

Dear Ms. Riniker: On August 25, 1987, your Deputy Director, Phillip C. Johnson, requested EPA to subdelegate enforcement of the National Emission Standard for Hazardous Air Pollutants (NESHAP) for asbestos to the Grant County Clean Air Authority. We have reviewed that request and hereby grant the subdelegation.

This subdelegation is subject to the conditions outlined in the original letter of delegation to the state dated February 28, 1975 and published in the *Federal Register* on April 1, 1975 (40 FR 14632).

A Notice announcing this subdelegation will be published in the *Federal Register* in the future. The Notice will state, among other things, that effective immediately all reports required pursuant to the federal NESHAP from sources located in the state which were previously sent to DOE will now be sent to the local agency.

Since this delegation is effective immediately, there is no requirement that the state or local agency notify EPA of its acceptance. Unless EPA receives from the state or local agency written notice of objections within ten days of the date of receipt of this letter, the state or local agency will be deemed to have accepted all the terms of the subdelegation.

An advance copy of the *Federal Register* is enclosed for your information.

Sincerely,

Robie G. Russell,
Regional Administrator.

Enclosure
cc: M. Michael, GCCAA
M. Hoyles, OOO

This Notice hereby notifies the public that a subdelegation of Subpart M (asbestos) under NESHAP to the Grant County Clean Air Authority took place on October 21, 1987.

This Notice is issued under the authority of section 112 of the Clean Air Act, as amended (42 U.S.C. 1857, et seq.).

Lists of Subjects in 40 CFR Part 61

Intergovernmental relations, Air pollution control, Asbestos, Beryllium, Hazardous materials, Mercury, Vinyl chloride.

Dated: October 21, 1987.

Robie G. Russell,
Regional Administrator.

Part 61 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

PART 61—[AMENDED]

Subpart A—General Provisions

1. The authority citation for Part 61 continues to read as follows:

Authority: Section 110(c) of the Clean Air Act, as amended (42 U.S.C. 7401-7642).

2. Section 61.04 is amended by adding paragraph (WW)(viii) to read as follows:

§ 61.04 Addresses.

(WW) * * *
(viii) Grant County Clean Air Authority, P.O. Box 37, Ephrata, Washington 98823.

BILLING CODE 6560-50-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 18

[General Docket No. 83-806; FCC 87-325]

Technical Standards for RF Lighting Devices

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission affirms that the existing technical standards for RF lighting devices are adequate to deter harmful interference to authorized telecommunication services. The Commission declines to impose additional standards (i.e., radiation limits below 30 MHz) on the operation of RF lighting devices, as it proposed earlier in this proceeding. This action will continue to provide the RF lighting industry with standards and regulations that are flexible enough to accommodate its rapid evolution without increasing the risk of interference to authorized services.

EFFECTIVE DATE: December 17, 1987.

ADDRESS: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Liliane Volcy, Technical Standards Branch, Office of Engineering & Technology, tel: (202) 653-7316 or 653-6288.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, Gen Docket 83-806, FCC 87-325, adopted October 9, 1987, released November 2, 1987.

The full texts of the Commission decisions are available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Services, (202) 857-3800, 2100 M Street NW., Washington, DC 20037.

Summary of Report and Order

1. By this Report and Order, the Commission affirms that the operation of RF lighting devices should continue to be subject to the standards specified under Part 18 of the FCC Rules concerning ISM equipment. These standards have proven to be effective in deterring harmful interference to authorized telecommunication services from the operation of RF lighting devices. Although the Commission proposed earlier in this proceeding, in addition to the existing technical standards under Part 18 of the Rules, to impose radiation limits below 30 MHz on the operation of RF lighting devices, it finds no pressing need to do so at this time. RF lighting devices have not been a significant source of harmful interference to authorized services. However, in view of the constantly changing RF lighting technology, the Commission will monitor the development of such devices at regular intervals to insure that they continue to operate without causing harmful interference to telecommunication services.

