

transmittal by the President to the Senate of the nomination of the individual.

(2) *New Entrants.* Persons who have assumed a position described in paragraph (a) of this section must file such report within 30 days of assuming such position, unless the individual has left another Government position described in 5 CFR 734.202 within 30 days of assuming such new position or has filed such report pursuant to category (1) of this paragraph. This requirement shall not apply to an individual who, as determined by the Designated Agency Ethics Official, is not reasonably expected to perform the duties of his office or position for more than 60 days in a calendar year, except that if such individual performs the duties of his or her office or position for more than 60 days in a calendar year such report shall be filed within 15 days of the sixtieth day.

(c) *Termination of Employment.* Persons who have terminated employment in a position described in paragraph (a) of this section must file an "Executive Personnel Financial Disclosure Report" (OPM Standard Form 278) with the Designated Agency Ethics Official within 30 days of termination of employment, unless such individual has accepted employment in another Government position described in 5 CFR 734.202. Such report shall cover:

(1) The preceding calendar year (if the report required by paragraph (a) of this section has not been filed); and

(2) the portion of the calendar year in which such termination occurs up to the date the individual left such position. This paragraph does not apply to an individual who does not perform the duties of his office or position for more than 60 days in a calendar year.

(d) *Waiver.* The Director of the Office of Government Ethics may grant a publicly available request for a waiver of any reporting requirement under this subsection for an individual who is expected to perform or has performed the duties of his or her office or position fewer than 130 days in a calendar year, but only if the director determines that: such individual is not a full-time employee of the Government; such individual is able to provide services specially needed by the government; it is unlikely that the individual's outside employment or financial interests will create a conflict of interest; and public financial disclosure of such individual is not necessary in the circumstances. See 5 CFR 734.205.

(e) *Extensions.* The Designated Agency Ethics Official may, for good cause, grant an extension of time for

filing the reports required by this section of up to 45 days. Any other extension must have the approval of the Office of Government Ethics. See 5 CFR 734.201(f).

(f) After being reviewed in accordance with § 19.742 of this Subpart, copies of the reports filed under paragraphs (a)(1), (a)(6), and (b)(1) of this section shall be transmitted to the Director of the Office of Government Ethics.

§ 19.742 Review of reports.

Each report filed under this Subpart shall be reviewed by the Designated Agency Ethics Official (DAEO) within 60 days after such filing. The report filed by the DAEO shall be reviewed by the Chairman (or his or her delegate) prior to transmitting a copy to the Director of the Office of Government Ethics.

(a) If the report is in compliance with applicable laws and regulations, the report shall be so certified by the DAEO.

(b) If additional information is required, the DAEO shall notify the individual of the additional information required and the date by which it must be submitted.

(c) If the DAEO finds reason to believe, based on the information submitted, that the individual may not be in compliance with applicable laws and regulations, the DAEO shall notify the individual and afford him or her a reasonable opportunity for a written or oral response. If, after considering any such response, the DAEO concludes that an individual is not in compliance with applicable laws and regulations, the DAEO shall notify the individual of that opinion and, after an opportunity for personal consultations (if practicable), determine and notify the individual of which steps, if any, would in the DAEO's opinion be appropriate for assuring compliance with such laws and regulations and the date by which such steps should be taken, ordinarily within 90 days. If steps for assuring compliance are not taken by the specified date, the matter shall be referred to the Commission for appropriate action (or, in the case of a Commissioner, to the President). See 5 CFR 734.604.

(d) For purposes of assisting employees, the DAEO shall maintain a list, which shall be available to employees, of those circumstances or situations which have resulted or may result in noncompliance with applicable laws and regulations. The absence of a particular circumstance from such list shall not be construed that such circumstance would be in compliance.

§ 19.743 Custody of and public access to reports.

(a) A copy of a position description shall, if available, be attached by the Designated Agency Ethics Official to each report filed pursuant to this Subpart.

