Sunshine Act Meetings

Federal Register
Vol. 55, No. 163
Wednesday, August 22, 1990

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL RESERVE SYSTEM BOARD OF GOVERNORS

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 55 FR 33214, August 14, 1990.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: 12:00 noon, Monday, August 20, 1990.

CHANGES IN THE MEETING: Addition of the following closed item(s) to the meeting:

Proposed purchase of currency processing equipment within the Federal Reserve System.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452–3204.

Dated: August 20, 1990.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 90–19926 Filed 8–20–90; 3:13 pm]

BILLING CODE 6210–01–M

FEDERAL ELECTION COMMISSION

[Federal Register No. 90–19448]

PREVIOUSLY ANNOUNCED DATE AND TIME: Thursday, August 23, 1990, 10:00 a.m.

This Meeting Will Be Open to the Public.

The Following Items Were Deleted From the Agenda:

Final Audit Report—Gephardt for President Committee, Inc.

Status of Presidential Audits.

PERSON TO CONTACT FOR INFORMATION: Mr. Fred Eiland, Press Officer, Telephone: (202) 376–3155.

Delores R. Harris,

Administrative Assistant, Office of the Secretariat.

[FR Doc. 90–19925 Filed 8–20–90; 2:31 pm]

BILLING CODE 6715–01–M

NATIONAL MEDIATION BOARD

TIME AND DATE: 2:00 p.m., Wednesday, September 5, 1990.

PLACE: Board Hearing Room 8th Floor, 1425 K Street, NW., Washington, DC.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Ratification of the Board actions taken by notation voting during the month of August 1990.

2. Other priority matters which may come before the Board for which notice will be given at the earliest practicable time.

SUPPLEMENTARY INFORMATION: Copies of the monthly report of the Board's notation voting actions will be available from the Executive Director's office following the meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. William A. Gill, Jr., Executive Director, Tel: (202) 523–5920.

Date of Notice: August 16, 1990.

William A. Gill, Jr.,

Executive Director, National Mediation Board.

[FR Doc. 90–19886 Filed 8–20–90; 1:03 pm]

BILLING CODE 7550–01–M

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

Executive Committee Meeting

DATE AND TIME:

September 6, 1990, 1:00 p.m.–5:00 p.m.;
7:30 p.m.–9:30 p.m.

September 7, 1990, 9:00 a.m.–3:00 p.m.

PLACE: Embassy Suites Hotel, 1250 22nd Street, NW., Washington, DC.

STATUS: Open.

MATTERS TO BE DISCUSSED:

Opening Remarks
Chairman Reid
General Discussion
—Executive Committee, Review of Charge,
NCLIS Budget: FY 1990; 91; 92
Communications
Publications
White House Conference
NCLIS Program Plans
Scope of NCLIS Policy Manual
Commissioner Liaison with Other Organizations/Associations
Working Lunch with Commissioner-Nominee J. Michael Farrell
Review of Dates for 1991 Commission Meetings
Review Draft Committee Agendas and Topics for October 25–26, 1990 Commission Meeting
Unfinished Business
New Business

Special provisions will be made for handicapped individuals by calling Barbara Whiteleather (202) 254–3100, no later than one week in advance of the meeting.

FOR FURTHER INFORMATION CONTACT: Mary Alice Hedge Reszetar, Associate Director, 1111 18th Street, NW., (Suite 301), Washington, DC 20036, (202–254–3100).

Dated: August 17, 1990.

Jane Williams,

Acting Executive Director.

[FR Doc. 90–19907 Filed 8–20–90; 1:04 pm]

BILLING CODE 7527–01–M

Corrections

Federal Register
Vol. 55, No. 163
Wednesday, August 22, 1990

This section of the FEDERAL REGISTER contains editorial corrections of previously published Presidential, Rule, Proposed Rule, and Notice documents. These corrections are prepared by the Office of the Federal Register. Agency prepared corrections are issued as signed documents and appear in the appropriate document categories elsewhere in the issue.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[MT-930-00-4314-11; MTM 41949]

Proposed Continuation of Withdrawal; Montana

Correction

In notice document 90-17817 appearing on page 31242 in the issue of Wednesday, August 1, 1990, make the following corrections:

1. In the second column, under **DATES**, in the last line, the date should read "October 30, 1990".

2. In the same column, under **FOR FURTHER INFORMATION CONTACT**, in the last line, the telephone number should read "406-255-2935".

