective of size

GROUP III - HEAVY EQUIPMENT OPERATORS: All bulldozers, all front end loaders, all sidebooms, skytracks, all push tractors, all pull scrapers, all motor graders, all trenching machines, regardless of size or motive power, all back fillers all central mixing plants, 105 and larger, finishing machines, all boiler firemen high or low pressure, all asphalt spreaders, hydro truck crane, multiple drum hoist, irrespective of motive power, all rotary, cable tool core drill or churn drill, water well and foundation drilling machines regardless of size, regardless of motive power and dredge tender operator

GROUP IV - LIGHT EQUIPMENT OPERATORS: Oilerdriver motor crane, single drum hoists, winches and air tuggers, irrespective of motive power, winch or A-frame trucks, forklifts, rollers of all types and pull tractors, regardless of size, elevator operators inside and outside building material. Lad-A-Vator, conveyor, batch plant, and mortar or concrete mixers, below 105, end dump Enclid, pumpcrete, spray machine & pressure grout machine, air compressors, regardless of size, all equipment, welding machines light plants, pumps, all well point system de-watering and portable pumps, space heater, irrespective of size, and motive power, equipment greaser, oiler, asphalt distributor, and like equipment, safety boat operator and deckhand.

## DECISION NO. M182-2042

## CLASSIFICATION DEFINITIONS

LABORERS: OPEN CUT CONSTRUCTION

## CLASSIFICATIONS:

CLASS 1 - Construction Laborers  
 CLASS 2 - Mortar and Material Mixer, Concrete Form Man, Signal Man, Well Point Man, Manhole, Headwall and Catch Basin Builder, Guard Rail Builders and Fence Erector

CLASS 3 - Air, Gasoline and Electric Tool Operator, Vibrator Operator, Drillers, Pump Man, Tar Kettle Operator, Bracers, Rodders, Reinforced Steel or Mesh Men (e.g. wire mesh, steel mats, dowel bars, etc.), Cement Finisher, Pipe Jacking and Boring Man, Wagon Drill and Air Track Operator and Concrete Saw Operator (under 40 h.p.), Windlass and Tugger Man.

CLASS 4 - Trench or Excavating Grade Man.  
 CLASS 5 - Pipe Layer (including crock, metal pipe, multi-plate or other conduits).

LABORERS: TUNNEL, SHAFT &amp; CAISSON CONSTRUCTION

## CLASSIFICATIONS:

CLASS 1 - Tunnel, Shaft and Caisson Laborer, Dump Man, Shanty Man, Hog House Tender, Testing Man (on gas).

CLASS 2 - Manhole, Headwall, Catch Basin Builder, Bricklayer Tender, Mortar Man, Material Mixer, Fence Erector and Guard Rail Builder.

CLASS 3 - Air Tool Operator (jackhammer man, bush hammer man & grinding man), First Bottom Man, Second Bottom Man, Cage Tender, Car Pusher, Carrier Man, Concrete Man, Concrete Form Man, Concrete Repair Man, Cement Invert Laborer, Cement Finisher, Concrete Shovelers, Conveyor Man, Floor Man, Gasoline and

Electric Tool Operator, Gunite Man, Grout Operator, Pump Man, Outside Lock Tender, Scaffold Man, Top Signal Man, Switch Man, Track Man, Tugger Man, Utility Man, Vibrator Man, Winch Operator, Pipe Jacking, Boring Man, Wagon Drill and

Air Track Operator and Concrete Saw Operator (under 40 h.p.).

CLASS 4 - Tunnel, Shaft and Caisson Mucker, Bracer Man, Liner Plate Man, Long Haul Dinky Driver and Well Point Man.

CLASS 5 - Tunnel, Shaft and Caisson Miner, Drill Runner, Key Board Operator, Power Knife Operator, Reinforced Steel or Mesh Man (e.g. wire mesh, steel mats, dowel bars, etc.).

CLASS 6 - Dynamite Man and Powder Man.