(b) Any report filed pursuant to this Subpart shall be available for public inspection and copying within 15 days after such report is received upon fulfillment of the requirements of § 0.460 of Part 0 of this chapter. Such reports shall not be obtained or used: for any unlawful purpose; for any commercial purpose, other than by news and communications media for dissemination to the general public; for determining or establishing the credit rating of any individual; or for use, directly or indirectly, in the solicitation of money for any political, charitable, or other purpose.

(c) Any report filed pursuant to this Subpart shall be retained by the agency and made available to the public for six years after receipt of the report. After such six-year period the report shall be destroyed unless needed in an ongoing investigation or as otherwise provided by Section 205(d) of the Ethics in Government Act of 1978. See also 5 CFR 734.603(f).

Operating and Maintenance Logs for Broadcast and Broadcast Auxiliary Stations; Correction

AGENCY: Federal Communications Commission.

ACTION: Final Rule; Correction.

SUMMARY: The Commission herein editorially corrects the Appendix to the *Report and Order* previously issued in this proceeding relating to operating and maintenance logs. This action is necessary because we have identified various rule sections that were inadvertently omitted from the Appendix or incorrectly amended. Additionally, other rule sections have been identified as having been amended ambiguously or in a way unintentionally burdensome on the affected licensees. The effect of this action is to ensure that all Part 73 and Part 74 rules reflect the policies adopted earlier in this proceeding.

Erratum

In the Matter of Operating and maintenance logs for broadcast and broadcast auxiliary stations; BC Docket No. 82-537.

Released: September 22, 1983.

The *Report and Order* in the above entitled matter, adopted on July 14, 1983 and released August 12, 1983, 48 FR 38473, published August 24, 1983, contained several inadvertent mistakes or omissions. These errors are corrected as indicated in the attached Appendix.

Further information on this matter may be obtained from James McNally, Mass Media Bureau, Technical and International Branch (202) 632-9660.

Secretary.

Appendix

PART 73—[AMENDED]

The following corrections are made in FR Doc. 83-22400 appearing on page 38473 in the issue of August 24, 1983:

1. On page 38477, in § 73.51, paragraph (e)(2) is corrected to read as follows:

§ 73.51 Determining operating power.

(e) * * *

(2) The value of F applicable to each mode of operation must be entered in the station log with a notation as to its derivation. This factor is to be established by one of the methods described in paragraph (f) of this Section and entered into the station log.

2. On page 38478, § 73.68, paragraph (d) is corrected to read as follows:

§ 73.68 Sampling systems for antenna monitors.

(d) In the event that the antenna monitor sampling system is temporarily out of service, the station may be operated pending completion of repairs for a period not exceeding 60 days without further authority from the FCC, if the base currents, their ratios, and the deviations of those ratios, in percent, from the values specified in the station authorization are determined for each radiation pattern used.

3. On page 38478, paragraph 13 is corrected to read: "13. In § 73.258, paragraph (e) is revised to read as follows:

§ 73.258 Indicating instruments.

(e) In the event that any one of these indicating instruments becomes defective when no substitute which conforms with the required specifications is available, the station may be operated without the defective instrument pending its repair or replacement for a period not in excess of 60 days without further authority of the FCC: *Provided that*, if the defective instrument is the transmission line meter of a station which determines the output power by the direct method, the operating power shall be determined by the indirect method in accordance with § 73.267(c) during the entire time the station is operated without the transmission line meter.

4. On page 38479, the amendatory language in paragraph 16 is corrected to read:

"16. In § 73.295, paragraph (f) is removed in its entirety and marked 'reserved'."

5. On page 38479, in § 73.340, paragraph (c) is corrected to read as follows:

§ 73.340 Use of automatic transmission systems.

(c) Upon receipt of notification from the FCC, the station can commence full ATS operation. Continuous operation of the station modulation monitor is not required.