3. In the third column, in the fifth line, "3,682.23 ft." should read "3,683.23 ft.".

BILLING CODE 1505-01-D

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Quotas for Controlled Substances in Schedules I and II

Correction

In notice document 90-18992 beginning on page 33182 in the issue of Tuesday, August 14, 1990, make the following corrections:

On page 33183, in the first column, in the table, under "Basic class", the fourth and ninth entries should read "Amphetamine" and "Methamphetamine", respectively.

Part II

Department of Housing and Urban Development

Office of the Secretary

Statutorily Mandated Designation of Qualified Census Tracts and Difficult Development Areas for Section 42 of the Internal Revenue Code of 1986 and Solicitation of Comments for the Next Round of Such Designations; Notice

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket number N-90-3124; FR-2851-N-01]

Statutorily Mandated Designation of Qualified Census Tracts and Difficult Development Areas for Section 42 of the Internal Revenue Code of 1986 and Solicitation of Comments for the Next Round of Such Designations

AGENCY: Office of the Secretary, HUD.

ACTION: Notice; solicitation of comments for the next round of such designations.

SUMMARY: This document designates "qualified census tracts" and "difficult development areas" for purposes of the low income housing tax credit under section 42 of the Internal Revenue Code of 1986, and provides the methodology used by the United States Department of Housing and Urban Development (HUD).

DATES: Comments due: October 22, 1990.

ADDRESSES: Interested persons are invited to submit comments regarding this Notice to the Rules Docket Clerk, Office of the General Counsel, room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Communications should refer to the above docket number and title. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address.

As a convenience to commenters, the Rules Docket Clerk will accept brief public comments transmitted by facsimile ("FAX") machine. The telephone number of the Fax receiver is (202) 708–4337. (This is not a toll-free number.) Only public comments of six or fewer total pages will be accepted via FAX transmittal. This limitation is necessary in order to assure reasonable access to the equipment. Comments sent by FAX in excess of six pages will not be accepted. Receipt of FAX transmittals will not be acknowledged, except that the sender may request confirmation of receipt by calling the Rules Docket Clerk (202) 708–2084.

FOR FURTHER INFORMATION CONTACT: Walter T. Cassidy, Acting Senior Tax Attorney, Office of the General Counsel, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 708–1263. A telecommunications device, for deaf persons (TDD) is available at (202) 708–9300. (These are not toll-free telephone numbers.)

SUPPLEMENTARY INFORMATION:

Summary of Low Income Housing Tax Credit

The U.S. Treasury Department and the Internal Revenue Service thereof have the jurisdiction to interpret and enforce the provisions of the Internal Revenue Code of 1986 (the "Code"), including the Low Income Housing Tax Credit (LIHTC) found at section 42 of the Code, as enacted by the Tax Reform Act of 1986 (Pub. L. 99–514), as amended by the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. 100–647), and as amended by the Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101–239). In order to assist in understanding and commenting on HUD's mandated designation of Qualified Census Tracts and Difficult Development Areas for use in administering section 42 of the Code, a summary of section 42 is being provided. The following summary does not purport to bind the Treasury or the IRS in any way, nor does it purport to bind HUD as HUD has no jurisdiction to interpret or administer the Code, except in those instances where it has a specific delegation.

The LIHTC is the latest of a series of tax benefits intended to assist low income housing. The dollar amount of the LIHTC available for allocation by each state (the "credit ceiling") is limited by population. Each state was allowed $1.25 of credit per person for each of 1987, 1988, and 1989, and is allowed $.9375 of credit per person for 1990. A state's credit ceiling is allocated by state and local housing agencies among low income housing buildings applying for the credit.

In general, a building must meet one of two thresholds to be eligible for the LIHTC: Either 20% of units must be rent-restricted and occupied by tenants with incomes no higher than 50% of area median gross income (AMGI), or 40% of units must be rent restricted and occupied by tenants with incomes no higher than 60% of AMGI. The term rent-restricted means that gross rent, including an allowance for utilities, cannot exceed 30% of the tenant's imputed income limitation (*e.g.*, 50% or 60% of AMGI). The rental restrictions remain in effect for at least 15 years, and building owners are required to enter into agreements to maintain the low income character of the building for an additional 15 years.

