##### 40 CFR Part 1

[SWH-FRL 2391-2]

#### State and Local Assistance; Correction

AGENCY: Environmental Protection Agency.

ACTION: Change to rule-related document.

**SUMMARY:** The purpose of this notice is to change the rule-related document published on February 7, 1983 [48 FR 5684]. That notice established policies and procedures for financial assistance to States for the purposes of section 3012 of the Resource Conservation and Recovery Act (RCRA). This change extends the deadline for submission by the States of a final application for assistance until [twenty one (21) calendar days after publication].

The procedures for review and approval of applications for funds as outlined in the February 7, 1983, notice called for initial review by Regional Administrators, followed by formal submission to, and approval by, the Administrator. The notice contained general information concerning submission of applications and stated that the Environmental Protection Agency (EPA) had prepared guidance to provide additional information to States concerning allowable activities. That guidance, which provided more specific information on application preparation, review and approval, was to have been distributed concurrent with the February 7, 1983, notice. However, it was delayed in distribution because the Agency was in the process of changing the procedures; delegating the authority to approve cooperative agreements under RCRA section 3012 to the Regional Administrators. That authority was delegated on May 18, 1983.

The delay in providing specific guidance to the States has caused a number of States to miss the May 9, 1983, deadline for submission of final applications that was established in the February 7, 1983, notice. Because this delay was out of the control of the States, EPA, by this notice, is extending the deadline until July 21, 1983 to afford the States sufficient time to incorporate the information contained in the guidance into their final applications.

**EFFECTIVE DATE:** This notice is effective on June 30, 1983.

[SW-FRL 2391-2]

#### Hazardous Waste Management System: Permit Program; Requirements for Authorization of State Programs; Procedures for Decisionmaking; Identification and Listing of Hazardous Waste; Standards for Owners and Operators of Hazardous Waste Storage, Treatment, and Disposal Facilities; Interim Status Standards for Owners and Operators of Hazardous Waste Storage, Treatment, and Disposal Facilities; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction.

**SUMMARY:** On April 1, 1983, the Environmental Protection Agency published regulations which, in part, reorganized the presentation of permitting and state program requirements of the Hazardous Waste Management Program under the Resource Conservation and Recovery Act (RCRA). (48 FR 14146 *et seq.*) The April 1 rulemaking was intended to make the regulations easier to understand and use by physically deconsolidating the Agency's Consolidated Permit Regulations. In today's action, EPA amends those regulations to correct minor typographical errors, incorrect cross-references and similar technical errors. This rule makes *no substantive changes* to the CRA permitting or state program requirements and is effective immediately.

**EFFECTIVE DATE:** June 30, 1983.

**FOR FURTHER INFORMATION CONTACT:** RCRA Hotline toll-free at (800) 424-9346 or at (202) 382-3000.

**SUPPLEMENTARY INFORMATION:** On April 1, 1983, EPA promulgated final rules to deconsolidate the Agency's May 19, 1980 Consolidated Permit Regulations which governed five separate permit programs. The April 1st regulations deconsolidated

the basic permit requirements for administration of permit programs (40 CFR Part 122); the requirements for authorization of State programs (40 CFR Part 123); and EPA procedures for issuing, modifying, revoking and reissuing, or terminating permits (40 CFR Part 124). The provisions in these regulations addressing the Hazardous Waste Management (HWM) permit program and State authorization under Subtitle C of the Resource Conservation and Recovery Act (RCRA) were part of this deconsolidation effort, and the RCRA requirements formerly found in 40 CFR Parts 122 and 123 are now separately addressed in new Parts 270 and 271, respectively. The permitting procedures for all the programs (including RCRA) are still addressed together in 40 CFR Part 124.

The preamble to the deconsolidated permit regulations requested public comments to aid EPA in correcting typographical errors, incorrect cross-references and similar technical errors (e.g., the unintentional deletion or omission of regulatory provisions). Today's amendments address those public comments. The amendments also re-insert regulation changes which were promulgated after the publication of the original Consolidated Permit Regulations (on May 19, 1980) but were inadvertently omitted in the April 1, 1983 publication. Conforming amendments are also made to certain provisions of Parts 261, 264 and 265 which cross-reference the deconsolidated permit regulations.

Dated: June 24, 1983.

Lee M. Thomas,

Acting Associate Administrator for Solid Waste and Emergency Response.
