Electric Utilities; Construction Work in Progress; Reconsideration of Interim Rule and Request for Comment

Issued: April 25, 1986.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Order granting rehearing for purpose of further consideration.

SUMMARY: On February 27, 1986, the Federal Energy Regulatory Commission (Commission) issued a final rule to specify interim procedures and filing requirements to be followed in cases where electric utilities request inclusion of construction work in progress in rate base, pending further Commission action on the remand by the United States Court of Appeals for the District of Columbia Circuit in *Mid-Texas Electric Cooperative, Inc.* v. *FERC*, 773 F.2d 327 (1985).

In this order, the Commission grants rehearing of its decision solely for the purpose of further consideration. This order, does not constitute action, in whole or in part, on the merits of the requests for rehearing.

EFFECTIVE DATE: April 25, 1986.

FOR FURTHER INFORMATION CONTACT: Daniel L. Larcamp, Federal Energy Regulatory Commission, Room 8006–A, 825 North Capitol Street NE., Washington, DC, 20426, (202) 357–8520.

SUPPLEMENTARY INFORMATION:

Order Granting Rehearing for Purpose of Further Consideration

Before Commissioners: Anthony G. Sousa, Acting Chairman; Charles G. Stalon, Charles A. Trabandt and C. M. Naeve.

Issued: April 25, 1986.

On March 28, 1986, Public Systems [1] filed a request for rehearing of Order No. 448, 34 FERC ¶ 61,251, issued on February 27, 1986. On March 31, 1986, requests for rehearing of Order No. 448 were filed jointly by North Carolina Electric Membership Corporation, Northeast Texas Electric Cooperative, Inc., and Sam Rayburn G&T, Inc. (Cooperative Customers), and by the National Rural Electric Cooperative Association, *et al.* (*Mid-Tex* Petitioners).[2]

In the absence of Commission action within 30 days, the requests for rehearing would be deemed to have been denied. 18 CFR 385.713. In order to allow sufficient time for due consideration of the matters raised, rehearing is hereby granted for the limited purpose of further consideration. This order does not, however, constitute action, in whole or in part, on the merits of the requests for rehearing.

By the Commission.

Customs Regulations Amendment Relating to Additional Information on Invoices for Imported Footwear

AGENCY: Customs Service, Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations by updating the information required on invoices of imported footwear. Customs had determined that much of the information now required, which generally is descriptive of footwear, no longer is necessary, and that other information, relating to the construction of footwear, is needed. The information is used by Customs to establish the correct tariff classification and value of imported footwear for duty and/or quota purposes.

EFFECTIVE DATE: May 30, 1986.

FOR FURTHER INFORMATION CONTACT:

Legal Aspects: Donald F. Cahill, Classification and Value Division (202–566–8181);

Operational Aspects: Alex Olenick, Duty Assessment Division (202–566–5307); Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229.

Technical Aspects: James Sheridan, National Import Specialist, New York Region (212-466-5889; FTS-668-5889).

SUPPLEMENTARY INFORMATION:

Background

Invoices of merchandise imported into the U.S. are required by section 481, Tariff Act of 1930 (19 U.S.C. 1481), to include certain specified information and "any other facts deemed necessary to a proper appraisement, examination, and classification of the merchandise that the Secretary of the Treasury may require." Section 141.89(a), Customs Regulations (19 CFR 141.89(a)), requires additional information on invoices of footwear classifiable under Schedule 7, Part 1A, Tariff Schedules of the United States (19 U.S.C. 1202). The additional information assists Customs in establishing the correct tariff classification and value of imported footwear for duty and/or quota purposes.

Footwear manufacturing methods have changed since the additional reporting requirements were established. Approximately seven new distinctions in footwear construction which result in classification differences are effective for footwear imports since July 1, 1981 (Pub. L. 96-39, July 26, 1979, section 223(b)(2)). As a result, much of the information now required, which generally is descriptive of footwear, no longer is necessary, and other information, relating to the construction of footwear, is needed. Accordingly, Customs proposed to amend § 141.89(a) to reflect those changes and to update the information reporting requirements.