6. On page 38479, in § 73.540, paragraph (c) is corrected to read as follows:

§ 73.540 Use of automatic transmission systems.

(c) Upon receipt of notification from the FCC, the station can commence full ATS operation. Continuous operation of the station modulation monitor is not required.

7. FR Doc. 83-22400 on page 38480 is corrected by adding a paragraph 27a to read:

"27a. In § 73.663, the introductory texts of paragraphs (b) and (c) are revised to read as follows:

§ 73.663 Determining operating power.

(b) *Direct method, visual transmitter.* The direct method of power determination for a TV visual transmitter uses the indications of a calibrated transmission line meter (responsive to peak power) located at the RF output terminals of the

transmitter. The indications of the calibrated meter are used to observe and maintain the authorized operating power of the visual transmitter. This meter must be calibrated whenever any component in the metering circuit is repaired or replaced and as often as necessary to ensure operation in accordance with the provisions of § 73.1560 of this Part. The following calibration procedures are to be used:

(c) *Direct method, aural transmitter.* The direct method of power determination for a TV aural transmitter uses the indications of a calibrated transmission line meter (responsive to relative voltage, current or power) located at the RF output terminals of the transmitter. The indications of this calibrated meter are used to observe and maintain the authorized aural operating power of the station. This meter must be calibrated whenever any component in the metering circuit is repaired or replaced and as often as necessary to ensure operation in accordance with the provisions of § 73.1560 of this Part. The following calibration procedures are to be used:

8. FR Doc. 83-22400 is corrected on page 38480 by adding a paragraph 28a to read:

"28a. In § 73.682, paragraph (a)(23)(viii) is revised to read as follows:

§ 73.682 Transmission standards

(a) * * *

(23) * * *

(viii) The modulation of the main carrier by subcarriers and the frequency of each subcarrier shall be measured as often as necessary to ensure compliance with paragraph (a)(23) (ii) and (iii) of this section.

9. FR Doc. 83-22400 is corrected on page 38480 by adding paragraph 37a to read:

"37a. In § 73.1540, paragraph (a) is revised to read as follows:

§ 73.1540 Carrier frequency measurements.

(a) The carrier frequency of each AM and FM station and the visual carrier frequency and the difference between the visual carrier and the aural carrier or center frequency of each TV station shall be measured or determined as often as necessary to ensure that they are maintained within the prescribed tolerances.

10. FR Doc. 83-22400 is corrected on page 38481 by adding paragraph 40a to read:

"40a. In § 73.1670, paragraph (c)(2) is revised to read as follows:

§ 73.1670 Auxiliary transmitters.

(c) * * *

(2) The carrier frequency of the auxiliary transmitter must be measured as often as necessary to ensure that it is maintained within the prescribed tolerance.

11. On page 38481, the amendatory language in paragraph 41 is corrected by removing "and (h)" and in the text of § 73.1800, paragraph (h) is removed and paragraphs (a) and (g) are corrected to read as follows:

§ 73.1800 General requirements related to the station log.

(a) The licensee of each station must maintain a station log as required by §§ 73.1810 and 73.1820. This log will be kept by the station employee or employees competent to do so, having actual knowledge of the facts required. All entries, whether required or not by the provisions of this Part, must accurately reflect the station operation. Any employee making a log entry shall sign the log, thereby attesting to the fact that that entry, or any correction or addition made thereto, is an accurate representation of what transpired.

(g) Application forms for licenses and other authorizations may require that certain technical operating and program data be supplied. These circumstances should be kept in mind in connection with formulating the contents of the station log, since it may contain information previously retained in operating and maintenance logs pursuant to rules no longer in effect.

12. A. On page 38481, in § 73.1820, the introductory text of paragraph (a) and paragraph (a)(1)(iii) are corrected to read as follows:

§ 73.1820 Station log.

