DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

Project Grants for Preventive Health Services; Immunization Availability of Funds for Fiscal Year 1988 and Amendment to Program Guidelines

Introduction

The Centers for Disease Control announces the availability of funds for Fiscal Year 1988 for Project Grants for Preventive Health Services—Immunization. The "Amendments" Section of this notice amends the Program Guidelines published in the *Federal Register* May 5, 1987 (52 FR 16451) to comply with Pub. L. 100-177.

Authority

This grant program is authorized by the Public Health Service Act, Section 317 (42 U.S.C. 247b), as amended. Regulations governing programs for preventive health services are codified at 42 CFR Part 51b, Subparts A and B. The Catalog of Federal Domestic Assistance Number is 13.268.

Eligible Applicants

Eligible applicants for this program are the official public health agencies of State and local governments, including the District of Columbia, American Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands, and the Republic of Palau.

Purpose

The purpose of this grant program is to prevent the occurrence and transmission of diseases preventable through immunizations.

Availability of Funds

Approximately \$85,000,000 will be available in Fiscal Year 1988 to award approximately 63 grants with the average award expected to be \$1,350,000, ranging from \$25,000 to \$4,200,000. Grants are usually funded for 12 months in a 3- to 5-year project period. Continuation awards within the project period are made on the basis of satisfactory progress in meeting project objectives and on the availability of

funds. No new grants are expected to be made in 1988 since current grantees are coordinating activities in all political jurisdictions in the United States. Funding estimates outlined above may vary and are subject to change.

Amendments

Public Law 100-177 mandates the following changes in the previously published program announcement (Project Grants for Preventive Health Services-Immunization; Program Announcement; Program Guidelines, 52 FR 16451, May 5, 1987). On page 16455, column two, "Use of Grant Funds", letters B. and C. should be deleted and replaced with the following:

"B. No charge may be made to patients for the cost of vaccines provided through project grant funds, whether administered in public clinics or by private physicians. If an administration fee is charged, information must be prominently displayed which indicates that no one receiving an immunization in public clinics may be denied vaccine provided through project grant funds for failure to pay the administration fee or failure to make a donation to the provider."

C. Grant funds may be used for maintaining patient record systems, purchasing equipment (including data processing equipment), or providing vaccination facilities and services, only after complete justification has been included in the application and fund provided accordingly.

D. Grant funds may be used to supplement (not substitute for) existing immunization operations and services."

Information

Applications are subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs. Application forms, information on review procedures, deadlines, the consequences of late submission, and copies of the program announcement and regulations may be obtained from the appropriate Department of Health and Human Services Regional Office as set forth below.