## FOOTNOTE:

a - 7 Paid Holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Day after Thanksgiving, and Christmas Day (providing the employee worked the scheduled work day preceding and the next work day following the day observed).

| Basic Hourly Rates | Fringe Benefits |
|--------------------|-----------------|
| 10.50              | f               |
| 10.60              | f               |

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

## CLASSIFICATION DEFINITIONS

LABORERS: HIGHWAY, AIRPORT &amp; BRIDGE CONSTRUCTION

## CLASSIFICATIONS:

CLASS A - Line-Form Setter for curb or pavement

CLASS B - Pipe Layer, Oxygen Gun

CLASS B-1 - Asphalt Paver

CLASS B-2 - Asphalt Taper and Asphalt Paver Helper

CLASS C - Tunnel Miner (highway work only), Finishers Tender, Guard Rail Builder, Highway and Median Barrier Installer (including sound barrier & crash barrier), Fence Erector, Bottom Man, Powder Man, Wagon Drill and Air Track Operators,

Curb and Side Rail Setters' Helpers, Diamond Drill and Core Drills.

CLASS D - Mixer Operator (less than 5 sacks), Air or Electric Tool Operators (jackhammer, etc.), Spreader, Boxman (asphalt, stone, gravel, etc.), Concrete Packer, Power Chain Saw Operator, Paving Batch Truck Driver, Asphalt Screed Checker, Grade Checker and Tunnel Mucker (highway work only), Concrete Saw

(under 40 h.p.), and Dry Pack Machine.

CLASS E - Cement Handler or Dockman, Topman, Asphalt Dust Handler.

CLASS F - Asphalt Shovelers or Loader, Asphalt Plant Misc., Axe Man, Batch Bin (no power) Burial man, Carpenter's Helper, Subgrade Labor (hand tools), Yard

Man, Guard Rail Builder's Helper, Highway and Median Barrier Installer's Helper, Fence Erector's Helper, Dumpster (wagon, truck, etc.), Jetting Labor,

Joint Filling Labor, Misc. Unskilled Labor, Powder Monkey (helper), Sprinkler Labor, Form Setting Labor, Pavement Reinforcing, Handling and Placing (e.g. wire mesh, steel mats, dowel bars, etc.), Mason's or Bricklayer's Tender on

Manholes, Headwalls, etc., water proofing, seal coating and Slurry mix.

CLASS G - Pavement Markers

CLASS H - Cone Setters

## ZONE DEFINITIONS:

ZONE 1 - GREESE, WACOMB, MONROE, OAKLAND, WASHTENAW & WAYNE COUNTIES.

ZONE 2 - ALLEGAN, BARRY, BAY, BERRIEN, BRANCH, CALHOUN, CASS, CLINTON, EATON, GRATIOT, HILLSDALE, HURON, INGHAM, JACKSON, KALAMAZOO, LAPEER, LEMAY, LIVINGSTON, MIDLAND, MUSKEGON, SAGINAW, SHAWANSEE, ST. CLAIR, ST. JOSEPH, TUSCULA, VAN BUREN COUNTIES.

ZONE 2A - IONIA, KENT, MONTICALLY, OTTAWA COUNTIES.

ZONE 3 - ALICIA, ALGER, ALPENA, ANTRIM, ARENAC, BARAGA, BENZIE, CHARLEVOIX, CHEBOYGAN, CHIPPEWA, CLARE, CRAWFORD, DELTA, DICKINSON, ENNET, GLADWIN, GOGEBIC, GRAND TRAVERSE, Houghton, Iosco, Iron, ISABELLA, KALKASKA, KENOSHA, LAKE, LEELEAND, LUCE, MACKINAC, MANISTEE, MARQUETTE, MASON, MENOMINEE, MISSAUKIE, MONTMORENCY, NEWAYGO, OCEANA, OGDEN, ONTARIO, OSCODA, OTSEGO, PRESQUE ISLE, ROSCOMMON, SCHOOLCRAFT & WEXFORD COUNTIES.

