FEDERAL MARITIME COMMISSION

[Docket No. 86-23]

Active International Shippers' Assoc., Inc. v. Korea Shipping Corp.; Filing of Complaint and Assignment

Notice is given that a complaint filed by Active International Shippers' Association (AISA) against Korean Shipping Corporation (KSC) was served September 18, 1986. AISA alleges that KSC has violated section 8(c) (by refusing to make available to AISA the essential terms of a service contract), 10(b)(6) (by refusing cargo space for AISA's cargo, despite a contract to do so, while providing cargo space for higher rated cargo), 10(b)(12) (by subjecting AISA to an unreasonable refusal to deal or to any undue or unreasonable prejudice or disadvantage), and 10(b)(13) (by refusing to negotiate with a shippers' association), Shipping Act of 1984.

This proceeding has been assigned to Administrative Law Judge Norman D. Kline. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the presiding officer in this proceeding shall be issued by September 18, 1987, and the final decision of the Commission shall be issued by March 18, 1988.

Joseph C. Polking,

Secretary.

Filing of Petition for Exemption From Self-Policing Requirements; Pacific Coast/American Samoa Rate Agreement

Notice is hereby given that the members of the Pacific Coast/American Samoa Rate Agreement (Samoa Rate Agreement) have filed a petition pursuant to section 35 of the Shipping Act, 1916 (46 U.S.C. 833a), for exemption from the self-policing requirements of section 15 of the 1916 Act (46 U.S.C. 814) as more particularly set forth in 46 CFR, Part 568 *Et seq.*

Petitioners request an order or other relief from the Federal Maritime Commission which would exempt agreements in the Pacific Coast American Samoa Trade from self-policing requirements. The request includes relief from section 15 of the Shipping Act, 1916 to the extent such section may be construed as requiring neutral body self-policing. Petitioners propose that, instead of the requirements of section 15 and 46 CFR 568, agreements in the trade would conform, in substance, to the provisions of section 5(b)(4) of the Shipping Act of 1984.

As grounds for the petition, the Samoa Rate Agreement stresses, among other reasons, the small size of the trade, the cost of complying with self-policing requirements under the Shipping Act of 1916, and the fact that while the American Samoa trade is a domestic offshore trade, "for all practical purposes the agreement concerns a trade with the economic and service characteristics of a foreign trade" and the self-policing requirements for carriers operating in the trade should be no more stringent or costly than under the provisions of the Shipping Act, 1984.

In order for the Commission to make a thorough evaluation of the petition, interested persons are requested to submit views, arguments or data on the petition no later than October 14, 1986. Responses shall be directed to the Secretary, Federal Maritime Commission, Washington, DC 20753, in an original and 15 copies. Responses shall also be served on counsel for petitioners: R. Frederic Fisher, Esquire, Lillick McHose & Charles, Two Embarcadero Center, San Francisco, California 94111.

Copies of the petition are available for examination at the Washington, DC Office of the Commission, 1100 L Street NW., Room 11101.

Joseph C. Polking,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 86F-0340]

Dow Chemical Co.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that The Dow Chemical Co. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of ethylene-carbon monoxide copolymers as a heat-seal layer for food-contact packaging when it is sterilized with hydrogen peroxide solutions.

FOR FURTHER INFORMATION CONTACT: Julius Smith, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C Street SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 6B3949) has been filed by The Dow Chemical Co., 1803 Building, Door 7, Midland, MI 48674, proposing that § 178.1005 *Hydrogen peroxide solution* (21 CFR 178.1005) be amended to provide for the safe use of ethylene-carbon monoxide copolymers as a heat-seal layer for food-contact packaging when it is sterilized with hydrogen peroxide solutions.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Dated: September 13, 1986.

[Docket No. 86P-0372]

Canned Pacific Salmon Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Icicle Seafoods, Inc., to market test canned skinless and boneless chunk salmon packed in water. The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the food.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but no later than December 23, 1986.

FOR FURTHER INFORMATION CONTACT: Nannie H. Rainey, Center for Food Safety and Applied Nutrition (HFF-210), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-485-0107.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that a temporary permit has been issued to Icicle Seafoods Inc., Seattle, WA 98199.

