Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 USC 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 5 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry, and publication in a uniform format. All Federal regulatory agencies have chosen to publish their regulatory agendas as part of this Unified Agenda of Federal Regulations.

The following separate parts in this issue of the *Federal Register* are the agency agendas, which together comprise the October 1988 edition of the semiannual Unified Agenda of Federal Regulations.

ADDRESS: Regulatory Information Service Center, Room 5216, New Executive Office Building, 725 Seventeenth Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory actions, please refer to the Agency Contact listed for each entry. To provide comment on or to obtain further information about the Unified Agenda of Federal Regulations, contact: Mark G. Schoenberg, Executive Director, Regulatory Information Service Center, Room 5216, New Executive Office Building, 725 Seventeenth Street, NW., Washington, DC 20503, (202) 395-6993.

**INTRODUCTION TO THE UNIFIED
AGENDA OF FEDERAL
REGULATIONS**
About the Unified Agenda

The Regulatory Information Service Center compiles the *Unified Agenda of Federal Regulations* for the Office of Information and Regulatory Affairs, Office of Management and Budget. The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing President Reagan's Executive Orders 12291 (Federal Regulation) (46 FR 13193; 3 CFR 1981 Comp., p. 127) and 12498 (Regulatory Planning Process) (50 FR 1036; 3 CFR 1985 Comp., p. 323). Under EO 12498, OMB publishes the *Regulatory Program of the United States Government* each year.

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the *Unified Agenda* differ in several ways.

The Unified Agenda includes more regulatory actions because it covers all Federal agencies that issue regulations and includes almost all the rulemakings they have under development. This year's Regulatory Program covers only 26 of the major Federal regulatory agencies, and includes only the most significant of all the regulatory actions that each agency plans to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda.

Most of the regulatory actions described in the **Regulatory Program of the United States Government** are included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries are combined into one Program entry, and a new RIN is assigned to that entry in the Program.

The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government. This edition of the Unified Agenda includes 55 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. The Council on Environmental Quality and the National Capital Planning Commission usually publish a regulatory agenda, but have nothing to report for this edition of the Unified Agenda. Agencies of the United States Congress are not included.

The Unified Agenda is produced through a computer system designed and maintained by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use. In order to further facilitate producing the Agenda, many agencies currently use computer terminals at their offices to enter agenda information into the Center's computer system.

The Agenda contains a Subject Index to help readers locate entries from various agencies that may affect a particular area of interest. The numbers in the index refer to the sequence numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For those agencies that requested it, we provided a computer-produced Table of Contents that appears after the

preamble of the agency's agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements -- regulation title, significance, legal authority, CFR citation, abstract, legal deadline, timetable, effects on small entities and levels of government, and agency contact. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

The **Unified Agenda of Federal Regulations** is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones.

Dated: October 1, 1988.

Mark G. Schoenberg,
Executive Director.

How to Use the Unified Agenda

Each agency agenda appears as a separate part in this edition of the **Federal Register**. The parts are organized alphabetically in four groups: Cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency was asked to list its rules in four groups:

1. Prerule Stage -- actions agencies will undertake in the next 12 months to determine whether or how to initiate rulemaking. Such actions occur prior to a Notice of Proposed Rulemaking and may include Advance Notices of Proposed Rulemaking and reviews of existing regulations.

2. Proposed Rule Stage -- actions for which agencies plan to publish a Notice of Proposed Rulemaking (NPRM) as the next step in their rulemaking process, or for which the closing date of the NPRM Comment Period is the next step.

3. Final Rule Stage -- actions for which agencies plan to publish a final rule or an interim final rule, or to take other final action as the next step in their rulemaking process.

4. Completed Actions -- actions or reviews the agency completed or

withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in the Agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. Sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under EO 12291 such as military regulations and regulations related to internal agency management.

Entries describing regulations in the Agenda should contain, at a minimum, the following information:

- Title of the Regulation.
- Significance -- an indication of the significance of the entry that appears when:
 - a. The action was included in the **Regulatory Program of the United States Government** for the 1988 program year, or
 - b. The agency otherwise considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the United States Code (USC) or Public Law (PL) or the Executive order (EO) that authorize(s) the regulatory action (agencies may provide common name references to laws in addition to USC or PL references).
- CFR Citation -- the section(s) of the Code of Federal Regulations that affects or will be affected by the action.
- Abstract -- a description of the problem the regulation will address; the need for a Federal solution; and, to

the extent available, the alternatives that the agency is considering to address the problem and the potential costs and benefits of the action.

- **Legal Deadline** -- an indication of whether the rule is subject to a statutory or judicial deadline, the date of that deadline, and whether the deadline pertains to an NPRM, a Final Action, or some "Other" action.
- **Timetable** -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 10/00/88 means the agency can predict the month and year the action will take place, but not the day it will occur.
- **Effects on Small Entities** -- indicates whether the rule is expected to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601) and, if so, whether the small entities are businesses, governmental jurisdictions, and/or organizations.
- **Effects on Levels of Government** -- indicates whether the rule is expected to affect levels of government and, if so, whether the governments are local, State, and/or Federal.
- **Agency Contact** -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed. The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of August 26, 1988, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule. The ANPRM describes the general area that may be subject to regulation and usually asks for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a notice of proposed rulemaking.

CFR -- The Code of Federal Regulations is an annual codification of the general and permanent regulations published in the **Federal Register** by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area subject to Federal regulation. The CFR is keyed to and kept up-to-date by the daily issues of the **Federal Register**.

EO -- An Executive order is a directive from the President to an executive agency, issued under constitutional or statutory authority. Executive orders are published in the **Federal Register** and in Title 3 of the Code of Federal Regulations.

FR -- The **Federal Register** is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents issued by Federal departments and agencies.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the **Federal Register** that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- A reference to the legal authority under which the rule is proposed; and
- Either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general

applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the two-year life of each Congress; for example, PL 97-17 would be the 17th public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities, as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill; any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by EO 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of section 2 of EO 12291, namely that it:

- Be based on adequate information concerning the need for and consequences of the action;
- Not be undertaken unless the potential benefits outweigh the potential costs to society;
- Maximize net benefits to society;
- Entail the least net cost to society of the alternatives considered; and
- Take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulation Identifier Number is assigned by the Regulatory Information Service Center to identify each regulatory action listed in the Agenda.

USC -- The United States Code is a consolidation and codification of all general and permanent laws of the United States. The USC is divided into 50 titles and each title covers a broad area of Federal law.