(a) Entries must be made in the station log either manually by a properly licensed operator in actual charge of the transmitting apparatus, or by automatic devices meeting the requirements of paragraph (b) of this Section. Indications of operating parameters that are required to be logged must be logged prior to any adjustment of the equipment. Where adjustments are made to restore parameters to their proper operating values, the corrected indications must be logged and accompanied, if any parameter

deviation was beyond a prescribed tolerance, by a notation describing the nature of the corrective action. Indications of all parameters whose values are affected by the modulation of the carrier must be read without modulation. The actual time of observation must be included in each log entry. The following information must be entered:

(iii) An entry of each test of the Emergency Broadcast System procedures pursuant to the requirements of Subpart G of this Part and the appropriate EBS checklist. In the case of TV and non-commercial, educational FM stations, such entries may be made in the program log. Alternatively, all stations may keep EBS test data in a special EBS log which may be maintained at any convenient location; however, such log shall be considered a part of the station log.

§ 73.1820 [Amended]

B. FR Doc. 83-22400 is corrected on page 38482 by adding a paragraph 42a to read as follows:

"42a. In § 73.1820, the introductory text of paragraph (b) and paragraphs (b)(3) and (b)(5) are revised to read:

(b) Automatic devices accurately calibrated and with appropriate time, date and circuit functions may be utilized to record entries in the station log *Provided*:

(3) The calibration is checked against the original indicators as often as necessary to ensure recording accuracy;

(5) The alarm circuit operates continuously or the devices which record each parameter in sequence must read each parameter at least once during each 30 minute period;

13. On page 38482, in § 73.1870, paragraph (c)(3) is corrected to read as follows:

§ 73.1870 Chief operators.

(c) * * *

(3) Review of the station records at least once each week to determine if required entries are being made correctly. Additionally, verification must be made that the station has been operated as required by the rules or the station authorization. Upon completion of the review, the chief operator or his designee must date and sign the log, initiate any corrective action which may be necessary, and advise the station

licensee of any condition which is repetitive.

PART 74—[AMENDED]

14. On page 38482, in § 74.381, the introductory text of paragraph (a) is corrected to read as follows:

§ 74.381 Station records.

(a) The licensee of each developmental broadcast station must maintain adequate records of the operation, including:

15. FR Doc. 83-22400 is corrected on page 38482 by adding paragraph 53a to read:

"53a. In § 74.465, paragraph (b) is revised to read as follows:

§ 74.465 Frequency monitors and measurements.

(b) Frequency measurements for each transmitter shall be made as often as necessary to ensure proper operation."

16. FR Doc. 83-22400 is corrected on page 38482 by adding paragraph 53b to read:

"53b. Part 74 is amended by removing § 74.481."

17. On page 38482, paragraph 57 is corrected by removing "74.781" and FR Doc. 83-22400 is corrected on page 38482 by adding paragraph 58 to read:

"58. Section 74.781 is revised in its entirety to read as follows:

§ 74.781 Station records.

(a) The licensee of a low power TV or TV translator station shall maintain adequate station records, including the current instrument of authorization, official correspondence with the FCC, maintenance records, contracts, permission for rebroadcasts, and other pertinent documents.

(b) Entries required by § 17.49 of this Chapter concerning any observed or otherwise known extinguishment or improper functioning of a tower light:

(1) The nature of such extinguishment or improper functioning.

(2) The date and time the extinguishment or improper operation was observed or otherwise noted.

(3) The date, time and nature of adjustments, repairs or replacements made.

(c) The station records shall be maintained for inspection at a residence, office, or public building, place of business, or other suitable place, in one of the communities of license of the translator or booster, except that the station records of a booster or translator licensed to the licensee of the primary

station may be kept at the same place where the primary station records are kept. The name of the person keeping station records, together with the address of the place where the records are kept, shall be posted in accordance with § 74.765(c) of the rules. The station records shall be made available upon request to any authorized representative of the Commission.

(d) Station logs and records shall be retained for a period of two years."

