INTERSTATE COMMERCE COMMISSION

49 CFR PART 1043

CLARIFICATION OF INSURANCE REGULATIONS

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Commission is adopting a final rule to clarify its regulations under § 1043.7(d), Title 49 of the Code of Federal Regulations. The change would clarify the fact that Forms BMC-35 and BMC-36 are the prescribed forms for use in cancelling certificates of insurance and surety bonds filed with this

Commission in behalf of motor carriers and freight forwarders and property brokers, respectively. No other notice will be accepted by the Commission; furthermore notice to state bodies, carriers, forwarders or brokers, will not constitute a notice to the Commission, with regard to our thirty (30) days notice of cancellation requirement. This requirement cannot be waived. The appropriate revision in the Code of Federal Regulations will be made to reflect this action.

EFFECTIVE DATE: This decision is effective on September 30, 1986.

FOR FURTHER INFORMATION CONTACT:

Heber P. Hardy, (202) 275-7148

or

Alice K. Ramsay, (202) 275-0854.

SUPPLEMENTARY INFORMATION: Section 1043.7(d) of Title 49 of the Code of Federal Regulations does not specify that Forms BMC-35, Notice of Cancellation, Motor Carrier policies of insurance under 49 U.S.C. 10927, or BMC-36, Notice of Cancellation, Motor Carrier and Broker surety bonds are required to be used in notifying the Commission of cancellation of such coverage. Because of this omission, it appears that there could be some confusion with respect to the Commission's intentions in this regard.

Since the referenced forms are included in Part 1003 List of Forms (1003.3, Insurance and surety bond forms) of the CFR, we assumed it would be clearly understood that these forms (BMC-35 and BMC-36) are required to be used in cancelling the respective insurance coverages. However, to eliminate any possible confusion in this regard, we will revise the applicable section of the CFR to clearly reflect our intentions.

Accordingly, under 49 U.S.C. 10927, we shall revise the regulations at 49 CFR 1043.7(d), as set forth in the appendix, to reflect this action. Because this rule revision is intended merely to clarify our regulations, it is issued here in final form. In addition, comment is not required (5 U.S.C. 553(b)(A)).

This action does not significantly affect the quality of the human environment or the conservation of energy resources.

Secretary.

Appendix

Part 1043 of the CFR is amended as follows:

PART 1043—SURETY BONDS AND POLICIES OF INSURANCE

1. The authority citation for 49 CFR Part 1043 continues to read as follows:

Authority: 49 U.S.C. 10101, 10321, 11701, 10927; 5 U.S.C. 553.

2. Paragraph (d) of § 1043.7 is revised to read as follows:

§ 1043.7 Forms and procedures.

(d) Cancellation notice. Except as provided in paragraph (e) of this section, surety bonds, certificates of insurance and other securities or agreements shall not be cancelled or withdrawn until 30 days after written notice has been submitted to the Commission at its offices in Washington, DC, on the prescribed form (Form BMC-35, Notice of Cancellation Motor Carrier Policies of Insurance under 49 U.S.C. 10927, and BMC-36, Notice of Cancellation Motor Carrier and Broker Surety Bonds, as appropriate) by the insurance company, surety or sureties, motor carrier, broker or other party thereto, as the case may be, which period of thirty (30) days shall commence to run from the date such notice on the prescribed form is actually received by the Commission.

50 CFR PART 20

Migratory Bird Hunting; Late Seasons, and Bag and Possession Limits for Certain Migratory Game Birds in the United States

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule and correction.

SUMMARY: This rule prescribes the late open seasons, hunting hours, hunting areas, and daily bag and possession limits for general waterfowl seasons; special restrictions to reduce the black duck harvest; special seasons for scaup and goldeneyes; extra scaup and teal in regular seasons; additional sandhill crane seasons in the Central Flyway and in Arizona; coots, common moorhens,

and snipe in the Pacific Flyway; and additional special extended falconry seasons. Taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The rules will permit taking of the designated species during the 1986-87 season within specified periods of time beginning as early as September 25 and benefit the public by opening the seasons which are presently closed.

This rule also revises § 20.106 of 50 CFR to correct the boundary description of North Dakota sandhill crane hunting zone number 1.

EFFECTIVE DATE: September 25, 1986.