The permit covers limited interstate marketing tests of canned skinless and boneless chunk salmon packed in water. The test product deviates from the standard of identity for canned Pacific salmon (21 CFR 161.170) in three ways: (1) The form of pack is chunk, i.e., not less than 50 percent of the fill weight of the salmon is retained on a ½-inch mesh screen; (2) the skin and backbone, i.e., vertebrae and associated bones (neural spines and ventral ribs) are removed; and (3) water, in an amount not to exceed 10 percent of the water capacity of the can, will be used as a packing medium and to aid in dispersion of salt. The test product meets all requirements of § 161.170 with the exception of these deviations. The permit provides for the temporary marketing of 15,000 cases of test product containing twenty-four 6½ ounce cans each. The test product will be distributed throughout the continental United States.

The test product is to be manufactured at the Petersburg Fisheries plant located in Petersburg, AK 99833.

Each of the ingredients used in the food is stated on the label as required by the applicable sections of 21 CFR Part 101. This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but no later than December 23, 1986.

Dated: September 16, 1986.

Sanford A. Miller,

Director Center for Food Safety and Applied Nutrition.

[Docket No. 85P-0213]

Canned Pacific Salmon Deviating From Identity Standard; Amendment and Extension of Temporary Marketing Permit

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that (1) a tempoary permit to market test canned smoke-flavored, skinless and boneless, chunk salmon is being amended to change the test product manufacturer; and (2) the expiration date of the permit is being extended. This extension will allow the permit holder to continue experimental market testing of the product while the agency takes action on the permit holder's petition to amend the standard of identity for canned Pacific salmon.

DATE: The new expiration date of the permit will be either the effective date of a final rule based on any proposal to amend the standard of identity for canned Pacific salmon which may result from the petition, or 30 days after termination of such proposal.

FOR FURTHER INFORMATION CONTACT: Karen L. Carson, Center for Food Safety and Applied Nutrition (HFF-215), Food and Drug Administration 200 C Street SW., Washington, DC 20204, 202-485-0110.

SUPPLEMENTARY INFORMATION: A temporary permit was issued under the provisions of 21 CFR 130.17 to Geo. A. Hormel and Co., Austin, MN 55912, to market test canned smoke-flavored, skinless and boneless, chunk salmon to test consumer acceptance of the new style pack. The permit was issued in order to facilitate market testing of foods that deviate from the requirements of the standard of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341). Notice of issuance of the temporary permit to Geo. A. Hormel and Co. was published in the Federal Register of June 12, 1985 (50 FR 24705). The expiration date of the permit is October 29, 1986.

Geo. A. Hormel and Co. has requested that the test product manufacturer be changed from Tony Downs Food Co. of Madelia, MN, to North Pacific Processors, Inc., of Cordova, AK. Accordingly, FDA is amending the temporary permit to reflect this change.

Geo. A. Hormel & Co., has also requested that the temporary permit be extended, so that the market test period can continue while agency action on a petition to amend the canned Pacific salmon standard proceeds. The company submitted the petition at the same time the application for extension was submitted. FDA has concluded that it is in the interest of consumers to issue the extension. FDA is inviting interested persons to participate in the market test under the conditions that apply to Geo. A. Hormel and Co., including the labeling requirements and the amounts of test product to be distributed, except that the designated area of distribution in the Hormel permit shall not apply.

Any interested person who wishes to participate in the market test must notify, in writing the Deputy Director, Division of Food Technology (HFF-211), Food and Drug Administration 200 C Street SW., Washington, DC 20204. The notification must include the amount of test product to be distributed, the areas of distribution, and the labeling that will be used for the test product.

Therefore, FDA is amending the permit to change the test product manufacturer to North Pacific Processors, Inc., of Cordova, AK, and, under the provisions of § 130.17(i), FDA is extending the expiration date of the permit such that the permit expires either on the effective date of a final rule based on any proposal to amend the standard of identity for canned Pacific salmon which may result from the petition, or 30 days after termination of such proposal. All other conditions and terms of this permit remain the same.

Dated: September 13, 1986.

Richard J. Ronk,

Acting Director, Center for Food Safety and Applied Nutrition.