Low income housing buildings that are not federally subsidized receive substantially greater benefit under the credit program than buildings that are federally subsidized (i.e., that receive tax-exempt bond financing or below market rate Federal loans). Non-federally subsidized buildings receive a tax credit with a present value equal to 70% of each building's qualified basis (determined as of the end of the first year of the credit period), spread out over a 10 year period. Federally subsidized buildings receive a tax credit with a present value equal to 30% of the qualified basis (determined as of the end of the first year of the credit period), spread out over a 10 year period.

Low income targeting is achieved by requiring that credit amounts be referenced to a building's qualified basis. Qualified basis is determined by multiplying the ratio of total low income units to total units (or, if less, the ratio of floor space of total low income units to total floor space) by the building's eligible basis. Eligible basis is ordinarily the same as the adjusted basis used for purposes of depreciation. However, in the case of buildings located in designated qualified census tracts or designated difficult development areas, eligible basis is increased to 130% of what it would otherwise be. This means that the available credit will also be increased 30%; if the 70% credit is available, it will effectively be increased to 91%.

Under section 42(d)(5)(C) of the Code, a qualified census tract is any census tract in which at least 50% of households have an income less than 60% of AMGI. However, there is a limit on the amount of qualified census tracts in any metropolitan statistical area (MSA) that may be designated to receive an increase in eligible basis: All of the designated census tracts within a given MSA may not together contain more than 20% of the total population of the MSA. For purposes of this rule, all nonmetropolitan areas in a state are treated as if they constituted a single MSA.

Section 42 defines a difficult development area as any area designated by the Secretary of HUD as an area which has high construction, land, and utility costs relative to AMGI. Again, limits apply. All designated areas in MSAs, and all designated areas not in MSAs may not contain more than 20% of the aggregate population of the counties in which they are located.

Explanation of HUD Designation Methodology

A. Qualified Census Tracts

In developing the LIHTC list of Qualified Census Tracts, HUD used 1980 Census data and the current metropolitan area definitions established by the Office of Management and Budget. Census tract data are generally available for entire

metropolitan areas. The exceptions are those areas that were designated as new metropolitan areas, or were added to existing metropolitan areas, after the 1980 Census. Only a limited part of the nonmetropolitan area of the U.S. has census tract delineations.

The LIHTC Qualified Census Tracts were determined as follows:

1. A census tract must have 50 percent of its households with incomes below 60 percent of the AMGI to be eligible. HUD has defined 60 percent of AMGI income as 120 percent of HUD's Very Low Income Limits, which are based on 50 percent of area median family income, adjusted for high cost and low income areas. The 1990 income estimates were then deflated to 1979 dollars, so they would match the 1980 Census income data.

2. For each census tract, the percentage of households below the 60 percent income standard was determined by (a) calculating the average household size of the census tract, (b) applying the income standard after adjusting it to match the average household size, and (c) calculating the number of households with incomes below the income standard.

3. Qualified Census Tracts are those in which 50 percent or more of the households are income eligible and the population of all census tracts that satisfy this criterion does not exceed 20 percent of the total population of the respective area.

4. In areas where more than 20 percent of the population qualifies, census tracts are ordered from the highest percentage of eligible households to the lowest. Starting with the highest percentage, census tracts are included until the 20 percent limit is exceeded. If a census tract is excluded because it raises the percentage above 20 percent, then subsequent census tracts are considered to determine if a census tract with a smaller population could be included without exceeding the 20 percent limit.

B. Difficult Development Areas

In developing the list of Difficult Development Areas, HUD compared incomes with housing costs. The basis for these comparisons was the HUD income limits and Fair Market Rents (FMRs) used for the Section 8 Existing Housing Program. The procedure used in making these calculations follows:

1. For each metropolitan area and each nonmetropolitan county, a ratio was calculated. This calculation used the two-bedroom FMR and the four-person income limit for Very Low Income households. The numerator of the ratio was the ratio of the area FMR to the US average FMR. The denominator of the ratio was the ratio of 60% of the AMGI to the US average of 60% median gross incomes.

2. The ratios of the FMR to the income limit were arrayed in descending order, separately, for metropolitan areas and for nonmetropolitan counties.

