**Health Resources and Services

**Health Education Assistance Loan
Program; Maximum Interest Rates for
Quarter Ending June 30, 1986 and Rate
of Insurance Premium**

Section 727 of the Public Health Service Act (42 U.S.C. 294) authorizes the Secretary of Health and Human Services to establish a Federal program of student loan insurance for graduate students in health professions schools.

A. Section 60.13(a)(4) of the program's implementing regulations (42 CFR Part 60, previously 45 CFR Part 126) provides that the Secretary will announce the interest rate in effect on a quarterly basis.

The Secretary announces that for the period ending June 30, 1986, three interest rates are in effect for loans executed through the Health Education Assistance Loan (HEAL) program.

1. For loans made before January 27, 1981, the variable interest rate is 10% percent. Using the regulatory formula (45 CFR 126.13(a) (2) and (3)), in effect prior to January 27, 1981, the Secretary would normally compute the variable rate for this quarter by finding the sum of the fixed annual rate (7 percent) and a variable component calculated by subtracting 3.50 percent from the average bond equivalent rate of 91-day U.S. Treasury bills for the preceding