The original notice proposing to amend § 141.89(a) was published in the **Federal Register** on July 28, 1978 (43 FR 32819). Essentially, that proposal requested comments on questions concerning the materials used in the manufacture of imported footwear, as well as the nature of the manufacturing process itself. After consideration of the comments received in response to that notice, it was determined advisable to expand the previous proposal's questions regarding the materials used in the manufacture of footwear, so that the information received would be adequate as an aid in the correct classification. The new proposal, published in the **Federal Register** on May 1, 1984 (49 FR 18543), also provided certain definitions to be used in completing footwear invoices, clarified the question concerning material(s) of chief value, and revised Customs Form 5523, titled "Invoice Details For Footwear." Specifically, importers were asked to provide the following information with regard to imported footwear on Customs Form 5523.

(1) Manufacturer's style number.

(2) Importer's style number.

(3) Type of shoe.

(i) After ski boot.

(ii) Basketball shoe.

(iii) Beachcomber.

(iv) Boat shoe.

(v) Clog.

(vi) Disposable, not rubber or plastic.

(vii) Espadrille.

(viii) Field (Football/Soccer/Astroturf) shoe.

(ix) Hiking boot.

(x) Inner liner.

(xi) Jogger/Training shoe.

(xii) Kung-Fu shoe.

(xiii) Moccasin/Soled moccasin.

(xiv) Oxford.

(xv) Popsicle.

(xvi) Pump.

(xvii) Rubber/Plastic Protective and Waterproof footwear.

(xviii) Rubber/Plastic Ski boot.

(xix) Slipper.

(xx) Slipper sock.

(xxi) Spiked Track shoe.

(xxii) Tennis shoe.

(xxiii) Workboot.

(xxiv) Woven bootie.

(xxv) Zori.

(xxvi) Other (specify).

(4) Component materials of upper with value percentage of each component. If chief value of upper is fiber, and weight of entire shoe is neither 50 percent rubber or plastic, state the percentage by weight and value of each fiber used in the upper.

(5) Component materials of entire article with value percentage of each component. If the materials in (4) and (5) are primarily of leather, answer only (8) and (12). Otherwise answer all questions.

(6) Component materials of sole with value percentage of each component.

(7) Percentage or weight of entire article:

(i) Fiber.

(ii) Rubber and/or plastic.

(iii) Other (specify material).

(8) Percentage of exterior surface area of the upper:

(i) Leather.

(ii) Rubber and/or plastic.

(iii) Other (Specify material).

(9) Is there a foxing or foxing-like band around bottom of upper? If so, specify component materials of the band.

(10) Does the sole overlap the upper? If so, specify the part(s) of the upper overlapped.

(11) Does the upper extend over the ankle?

(12) Type of construction:

(i) Stitched-Turned.

(ii) Stitched-Goodyear Welt.

(iii) Stitched-Welt other than Goodyear.

(iv) Stitched-Slip-lasted (California).

(v) Stitched-Other (specify method).

(vi) Exclusively Adhesive (Cement).

(vii) Shell molded bottom cemented and/or stitched to upper.

(viii) Unit molded bottom cemented to upper.

(ix) Rolled Sole.

(x) Sole simultaneously molded and attached to upper (Simultaneous injection).

(xi) Vulcanized.

(xii) Riveted, Nailed or Stapled.

(xiii) Unsoled Moccasin.

(xiv) Combination of the above (specify types combined).

(xv) Other (specify).

(13) Is the shoe of the slip-on type, i.e., no laces, buckles or other fasteners?

(14) Does the upper have either an open toe or an open heel?

Comments on this proposal were to have been received by July 2, 1984. However, due to the complexity of the issues involved, by notice published in the **Federal Register** on July 9, 1984 (49 FR 27954), the comment period was extended to August 3, 1984.