2. Several non-substantive changes to Part 18 of the Rules are being made to give additional information to the public. Section 18.307 is amended to indicate that the conduction limits apply outside the bands specified in § 18.301. The table in § 18.305(a) is amended to indicate that the permissible increase in field strength levels is in terms of the square root of the ratio of the generated power to 500 watts. These changes constitute minor amendments to the rules. Therefore, we find for good cause shown that compliance with the notice and comment procedure of the Administrative Procedure Act is unnecessary. See 5 U.S.C. 553(b)(B).

Ordering Clauses

3. Accordingly, it is ordered that, pursuant to sections 1, 4(i), 302, and 303 of the Communications Act of 1934, as amended, Part 18 is amended as shown below, effective December 17, 1987. It is further ordered that this proceeding is terminated.

List of Subjects in 47 CFR Part 18

Business and industry, Household appliances.

Part 18 of Title 47 of the Code of Federal Regulations is amended as follows:

PART 18—INDUSTRIAL, SCIENTIFIC, AND MEDICAL EQUIPMENT

1. The authority citation for Part 18 continues to read as follows:

Authority: 47 U.S.C. 4, 301, 302, 303, 304, 307.

§ 18.305 [Amended]

2. In § 18.305, the table in paragraph (b) is amended by removing the words "√power/500" and adding, in their place, the words "√power/500".

3. In § 18.307, the notes are revised to read as follows:

§ 18.307 Conduction limits.

* * *

Notes

1. These conduction limits shall apply outside the bands specified in § 18.301.

2. For ultrasonic equipment, compliance with these conduction limits shall preclude the need to show compliance with the field strength limits below 30 MHz unless requested by the Commission.

3. The tighter limits shall apply at the boundary between two frequency ranges.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 87-39; RM-5521]

Radio Broadcasting Services; Glen Arbor, MI

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document allocates FM Channel 251A to Glen Arbor, Michigan, as that community's second FM broadcast service. This action is taken in response to a petition filed by Michael Bradford. Concurrence of the Canadian government has been obtained for the allotment of Channel 251A at Glen Arbor. With this action, this proceeding is terminated.

DATES: Effective December 21, 1987. The window period for filing applications will open on December 22, 1987, and close on January 21, 1988.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, MM Docket No. 87-39, adopted October 16, 1987, and released November 5, 1987. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased

from the Commission's copy contractors, International Transcription Service, (202) 857-3800, 2100 M Street NW., Suite 140, Washington, DC 20037.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 86-302; RM-5304]

Radio Broadcasting Services; Marshfield, MO

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document allocates FM Channel 284C2 to Marshfield, Missouri, and modifies the license of Station KTOZ(FM) to specify operation on Channel 284C2 instead of Channel 285A. This action is taken in response to a petition filed by Ladco Communications, Inc., licensee of Station KTOZ(FM). With this action, this proceeding is terminated.

EFFECTIVE DATE: December 21, 1987.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, MM Docket No. 86-302, adopted October 9, 1987, and released November 5, 1987. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 86-278; RM-5098 and 5549]

Radio Broadcasting Services; Lebanon and Bolivar, MO

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document substitutes FM Channel 300C2 for FM Channel 221A at Lebanon, Missouri and modifies the license of Station KLWT to specify the new channel in response to a petition filed by Lebanon Broadcasting Company. A counterproposal was filed by KYOO Broadcasting Company requesting the substitution of FM Channel 299C2 for Channel 292A at Bolivar, Missouri and modification of its license for Station KYOO to specify the higher class channel.

After comparative evaluation of the communities to determine which could provide a new service to the largest population within the gain areas of the predicted C2 service contours, the Commission concluded that the Lebanon proposal should prevail. With this action, this proceeding is terminated.

EFFECTIVE DATE: December 21, 1987.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, MM Docket No. 86-278, adopted October 19, 1987, and released November 5, 1987. BILLING CODE 6712-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 611 and 672

[Docket No. 61113-7235]

Foreign Fishing; Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: The Director, Alaska Region, NMFS (Regional Director), has determined that the prohibited species catch (PSC) limit for Pacific halibut applicable to joint venture processing (JVP) in the Gulf of Alaska has been caught. Therefore, the Regional Director is prohibiting on November 5, 1987, for the remainder of 1987, further JVP fishing by U.S. vessels with trawl gear other than pelagic trawl gear. This action is necessary to limit the PSC catch of Pacific halibut to the amount that is permissible under Federal regulations implementing the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP).