ZONE 3A - NECOSTA & OSCEOLA COUNTIES.

## DECISION NO. M182-2042

## TRUCK DRIVERS (CONT')

CLASS 3

CLASS 4

## FOOTNOTE:

f. \$80.50 per week,  
 per employee

## DECISION NO. M182-2042

## POWER EQUIPMENT OPERATORS: UNDERGROUND CONSTRUCTION

## CLASSIFICATIONS: (ZONES 1 &amp; 2 only)

CLASS I - Backfiller Tamper, Backhoe, Batch Plant Operator (concrete), Clamshell, Concrete Paver (two drum or larger), Conveyor Loader (euclid type), Crane (crawler, truck type or pile driving), Dozer (9 ft. blade and over), Dragline, Elevating Grader, Endloader (over 1½ cubic yds. capacity), Gradall (and similar type equipment), Mechanic, Power Shovel, Roller (asphalt), Scraper (self-propelled or tractor drawn), Side Boom Tractor (type D-4 or equivalent or larger), Slip Form Paver, Slope Paver, Trencher (over 8 ft. digging capacity), Well Drilling Rig.

CLASS II - Boom Truck (power swing type boom), Crusher, Dozer (less than 9 ft. blade), Endloader (1½ cubic yds. capacity and smaller), Hoist, Pump (one or more-6 in. discharge or larger-gas or diesel powered or powered by generator of 300 amps or more-inclusive of generator), Side Boom Tractor (smaller than type D-4 or equivalent), Sweeper (Wayne type and similar equipment), Tractor (pneum-tired, other than backhoe or front end loader), Trencher (8 ft. digging capacity).

CLASS III - Air Compressors (600 cfm or larger), Air Compressors (two or more-less than 600 cfm), Boom Truck (non-swinging, non-powered type boom), Concrete Breaker (self-propelled or truck mounted--includes compressor), Concrete Paver (one drum--1½ yd. or larger), Elevator (other than passenger), Maintenance Man, Mechanic Helper, Pump (two or more--4 in. up to 6 in. discharge-gas or diesel powered--excluding submersible pumps), Pumpcrete Machine (and similar equipment), Wagon Drill (multiple), Welding Machine or Generator (two or more 300 amp. or larger-gas or diesel powered).

CLASS IV - Boiler, Concrete Saw (40 h.p. or over), Curing Machine (self-propelled), Farm Tractor (with attachment), Finishing Machine (concrete), Fireman, Hydraulic Pipe Pushing Machine, Mulching Equipment, Oiler, Pumps (two or more up to 4 in. discharge if used three hours or more a day--gas diesel powered--excluding submersible pumps), Roller (other than asphalt), Stump Remover, Trencher (service), Vibrating Compaction Equipment (self-propelled, 6 ft. wide or over)

## CLASSIFICATIONS: (ZONE 3 only)

CLASS A - Regular Equipment Operators, Crane, Dozer, Front End Loader, Pumpcrete, Squeeze Crete, Job Mechanic & Welder.

CLASS B - Air Track Drill, Boom Truck (non-swing), Concrete Mixers, Fork Truck, Material Hoist and Tugger, Pumps (6" and over), Belt Crete, Sweeping Machine, Trencher, Head Grease Man, Winches, Well Points and Freeze Systems.

CLASS C - Air Compressor, Conveyor, Concrete Saw, Farm Tractor (without attachments), Generator, Guard Post Driver, Mulching Machines, Pumps (under 6"), Welding Machines, Grease Man.

CLASS D - Oiler, Fireman, Heater Operator.

