as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). It is hereby found that this action will tend to effectuate the declared policy of the Act.

BILLING CODE 3410-02-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 83-CE-66-AD; Amdt. 39-4821]

Airworthiness Directives:The Balloon Works Model Firefly 7B Hot Air Balloon

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD), applicable to The Balloon Works Model Firefly 7B (Twelve Gore) Hot Air Balloons which requires lengthening and adjustment of the envelope jumper cords. Reports have been received of jumper cord failures due to envelope distortion which may result in leakage of the envelope valve. This action will preclude loss of the vent system and resulting uncontrollable descent of the balloon.

EFFECTIVE DATE: April 9, 1984.

Compliance: Required within the next 10 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: The Balloon Works Service Bulletin No. B20, dated June 29, 1983, applicable to this AD, may be obtained from The Balloon Works, Rhyne Aerodrome, RFD 2, Statesville, NC 28677; Telephone (704)-878-9501. A copy of this Service Bulletin is also contained in the Rules Docket, FAA, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Jack Bentley, Airframe Branch, ACE-1290A, Atlanta Aircraft Certification Office, 1075 Inner Loop Road, College Park, Georgia 30337; Telephone (404) 763-7407.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an adjustment of the envelope jumper cords on certain Balloon Works Model 7B (Twelve Gore) Hot Air Balloons was published in the **Federal Register** on August 11, 1983 (48 FR 36468). The proposal resulted from reports of breakage of the jumper cords on the envelope of two of these hot air balloons due to the jumper cords being too short. Breakage of the jumper cords can result in leakage of the envelope vent valve and uncontrollable descent of the balloon. Interested persons have been afforded an opportunity to comment on the proposal. Two commenters responded. The first commenter, while he apparently does not object to the NPRM, states that Kevlar is unsuitable for the application. However, it is used on other Balloon Works models without the problems which have occurred on the Model Firefly 7B Hot Air Balloons. The second commenter's remarks are based on information furnished to him by the first commenter. He objects to the use of Kevlar. The FAA does not have information which indicates that Kevlar is unsuitable for use as jumper cords on Model Firefly 7B Hot Air Balloons. Therefore the FAA has not changed its position from the NPRM. There were no comments received on the cost determination. Accordingly, the proposal is adopted without change.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive.

The Balloon Works: Applies to Model Firefly 7B (Twelve Gore) (Serial Numbers F7B-009, F7B-011 through F7B-044, and F-7B-046 through F7B-080) Hot Air Balloons certificated in any category.

Compliance: Required within the next 10 hours time in service after the effective date of this AD, unless already accomplished. To prevent breakage of jumper cords, which may result in uncontrollable descent, accomplish the following:

(a) Lengthen each envelope jumper cord, shorten each centering cord, inflate envelope and examine valve fit and adjust, if necessary, in accordance with The Balloon Works Service Bulletin No. B20, dated June 29, 1983.

(b) An equivalent means of compliance with this AD may be used if approved by the Manager, Atlanta Aircraft Certification Office, FAA Central Region, 1075 Inner Loop Road, College Park, Georgia 30337.

This amendment becomes effective on April 9, 1984.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); § 11.89 of the Federal Aviation Regulations (14 CFR 11.89))

Note.—The FAA has determined that this regulation only involves approximately 70 balloons at an approximate one-time cost of $50 for each balloon or a total one-time fleet cost of $3500. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the regulatory docket.

Issued in Kansas City, Missouri, on February 22, 1984.

John E. Shaw,

Acting Director, Central Region.

