

In this survey Texas Eastern requested projections by the customers of their purchases from Texas Eastern for the three-month period, August 1, 1989–October 31, 1989. To the extent a customer provided Texas Eastern a volume-specific projection, Texas Eastern has utilized that volume. In the event the customers provided a volume range, Texas Eastern has utilized a volume projection between the high and low volume provided by the customer.

The proposed effective date of the above tariff sheets is August 1, 1989.

Copies of the filing were served on Texas Eastern's jurisdictional customers and interested state commissions. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before July 17, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP88-99-002]

#### Transwestern Pipeline Company; Proposed Changes in FERC Gas Tariff

July 10, 1989.

Take notice that Transwestern Pipeline Company (Transwestern) on June 30, 1989 tendered for as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets:

Effective July 1, 1989

- 4th Revised Sheet No. 48
- Original Sheet No. 83
- Original Sheet No. 84
- Original Sheet No. 85
- Original Sheet No. 86
- Original Sheet No. 86A

Effective October 1, 1989

- 2nd Revised Sheet No. 7
- 1st Revised Sheet No. 13
- 1st Revised Sheet No. 16
- 1st Revised Sheet No. 19
- 4th Revised Sheet No. 20A
- 4th Revised Sheet No. 22

The above listed tariff sheets are being filed to comply with the

Commission's order issued May 11, 1988 in Docket No. CP88-99-000 (Order). In its Order of May 11, 1988, the Commission issued to Transwestern a Certificate of Public Convenience and Necessity authorizing it to institute a gas inventory charge (GIC) subject to various conditions. On June 30, 1989 Transwestern notified the Commission that it would accept the GIC Certificate as conditioned. The above listed tariff sheets have been filed to comply with the conditions in the Commission's Order.

Transwestern, herein, respectfully requests that the Commission grant any and all waivers of its rules, regulations and orders as may be necessary so as to permit the above listed tariff sheets to become effective on the dates requested.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure [18 CFR 385.214, 385.211 (1988)]. All such protests should be filed on or before July 17, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 89-16608 Filed 7-14-89; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TA89-1-30-000]

#### Trunkline Gas Co.; Proposed Changes in FERC Gas Tariff

July 10, 1989.

Take notice that Trunkline Gas Company (Trunkline) on June 30, 1989, tendered for filing the following revised tariff sheet to its FERC Gas Tariff, Original Volume No. 1:

Seventy-First Revised Sheet No. 3-A

The proposed effective date of this revised tariff sheet is September 1, 1989.

Trunkline states that the revised tariff sheet reflects a commodity rate increase of 12.91¢ per Dt. This increase includes:

- (1) a 10.27¢ per Dt increase in the projected purchased gas cost component; and
- (2) a 2.64¢ per Dt increase in the surcharge to recover the Current Deferred Account Balance at April 30, 1989 and related carrying charges.

Trunkline further states that it is also submitting an alternate revised tariff sheet. Trunkline has filed an offer of settlement in Docket No. RP88-180-000 which was certified by the Presiding Administrative Law Judge on June 22, 1989. Article II of the Stipulation and Agreement calls for Trunkline to submit to the Commission at its request implementation of certain revised interim tariff sheets by June 29, 1989. Upon Commission approval of these, subject to certain express conditions, those tariff sheets are to become effective July 1, 1989. In the event of the issuance of a Commission order approving those tariff sheets in conformity with Article II of the Stipulation and Agreement before September 1, 1989, the proposed effective date of this tariff filing, it would be appropriate to use the alternate tariff sheet. It is being submitted solely for those purposes. Accordingly, Trunkline submitted for filing six (6) copies of the following alternate revised sheet to its FERC Gas Tariff, Original Volume No. 1, which reflects the Docket No. RP88-180-000 settlement:

Alternate Seventy-First Revised Sheet  
No. 3-A

The proposed effective date of the alternate revised tariff sheet is September 1, 1989.

Trunkline states that this filing is made in accordance with Section 154.305 (Annual PGA filing) of the Commission's Regulations and pursuant to Section 18 (Purchase Gas Adjustment Clause) of Trunkline's FERC Gas Tariff, Original Volume No. 1 to reflect the changes in Trunkline's jurisdictional rates effective September 1, 1989.

Trunkline states that copies of its filing have been served on all affected jurisdictional customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before July 17, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available

for public inspection in the Public Reference Room.

Lois D. Cashell,  
Secretary.