FOR FURTHER INFORMATION CONTACT: Rollin D. Sparrowe, Chief, Office of Migratory Bird Management, Matomic Building Room 536, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC, telephone 202-254-3207.

SUPPLEMENTARY INFORMATION: The Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), as amended, authorizes and directs the Secretary of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory birds, to determine when, to what extent, and by what means such birds or any part, nest or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported, or transported.

On March 21, 1986, the U.S. Fish and Wildlife Service (hereinafter the Service) published for public comment in the *Federal Register* (51 FR 9854) a proposal to amend 50 CFR Part 20, with comment periods ending June 19, July 14 and August 25, 1986, respectively, for the 1986-87 hunting season frameworks proposed for Alaska, Hawaii, Puerto Rico, and the Virgin Islands; other early seasons; and the late hunting-season frameworks. That document dealt with the establishment of hunting seasons, hours, areas, and limits for migratory game birds under §§ 20.101 through 20.107 and 20.109 of Subpart K. On June 6, 1986, the Service published in the *Federal Register* (51 FR 20677) a second document consisting of a supplemental proposed rulemaking dealing with both the early- and late-season frameworks. On July 3, 1986, the Service published for public comment in the *Federal Register* (51 FR 24415) a third document consisting of a proposed rulemaking dealing specifically with frameworks for early-season migratory bird hunting regulations. On July 25, 1986, the Service

published in the **Federal Register** (51 FR 26712) a fourth document containing final frameworks for Alaska, Puerto Rico, and the Virgin Islands. On August 13, 1986, the Service published a fifth document (51 FR 28946) containing final frameworks for other early season migratory bird hunting regulations from which State wildlife conservation agency officials selected early-season hunting dates, shooting hours, areas and limits for 1986-87. On August 15, 1986, the Service published in the **Federal Register** (51 FR 29274) a sixth document consisting of proposed frameworks for the late-season migratory bird hunting regulations. On August 28, 1986, the Service published in the **Federal Register** (51 FR 30646) a seventh document consisting of a final rule amending Subpart K of 50 CFR Part 20 to set hunting seasons, hours, areas, and limits for mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and common moorhens and purple gallinules; September teal seasons; sea ducks in certain defined areas of the Atlantic Flyway; ducks in September in Florida, Iowa, Kentucky and Tennessee; Canada geese in September in portions of Michigan; sandhill cranes in the Central Flyway and Arizona; sandhill cranes and Canada geese in southwestern Wyoming; migratory game birds in Alaska, Hawaii, Puerto Rico, and the Virgin Islands; and special extended falconry seasons. On September 12, 1986, the Service published in the **Federal Register** an eighth document (51 FR 32460) consisting of a final rulemaking for the late-season frameworks for migratory game bird hunting regulations from which State wildlife conservation agency officials selected late season hunting dates, hours, areas, and limits for 1986-87.

The final rule described here is the ninth in a series of proposed supplemental, and final rulemaking documents for migratory game bird hunting regulations and deals specifically with amending Subpart K of 50 CFR Part 20 to set hunting seasons, hours, areas and limits for species subject to late hunting regulations.

On August 28, 1986, the Service published in the **Federal Register** seasons, areas, limits and shooting hours for certain migratory game birds in the contiguous United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands. In § 20.106 paragraph (e), the west boundary of Zone 1 in North Dakota is given as the area east of a line starting on the east shore of Lake Oahe at the South Dakota border, then north on this shore to Bismarck, then north on

U.S. Highway 83 to Canada. The boundary description should read the area east of a line starting on the east shore of Lake Oahe at the South Dakota border then north on this shore to Bismarck, then north on U.S. Highway 83 to the north shore of Lake Sakakawea, then west along the north shore of Lake Sakakawea to North Dakota (ND) 23, then east on ND 23 to ND 8, then north on ND 8 to Canada.

Migratory Bird Hunting on Indian Reservations

In an August 31, 1986, letter that included proposed hunting regulations on the Fort Hall Indian Reservation, Fort Hall, Idaho, and in two telephone conversations, John D. Ross, III, Tribal Attorney, raised a number of concerns regarding the duck zone that has been established on and around the reservation for the 1986-87 hunting season. Mr. Ross urged the Service to point out that the duck hunting season dates in the zones were established to accommodate the Shoshone-Bannock Tribes and not the State of Idaho, and that it should not be identified as a State zone. Mr. Ross stated that the zone is larger than is necessary, and he requested that the Service make it clear that the new zone does not resolve jurisdictional disputes but is a temporary solution designed to avoid confrontation between the tribes and the State. The jurisdictional problems concern the regulatory authority over waterfowl hunting by non-Indians on the reservation, hunting by tribal members on lands owned by non-Indians within the reservation, and the exact boundaries of the reservation.