18. FR Doc. 83-22400 is corrected on page 38482 by adding a paragraph 59 to read:

"59. In § 74.939, paragraph (i) is revised to read as follows:

§ 74.939 Special rules governing ITFS response stations.

(i) The transmitter of an ITFS response station may be operated unattended provided that the transmissions are observed by the operator on duty at the associated instructional television fixed station, who shall take such steps as may be necessary to correct any condition of improper operation. The overall performance of the ITFS response station transmitter shall be checked as often as necessary to ensure that it is functioning in accordance with the requirements of the Commission's rules. The licensee of an ITFS response station is responsible for the proper operation of the transmitter at all times. The transmitter shall be installed and protected in such manner as to prevent tampering or operation by unauthorized persons.

19. FR Doc. 83-22400 is corrected on page 38482 by adding a paragraph 60 to read:

"60. In § 74.950, paragraph (e) is revised to read as follows:

§ 74.950 Equipment performance and installation.

(e) The requirements of § 73.687(c)(2) of this Chapter will be considered to be met insofar as measurements of operating power are concerned, if the transmitter is equipped with instruments for determining the combined visual and aural operating power. However, licensees are expected to maintain the operating powers within the limits specified in the rules of this part. Measurements of the separate visual and aural operating powers should be made at sufficiently frequent intervals to ensure compliance with the rules.

20. FR Doc. 83-22400 is corrected on page 38482 by adding a paragraph 61 to read:

"61. In § 74.962, paragraph (b) is revised to read as follows:

§ 74.962 Frequency monitors and measurements.

(b) The operating frequencies shall be checked as often as necessary to ensure that they are within the prescribed tolerances at all times.

21. On page 38482, paragraph 57 is corrected by removing "and § 74.1281" and by adding a paragraph 62 to read:

"62. Section 74.1281 is revised in its entirety to read as follows:

§ 74.1281 Station records.

(a) The licensee of a station authorized under this Subpart shall maintain adequate station records, including the current instrument of authorization, official correspondence with the FCC, maintenance records, contracts, permission for rebroadcasts, and other pertinent documents.

(b) Entries required by § 17.49 of this Chapter concerning any observed or otherwise known extinguishment or improper functioning of a tower light:

(1) The nature of such extinguishment or improper functioning.

(2) The date and time the extinguishment of improper operation was observed or otherwise noted.

(3) The date, time and nature of adjustments, repairs or replacements made.

(c) The station records shall be maintained for inspection at a residence, office, or public building, place of business, or other suitable place, in one of the communities of license of the translator or booster, except that the station records of a booster or translator licensed to the licensee of the primary station may be kept at the same place where the primary station records are kept. The name of the person keeping station records, together with the address of the place where the records are kept, shall be posted in accordance with § 74.1265(b) of the rules. The station records shall be made available upon request to any authorized representative of the Commission.

(d) Station logs and records shall be retained for a period of two years."

List of Subjects in 47 CFR Parts 73 and 74

Radio and TV broadcasting.

Order

In the matter of oversight of the radio and TV broadcast rules.

Adopted: September 13, 1983.

Released: September 28, 1983.

By the Chief, Mass Media Bureau.

1. In this *Order*, the Commission adopts corrective edits and updating revisions of the Alphabetical Indices to Parts 73 and 74 of its rules. 47 CFR Parts 73 and 74.

2. Our experience in alphabetically indexing the broadcast rules in Parts 73 and 74 clearly indicates that this makes possible the location of regulations quickly and easily. This fast access has brought about a better understanding of our rules by broadcasters and practitioners due to their ready availability. We also perceive that providing easy access to the rules has reduced considerably the number of letters and phone calls to the FCC requesting help in rule location, thereby minimizing paperwork and administrative workload on the FCC staff, broadcasters and their legal and engineering advisors.