[FR Doc. 84-5490 Filed 2-29-84; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 81-RM-1-AD; Amdt. 39-4820]

Airworthiness Directives; Raven Industries Models S-40/A, S-50A, S55A, S-60A S-66A, RX-6, RX-7, and W100LB Hot Air Balloons

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises Airworthiness Directive (AD) 81-21-02, Amendment 39-4232 applicable to Raven Industries Models S-40A, S-50A, S-55A, S-60A, S-66A, RX-6, RX-7 and W100LB hot air balloons by exempting those balloons equipped with the updated FAA Approved Balloon Flight Manual dated April 15, 1983, from paragraph (A) of the AD, clarifies the language of the AD, and deletes detailed maintenance instructions and authorization for a student pilot to sign off the required inspection. Subsequent to the issuance of the original AD the inspections required by the AD have been incorporated in the Limitations Section of the Balloon Flight Manual

and detailed maintenance instructions made available in other documents. Also a recent revision to FAR 43 requires that the inspections required by the AD must be accomplished by the holder of at least a private pilot certificate. This amendment updates the AD to make it consistent with currently available manufacturer's data and regulatory requirements.

EFFECTIVE DATE: March 8, 1984.

Compliance: As prescribed in the body of the AD.

ADDRESSES: A copy of Raven Service Bulletin No. 112, dated March 16, 1983, may be obtained from Raven Industries, Inc., P.O. Box 1007, Sioux Falls, South Dakota 57117. A copy of this information is also contained in the Rules Docket, Office of the Regional Counsel, FAA, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Mr. Kenneth W. Payauys, ACE-120C, FAA, Chicago Aircraft Certification Office, 2300 East Devon Avenue, Des Plaines, Illinois 60018; Telephone (312) 694-7426.

SUPPLEMENTARY INFORMATION: AD 81-21-02, Amendment 39-4232, (46 FR 50363), applicable to Raven Industries Models S-40A, S-50A, S-55A, S-60A, S-66A, RX-6, RX-7 and W100LB hot air balloons, requires inspection of the deflation panel hook pile fastener tape prior to each flight. Subsequent to the issuance of this AD, Raven incorporated the requirements of paragraph (A) of the AD in the pre-flight inspection procedures of the Raven Balloon Flight Manual, dated April 15, 1983. That would give those pilots performing these pre-flight inspections an approved alternate means of compliance with the AD. The FAA has determined that the alternate means of compliance is acceptable and provides a level of safety equivalent to that in the present AD. Also, in the interest of safety, the AD should be revised to clarify and remove detailed maintenance instructions contained therein. Therefore, the FAA is revising AD 81-21-02 to: (1) Exempt from paragraph (A) of the AD those balloons that are equipped with the lastest version of the FAA Approved Balloon Flight Manual dated April 15, 1983; (2) clarify the language used in the AD; (3) remove the detailed maintenance instructions from the AD and in their place reference a Raven Service Bulletin; and (4) bring into line with current requirements of FAR Part 43, those persons who are authorized to sign off the inspections required by this AD.

This amendment adds an alternate means of compliance and corrects an ambiguity in the AD which may have a negative impact on safety. Additionally the revision changes a paragraph which may cause an operator to violate an existing rule. Therefore, notice and public procedure hereon are unnecessary and impractical, and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly and pursuant to the authority delegated to me by the Administrator, AD 81-21-02, Amendment 39-4232, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13), is revised and reissued in its entirety as follows:

PART 39—[AMENDED]

Raven Industries.: Applies to Models S-40A, S-50A, S-55A, S-60A, S-66A, RX-6, RX-7 and W100LB hot air balloons, certificated in any category, which have deflation panels using continuous hook and pile fastener tape around the circumference except where the panel is sewn to the envelope.

Compliance: Required as indicated, unless already accomplished.

To prevent unwanted opening of the deflation panel, accomplish the following:

(A) On balloons not equipped with Raven FAA Approved Balloon Flight Manual dated April 15, 1983, before each inflation for the purpose of flight, verify the condition of the deflation panel as follows:

(1) Visually check the deflation panel hook and pile fastener tape.

(2) Remove debris and foreign matter from the tape and check for damage due to wear, or deterioration caused by heat.

(3) Check the tape for adequate retention capability by the following procedure:

(a) Mate several 15-20 inch sections firmly by hand around the circumference.

