BILLING CODE 3810-01-M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 50

National Capital Parks Regulations; Demonstrations in the White House Area

AGENCY: National Park Service, Interior.

ACTION: Interim rule with request for comments.

SUMMARY: This interim rule with requests for comments amends § 50.19 of Title 36 of the Code of Federal Regulations concerning demonstrations and special events in the National Capital Parks to prohibit signs or placards on the White House sidewalk except those that are carried by an individual. The interim rule also amends § 50.19 of Title 36 of the Code of Federal Regulations and § 50.7(h) of the same title concerning storage of materials in park areas to prohibit the placement or storage of parcels, containers, packages, bundles or other property on the sidewalks surrounding the White House.

DATES: This interim rule is effective April 22, 1983, and will remain in effect until revoked, replaced or modified by a final rulemaking publication. Written comments, suggestions, or objections regarding this interim rule will be accepted until May 23, 1983.

ADDRESS: Written comments regarding this interim rule should be sent to Manus J. Fish, Jr., Regional Director, National Capital Region, National Park Service, 1100 Ohio Drive, S.W., Washington, D.C. 20242.

FOR FURTHER INFORMATION CONTACT: Sandra Alley, Associate Regional Director, Public Affairs, National Capital Region, National Park Service, 1100 Ohio Drive, S.W., Washington, D.C.

SUPPLEMENTARY INFORMATION: The following persons participated in the writing of this rule: Richard G. Robbins and Patricia S. Bangert, Office of the Solicitor, Department of the Interior.

Background

Recent events in the Memorial Core parks have increased security concerns for the White House and the President. On December 8, 1982, an individual backed a truck up to the Washington Monument and threatened to blow up the structure with 1,000 pounds of dynamite that he allegedly had stored in the truck. The incident, occurring a mere three blocks from the White House, highlighted the threat that could be potentially caused to the White House and the President by one determined individual.

Since the incident, the National Park Service, along with other law enforcement agencies, have reviewed present regulations applicable to the White House area to determine if regulatory changes could aid in minimizing potential threats to the structure and its occupants. Two areas of concern became evident in that review—signs or placards stationed on the White House sidewalk and parcels, containers, packages, bundles and other property placed or stored on the White House sidewalk and other sidewalks surrounding the structure. (The term White House sidewalk is defined in 36 CFR 50.19(a)(5) as "the south sidewalk of Pennsylvania Avenue, NW., between East and West Executive Avenues, NW.")

Signs or placards leaning against the White House fence, and parcels and other property placed or stored on the sidewalks, especially those left unattended, represent potential threats to the security of the area. For example, both can potentially conceal explosives or other contraband and both can potentially be used to scale the White House fence. In fact, the Secret Service reports a recent incident in which a large sign was used to facilitate the scaling of the fence.

In addition to security concerns, experience with the recent proliferation of signs or placards and parcels and other property stationed and stored on the White House sidewalk has demonstrated that the policy of allowing such activity impedes the free flow of pedestrian and emergency traffic by and through the White House and significantly diminishes the White

House experience for park visitors. For example, two individuals who have in the past and are presently maintaining a daily demonstration in front of the White House have had as many as twenty-five signs or placards leaning against the White House fence. In addition to the signs, paper bags, suitcases and other parcels containing personal belongings obstruct the view of the White House and impede the flow of pedestrian traffic.

It is the judgment of the National Park Service that certain restrictions can be placed upon the stationing of signs or placards and placement or storage of parcels and other property on the White House sidewalk which would enhance the park visitor's experience in viewing the White House and respond to security concerns without impairing the demonstrator's ability to convey a message.

Regulatory Changes

To accomplish the purpose of minimizing potential threats to the White House and the President, and for the other purposes outlined above, the National Park Service is amending present regulations to prohibit signs or placards on the White House sidewalk, except those that are being hand-carried by an individual. The regulation, then, is not applicable to other parks where demonstrations are permitted. (Demonstrations are not permitted on other sidewalks contiguous to the White House. 36 CFR 50.19(c)(1).)

The interim rule would not prohibit the carrying of a sign or placard during demonstrations on the White House sidewalk. Further, it would not place any restriction on the size of the sign or placard, as long as it is in fact being held or carried by an individual. The interim rule would prohibit signs or placards that are not held or carried by individuals, for example, signs that are leaned against the White House fence, signs that are left unattended on the White House sidewalk and signs that are supported by other structures. In fact, the interim rule does not dramatically change the present regulatory scheme—temporary structures are presently prohibited on the White House sidewalk under 36 CFR 50.19(e)(8).

The National Park Service believes that there is a substantial government interest in regulating the use of signs or placards on the White House sidewalk. Signs or placards not hand-carried and those left unattended cannot be easily moved in emergency situations. Signs or placards leaning against the White House fence may conceal dangerous

materials, obscure the view of law enforcement personnel and create other security problems. For example, a sign affixed to a large structure caught fire several weeks ago, seriously damaging the fence and granite post in front of the Old Executive Office Building, a few feet from the White House sidewalk and fence.

