The area then continues northeasterly along the breakwater to the southern point of the Main Gap marked by the Breakwater Entrance South Side Light (LLNR 19500); thence north across the Main Gap marked by the Breakwater Entrance North Side Light (LLNR 19495); then follow the outer breakwater to the North Entrance Light Number 1 (LLNR 19510); thence due west to the shoreline of Juneau Park in position 43 degrees 02 minutes 36.8 seconds North, 087 degrees 53 minutes 14 seconds West.

(b) Special local regulations. (1) The above area will be closed to navigation and anchorage, except when expressly authorized by the Coast Guard Patrol Commander, from 9 a.m (CDST) until 5 p.m. (CDST), each day, on 23, 24, 25, and 26 August 1990.

Transiting vessels will be operated at bear steerageway, and will exercise a high degree of caution in the area.

(3) The Patrol Commander may direct the anchoring, mooring, or movement of any boat or vessel within the regulated area. A succession of sharp, short signals by whistle or horn from vessels patrolling the area under the direction of the U.S. Coast Guard Patrol Commander shall serve as a signal to stop. Any vessel so signaled shall stop and shall comply with the orders of the Patrol Commander. Failure to do so may result in expulsion from the area, citation for failure to comply, or both.

(4) The Patrol Commander may establish vessel size and speed limitations and operating conditions.

(5) The Patrol Commander may restrict vessel operation within the regulated area to vessels having particular operating characteristics.

(6) The Patrol Commander may terminate the marine event or the operation of any vessel at any time it is deemed necessary for the protection of life and property.

Training Outside the United States

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: The Department of Veterans Affairs (VA) is clarifying the range of services which may be furnished to a veteran pursuing a vocational rehabilitation program outside the United States and the factors which must be considered in authorizing these services. The effect of the change is to help assure that necessary services are furnished in a manner which is in the veteran's and the government's best interest.

FOR FURTHER INFORMATION CONTACT: Morris Triestman, Rehabilitation Consultant, Vocational Rehabilitation and Education Service (226), Veterans Benefits Administration, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233–6496.

SUPPLEMENTARY INFORMATION: On pages 48645 and 48646 of the **Federal Register** of November 24, 1989, VA published proposed regulations providing that all necessary supportive services including employment services may be provided veterans pursuing a vocational rehabilitation program outside the United States under certain conditions. Interested persons were given 30 days in which to submit their comments, suggestions or objections to the proposed regulatory amendments. Since no comments, suggestions or objections were received these

regulatory amendments are adopted as final.

The regulations contained herein will better acquaint eligible veterans, vocational training and rehabilitation facilities, and the public at large with the way these provisions will be implemented.

These amendments do not meet the criteria for major rules as contained in Executive Order 12291, Federal Regulation. This final rule will not have a $100 million annual effect on the economy, will not cause a major increase in costs or prices, and will not have any other significant adverse effects on the economy.

The Secretary certifies that these regulatory amendments will not, if promulgated, have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA), 5 U.S.C. 601–612. Pursuant to 5 U.S.C. 605(b), this final rule is therefore exempt from the initial and final regulatory flexibility analyses requirements of sections 603 and 604. The reason for this certification is that the rule implements and interprets statutory provisions. This amendment only concerns the eligibility and participation of individual veterans under this program.

[Docket No. 91046-0006]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure; request for comments.

SUMMARY: The Director, Alaska Region, NMFS (Regional Director), has determined that the joint venture flatfish fisheries have attained their allowance of prohibited species catch (PSC) allowance of Pacific halibut (800 metric tons) in the Bering Sea and Aleutian Islands Management Area (BSAI). Therefore, the Secretary of Commerce (Secretary) is prohibiting any further receipt by permitted foreign fishing vessels of groundfish caught from the entire BSAI area that is composed of 20 percent or more yellowfin sole, "other flatfish," and rock sole in the aggregate. This action is necessary to prevent excessive bycatch of Pacific halibut in the trawl fishery for groundfish in an area of particular importance to the Pacific halibut stock. This action is intended to carry out the objective to control the bycatch of prohibited species in the trawl fishery for groundfish.

DATES: This notice is effective from 1200 Alaska Daylight Time, July 1, 1990, through December 31, 1990. Comments will be accepted through July 16, 1990.

ADDRESSES: Comments should be addressed to Steven Pennoyer, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 21668, Juneau, Alaska 99802-1668.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, Resource Management Specialist, NMFS, Alaska Region, P.O. Box 21668, Juneau, Alaska 99802-1668, telephone 907-586-7229.

SUPPLEMENTARY INFORMATION: The Secretary approved, on July 7, 1989, Amendment 12A to the Fishery Management Plan for the Groundfish Fishery in the Bering Sea and Aleutian Islands Area (FMP) under authority of the Magnuson Fishery Conservation and Management Act (Magnuson Act). Amendment 12A was implemented by the Secretary with a final rule published August 9, 1989, (54 FR 32642) and effective September 3, 1989 through December 31, 1990.

The purpose of amendment 12A is to limit incidental catches of the prohibited species Tanner crab *(Chionocetes bairdi)*, red king crab, and Pacific halibut by the groundfish fisheries in the BSAI area. Such incidental catches are referred to as bycatches in fisheries targeting other species. The amendment establishes five PSC limits, each of which are apportioned among four fisheries: the "domestic annual processing (DAP) flatfish fishery," the "DAP other fishery," the "joint venture processing (JVP) flatfish fishery" and the "JVP other fishery."

Each of the 20 PSC allowances prescribed for the 1990 groundfish fisheries appears in the initial specifications notice for 1990 for the BSAI area published on January 16, 1990 (55 FR 1434). The PSC allowances were based on the anticipated bycatch of prohibited species derived by a mathematical prediction procedure, which used statistical information derived from fishery performance in previous years and projected performance for the 1990 fishing year. JVP quotas for species in the "other fisheries" categories were insufficient to allow directed fishing for those species. As a result, at the beginning of the 1990 season, the only JVP directed fisheries allowed were for yellowfin sole and "other flatfish," and PSC allowances for the "other fisheries" were all set at zero. The primary PSC allowance for Pacific halibut in the BSAI area for the JVP flatfish fisheries is 660 metric tons (mt) for Zones 1 and 2H. The secondary PSC allowance for Pacific halibut in the entire BSAI area for the JVP flatfish fishery is 800 mt. Zones 1 and 2H of the BSAI were closed to JVP flatfish fisheries earlier this year (55 FR 3229, January 31, 1990, and 55 FR 7337, March 1, 1990). The entire BSAI was subsequently closed to JVP flatfish fisheries on March 5, 1990, when their secondary halibut allowance was reached (55 FR 8954, March 9, 1990). The area outside of Zones 1 and 2H was reopened to joint venture directed fisheries on June 24, 1990, as published