(b) Grasp the fabric firmly, approximately 12 inches on either side of and perpendicular to the mated portions, and apply a pull of approximately 20 pounds. A spring scale may be used to measure the load. If the fastener tape separates, it is unacceptable for flight.

(4) The checks required by paragraphs (A)(1) through (A)(3) of this AD may be accomplished by a person holding at least a private pilot certificate with a free balloon rating.

Note.—A maintenance record entry as prescribed by FAR 91.173 is required when complying with this AD.

(5) Whenever the hook and pile fastener tape is found unacceptable, inspect and repair according to Raven Service Bulletin No. 112, dated March 16, 1981, or Raven Instructions for Continued Airworthiness for Hot Air Balloons, dated December 23, 1981.

(B) On all balloons of the applicable models regardless of date of Approved Flight Manual installed, at intervals not to exceed 100 hours of balloon inflated-buoyant time or at each annual inspection, whichever occurs first, conduct a test of the hook and pile tape for adequate retention in accordance with Raven Service Bulletin No. 112.

(C) An equivalent method of complying with this AD may be used if approved by the Manager, Chicago Aircraft Certification Office, ACE-115C, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

This amendment becomes effective March 8, 1984.

This amendment revises Amendment 39-4232, AD 81-21-02, in its entirety.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); 49 U.S.C. 106(g) (Revised, Pub.L. 97-449, January 12, 1983); Sec. 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89))

Note.—The FAA has determined that this document involves an amendment that provides an alternate means of compliance, corrects an ambiguity in the AD which may have a negative impact on safety and does not impose any additional burden on any person. Therefore, (1) it is not a major rule under Executive Order 12291, and (2) it is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Because its anticipated impact is so minimal, it does not warrant preparation of a regulatory evaluation.

Issued in Kansas City, Missouri, on February 21, 1984

John E. Shaw,

Acting Director, Central Region.

[FR Doc. 84-5491 Filed 2-29-84; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 97

[Docket No. 23916; Amdt. No. 1263]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

FOR FURTHER INFORMATION CONTACT: Donald K. Funai, Flight Procedures Standards Branch (AFO-230), Air Transportation Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure indentification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Navigation (air) weather.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 G.m.t. on the dates specified, as follows:

1. By amending § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN SIAPs identified as follows:

* * * *Effective April 12, 1984*

Bermuda Dunes, CA—Bermuda Dunes, VOR RWY 29, Amdt. 1
Lincoln, CA—Lincoln Muni, VOR RWY 15, Amdt. 1
Waverly, IA—Waverly Muni, VOR-A, Amdt. 2
Mason, MI—Mason Jewett Field, VOR-A, Amdt. 1
Three Rivers, MI—Three Rivers Muni-Dr. Haines, VOR-A, Amdt. 8
Hallock, MN—Hallock Muni, VOR/DME RWY 31, Amdt. 4
Yazoo City, MS—Barrier Field, VOR/DME-A, Amdt. 5
Yazoo City, MS—Barrier Field, VOR/DME RWY 17, Amdt. 2
Rochester, NH—Skyhaven, VOR-A, Amdt. 2
Cedar City, UT—Cedar City Muni, VOR RWY 20, Amdt. 2

* * * *Effective February 16, 1984*

Ardmore, OK—Ardmore Muni, VOR RWY 4, Amdt. 16

2. By amending § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, and SDF/DME SIAPs identified as follows:

* * * *Effective April 12, 1984*

Minneapolis, MN—Minneapolis-St. Paul Intl/Wold-Chamberlain/, LOC BC RWY 11L, Amdt. 6
Poplar Bluff, MO—Earl Fields Memorial, SDF RWY 36, Amdt. 1

* * * *Effective February 22, 1984*

St. Paul, MN—St. Paul Downtown Holman Fld, LOC RWY 30, Amdt. 9

3. By amending § 97.27 NDB and NDB/DME SIAPs identified as follows:

* * * *Effective May 10, 1984*

New Ulm, MN—New Ulm Muni, NDB RWY 13, Amdt. 3
Orr, MN—Orr Regional, NDB RWY 13, Amdt. 4

