Revised Minimum Standards for Small

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for
Community Planning and
Development

[Docket No. 87-1725; FR-2400]

Urban Development Action Grants; Revised Minimum Standards for Small Cities

AGENCY: Office of the Assistant
Secretary for Community Planning and
Development, HUD.

ACTION: Notice.

SUMMARY: In accordance with 24 CFR 570.452(b)(1), the Department is providing Notice of the most current minimum standards of physical and economic distress for small cities for the Urban Development Action Grant (UDAG) program.

This Notice supersedes the Notice published October 22, 1985 (50 FR 42822).

The minimum standards of distress have change generally as a result of applying new data from the Bureau of the Census, and the Employment Training Administration within the Department of Labor.

This Notice contains four lists. The first list (see Part II of this Notice) identifies all those cities which qualify as distressed communities based upon the new minimum standards. The second list (see Part III of this Notice) identifies those cities which did not qualify when the October 22, 1985 list was published but which do qualify now. The third list (see Part IV of this Notice) identifies those cities which were classified as distressed on the October 22, 1985 list, but which no longer qualify under the new minimum standards. The fourth and last list (see Part V of this Notice) identifies those towns, townships, and Puerto Rican municipios which qualify as distressed communities based upon the new minimum standards.

EFFECTIVE DATE: October 1, 1987.

FOR FURTHER INFORMATION CONTACT: Jean Samuels, Office of Urban Development Action Grants, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410, Telephone: 202/755-6784. For information on minimum distress standards or the data used to determine whether a community qualifies as distressed contact: Larry Blume Telephone: 202/755-7390.

SUPPLEMENTARY INFORMATION: In an October 22, 1985 Notice, we provided the minimum standards of physical and

economic distress which were applicable up to the effective date of this Notice for small cities which met the standards published at that time.

Part I of this Notice specifies the new minimum standards of physical and economic distress. Parts II through V contain the lists enumerated in the Summary section of this Notice. Part II contains a revised list of all the small cities which meet the new standards. Part III of this Notice lists those small cities which, based upon the new minimum standards, appear on the list in Part II but did not qualify when the October 22, 1985 list was published. Part IV is a list of those cities which were classified as distressed on the October 22, 1985 list, but which no longer qualify under the new minimum standards. These cities listed in Part IV have a period of time, as specified in Part IV, during which they may submit UDAG applications. Part V is a revised list of eligible towns, townships, and Puerto Rican municipios.

The new minimum standards are based on updated data from the Bureau of the Census and Employment Training Administration. The data cover units of government incorporated through June 1986. The updated Census data are 1984 population, 1983 per capita income, 1980 housing and poverty (adjusted for boundary changes through 1983), and retail and manufacturing jobs created from 1977 to 1982. The previous Census data were 1982 population, 1981 per capita income, 1980 housing and poverty (reflecting boundary changes through the 1982), and 1977-1982 retail and manufacturing jobs. The updated data from the Employment Training Administration are Labor Surplus Areas designated as of April 1, 1987. A list of eligible labor surplus areas was published in the Federal Register on March 26, 1987 (52 FR 9727). The previous Labor Surplus Areas were designated as of October 1, 1984.

Part I

A small city must pass three minimum standards of physical and economic distress for the categories appropriate to their size, except that if the percentage of poverty is less than half the minimum standard, the city must pass four standards. The most current minimum standards of physical and economic distress are:

A. Age of Housing. At least 20.2 percent of the applicant's year-round housing units must have been constructed prior to 1940, based on 1980 Census data, in order to meet this minimum standard;

B. Per Capita Income Change. The net increase in per capita income for the

period of 1969-1983 must have been \$3,203 or less, based on Census Bureau data, in order to meet this minimum standard;

C. Population Growth Lag/Decline. For the period 1970-1984 the percentage rate of population growth (based on corporate boundaries as of 1983) must have been 4.6 percent or less, based on Census Bureau data, in order to meet this minimum standard;

D. Job Lag/Decline. The rate of growth in retail and manufacturing employment for the period 1977-1982 must have increased by 3.3 percent or less, based on Census Bureau data, in order to meet this minimum standard. The standard is only applicable to cities of 25,000 population or more. For communities where only retail data were available, a job lag percentage for the retail sector was computed. For communities where only manufacturing data were available, a job lag percentage for the manufacturing sector was computed. The retail job lag threshold is 8.5 percent and the manufacturing job lag threshold is 0.0 percent. If neither data source is available, this standard will not be considered;

E. Poverty. The percentage of persons within the applicant's jurisdiction at or below the poverty level must be 12.3 percent or more, based on 1980 Census data, in order to meet this minimum standard;

F. Labor Surplus Area. The small city must either be entirely within or partially within an area which meets the criteria for designation as a Labor Surplus Area as of April 1, 1987. These areas include counties or county balances (after excluding cities with populations of 50,000 or more) with an unemployment rate of 9 percent or more for calendar years 1984-1985.

Part II

Part V

The following list contains the names of towns, townships and Puerto Rican municipios which meet the minimum standards for physical and economic distress, and which are in States where towns and townships generally have powers comparable to the powers of municipalities. Towns and townships in

states which are not listed should apply to the local HUD field for assistance in determining whether they have appropriate powers. The towns and townships are not listed with places in Section II because their eligibility as cities has not been fully determined under the criteria of 24 CFR 570.3(e), which require that they (1) have powers and perform functions comparable to municipalities, (2) are closely settled and (3) have corporation agreements with all incorporated places within their boundaries. Requests for waivers of the closely settled requirements may be granted by the Secretary on a case by case basis. The asterisk shown in front of the name of some towns or townships indicates that those towns or townships contain an incorporated place within their boundaries.