Response: While recognizing legitimate State concerns, the Service gave serious consideration to tribal interests when duck hunting regulations were established on the Fort Hall Indian Reservation in the 1985-86 and 1986-87 hunting seasons, in accordance with the guidelines published in the September 3, 1985, **Federal Register** (at 50 FR 35762). The Service clarified its position in regard to "full wildlife management authority" of Indian tribes in the August 29, 1986, **Federal Register** (at 51 FR 31085).

The present duck hunting zone was established as a means of accommodating the interests of both the tribes and the State in time for the 1986-87 hunting season, and it does not establish a binding precedent for future hunting seasons. The Service notes that the hunting regulations established in the zone are in accord with those requested by the tribes for the reservation, and the Service believes it unlikely that the duck hunting

regulations in this new zone will result in increased harvest. In fact, the later opening date and earlier closing date of the duck season should cause a reduced hunting kill of pintails and mallards, species for which there is a particular concern regarding population status. The Service recognizes that the zone does not resolve tribal and State differences regarding jurisdiction over hunting on lands owned by non-Indians, or the boundary issue. However, the Service believes that the approaches used thus far have been of mutual benefit, and the Service intends to consult again with tribal and State officials in establishing hunting regulations for the 1987-88 hunting season.

It should be noted that Mr. Ross' letter was received after the comment period closed, and under usual circumstances, his comments would not be published in this document. His comments are included because the Shoshone-Bannock Tribes did not have adequate time to comment on the proposed new duck hunting season zone before it was made final for the 1986-87 hunting season.

Nontoxic Shot Regulations

In the September 3, 1986, **Federal Register** (51 FR 31429) the Service published a list of zones and areas where nontoxic shot will be required for waterfowl hunting in the 1986-87 hunting season. Waterfowl hunters are advised to become familiar with State and local regulations regarding the use of nontoxic shot for waterfowl hunting.

NEPA Consideration

The "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75-54)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the **Federal Register** on June 13, 1975 (40 FR 24241). In addition, several environmental assessments have been prepared on specific matters which serve to supplement the material in the Final Environmental Statement.

Copies of assessments are available upon request from the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240.

Endangered Species Act Consideration

Section 7 of the Endangered Species Act provides that, "The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act "[and shall]" insure that any action

authorized, funded, or carried out . . . is not likely to jeopardize the continued existence of such endangered or threatened species or result in the destruction or adverse modification of [critical] habitat . . ." The Service therefore initiated section 7 consultation under the Endangered Species Act for the proposed hunting season regulations frameworks.

On June 23, 1986, the Acting Chief, Office of Endangered Species (OES), concluded that the proposed actions were not likely to jeopardize the continued existence or listed species of result in the destruction or adverse modification of their critical habitats.

As in the past, hunting regulations this year are designed, among other things, to remove or alleviate changes of conflict between seasons for migratory game birds and the protection and conservation of endangered and threatened species.

The Service's biological opinion resulting from its consultation under Section 7 is considered a public document and is available for public inspection in or available from the Office of Endangered Species and the Office of Migratory Bird Management, Department of the Interior, Washington, DC.

Regulatory Flexibility Act, Executive Order 12291 and Paperwork Reduction Act

In the *Federal Register* dated March 21, 1986 (at 51 FR 9854), the Service reported measures it had undertaken to comply with requirements of the Regulatory Flexibility Act and the Executive Order. These included preparing a Determination of Effects and an updated Final Regulatory Impact Analysis, and publication of a summary of the latter. These regulations have been determined to be major under Executive Order 12291 and they have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act. This determination is detailed in the

forementioned documents which are available upon request from the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240. These regulations contain no information collections subject to Office of Management and Budget review under the Paperwork Reduction Act of 1980.

Memorandum of Law

The Service published its Memorandum of Law, required by section 4 of Executive Order 12291, in the *Federal Register* dated July 25, 1986 (at 51 FR 26712).