* * * *Effective April 12, 1984*

Windsor Locks, CT—Bradley Intl, NDB RWY 6, Amdt. 24
Chicago, IL—Chicago-O Hare Intl, NDB RWY 9R, Amdt. 14
Ludington, MI—Mason County, NDB RWY 25, Amdt. 7

Leesburg, VA—Leesburg Muni/Codfrey Field, NDB RWY 35, Amdt. 1
Clarksburg, WV—Benedum, NDB RWY 21, Amdt. 7

4. By amending § 97.29 ILS ILS/DME, ISMLS, MLS, MLS/DME and MLS/RNAV SIAPs identified as follows:

* * * *Effective April 12, 1984*

Windsor Locks, CT—Bradley Intl, ILS RWY 6, Amdt. 28

Windsor Locks, CT—Bradley Intl, ILS RWY 24, Amdt. 2
Chicago, IL—Chicago–O Hare Intl, ILS RWY 9R, Amdt. 12
Chicago, IL—Chicago–O Hare Intl, ILS RWY 27L, Amdt. 11
New Orleans, LA—Lakefront, ILS RWY 18R, Amdt. 7
Aberdeen, SD—Aberdeen Regional, ILS RWY 31, Amdt. 7
Clarksburg, WV—Benedum, ILS RWY 21, Amdt. 8

* * * *Effective February 22, 1984*

St. Paul, MN—St. Paul Downtown Holman Fld, MLS RWY 30 (Interim), Amdt. 5

* * * *Effective February 17, 1984*

Tampa, FL—Tampa Intl, ILS RWY 18L, Amdt. 35

* * * *Effective February 16, 1984*

Abilene, TX—Abilene Muni, ILS RWY 35R, Amdt. 3

5. By amending § 97.31 RADAR SIAPs identified as follows:

* * * *Effective April 12, 1984*

Detroit, MI—Willow Run, RADAR-1, Amdt. 4
Lansing, MI—Capital City, RADAR-1, Amdt. 10
Saginaw, MI—Tri City, RADAR-1, Amdt. 8

6. By amending § 97.33 RNAV SIAPs identified as follows:

* * * *Effective April 12, 1984*

Waverly, IA—Waverly Muni, RNAV RWY 10, Amdt. 1

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.49(b)(3))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C. on March 2, 1984.

Note:—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

Kenneth S. Hunt,
Director of Flight Operations.

BILLING CODE 4910–13–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 133

[Docket No. 79P–0349]

Cheese and Cheese Products; Amendment to Permit Use of Antimycotics on Surface of Bulk Cheeses and to Provide for Declaration of Animal, Plant, and Microbial Enzymes as "Enzymes"; Confirmation of Effective Date

AGENCY: Food and Drug Administration.

ACTION: Final rule; confirmation of effective date.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date for compliance with the amended standards of identity for several cheeses to permit, during curing and storage, the use of safe and suitable antimycotics on the surface of bulk forms of the cheeses. FDA is also confirming the amendment of the standards to establish label declaration of ingredient requirements and to permit the label declaration of animal, plant, and microbial enzymes by the general term "enzymes," rather than by their specific common or usual name. The final rule amending these standards was published in the **Federal Register** of October 24, 1983 (48 FR 49012). This action is based on a petition filed by the National Cheese Institute.

DATES: Effective July 1, 1985, for all affected products initially introduced or initially delivered for introduction into interstate commerce on or after this date. Voluntary compliance may have begun December 23, 1983.