## DECISION NO. M182-2042

## CLASSIFICATION DEFINITIONS

## POWER EQUIPMENT OPERATORS: HIGHWAY, AIRPORT &amp; BRIDGE CONSTRUCTION

## CLASSIFICATIONS:

CLASS 1 - Asphalt Plant Operator, Crane Operator, Dragline, Shovel Operator, Locomotive Operator, Paver (5 bags or more), Elevating Grader Operator, File Driving Operator, Roller (asphalt), Blade Grader Operator, Trenching Machine (ladder or wheel type), Auto-Grader, Slip Form Paver, Self-Propelled or Tractor Drawn Scraper, Conveyor Loader Operator (euclid type), Endloader Operator (1 yd. capacity or over), Bulldozer, Concrete Pump (3" and over), Swing Boom Truck (over 12 ton capacity), Hoisting Engineer, Tractor Operator, Finishing Machine (asphalt), Mechanic, Pump Operator (6" discharge or over, gas, diesel powered or generator of 300 amp or over), Shoulder or Gravel Distributing Machine Operator (self-propelled), Backhoe (with over 3/8 yard bucket), Side Boom Tractor (type D-4 or equivalent or larger), Tube Finisher (slip form paving), Gradall (and similar type machines), Asphalt Paver (self-propelled), Asphalt Planer (self-propelled), Batch Plant (Concrete-Central mix, transit mix, shrink mix), Slurry Machine (asphalt), Roto Mill.

CLASS 2 - Sweeper (Wayne type & similar equipment), Screening Plant Operator, Washing Plant Operator, Crusher, Backhoe (with 3/8 yard bucket or less), Side Boom Tractor (smaller than D-4 type or equivalent), Batch Plant (concrete - dry mix).

CLASS 3 - Air Compressor Operator (600 cfm or more), Air Compressor (2 or more - less than 600 cfm), Wagon Drill Operator, Concrete Breaker, Tractor Operator (farm type w/ attachments).

CLASS 4 - Boiler Fireman, Oiler, Fireman, Mechanic's Helper, Trencher (service), Flexplane Operator, Cleftplane Operator, Grader (Self-propelled Fine-Grade or Form (concrete)), Finishing Machine (concrete), Boom or Winch Hoist Truck Operator, Concrete Pump (under 3"), Mesh Installer (self-propelled), Endloader (under 1 yard capacity), Roller Operator (other than asphalt), Curing Equipment (self-propelled), Concrete Saw Operator (40 h.p. or over), Power Bin Operator, Plant Drier (asphalt), Vibratory Compaction Equipment (6 ft. wide or over), Guard Post Driver (power driven), All Mulching Equipment, Stump Remover, Farm Type Tractor Operator.

## DECISION NO. M182-2042

## CLASSIFICATION DEFINITIONS

## TRUCK DRIVERS: UNDERGROUND CONSTRUCTION

CLASSIFICATIONS: (ZONES 1 & 2 only)  
 CLASS 1 - Truck Drivers on all trucks (EXCEPT dump trucks of 8 cubic yards capacity or over, pole trailers, semis, low boys, euclid, double bottom & fuel trucks.)  
 CLASS 2 - Truck Drivers of Dump Trucks of 8 cubic yards capacity or over, Pole Trailers, Semis & Fuel Trucks.  
 CLASS 3 - Truck Drivers on Low Boys, Euclid & Double Bottoms.  
 CLASSIFICATIONS: (ZONE 4 only)  
 CLASS 1 - Truck Drivers (Straight & dump trucks less than 8 cubic yards capacity.)  
 CLASS 2 - Dump Trucks (8 cubic yards capacity & over), Tandem Axles & Semis.  
 CLASSIFICATIONS: (ZONE 6 only)  
 CLASS 1 - Truck Drivers on all trucks (EXCEPT dump trucks of 8 cubic yards capacity or over, pole trailers & double bottoms.)  
 CLASS 2 - Truck Drivers on Dump Trucks of 8 cubic yards capacity or over & Pole Trailers.  
 CLASS 3 - Low Boys & Double Bottoms.  
 CLASS 4 - Structural Steel Driver.

## CLASSIFICATIONS: (ZONE 7 only)

CLASS 1 - Truck Drivers.  
 CLASS 2 - Yardmen.  
 CLASS 3 - Truck Drivers on trucks 8 cubic yards capacity or over, Mechanics.  
 CLASS 4 - Semi Driver.

