

antidumping duties. As a result of the ITC's negative critical circumstances determination, U.S. Customs will refund all cash deposits and release all bonds collected on forklifts entered or withdrawn from warehouse, for consumption, on or after August 26, 1988 and before November 24, 1987. Further, a cash deposit of estimated antidumping duties must be made on all entries of forklifts from Japan entered or withdrawn from warehouse, for consumption, on or after the date of publication of this antidumping duty order in the Federal Register.

EFFECTIVE DATE: June 7, 1988.

Gary Taverman, Office of Investigations, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230; telephone: (202) 377-0161.

SUPPLEMENTARY INFORMATION: The products covered by this investigation are certain internal-combustion, industrial forklift trucks, with lifting capacity of 2,000 to 15,000 lbs., currently provided for under *Tariff Schedules of the United States Annotated* (TSUSA) items 692.4025, 692.4030, and 692.4070, and currently classifiable under Harmonized System (HS) item numbers 8427.20.00-0, 8427.90.00-0, and 8431.20.00-0. The products covered by this investigation are further described as follows: Assembled, not assembled, and less than complete, finished and not finished, operator-riding forklift trucks powered by gasoline, propane, or diesel fuel internal-combustion engines of off-the-highway types used in factories, warehouses, or transportation terminals for short-distance transport, towing, or handling of articles. Less than complete forklift trucks are defined as imports which include a frame by itself or a frame assembled with one or more component parts. Component parts of the subject forklift trucks which are not assembled with a frame are not covered by this order.

Products not covered by this investigation are genuinely used forklifts. For the purposes of this antidumping duty order and amendment to the final determination, we consider any forklift to be used if, at the time of entry into the United States, the importer can demonstrate to the satisfaction of the U.S. Customs Service that the forklift was manufactured in a calendar year at least three years prior to the year of entry into the United States. The importer must show documentation from industrial publications that reconcile the serial number and year of manufacture of the

forklift. If the calendar year of manufacture is at least three years prior to its year of entry into the United States, it will not be subject to the suspension of liquidation or any assessment of antidumping duties.

For example, if a forklift is entered or withdrawn from warehouse, for consumption in June 1988 and if the importer demonstrates through industrial publications that the forklift was manufactured in or before calendar year 1985, that forklift will not be covered by this order.

In accordance with section 735(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1673d(a)) (the Act), on April 7, 1988, the Department made its final determination that forklifts from Japan are being sold at less than fair value (53 FR 12552, April 15, 1988) and that critical circumstances exist with respect to Nissan and TCM. On May 31, 1988, in accordance with section 735(d) of the Act, the ITC notified the Department that such imports are materially injuring a U.S. industry and that critical circumstances do not exist with respect to Nissan and TCM.

Subsequent to the publication of the Department's final determination, Komatsu Forklift Co., Ltd. (Komatsu) made allegations that certain clerical errors had been made in the concordance. The Department conducted a review based on these comments and amended its final determination to correct these errors. These corrections changed Komatsu's weighted-average dumping margin from 47.73% to 47.50% and the "all others" rate from 39.50% to 39.45%.

Therefore, in accordance with sections 736 and 751 of the Act (19 U.S.C. 1673e and 1675), the Department directs U.S. Customs officers to assess, upon further advice by the administering authority pursuant to section 736(a)(1) of the Act (19 U.S.C. 1673e(a)(1)), antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all entries of forklifts from Japan, with the exception of genuinely used forklifts as described above. These antidumping duties will be assessed on all unliquidated entries of forklifts from Japan entered or withdrawn from warehouse, for consumption, on or after November 24, 1987, the date on which the Department published its preliminary determination notice in the *Federal Register* (52 FR 45003).

On and after the date of publication of this notice, U.S. Customs officers must require, at the same time as importers would normally deposit estimated duties on forklifts from Japan, a cash deposit

equal to the estimated weighted-average dumping duty margins noted below:

	Weighted-average margin (percent)
Manufacturers/Producers/Exporters	
Toyota Motor Corp.....	17.29
Nissan Motor Co., Ltd.....	51.33
Komatsu Forklift Co., Ltd.....	47.50
Sumitomo-Yale Co., Ltd.....	51.33
Toyo Umpanki Co., Ltd.....	51.33
Sanki Industrial Co., Ltd.....	13.65
Kasagi Forklift, Inc.....	56.81
All Others.....	39.45

This determination constitutes an amendment to the final determination and an antidumping duty order with respect to forklifts from Japan, pursuant to sections 735(d) and 736(a) of the Act (19 U.S.C. 1673d(d) and 1673e(a)) and § 353.48 of the Commerce Regulations (19 CFR 353.48). We have deleted from the Commerce Regulations, Annex I of 19 CFR Part 353, which listed antidumping duty findings and orders currently in effect. Interested parties may contact the Central Records Unit, Room B-099, Import Administration, for copies of the updated list of orders currently in effect.

This notice is published in accordance with sections 735(d) and 736(a) of the Act (19 U.S.C. 1673d(d) and 1673e(a)) and 19 CFR 353.48.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.