FOR FURTHER INFORMATION CONTACT: Johnnie G. Nichols, Bureau of Foods (HFF–215), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202–485–0101.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of October 24, 1983 (48 FR 49012), FDA issued a final rule amending the standards of identity for several cheeses to permit the use of safe and suitable antimycotics on the surface of bulk cheeses during curing and storage. FDA also established uniform provisions for the declaration of ingredients, and to permit enzymes of animal, plant, or microbial origin to be declared by the word "enzymes," rather than by the specific common or usual name of the enzyme. The cheese standards included in the final rule were for asiago fresh and asiago soft cheese (21 CFR 133.102), caciocavallo siciliano cheese (21 CFR 133.111), hard grating cheeses (21 CFR 133.148), hard cheeses (21 CFR 133.150), mozzarella cheese and scamorza cheese (21 CFR 133.155), low-moisture mozzarella and scamorza cheese (21 CFR 133.156), parmesan and reggiano cheese (21 CFR 133.165), provolone cheese (previously named provolone cheese and pasta filata cheese (see 48 FR 2736; January 21, 1983)) (21 CFR 133.181), and romano cheese (21 CFR 133.183). Cross-referenced standards of identity that are also affected by the final rule include those for asiago medium cheese (21 CFR 133.103), asiago old cheese (21 CFR 133.104), part-skim mozzarella and scamorza cheese (21 CFR 133.157), and low-moisture part-skim mozzarella and scamorza cheese (21 CFR 133.158).

Any person who would be adversely affected by the regulations could have, at any time on or before November 23, 1983, filed written objections to the final regulations and requested a hearing on the specific provisions to which there were objections. No objections or requests for a hearing were received.

List of Subjects in 21 CFR Part 133

Cheese; Food standards.

PART 133—CHEESES AND RELATED CHEESE PRODUCTS

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Foods (21 CFR 5.62), notice is given that the effective date for compliance with §§ 133.102, 133.111, 133.148, 133.150, 133.155, 133.156, 133.165, 133.181, and 133.183 as published in the **Federal Register** of October 24, 1983 (48 FR 49012) is July 1, 1985. Voluntary compliance with these regulations may have begun December 23, 1983.

Dated: February 24, 1984.

John M. Taylor,
Acting Director, Bureau of Foods.

Indirect Food Additives: Polymers; High Temperature Laminates

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of high-temperature laminates under increased processing temperature conditions. This action responds to a food additive petition filed by Morton Chemical, Division of Morton Thiokol, Inc.

DATES: Effective March 1, 1984; objections by April 2, 1984.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Clyde A. Takeguchi, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of July 8, 1983 (48 FR 31464), FDA announced that a petition (FAP 3B3723) had been filed by Morton Chemical, Division of Morton Thiokol, Inc., 2 North Riverside Plaza, Chicago, IL 60606, proposing that the food additive regulations be amended to provide for the safe use of high-temperature laminates fabricated from adhesives identified in § 177.1390(c)(2)(v) (21 CFR 177.1390(c)(2)(v)) by increasing the maximum procesing temperature from 121° C (250° F) to 135° C (275° F).

The agency recognizes that the operating temperature in a retort normally exceeds the temperature prescribed in a scheduled sterilization process by at most a few degrees Celsius under good manufacturing practice. Therefore, for purposes of determining compliance, FDA will consider that a process meets the 135° C (275° F) temperature limitation in the following circumstances: (1) The highest temperature prescribed in a scheduled sterilization process does not exceed 135° C (275° F); and (2) a scheduled sterilization process is designed so that the temperature occurring in actual operation does not exceed 135° C (275° F) by more than 3° C (5.4° F).

FDA has evaluated the data in the petition and other relevant material and concludes that the use of high-temperature laminates under the proposed expanded temperature conditions is safe and that § 177.1390 should be amended as set forth below.