## CLASSIFICATIONS: (ZONE 8 only)

CLASS 1 - Straight or Dump Drivers.  
 CLASS 2 - Semi &/or Double Bottoms.

## CLASSIFICATIONS: (ZONE 9 only)

CLASS 1 - Truck Drivers (less than 8 cubic yards capacity.)  
 CLASS 2 - Truck Drivers (8 cubic yards capacity & over.)  
 CLASS 3 - Drivers (Euclid type equipment.)

## CLASSIFICATIONS: (ZONE 10 only)

CLASS 1 - Truck Drivers & General Warehouse Combination.  
 CLASS 2 - Tandem Trucks & Trucks 8 cubic yards or over capacity.  
 CLASS 3 - Semis, Double Bottoms, Low Boys, Pitman Operators &/or related equipment.  
 CLASS 4 - Euclid type, Bottom & End Dump Drivers.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR, 5.5(a) (1) (iii)).

## DECISION NO. M182-2042

## CLASSIFICATION DEFINITIONS

## POWER EQUIPMENT OPERATORS: STEEL ERECTION

CLASSIFICATIONS: (ZONE 1 only)  
 CLASS 1 - Crane Operator when operating combination of Boom and Jib 220' or longer.  
 CLASS 2 - Crane Operator when operating combination of Boom and Jib 220' or longer on a Crane that requires an Oiler.  
 CLASS 3 - Crane Operator when operating combination of Boom and Jib 140' or longer.  
 CLASS 4 - Crane Operator when operating combination of Boom and Jib 140' or longer on a Crane that requires an Oiler.  
 CLASS 5 - Crane Operator when operating combination of Boom and Jib 120' or longer.  
 CLASS 6 - Crane Operator when operating combination of Boom and Jib 120' or longer on a Crane that requires an Oiler.  
 CLASS 7 - Crane Operator and Job Mechanic.  
 CLASS 8 - Crane Operator on a Crane that requires an Oiler.  
 CLASS 9 - Hoisting Operator.  
 CLASS 10 - Compressor and/or Welder Operator.  
 CLASS 11 - Oiler.

## POWER EQUIPMENT OPERATORS: STEEL ERECTION (Cont'd)

CLASSIFICATIONS: (ZONE 2 only)  
 CLASS A - Crane Operator with main Boom & Jib 220' or longer.  
 CLASS B - Crane Operator with main Boom & Jib 140' or longer, Tower Cranes, Gantry Cranes, Whirley Derrick.  
 CLASS C - Regular Equipment Operator, Crane, Dozer, Loader, Hoist, Straddle Wagon, Job Mechanic.  
 CLASS D - Air Tugger (single drum), Material Hoist, Pump (6" or over).  
 CLASS E - Air Compressor, Welder, Generators, Conveyors.  
 CLASS F - Oiler and Fireman.

## TRUCK DRIVERS: HIGHWAY, AIRPORT &amp; BRIDGE CONSTRUCTION

CLASSIFICATIONS:  
 CLASS 1 - Truck Drivers (less than 8 cyd capacity).  
 CLASS 2 - Truck Drivers (8 cyd capacity & over).  
 CLASS 3 - Drivers (Euclid type equipment).

## SUPERSSEAS DECISION

STATE: Virginia

LOCATION: The Cities of Chesapeake, Portsmouth and Virginia Beach

DATE: Date of Publication

DECISION NO.: VA82-3023

Supersedeas Decision No. VA81-3083 dated November 27, 1981 in 46 FR 58029

DESCRIPTION OF WORK: Building Construction (does not include single family homes and apartments up to and including 4 stories).

|                                                                                                                                         | Basic Hourly Rates | Fringe Benefits |

| LATHERS                                                                                                                                 | 10.75              | .25             |
| LEAD BURNERS                                                                                                                            | 10.75              | .66+d           |
| LINE CONSTRUCTION: Linemen and Cable Splicers                                                                                           | 12.90              | 1.76            |

DECISION NO. VA82-3023

WELDERS-receive rate prescribed for craft performing operation for which welding is incidental.

## PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

## FOOTNOTES:

- Workmen shall be allowed 2 hours with pay at the start or at the end of the work day on State and National Election days; Tuesday following the first Monday in November, provided they are qualified to and Vote.
- Employer contributes 8% basic hourly rate for 5 years of more of service or 6% basic hourly rate for 6 months to 5 years service as vacation pay credit.
- Holidays: A through F; Washington's Birthday, Good Friday and Christmas Eve provided the employee has worked 30 full days during the 90 calendar days prior to the holiday and the regular scheduled work days immediately preceding and following the holiday.

## POWER EQUIPMENT OPERATOR CLASSIFICATIONS:

- GROUP 1 - Tunnel machine, cranes, derricks, pile drivers, pavers, two or more drum hoist, finish motor grader, mechanic, batch plant, gradall, quad
- GROUP 2 - Cableways, tractors with attachments, combination front end loader and backhoe, front end loader, rubber tired scraper and pans, rough motor grader, 20-ton locomotive, bulldozers, pump crete, trenching machine, mixer larger than 165, fork lift
- GROUP 3 - Compressor over 125 cu. ft., bottom and end dumps, tractors without attachments, 1 drum hoist, rollers, welding machines (gas or diesel), locomotive under 20-tons, power plant, generator (1200 KW or larger), pumps (over 2 inches, including wellpoints), A-frame trucks, mechanic's helper
- GROUP 4 - Firemen
- GROUP 5 - Oilers

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR, 5.5 (a)(1)(ii)).

## SUPERSSEAS DECISION

STATE: Virginia  
 COUNTIES: Henrico and the Independent City of Richmond  
 DATE: Date of Publication  
 DECISION NO.: VA82-3022  
 Supersedes Decision No. VA81-3084 dated November 27, 1981 in 46 FR 58031  
 DESCRIPTION OF WORK: Building Construction (does not include single family homes and apartments up to and including 4 stories).

## DECISION NO. VA82-3022

## SPRINKLER FITTERS

## POWER EQUIPMENT OPERATORS-BUILDING CONSTRUCTION:

|         | Basic Hourly Rates | Fringe Benefits |
|---------|--------------------|-----------------|
| GROUP 1 | 13.47              | 2.83            |
| GROUP 2 | 12.40              | 1.775           |
| GROUP 3 | 9.95               | 1.775           |
| GROUP 4 | 8.00               | 1.775           |
| GROUP 5 | 7.80               | 1.775           |
| GROUP 5 | 7.61               | 1.775           |

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

## PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day

## FOOTNOTES:

- Employer contributes 8% of basic hourly rate for 5 years or more of service or 6% of basic hourly rate for 6 months to 5 years of service as vacation pay credit.
- Paid Holidays: A through F, Day after Thanksgiving.
- Paid Holidays: A through F; Washington's Birthday; Good Friday and Christmas Eve, provided the employee has worked 30 full days during the 90 calendar days prior to the holiday and the regular scheduled work days immediately preceeding and following the holiday.

## PEO DEFINITIONS:

- GROUP 1 - Tunnel machine, cranes, derricks, pile drivers, pavers, two or more drum hoist, finish motor grader, mechanic, batch plant, gradall, quad
- GROUP 2 - Cableways, tractors with attachments, combination front end loader and backhoe, front end loader, rubber tired scraper and pans, rough motor grader, 20-ton locomotive, bulldozers, pump crete, trenching machine, mixer larger than 16S, fork lift
- GROUP 3 - Compressor over 125 cu. ft., bottom and end dumps, tractor without attachments, 1 drum hoist, rollers, welding machines (gas or diesel), locomotive under 20-tons, power plant, generator (1200 KW or larger), pumps (over 2 inches, including wellpoints), A-frame trucks, mechanic's helpers

## GROUP 4 - Firemen

## GROUP 5 - Oilers

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR 5.5(a)(1)(ii)).