3. The Difficult Development Areas are those areas with the highest ratios cumulative to 20 percent of the population of all metropolitan areas and of all nonmetropolitan counties.

4. The American Housing Survey data used to calculate the FMRs for New York City were adjusted by eliminating rent-controlled units. The FMRs were recalculated on the basis of the adjusted data. Because FMRs are based on recent mover rents, the FMRs generally reflect market rents rather than rent-controlled rents. In this case the adjustment had no impact on the FMR.

5. The 20 percent of population limit for metropolitan areas resulted in including only two counties in the New York, New York primary metropolitan statistical area. Based on application of the above criteria, substituting 1980 Census data on median rents for FMRs and 1980 Census data on median income for more recent estimates, Bronx and New York Counties were included.

C. Application of Caps to Qualified Census Tract and Difficult Development Area Determinations

In identifying qualified census tracts and difficult development areas, HUD applied various caps, or limitations, as noted above. For qualified census tracts, section 42(d)(5)(C)(ii)(II) of the Code specifies that the population of eligible census tracts within a metropolitan area cannot exceed 20 percent of the population of that metropolitan area. Similarly, for census tracts located outside metropolitan areas, the population of eligible census tracts cannot exceed 20 percent of the population of the nonmetropolitan census tracts in a State. The population of metropolitan difficult development areas cannot exceed 20 percent of the population of all metropolitan areas and the population of nonmetropolitan difficult development areas cannot exceed 20 percent of the population of all nonmetropolitan areas.

In applying these caps, HUD established procedures to deal with two issues: (1) How to proceed when the next logical choice for inclusion causes the cumulative area population to exceed the cap, and (2) how to treat small overruns of the caps. The remainder of this section explains the procedures.

1. Next choice causes cumulative population to exceed the cap.

(a) *Difficult development metropolitan areas.* When metropolitan areas were ranked to choose difficult development areas, the first 46 designated resulted in a cumulative population of 18.8 percent of all metropolitan areas. The next metropolitan area on the ranking was New York. Including the entire New York metropolitan area would have raised the cumulative population percentage to 23.6, a significant overrun of the cap. Because of New York's size, it was possible to divide the metropolitan area into its constituent counties, each of which has a population comparable or larger than many of the other metropolitan areas being ranked—the counties are New York (Manhattan), Bronx, Queens, Kings (Brooklyn), Richmond (Staten Island), Westchester, Putnam and Rockland. It was so divided, each county was ranked on the basis of data from the 1980 census, and the two top ranking counties were able to be included in the designation.

(b) *Qualified census tracts.* In applying the 20 percent cap to qualified census tracts, HUD did not attempt to break a borderline census tract into smaller areas. Instead HUD looked tract-by-tract down the ranking beyond the excluded tract to see if a smaller tract could be included without exceeding the cap. The approach to qualified census tracts differs from the treatment of difficult development metropolitan areas because of an important difference in how caps affect each of them. Section 42(d)(5)(C)(ii)(II) of the Code sets a simple test for eligibility for qualified census tracts. If a tract's low income population exceeds 50 percent of its total population, then the tract is eligible unless it becomes necessary to eliminate the tract to satisfy the cap. There are many metropolitan areas and States in which the population of eligible areas falls short of 20 percent. When HUD had to eliminate tracts to satisfy the 20 percent cap, it was choosing among tracts which were otherwise eligible. By comparison, section 42(d)(5)(C) does not specify under what conditions an area is automatically a difficult development area. HUD did not attempt to establish a threshold for eligibility. Instead HUD used the 20 percent cap as a limit on eligibility.

2. For both qualified census tracts and difficult development areas, HUD applied the caps strictly unless a strict application produced an anomalous result. Specifically, HUD stopped selecting areas when it was impossible to choose another area without

exceeding the applicable cap. The only exception to this policy was when an excluded area contained either a large absolute population or a large percentage of the total population and its inclusion resulted in only a minor overrun of the cap. This exception only applied in two cases.

(a) *Alaska.* Only two nonmetropolitan census tracts in Alaska were eligible and together they contained 20.7 percent of all nonmetropolitan tract population. Excluding the tract determined by the method described under item (1) above would have reduced the ratio of eligible tract population to all nonmetropolitan tract population to 9.9 percent. Because of the radical shift in percentage of population, HUD included both tracts.