This amendment reflects the revision of § 177.1390(c)(3)(i)(*a*) published in the **Federal Register** of April 8, 1983 (48 FR 15242). FDA is revising § 177.1390(c)(2)(v) by deleting the phrase "for use at temperatures not exceeding 121° C (250° F) and" and is revising paragraph (c)(3)(i)(*b*) to accommodate a new extraction requirement in paragraph (c)(3)(i)(*b*)(*2*) for laminates containing adhesives described in paragraph (c)(2)(v) and processed at the newly petitioned temperature limitation.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has previously considered the potential environmental effects of this regulation as announced in the notice of filing published in the **Federal Register**. No new information or comments have been received that would alter the agency's previous determination that the action is of a type that does not individually or cumulatively have a significant impact on the human environment and that neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 177

Food additives, Incorporation by reference, Polymeric food packaging.

PART 177—INDIRECT FOOD ADDITIVES: POLYMERS

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Foods (21 CFR 5.61), Part 177 is amended in § 177.1390 by revising the introductory text of paragraph (c)(2)(v) and by revising paragraph (c)(3)(i)(*b*) to read as follows:

§ 177.1390 High-temperature laminates.

* * * * *

(c) * * *

(2) * * *

(v) Polyester-epoxy-urethane adhesives formulated from the following:

* * * * *

(3) * * *

(i) * * *

(*b*) For use at temperatures not to exceed 135° C (275° F): The container interior (food-contact side) shall be extracted with deionized distilled water at 135° C (275° F) for 1 hour.

(*1*) The chloroform-soluble fraction of the total nonvolatile extractives for containers using no adhesive, or adhesives listed in paragraph (c)(2) (i), (ii), and (iii) of this section shall not exceed 0.0020 milligram per square centimeter (0.013 milligram per square inch) as determined by a method titled "Determination of Nonvolatile Chloroform Soluble Residues in Retort Pouch Water Extracts," which is incorporated by reference. The availability of this incorporation by reference is given in paragraph (c)(3)(i)(*a*)(*1*) of this section.

(*2*) The chloroform-soluble fraction of the total nonvolatile extractives for containers using adhesives listed in paragraph (c)(2)(v) of this section shall not exceed 0.016 milligram per square centimeter (0.10 milligram per square inch) as determined by a method titled "Determination of Nonvolatile Chloroform Soluble Residues in Retort Pouch Water Extracts," which is incorporated by reference. The availability of this incorporation by reference is given in paragraph (c)(3)(i)(*a*)(*1*) of this section.

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before April 2, 1984, submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation is effective March 1, 1984.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Dated: February 17, 1984.

Richard J. Ronk,

Acting Director, Bureau of Foods.

BILLING CODE 4160-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

Office of the Assistant Secretary for Community Planning and Development

Office of the Assistant Secretary for Fair Housing and Equal Opportunity

24 CFR Parts 51, 111, 200, 241, 570, 883, 885, 886, and 3282

[Docket No. N-84-1349]

Announcement of Effective Dates

AGENCY: Office of the Secretary; Office of the Assistant Secretary for Housing—Federal Housing Commissioner; Office of the Assistant Secretary for Community Planning and Development; and Office of the Assistant Secretary for Fair Housing and Equal Opportunity.

ACTION: Notice of announcement of effective dates for certain recent final rules.

SUMMARY: Section 7(o) of the Department of Housing and Urban Development Act requires HUD to wait thirty calendar days of continuous session of Congress before it makes a published rule effective. This notice announces the effective dates for certain recently published final rules. Thirty calendar days of continuous session of Congress have expired in the present Congress since these rules were published. For an explanation of subject matter on the rules, see "SUPPLEMENTARY INFORMATION".

DATES: For effective dates see "SUPPLEMENTARY INFORMATION".

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 7th Street, S.W., Washington, D.C. 20410, telephone No. (202) 755–7055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: The effective date provision of the published rules stated that the rules would become effective upon expiration of the first period of 30 calendar days of continuous session of Congress after publication, and announced that future notice of the rules' effectiveness would be published in the **Federal Register**. Thirty calendar days of continuous session of Congress have expired in the present Congress since these rules were published.