In addition, signs or placards leaning against the White House fence can obscure the view of the White House for the thousands of park visitors. Signs or placards stationed on the sidewalk also incommode the passageway and sometimes cause difficulty in maintaining smooth pedestrian flow, which may include park visitors and persons having business in the area.

The interim rule also prohibits the placement or storage of parcels, containers, packages, bundles or other property on the White House sidewalk, the west sidewalk of East Executive Avenue, N.W. between Pennsylvania Avenue, N.W. and E Street, N.W., and the north sidewalk of E Street, N.W. between East and West Executive Avenues, N.W. The rule will not interfere with an individual who is carrying a parcel or other property along the sidewalk. In fact, it will not even subject an individual setting a parcel or other property down on the sidewalk or attending structures for up to one hour to law enforcement action unless that individual either refuses law enforcement personnel requests to search the property, or leaves the property unattended.

The National Park Service concludes, however, that when a parcel, container, package, bundle or other property is placed or stored on the sidewalks contiguous to the White House, potential security problems are created. In addition, the National Park Service concludes that parcels and other property, like signs or placards, may obscure the view of the White House by park visitors and law enforcement personnel, may be difficult to move when the sidewalk must be cleared in an emergency and may incommode the sidewalk and interfere with visitor and business pedestrian traffic.

The National Park Service believes that these minor restrictions on the stationing of signs or placards and the placement or storage of parcels, containers, packages, bundles or other property serve substantial government interests in maintenance of the security of the White House, preservation of the park experience for park visitors, and free passage of pedestrian traffic by and through the White House. The regulation

is written in a neutral manner such that all persons are prohibited from stationing signs or placards or storing parcels or other property on the sidewalks surrounding the White House. In addition, it is unrelated to the suppression of free expression and the incidental impact on First Amendment freedoms is only as great as is essential to serve the substantial government interests in security, aesthetics and free passage of pedestrian traffic. Further, the interim rule applies only to sidewalks contiguous to the White House. A substantial number of alternative forums exist close to the White House sidewalks where these restrictions do not apply.

Public Participation

The policy of the Department of the Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the interim rule to the address noted at the beginning of the rulemaking within the time period specified.

Impact Analysis

The National Park Service has determined that this document is not a major rule requiring preparation of a Regulatory Impact Analysis under Executive Order 12291. The National Park Service has also determined that the interim rule will not have a significant economic impact on a substantial amount of small entities and, therefore, does not require a small entity flexibility analysis under Pub. L. 96-354. The interim rule merely places restrictions on the stationing of signs or placards and parcels and other property on sidewalks contiguous to the White House. It will have no substantial impact on any aspect of the economy.

The National Park Service has further determined that this interim rule is not a major Federal action significantly affecting the quality of the human environment.

SUMMARY: This notice announces the delegation of authority by the Environmental Protection Agency to the Commonwealth of Puerto Rico to implement and enforce additional source categories of the Standards of Performance for New Stationary Sources (NSPS). This delegation was requested by the Puerto Rico Environmental Quality Board (EQB).

NSPS is an air pollution control requirement set under the Clean Air Act. NSPS are applicable to certain categories of new air pollution sources.

EFFECTIVE DATE: This action is effective April 22, 1983.

SUPPLEMENTARY INFORMATION: Section 111(c) of the Clean Air Act directs the Administrator of the Environmental Protection Agency (EPA) to delegate EPA's authority to implement and enforce Standards of Performance for New Stationary Sources (NSPS) to any state which has submitted adequate procedures. Nevertheless, the Administrator still retains concurrent authority to enforce the standards following delegation of authority to a state.

On June 8, 1982 the Chairman of the Puerto Rico Environmental Quality Board (EQB) requested that the EPA delegate to that Board the authority to implement and enforce certain additional source categories of NSPS. The following is a complete listing of NSPS delegated to the EQB. The source categories now being delegated by today's action are identified with an asterisk(*).

EPA's Findings

EPA's determination that the delegation request should be approved is based on the Agency's review of the Puerto Rico Public Policy Environmental Act, Law No. 9 of 1970, 12 L.P.R.A. Sec. 1121, et. seq. and on the Puerto Rico Regulation for the Control of Atmospheric Pollution. EPA determined that such delegation is, therefore, appropriate and so notified the chairman of the EQB, in a letter dated November 19, 1982. This letter identifies the conditions under which delegation would be approved. EQB, in a letter dated January 5, 1983, requested that the EPA approve minor revisions to some of the conditions for delegation. EPA agreed to these modifications in a January 28, 1983 letter to the Chairman of the EQB. Delegation was subsequently accepted by EQB in a letter dated

March 7, 1983. Copies of all correspondence and EPA's delegation letter are available for public inspection in the Office of the Air Facilities Branch at the Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10278.

The Office of Management and Budget has exempted this action from the requirements of Section 3 of Executive Order 12991.