(b) *New York.* When HUD applied the cap to the counties in the New York metropolitan area as described in (1), the highest ranking area was the Bronx, raising the cumulative percent to 19.5. Next highest ranking was New York County (Manhattan). The inclusion of New York County raised the cumulative population to 20.3 percent of the population of all metropolitan areas. While its inclusion raised the cumulative percent to 20.3, its exclusion would deny the difficult development designation to an area containing over 1,400,000 people, a population larger than 37 of the 46 other designated metropolitan areas. Adding the next highest ranking county would have raised the cumulative percentage to 21.6 percent, an unacceptable overrun of the cap.

(c) *Measurement error.* Designations of New York County and the Alaska tract were not determined simply on the basis that the amount by which the cap would be exceeded would be *de minimis.* There were other cases where the inclusion of an area would result in a *de minimis* overrun of the cap; but, in all of these cases, the exclusion of the area resulted in neither a large absolute loss of population nor a large short-fall below 20 percent. HUD believes the designation of these areas is consistent with the intent of the legislation. Some latitude is justifiable because it is impossible to really determine whether the 20 percent cap has been exceeded, as long as the apparent excess is small, due to measurement error. Despite the care and effort involved in a decennial census, it is recognized by the Census Bureau, and all users of the data, that the population counts for a given area and for the entire country are not precise. The extent of the measurement error is unknown. Thus, there can be errors in both the numerator and denominator of the ratio of populations used in applying a 20 percent cap. In circumstances where a strict application of a 20 percent cap results in an anomalous situation, recognition of the unavoidable imprecision in the census data justifies accepting small variances above the 20 percent limit.

Use of Comments

Public comments, submitted as provided above in this Notice, will be considered in connection with the next round of designations of "qualified census tracts" and "difficult development areas." Such designations are anticipated to take place next year in order to take the comments into account at the earliest reasonable opportunity.

Other Matters

A finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection between 7:30 a.m. and 5:30 p.m. weekdays in the Office of the Rules Docket Clerk at the above address.

This notice does not constitute a "major rule" as that term is defined in section 1(d) of the Executive order on Federal Regulations issued by the President on February 17, 1981. An analysis of the rule indicates that it does not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

In accordance with 5 U.S.C. 605(b) (the Regulatory Flexibility Act), the undersigned hereby certifies that this notice does not have a significant economic impact on a substantial number of small entities. The notice involves the designation of "difficult development areas" and "qualified census tracts" as required by section 42 of the Internal Revenue Code of 1986 (the "Code"), as amended, which designates areas and tracts for use by political subdivisions of the States in allocating the Low Income Housing Tax Credit under section 42 of the Code. This notice places no new requirements on the States, their political subdivisions, or the applicants for the credit. This notice also details the technical methodology used in making such designations.

Executive Order 12612, Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, Federalism, has determined that the policies contained in this notice will not have substantial direct effects on States or their political subdivisions, or the relationship between the Federal government and the States, or on the distribution of power and responsibilities among the various levels of government. As a result, the notice is not subject to review under the order. The notice merely designates "difficult development areas" and "qualified census tracts" as required under section 42 of the Internal Revenue Code of 1986 (the "Code"), as amended, which designated areas and tracts are for the use by political subdivisions of the States in allocating the Low Income Housing Tax Credit under section 42 of the Code. The notice also details the technical methodology used in making such designations.

Executive Order 12606, The Family

The General Counsel, as the Designated Official under Executive Order 12606, The Family, has determined that this notice does not have potential for significant impact on family formation, maintenance, and general well-being, and, thus, is not subject to review under the Order. The notice involves the designation of "difficult development area" and "qualified census tracts" as required by section 42 of the Internal Revenue Code of 1986 (the "Code"), as amended, which designated areas and tracts are for use by political subdivisions of the States in allocating the Low Income Housing Tax Credit under section 42 of the Code. The notice also details the technical methodology used in making such designations.

Dated: August 15, 1990.

Jack Kemp,

Secretary.

Commercial Driver Instruction Permits; Notice of Proposed Rulemaking

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

49 CFR Part 383

[FHWA Docket No. MC-90-10]

RIN 2125-AC54

Commercial Driver Instruction Permits

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); request for comments.

