[PP 9F3717/R1073; FRL-3740-9]

Isomate-M (Pheromone Dispensers); Exemption from the Requirement of a Tolerance for Quinces**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: This document establishes an exemption from the requirement of a tolerance for residues of the insect pheromone Isomate-M (pheromone dispensers) containing the active ingredients Z-8-dodecen-1-yl acetate, E-8-dodecen-1-yl acetate, and Z-8-dodecen-1-ol in or on the raw agricultural commodity (RAC) quinces. This regulation eliminates the need to establish a maximum permissible level for residues of this "biochemical" pesticide. This request for an exemption from the requirement of a tolerance was made in a petition submitted by John W. Kennedy Consultants, Inc., acting as the registered U.S. agent for Biocontrol, Ltd.,

of Warwick, Queensland 4370, Australia.

DATES: This regulation becomes effective on June 13, 1990.

ADDRESSES: Written objections, identified by the document control number, [PP 9F3717/R1073], may be submitted to: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., Sw., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: By mail: Phil O. Hutton, Product Manager (PM) 17, Registration Division, Environmental Protection Agency, 401 M St., Sw., Washington, DC 20460. Office location and telephone number: Rm. 207, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703)-557-2690.

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the *Federal Register* of May 19, 1989 (54 FR 21664), announcing receipt of pesticide petition (PP) 9F3717 from Biocontrol, Ltd., 143 Palermin St., Warwick, Queensland 4370, Australia (U.S. Agent: John W. Kennedy Consultants, Inc., American Bank Building, Suite 406, Laurel, MD 20707), proposing that 40 CFR 180.1073 be amended to exempt from the requirement of a tolerance Isomate-M

pheromone dispensers when used on quinces and various other RACs.

There were no comments or requests for referral to an advisory committee received in response to the notice of filing.

The data submitted in the petition and other relevant material have been evaluated and discussed in a previous rule exempting Isomate-M from the requirement of a tolerance, appearing in the *Federal Register* of May 30, 1989 (54 FR 22896). The pesticide is useful for the purpose for which the exemption from the requirement of a tolerance is sought. Based on the data and information considered in the final rule of May 30, 1989 (54 FR 22896) and the notice of filing of May 19, 1989 (54 FR 21664), the Agency concludes that the establishment of the exemption from the requirement of a tolerance will protect the public health. Therefore, the final regulation is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this document in the *Federal Register*, file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds

for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).