DATES: This notice is effective at noon, November 5, 1987, Alaska Standard Time (AST), until midnight, Alaska Standard Time, December 31, 1987.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fishery Management Biologist, NMFS), 907-586-7230.

SUPPLEMENTARY INFORMATION:

Background

Domestic and foreign groundfish fisheries in the exclusive economic zone (EEZ) of the Gulf of Alaska are managed in accordance with the FMP which was developed by the North Pacific Fishery Management Council (Council) under authority of the Magnuson Fishery Conservation and Management Act (Magnuson Act) and implemented by regulations appearing at 50 CFR 611.92 and Part 672. Target quotas (TQs) for groundfish species in the Gulf of Alaska are established by the FMP. The sum of the TQs for all species must fall within the established OY range for these species of 116,000 to 800,000 metric tons (mt).

TQs are apportioned initially among domestic annual processing (DAP), joint venture processing (JVP), reserves, and total allowable level of foreign fishing (TALFF) for each species under §§ 611.92 and 672.20(a)(2). DAP amounts are intended for harvest by U.S. fishermen for delivery and sale to U.S. processors. JVP amounts are intended for joint ventures in which U.S. fishermen typically deliver their catches to foreign processors at sea. The reserves for the Gulf of Alaska are 20 percent of the TQ for each species category and are used to supplement DAP, JVP, or TALFF if needed.

Special consideration is given to the conservation of Pacific halibut, a species important to other U.S. fishermen, and which is taken as bycatch in the groundfish fishery. Although Pacific halibut are managed under authority of the International Pacific Halibut Commission, bycatches in either the DAP or JVP groundfish fishery are controlled through PSC limits established under regulations implementing the FMP. Under § 672.20(f)(1), if the Regional Director determines that the catch of Pacific halibut by U.S. vessels operating in JVP or DAP operations will reach the applicable PSC limit for Pacific halibut, he will publish a notice in the *Federal Register* prohibiting fishing by vessels with trawl gear other than pelagic trawl gear for the rest of the year in the area to which the PSC limits applies. Pelagic trawl gear is defined at § 672.2 as a trawl on which neither the net nor the trawl doors (or other trawl-spreading device) operates in contact with the seabed, and which does not have

attached to it any protective device (such as chafing gear, rollers, or bobbins) that would make it suitable for fishing in contact with the seabed.

The current Pacific halibut PSC limit applicable to JVP is 433 metric tons (mt) (52 FR 42114, November 3, 1987). This PSC limit applies to the entire Gulf of Alaska; that is, bycatches of Pacific halibut are permissible throughout the Gulf of Alaska until a total of 433 mt is taken. In 1987, JVP fisheries have been ongoing in the Gulf of Alaska since late August. They have been conducted primarily in the Central Regulatory Area for "other flounders" and in the Western Regulatory Area for pollock. NMFS observers on the foreign processing vessels have reported weekly the amounts of Pacific halibut caught.

On the basis of the reported catch, the Regional Director has determined that the PSC limit applicable to JVP has been caught. Therefore, the Regional Director is prohibiting further JVP fishing with trawl gear other than pelagic trawl gear for the remainder of the 1987 fishing year.

This closure will be effective when this notice is filed for public inspection with the Office of the Federal Register and after it has been publicized for 48 hours through procedures of the Alaska Department of Fish and Game, pursuant to the Cooperative Enforcement Agreement between the Government of the United States and the State of Alaska, dated December 21, 1978.

Classification

Unless this notice takes effect promptly, the Pacific halibut PSC limit applicable to JVP will be exceeded, which would decrease the amount of Pacific halibut available to fishermen who target on this species. NOAA therefore finds for good cause that prior opportunity for public comment on this notice is contrary to the public interest and its effective date should not be delayed. This action is taken under §§ 611.13 and 672.20 and is in compliance with Executive Order 12291.