BILLING CODE 6717-01-M

[Docket No. RP88-180-006]

### Trunkline Gas Co.; Interim Settlement Rate Compliance Filing

July 10, 1989.

Take notice that Trunkline Gas Company (Trunkline) on 1989, tendered for filing revised tariff sheets to its FERC Gas Tariff Original, Volume No. 1 as listed in the filing.

Trunkline states that this filing is in compliance with the Stipulation and Agreement dated March 21, 1989, as amended June 12, 1989 and certified to the Commission on June 22, 1989.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure [18 CFR 385.214, 385.211 (1988)]. All such protests should be filed on or before July 18, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,  
Secretary.

### Trunkline Gas Co.; Compliance Filing

July 10, 1989.

Take notice that Trunkline Gas Company (Trunkline) on June 30, 1989, tendered for filing the following revised tariff sheet to its FERC Gas Tariff, Original Volume No. 1:

First Substitute Sixty-Ninth Revised Sheet No. 3-A

In addition, Trunkline filed a detailed explanation of its seasonal rate proposal and demand cost allocation with supporting workpapers.

Trunkline states that this filing is in compliance with Ordering Paragraphs (C) and (D) of the Commission's Order dated May 31, 1989.

Trunkline further states that copies of its filing have been served on all parties, jurisdictional customers and appropriate state regulatory agencies.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure [18 CFR 385.214, 385.211 (1988)]. All such protests should be filed on or before July 17, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

### Williams Natural Gas Co.; Proposed Changes in FERC Gas Tariff

July 10, 1989.

Take notice that Williams Natural Gas Company (WNG) on June 30, 1989 tendered for filing the following tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

First Revised Thirteenth Revised Sheet No.

6

First Revised Twelfth Revised Sheet No. 7

A magnetic tape is also being filed in compliance with FERC Form No. 542-PGA.

WNG states that pursuant to the Purchased Gas Adjustment in Article 21 of its FERC Gas Tariff, it proposes to increase its rates effective August 1, 1989, to reflect a \$.0281 per Dth increase in the Cumulative Adjustment, a \$.0002 per Dth increase in transportation fuel rates and a \$.0005 per Dth increase in gathering fuel rates.

WNG states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed

on or before July 17, 1989. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

### ENVIRONMENTAL PROTECTION AGENCY

[FRL-3617-1]

### Sole Source Aquifer Designation for the North Haven Island Aquifer System, Maine

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice.

**SUMMARY:** In response to a petition from the State of Maine, notice is hereby given that the Regional Administrator, Region I, of the U.S. Environmental Protection Agency (EPA) has determined that the North Haven Island Aquifer System satisfies all determination criteria for designation as a sole source aquifer, pursuant to section 1424(e) of the Safe Drinking Water Act. The following findings were made in accordance with the designation criteria: North Haven Island Aquifer System is the principal source of drinking water for the residents of North Haven Island; there are no viable alternative sources of sufficient supply; the boundaries of the designated area and project review area have been reviewed and approved by EPA; and, if contamination were to occur, it would pose a significant public health hazard and a serious financial burden to the State of Maine. As a result of this action, all federal financially assisted projects proposed for construction or modification to take place on North Haven Island will be subject to EPA review to minimize the risk of ground water contamination from these projects.

**DATES:** This determination shall be promulgated for purposes of judicial review at 1:00 p.m. Eastern time two weeks after the date of publication in the Federal Register.

**ADDRESSES:** The data upon which these findings are based are available to the public and may be inspected during

normal business hours at the U.S. Environmental Protection Agency, Region I, JFK Federal Building, Water Management Division, WGP 2113, Boston, MA 02203. The designation petition submitted may also be inspected at the Maine State Planning Office in Augusta, Maine.

**FOR FURTHER INFORMATION CONTACT:** Robert E. Mendoza, Chief of the Ground Water Management Section, EPA Region I, JFK Federal Building, WGP-2113, Boston, MA 02203, 617-565-3600.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Section 1424(e) of the Safe Drinking Water Act (42 U.S.C.) 300f, 300f-3(e), Pub. L. 93-523) states:

If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the Federal Register. After the publication of any such notice, no commitment for federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

On June 3, 1988, EPA received a petition from the State of Maine requesting the designation of the North Haven Island Aquifer System as a sole source aquifer. EPA determined that the petition fully satisfied the Completeness Determination Checklist. A public meeting was then scheduled and held on March 7, 1989, on North Haven Island, Maine, in accordance with all applicable notification and procedural requirements. A one month comment period followed the meeting.