Authorship

The primary author of this final rule is Morton M. Smith, Office of Migratory Bird Management, working under the direction of Rollin D. Sparrowe, Chief.

Regulations Promulgation

After analysis of the migratory game bird survey data obtained through investigations conducted by the Service, State conservation agencies, and other sources, and consideration of all comments received on the late season proposals (51 FR 9854, March 21, 1986; 51 FR 20677, June 6, 1986; and 51 FR 29274, August 15, 1986), the Service published in the *Federal Register* on September 12, 1986 (51 FR 32460) final late-season frameworks. Copies of the final frameworks were sent to the officials of the State conservation agencies who were invited to submit recommendations for hunting seasons which complied with the season times and lengths, hours, areas, and limits specified in the frameworks.

The taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The following amendments will permit taking of the designated species within specified time periods beginning as early as September 25 and will benefit the public by relieving existing restrictions.

The rulemaking process for migratory game bird hunting, must, by its nature, operate under severe time constraints. However, the Service intends that the public be given the greatest possible opportunity to comment on the regulations. Thus, when proposed rulemakings were published on March 21, June 6, and August 15, 1986, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that when the comment period closed time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the States would have insufficient time to select their season dates, shooting hours, hunting areas, and limits; to communicate those selections to the Service; and to establish and publicize the necessary regulations and procedures to implement their decisions. The Service therefore finds that "good cause" exists, within the terms of 5 U.S.C.(d)(3) (Administrative Procedure Act), and these regulations will, therefore, take effect September 25, 1986.

Accordingly, each State conservation agency having had an opportunity to participate in selecting the hunting seasons desired for its State on those species of migratory birds for which open seasons are now to be prescribed, and consideration having been given to all other relevant matters presented, certain sections of Title 50, Chapter I, Subchapter B, Part 20, Subpart K, are hereby corrected and amended as set forth below.

4. Section 20.105 is amended to read as follows:

§20.105 Seasons, limits, and shooting hours for waterfowl, coots, and gallinules.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting and hawking hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) Waterfowl, coots and gallinules in Atlantic, Mississippi, Central, and Pacific Flyways.

ATLANTIC FLYWAY

The Atlantic Flyway includes Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia and West Virginia.

Flywaywide Restrictions.

Shooting (including hawking) hours: One-half hour before sunrise to sunset daily except as otherwise restricted.

Canvasbacks - All areas of the Flyway are closed to canvasback hunting.

Black ducks - When the black duck is permitted in the daily bag, it is part of the daily and possession limits for ducks.

Wood ducks - No more than 2 wood ducks may be taken daily nor more than 4 wood ducks may be possessed. Exceptions: during duck seasons prior to October 15, in Georgia, North Carolina, South Carolina, and Virginia. See State footnotes.

Hooded mergansers - In States selecting conventional regulations, no more than 1 hooded merganser may be taken daily nor more than 2 hooded mergansers may be possessed.

Redheads - The limit on redheads throughout the flyway is 2 daily. The possession limit on redheads is twice the daily bag limit under conventional regulations. Under the point system, redheads flywaywide count 70 points each.

Sea ducks - In all areas outside of special sea duck areas, sea ducks are included in the regular duck season conventional or point-system daily bag and possession limits.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS AND DELINEATIONS OF GEOGRAPHICAL AREAS. SPECIAL RESTRICTIONS MAY APPLY ON FEDERAL AND STATE PUBLIC HUNTING AREAS AND FEDERAL INDIAN RESERVATIONS.

Point system — Ducks, mergansers and coots. The Atlantic Flyway States selecting the point system bag limits on designated species are listed in the table above.

The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of the other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sex which could have legally been taken in 2 days. The shooting (including hawking) hours are one-half hour before sunrise until sunset daily unless otherwise indicated.

The point values assigned to the species and sexes are as follows:

Atlantic Flyway

100 points	70 points	20 points	35 points
Female mallard	Wood duck	Blue-winged teal	Male mallard
Black duck	Redhead	Green-winged teal	Pintail
Fulvous tree duck	Hooded merganser	Shoveler	Ring-necked duck
(only in Florida)		Gadwall	Bufflehead
Mottled duck		Wigeon	and all other
(except South		Scaup	species of
Carolina)		Sea ducks	ducks
		Mergansers (ex-	
		cept hooded)	

Note: All areas of the Flyway are closed to canvasback hunting.