Twelve comments were received in response to the proposal. Most of the commenters objected to the expanded information requirement as placing an inordinate burden on importers to collect and process many items of information not necessary for the classification of many types of footwear. Their specific comments and our responses follow:

Discussion of Comments

Comment: The lists of types and construction of shoes in proposed § 141.89(a) are too lengthy. Customs Form 5523, which would reflect the requirements in the proposal, is merely a basic entry form to aid in the classification of footwear. It need not be the most detailed and exhaustive footwear submission possible.

Response: We agree. Therefore, we are eliminating the exhaustive lists in favor of a requirement for a scaled down description of the imported footwear in terms normally used in the trade, with examples of the type, method of construction, and kind of construction provided only on the list of instructions for the final Customs Form 5523. Furthermore, we are reducing the number of examples of types of footwear from 26 to 11.

It is estimated that 25 percent of all footwear imports will require completion of only items 1 through 7, and that items 1 through 5 and 8 through 10 will need to be filled in on another 25 percent of imports. Items 1 through 5 and 8 will need to be filled in on 10 percent of imports, and 40 percent will not require the completion of a footwear invoice or an equivalent document. In no case will all items in the footwear invoice or other document be required to be completed.

Comment: Many of the terms mentioned in the proposal, such as "foxing" and "overlap", are difficult to apply to specific importations and lend themselves to misinterpretation.

Response: Providing specific definitions for all the terms used would render the document and invoice more cumbersome than now. However, we are adding a definition for the term "foxing-like band" since this term applies to many footwear importations. Also, we are deleting some definitions contained in the proposal, which we believe are unnecessary.

Comment: The requirement for information on percentage value is not necessary for proper classification of imported footwear. Only component material of chief value should be required.

Response: We agree. Therefore, we are removing the requests for percentage value, which were contained in several items in the proposal. However, Customs may request this or any other information on specific imports as may be necessary to properly classify the imported footwear.

After consideration of the comments received and upon further review of the matter, it has been deemed advisable to adopt the proposed amendment to § 141.89(a), Customs Regulations, with the modifications noted above. Final Customs Form 5523, which has been revised to reflect the information required in items 1 through 10 of § 141.89(a), may not be available at the time of publication of this document. Accordingly, Customs field offices may accept the existing Customs Form 5523 (3/2/78 version) or the proposed Customs Form 5523 (6/11/85 version) until the new form is available.

Executive Order 12291

It has been determined that the amendment is not a "major rule" within the criteria provided in section 1(b) of E.O. 12291, and therefore no regulatory impact analysis is required.

Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act (5 U.S.C. 601, et seq.), it is certified that this amendment will not have a significant economic impact on a substantial number of small entities. Accordingly, it is not subject to the regulatory analysis or other requirements of 5 U.S.C. 603 or 604.

Paperwork Reduction Act

The collection of information requirements contained in § 141.89(a) are subject to provisions of the Paperwork Reduction Act (44 U.S.C. 3504(h)) and have been cleared by the Office of Management and Budget (OMB). Accordingly, Part 178, Customs Regulations (19 CFR Part 178), which lists the information collections contained in the regulations and the control numbers assigned by OMB, is being amended to include OMB Control Number 1515–0047.

Drafting Information

The principal author of this document was Susan Terranova, Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Amendments to the Regulations

PART 141—ENTRY OF MERCHANDISE

1. The general authority citation for Part 141 continues to read as follows:

Authority: 19 U.S.C. 66, 1448, 1484, 1624; § 141.89 also issued under 19 U.S.C. 1202 (Gen. Hdnote 11), 1481.

2. Section 141.89(a), Customs Regulations (19 CFR 141.89(a)), is amended by revising the paragraph for footwear to read as follows:

§ 141.89 Additional information for certain classes of merchandise.

(a) * * *

Footwear, classifiable under Schedule 7, Part 1A, Tariff Schedules of the United States (19 U.S.C. 1202)—

(1) The manufacturer's style number.

(2) The importer's style and/or stock number.

(3) Type of shoe.

(4) Percentage by weight of entire article:

(i) Fiber.

(ii) Rubber and/or plastic.

(iii) Other (specify).

(5) Percentage of exterior surface area of the upper

(i) Leather.

(ii) Rubber and/or plastic.