**II. Basis for Determination**

Among the factors considered by the Regional Administrator as part of the detailed review and technical verification process for designating an area under Section 1424(e) were:

(1) Whether the aquifer is the sole or principal source of drinking water for the defined aquifer service area, and that the volume of water from an alternative source is insufficient to replace the petitioned aquifer; (2) whether contamination of the aquifer would cause significant hazard to public health; and (3) whether the boundaries of the aquifer, its recharge area and streamflow source area, the project

designation area, and the project review area are appropriate. On the basis of technical information available to EPA at this time, the Regional Administrator has made the following findings in favor of designating the North Haven Island Aquifer System as a sole source aquifer:

1. The North Haven Island Aquifer System is the principal source (directly or indirectly through recharge to surface water) of drinking water to all of the residents within the service area.
2. There exists no reasonable alternative drinking water source or combination of sources of sufficient quantity to supply the designated service area.
3. EPA has found that the State of Maine has appropriately delineated the boundaries of the aquifer recharge area, project designation area and project review area.
4. Although the quality of the Island's ground water is considered adequate, it is vulnerable to contamination due to the Island's geological characteristics and possible landuse activities. Because of this, contaminants can be rapidly introduced into the aquifer system from many sources with minimal assimilation.

Since the aquifer serves as the principal source of drinking water for the residents, a serious contamination incident could pose a significant public health hazard.

**III. Description of the North Haven Island Aquifer System, Designated Area and Project Review Area**

The North Haven Island Aquifer System is a 10.5 square mile ocean island located in the mid-coastal region of Maine, approximately 10 miles east of Rockport, the nearest mainland town. The aquifer system is comprised of an inter-connected bedrock aquifer. The aquifer material consists of basaltic volcanics known as the North Haven Formation. The Island has relief of 155 feet, with an irregular topographic profile. Some of the residents are served directly by ground water. In addition, a pond on the island serves as the public drinking water supply. This pond is hydrologically connected to the island's aquifer system and a majority of the pond's water supply is derived from ground water. The aquifer is, therefore, the principal source of drinking water for the island.

For the North Haven Island Aquifer System the boundary of the designated area coincides with the boundary of the watershed basin. The watershed boundary is the surface water divide based on topography, which corresponds to the ground water divide. The designated area, project review area and service area are conterminous, encompassing all of North Haven Island.

**IV. Information Utilized in Determination**

The information utilized in this determination includes: the petition submitted to EPA Region I by the State of Maine; a letter of support reflecting public comment. This information is available to the public and may be inspected at the address listed above.

**V. Project Review**

EPA Region I is working with the federal agencies most likely to provide financial assistance to projects in the project review area. Interagency procedures and Memoranda of Understanding have been developed through which EPA will be notified of proposed commitments by federal agencies to projects which could contaminate the North Haven Island Aquifer System. EPA will evaluate such projects and, where necessary, conduct an in-depth review, including soliciting public comments when appropriate. Should the Regional Administrator determine that a project may contaminate the aquifer through its recharge zone so as to create a significant hazard to public health, no commitment for federal financial assistance may be entered into. However, a commitment for federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to ensure that it will not contaminate the aquifer.

Included in the review of any federal financially assisted project will be the coordination with state and local agencies and the project's developers. Their comments will be given full consideration and EPA's review will attempt to complement and support state and local ground water protection measures. Although the project review process cannot be delegated, EPA will rely to the maximum extent possible on any existing or future state and/or local control measures to protect the quality of ground water in the North Haven Island Aquifer System.

**VI. Summary and Discussion of Public Comments**

No comments were received by EPA that opposes the SSA proposal. One letter of support was received. Comment during the public meeting focused upon how designation can afford additional protection of the Island's water resources.

Dated: June 21, 1989.  
 Paul G. Keough,  
*Acting Regional Administrator.*

## FEDERAL MARITIME COMMISSION

### Agreement(s) Filed

The Federal Maritime Commission hereby gives notice that the following agreement(s) has been filed with the Commission pursuant to section 15 of the Shipping Act, 1916, and section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street NW., Room 10325. Interested parties may submit protests or comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the *Federal Register* in which this notice appears. The requirements for comments and protests are found in § 560.7 and/or § 572.603 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Any person filing a comment or protest with the Commission shall, at the same time, deliver a copy of that document to the person filing the agreement at the address shown below.