SUMMARY: The FHWA is proposing additional minimum Federal standards for State-issued learners' permits that allow drivers to be trained in the operation of commercial motor vehicles (CMVs). Applicants for Commercial Driver Instruction Permits (CDIPs) would need to possess drivers' licenses and undergo record checks analogous to those now required for commercial drivers' licenses (CDLs). CDIP transactions would be entered in the Commercial Driver's License Information System (CDLIS), and CDIP holders would be explicitly subject to the same disqualifications as CDL holders. Since driver training is nationwide in scope, a State would be able to issue a CDIP to a driver trainee, or a 60-day CDL to a trained driver, without regard to his/her State of domicile.

DATES: Comments must be received on or before October 22, 1990.

ADDRESSES: Submit written, signed comments to FHWA Docket No. MC-90-10, room 4232, HCC-10, Office of the Chief Counsel, Federal Highway Administration, 400 Seventh Street SW., Washington, DC 20590. All answers to questions should refer to the appropriate question number, and all comments on specific provisions should refer to the appropriate section and paragraph number. Commenters may, in addition to submitting "hard copies" of their comments, submit a floppy disk (either 1.2Mb or 360Kb density) in a format that is compatible with the Word Perfect word processing program. All comments received will be available for examination at the above address from 8:30 a.m. to 3:30 p.m., e.t., Monday through Friday, except legal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped postcard.

FOR FURTHER INFORMATION CONTACT: Mr. Neil E. Moyer, Standards Review Division, Office of Motor Carrier Standards (202) 366-4009, or Mr. Paul L. Brennan, Office of the Chief Counsel, (202) 366-0834, Federal Highway Administration, 400 Seventh Street SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday, except legal holidays.

SUPPLEMENTARY INFORMATION: After April 1, 1992, regulations in 49 CFR part 383 implementing the Commercial Motor Vehicle Safety Act of 1986 (CMVSA), 49 U.S.C. App. 2707, prohibit any person from operating a CMV who does not possess a CDL issued by his or her State of domicile. This prohibition has two important impacts on driver training activities:

(1) Behind-the-wheel experience under actual operating conditions on public roads and highways—critical to effective driver training—would be impeded. The prohibition against operating a CMV without a CDL would prevent would-be CMV drivers from training on the road. Although 49 CFR part 383 currently allows States to issue CDL "learners' permits" for on-road instructional purposes, it fails to specify the status of and minimum standards for such permits.

(2) If a driver moves temporarily to another State to undergo driver training, he or she cannot obtain either a learner's permit or a CDL from the State in which the training occurs because of the domicile requirements of 49 CFR part 383. Without a CDL in hand, the driver would be unable to operate a CMV in commerce immediately upon the completion of training, thus placing an economic burden on both the driver and any sponsoring carrier.

This proposal would modify the CDL regulations to resolve both of these issues.

Commercial Driver Instruction Permits

Concerns Resulting From the Existing Regulation (49 CFR Section 383.23(c))

Several motor carriers, States, individuals, and training organizations, as well as the FHWA, have identified concerns related to existing provisions in 49 CFR 383.23(c). These concerns are addressed in this proposal and summarized as follows:

Availability. The regulation does not not require all States to make learners' permits available to prospective CDL applicants. Thus, a person domiciled in a State without a CMV learner's permit program might be denied training and career opportunities in CMV driving.

Time periods. The regulation does not define the time period for which learners' permits are valid and does not state whether and for how long renewals would be permitted.

Use. The regulation does not address the licensing status of the permitted driver and whether the training for which the learner's permit is used could occur in the course of revenue transportation in interstate commerce.

Chaperonage. While requiring a learner's permit holder to be accompanied by the holder of a valid CDL, the regulation does not indicate under what circumstances, if any, this may include remote radio or video contact.