3. No substantive changes are made herein which impose additional burdens or remove provisions relied upon by licensees or the public. We conclude, for the reasons set forth above, that these revisions to Parts 73 and 74 will serve the public interest.

4. These amendments are implemented by authority designated by the Commission to the Chief, Mass Media Bureau. Inasmuch as these amendments impose no additional burdens and raise no issue upon which comments would serve any useful purpose, prior notice of rule making, effective date provisions and public procedure thereon are unnecessary pursuant to the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. 553(b)(3)(B).

5. Since general notice of proposed rule making is not required, the Regulatory Flexibility Act does not apply.

6. Therefore, it is ordered, That pursuant to Sections 4(i), 303(r) and 5(d)(1) of the Communications Act of 1934, as amended, and Sections 0.61 and 0.283 of the Commission's Rules, Parts 73 and 74 of the FCC Rules and Regulations are amended as set forth in the attached appendix, effective September 26, 1983.

7. For further information on this *Order*, contact Steve Crane, Mass Media Bureau, (202) 632-5414.

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction

SUMMARY: The FCC adopted a Report and Order substituting an output power measurement standard for the previous input power standard in the Amateur Radio Service. This erratum corrects one of the accepted standards for output power from a "thru-line" wattmeter to an "in-line" wattmeter.

Erratum

In the matter of definition of measurement of transmitting power in the Amateur Radio Service, PR Docket No. 82-624.
Released: September 21, 1983.

1. On July 22, 1983, the Commission released a *Report and Order*, 48 FR 34746 (August 1, 1983) in the above captioned proceeding. In the *Report and Order*, the Commission amended Parts 2 and 97 of its Rules in order to substitute an output power measurement standard for the old input power standard.

2. At paragraph 5 of the *Report and Order*, *supra*, the Commission chose to recognize two alternative valid measurement standards for output power. The first was the "reading of a thru-line peak radiofrequency (RF) wattmeter, properly matched". "Thru-line" is not accurate or as generic a term as the Commission intended to employ. The term intended in this context was "in-line."

3. Accordingly, that portion of paragraph 5 of the *Report and Order*, *supra*, which previously read:
(1) The reading of a thru-line peak reading radiofrequency (RF) wattmeter, properly matched, or . . . is corrected to read:

(1) The reading of an in-line peak reading radiofrequency (RF) wattmeter, properly matched, or . . .

Organization and Delegation of Powers and Duties; Corrections

AGENCY: Office of the Secretary, DOT.

ACTION: Final rule.

SUMMARY: This amendment corrects three errors in the Regulations of the Office of the Secretary; no substantive change in meaning is intended.

DATE: The effective date of this amendment is September 30, 1983.

FOR FURTHER INFORMATION CONTACT: Robert I. Ross, Office of the General Counsel, C-50, Department of Transportation, Washington, DC (202) 426-4723.

SUPPLEMENTARY INFORMATION: Since this amendment relates to Departmental management, procedures, and practice, notice and comment on it are unnecessary and it may be made effective in fewer than thirty days after publication in the *Federal Register*.

The three errors are:

1. In § 1.47(g), the reference to "49 CFR 87.7(d)" should read "40 CFR 87.7(d)".

2. In Appendix H to Part 7, references to the fee table as being in "Subpart H" should be to "Subpart I".

3. In § 25.199(b), the reference to "§ 5.202" should be "§ 25.202".

In consideration of the foregoing, Part 1 of Title 49, Code of Federal Regulations, is amended as follows:

§ 1.47 [Amended]

1. In § 1.47(g), "49 CFR 87.7(d)" is amended to read "40 CFR 87.7(d)".

Part 7, Appendix H [Amended]

2. In Appendix H to Part 7, "Subpart H", wherever it appears, is amended to read "Subpart I".

§ 25.199 [Amended]

3. In § 25.199(b), "§ 5.202" is amended to read "§ 25.202".

Authority: 49 U.S.C. 32; 49 CFR 1.57(l).