*Agreement No.: 224-200265*

*Title: Gulf Services, Inc. Shareholders Agreement*

#### Parties:

Cavalair Corporation (Machinery Rentals, Inc. and Biehl and Company)  
 Cooper/T. Smith Stevedoring Company, Inc. (T. Smith & Sons, Inc.)  
 I.T.O. Corporation  
 Kerr Steamship Co., Inc.  
 Strachan Shipping Company  
*Filing Party: John P. Meade, Esq., O'Connor and Hannan, 1919 Pennsylvania Avenue NW., Suite 800, Washington, DC 20006-3483*

*Synopsis:* The proposed Agreement authorizes the parties, each of which owns 20% of the shares of Gulf Services, Inc., to: (1) Establish rates, charges and competitive practices; (2) publish marine terminal tariffs; (3) enter into agreements concerning marine terminal facilities/services, marine terminal conference agreements, and/or stevedoring agreements; (4) own and/or lease and operate cranes, lift machines, trucks

and other equipment; and (5) operate (pursuant to lease, assignment, purchase or asset acquisition) any marine terminal facilities and operations within the Port of Lake Charles or which are owned by any public port commission on the Mississippi River.

By order of the Federal Maritime Commission.

Dated: July 11, 1989.

Joseph C. Polking,

*Secretary.*

[FR Doc. 89-16630 Filed 7-14-89; 8:45 am]

BILLING CODE 6730-01-M

### Filing and Effective Date of Agreement

The Federal Maritime Commission hereby gives notice that on July 6, 1989, the following agreement was filed with the Commission pursuant to section 5, Shipping Act of 1984, and was deemed effective that date to the extent it constitutes an assessment agreement as described in paragraph (d) of section 5, Shipping Act of 1984.

*Agreement No.: 224-000083-004*

*Title: Master Contract Assessment Agreement*

#### Parties

New York Shipping Association, Inc.  
 Carriers Container Council, Inc.  
 Boston Shipping Association, Inc.  
 International Longshoremen's Association, AFL-CIO  
 Atlantic Coast District, ILA, AFL/CIO  
 South Atlantic & Gulf Coast District, ILA AFL-CIO  
 South Atlantic Employers Negotiating Committee Southeast Florida Employers Association  
 Council of North Atlantic Shipping Associations

*Synopsis:* The Agreement provides for an extension of the contract term to November 30, 1990. It also provides for changes in certain work rules as well as a \$0.45 per hour increase in the contribution to fringe benefit plans. The Agreement establishes a committee to study various issues including wages, hours, shift systems and fringe benefit contributions. The Agreement will become effective when local contracts are agreed to in each port or port district but not earlier than October 1, 1989.

By Order of the Federal Maritime Commission.

Dated: July 11, 1989.

Joseph C. Polking,

*Secretary.*

BILLING CODE 6730-01-M

### Cancellation of Inactive Domestic Offshore Tariffs

By notice served May 25, 1989 and published in the *Federal Register* on June 1, 1989, the Federal Maritime Commission notified 71 carriers of its intent to cancel their individual tariffs 30 days thereafter, in the absence of showing of good cause why such tariffs should not be canceled.

The notice was served on the 71 carriers by certified mail on May 25, 1989; and 22 carriers replied to the Notice requesting that their tariffs remain active. Accordingly, the tariffs of the 22 carriers listed in Attachment A that responded to the notice will be retained in the Commission's active files.

It is misleading to the public, potentially unfair to competing carriers, and an unreasonable administrative burden on the Commission's staff for inactive tariffs to remain on file. Accordingly, the tariffs of the 49 carriers listed in Attachment B to this notice that failed to respond to the May 25, 1989 notice will be canceled. It should be noted that certain information items on the attached lists may not apply to a particular carrier and are, therefore, designated not applicable (NA).

Now, therefore it is ordered. That the tariffs of the 49 carriers listed on Attachment B be canceled.

It is further ordered, That a copy of this Notice be sent by certified mail to the last known address of the carriers listed in the attachments to this order.

It is further ordered, That this Notice be published in the *Federal Register*.

This Notice is issued pursuant to the authority delegated to the Director, Bureau of Domestic Regulation by Section 9.04 of Commission Order No. 1 (Revised), dated November 12, 1981.

Bryant L. VanBrakle,  
*Deputy Director, Bureau of Domestic Regulation.*