Accordingly, the purpose of this notice is to announce the effective dates for the rules listed below:

24 CFR Part 51: Siting of HUD-Assisted Projects in Runway Clear Zones at Civil Airports and Clear Zones and Accident Potential Zones at Military Airfields, Final Rule published January 6, 1984 (49 FR 877), Docket No. R-83-774; FR-1187. Effective Date: March 5, 1984.

24 CFR Part 111: Fair Housing Assistance Program; Program Description and Eligibility Criteria, Final Rule published December 29, 1983 (48 FR 57272), Docket No. R-83-1082; FR-1763. Effective Date: March 5, 1984.

24 CFR Part 200: Use of Materials Bulletin No. 82, HUD Building Product Standards and Certification Program for Sealing Insulating Glass Units, Final Rule Published January 4, 1984 (49 FR 375), Docket No. R-83-1098; FR-1356. Effective Date: March 5, 1984.

24 CFR Part 200: Use of Materials Bulletin No. 39a, HUD Building Product Standards and Certification Program for Aluminum Windows, Storm Windows, Sliding Glass Doors and Storm Doors, Final Rule published January 4, 1984 (49 FR 376), Docket No. R-83-1101; FR-1405. Effective Date: March 5, 1984.

24 CFR Part 200: HUD Building Product Standards and Certification Program for Plastic Bathtub Units, Plastic Shower Receptors and Stalls, Plastic Lavatories, Plastic Water Closet Bowls and Tanks; Adoption of Use of Materials Bulletin No. 73a, Final Rule published January 4, 1984 (48 FR 377), Docket No. R-83-1100; FR-1358. Effective Date: March 5, 1984.

24 CFR Part 241: Requirement of Payment in Cash on Supplementary Loan Claims, Final Rule published December 28, 1983 (48 FR 57128), Docket No. R-83-1104; FR-1734. Effective Date: March 5, 1984.

24 CFR Part 570: Categorical Program Settlement Fund, Final Rule published December 2, 1983 (48 FR 54339), Docket No. R-83-1130; FR-1712. Effective Date: March 5, 1984.

24 CFR Part 883: Section 8 Housing Assistance Payments Program; State Housing Agencies, Final Rule published November 8, 1983 (48 FR 51296), Docket No. R-83-1003. Effective Date: March 5, 1984.

24 CFR Part 885: Housing for the Elderly to Implement Cost Savings Procedures, Final Rule published November 4, 1983 (48 FR 50888), Docket No. R-83-1129. Effective Date: March 5, 1984.

24 CFR Part 885: Loans for Housing for the Elderly or Handicapped; Fiscal Year 1984 Interest Rate, Final Rule published December 23, 1983 (48 FR 56748), Docket No. R-83-1120; FR-1848. Effective Date: March 5, 1984.

24 CFR Part 886: Section 8 Housing Assistance Payments Program; Special Allocations, Final Rule published December 27, 1983 (48 FR 56949), Docket No. R-83-1099; FR-1795. Effective Date: March 5, 1984.

24 CFR Part 3282: Manufactured Home Construction and Safety Standards; Manufactured Home Procedural and Enforcement Regulations, Final Rule published January 16, 1984 (49 FR 1966), Docket No. R-84-926; FR-1443. Effective Date: March 5, 1984.

Authority: Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: February 27, 1984.

Grady J. Norris,

Assistant General Counsel for Regulations.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

30 CFR Part 11

Display of Office of Management and Budget Control Numbers for Reporting Requirements Without Forms

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Technical amendments.

SUMMARY: This document amends certain Department of Labor regulations to include a control number assigned by the Director of the Office of Management and Budget (OMB). The Paperwork Reduction Act requires display of an OMB control number on all information collection provisions.

EFFECTIVE DATES: March 1, 1984.

FOR FURTHER INFORMATION CONTACT: Patricia W. Silvey, Director, Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, Room 631, Ballston Towers #3, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235–1910.

SUPPLEMENTARY INFORMATION: Part 11 of Title 30 of the Code of Federal Regulations contains requirements concerning the joint approval of protective respirator devices by the