(iii) Other (specify).

If item 4(ii) is 10 percent or more, if item 4(iii) is less than 50 percent *and* if item 5(i) is less than 50 percent, omit items 6 and 7 and provide the information requested in items 8 through 12 below. If one or more of these conditions are not met, provide the information requested in items 6 and 7 and omit items 8 through 12.

(6) Component material of chief value in

(i) Upper.

(ii) Sole.

(iii) Entire article.

(7) Method of construction.

(8) Kind of construction.

(9) Whether slip-on type (no laces, buckles, or other closures).

(10) Whether upper has open toe or open heel.

(11) Does shoe have foxing or foxing-like band? If so, state material(s).

(12) Whether sole overlaps upper.

The information requested in items 1 through 10 may be furnished on Customs Form 5523 or other appropriate format by the exporter, manufacturer or shipper. However, the information requested in items 11 and 12 must be furnished by the importer.

Definitions

For the purpose of this section, the following terms have the approximate definitions below. If either a more complete definition or a decision as to its application to a particular article is needed, the maker or importer of record (or the agent of either) should contact Customs prior to entry of the article.

(a) *Fiber.* "Fiber" means a material made from cotton, other vegetable fibers, wool, hair, silk, or man-made fibers. the term "man-made" fibers includes filaments and strips. Note: Cork, wood, cardboard, and leather are not "fibers".

(b) *Foxing-like band.* "Foxing-like band" means a strip of material, which is attached to the side or the top of the outsole or is molded of the same piece as the outsole and which overlaps the upper.

(c) *Turned.* "Turned" means that construction in which the upper is sewn to the sole while the shoe is turned inside out.

(d) *Upper.* "Upper" means everything above the insole level.

(e) *Welt.* "Welt" means that construction in which a separate strip (the welt) is attached to the edge of the sole and in which the welt, the upper and a lip on the surface of the insole are stitched together with a single stitch.

PART 178—APPROVAL OF INFORMATION COLLECTION REQUIREMENTS

19 CFR Part 178 is amended as follows:

1. The general authority citation for Part 178 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 1624, 44 U.S.C. 3501 et seq.

2. Section 178.2, Customs Regulations (19 CFR 178.2), is amended by inserting the following in appropriate numerical

sequence according to the section number under the columns indicated:

§ 178.2 Listing of OMB Control Numbers.

23 CFR Part 480

[FHWA Docket No. 85-26]

Use and Disposition of Property Previously Acquired by States for Non-Interstate and Withdrawn Interstate Segments

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Final rule.

SUMMARY: The FHWA is amending its regulation concerning the use and disposition of property acquired by States, with the participation of Federal-aid highway funds, in connection with highway projects which are subsequently modified or terminated. This amendment to 23 CFR Part 480 implements the provisions of Pub. L. 96-106 which limited those situations in which States could avoid crediting Federal funds (payback) where FHWA had participated in the acquisition of property for Interstate highway segments that were subsequently withdrawn. This amendment also narrows the scope of Part 480 by eliminating situations other than Interstate withdrawals from its coverage.

EFFECTIVE DATE: May 30, 1986.

FOR FURTHER INFORMATION CONTACT: Curtis L. Shufflebarger, Chief, Interstate Management Branch, Office of Engineering, (202) 426-0404; or S. Reid Alsop, Office of the Chief Counsel, (202) 426-0800, Federal Highway Administration, 400 7th Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

SUPPLEMENTARY INFORMATION: The FHWA published its regulation on the use and disposition of highway property acquired by the States on November 17, 1978 (43 FR 54077). The regulation provided that a State need not make a credit to Federal funds if property acquired for highway purposes were reused for another public purpose, when the highway project for which the property was acquired was modified or terminated.

Subsequently, in section 2 of Pub. L. 96-106 (93 Stat. 796), Congress amended section 103(e) of Title 23, United States Code, to clarify its intent, as previously set forth in section 107(f) of the STAA of 1978 (Pub. L. 95-599, 92 Stat. 2689), with regard to repayment for Interstate segments that are withdrawn pursuant