Docket Comments on Learner's Permits

From the public comments received by the FHWA in support of its CDL testing and licensing rules (Docket No. MC-87-18), no consensus emerged on the proper treatment of learners' permits. Of the 51 comments on this topic, approximately half supported the continuation of existing State programs for commercial driver learners' permits, while half believed that Federal standards should be set for the States. Importantly, the American Association of Motor Vehicle Administrators (AAMVA)—representing officials charged with implementing the CDL program, including any learner's permit provisions—expressed the following viewpoint, for which it claimed support from 46 States:

> AAMVA supports the FHWA proposal for learner permits, with modifications. An individual operating a commercial vehicle with a learner permit should be subject to the same standards as licensed drivers. AAMVA recommends that applicants for learner permits satisfy CDL provisions including proper identification, and passing written and medical exams, and that the record be added to the CDL Information System. Driver disqualifications and sanctions should also apply to permit holders.

The FHWA concluded that the testing and licensing regulation adequately addressed, albeit by implication, such learner's permits issues as CDLIS entry, and did not explicitly incorporate the AAMVA recommendations in its July 1988 final rule. However, in light of the numerous questions the FHWA has received, the AAMVA proposals are largely incorporated in this NPRM.

Analysis of Proposed Rule

This proposal responds both to the ambiguity of the CMV learner's permit as contained in the existing § 383.23(c), and to the inconsistency between nationwide training needs and the domicile requirements of part 383. For purposes of compliance with the CMVSA, this NPRM does not require a State to issue CDIPs. However, the NPRM would treat CDIPs as though they were CDLs in many respects. Exhibit 1 summarizes the major provisions of this

proposal. A detailed section-by-section analysis follows.

Section 383.5 Definitions

The FHWA proposes to add two definitions: "Commercial Driver Instruction Permit (CDIP)" and "Driver."

The proposed definition of "CDIP" would ensure that a CDIP is a document issued by a State to an individual according to the standards, and subject to the conditions, included in part 383. The definition makes clear that the FHWA envisions the CDIP as serving two purposes: first, to enable a person with insufficient CMV experience to gain the training and experience necessary to qualify for his/her first CDL; and second, to enable a CDL holder to obtain behind-the-wheel training in a higher class of vehicle or a vehicle requiring a CDL endorsement, in preparation for an application for a CDL upgrade under § 383.71(d). In both instances, the conditions for use of the CDIP—chaperonage by a CDL holder, for instance—would be the same.

The specific intention of adding a definition of "driver" is to clarify that all persons who operate CMVs for any purpose, including CDIP holders, are considered to be "drivers" and are subject to the disqualifications of § 383.51 and the penalties of § 383.53.

EXHIBIT 1.—Summary of Major Proposals in CDIP NPRM

Provision	Section(s)
The NPRM on CDIPs proposes to:	
(1) Formalize the CDIP document as the learner's permit for CMV driver trainees.	383.23(b).
(2) Accord CDIP holders the privilege of "accompanied behind-the-wheel training" without explicitly restricting the geographic and functional scope of such training.	383.23(b).
(3) Allow a State to issue CDIPs to in-State trainees regardless of their State of domicile.	383.23(b)(1).
(4) Set minimum requirements for chaperonage, but allow substitution of remote electronic contact between instructor and trainee under controlled conditions.	383.23(b) (2) and (3).
(5) Require a State to accord reciprocity to CDIPs issued in other States (as is already the case for CDLs).	383.23(b)(5).
(6) Allow learners' permits issued under § 383.23(c) (as codified prior to the effective date of this amendment) to remain valid until no later than September 30, 1993.	383.23(c).
(7) Allow a State to issue 60-day CDLs to in-State trainees domiciled elsewhere.	383.23(d)(2).
(8) Require CDIP applicants to hold an underlying driver's license.	383.71(g)(1).
(9) Require a State to check CDIP applicants with the CDLIS, and to inform the CDIS of most CDIP transactions.	383.73(j) (1) and (4).
(10) Explicitly subject CDIP holders to all CMV disqualifications and require States to warn them of same.	383.5; 383.73(j)(1)(v).
(11) Allow a State to give CDL knowledge and skills tests to a resident of another State, and allow the State of domicile to accept out-of-State test results, without formal interstate agreements.	383.76.
(12) Prescribe the contents of the DCIP document.	383.57.

EXHIBIT 1.—Summary of Major Proposals in CDIP NPRM—Continued

Section 383.23 Commercial Driver's License

Paragraph 383.23(b) would be revised to introduce the Commercial Driver Instruction Permit (CDIP) and to delineate the privileges it would confer, the limitations to which its holders would be subject, and the conditions under which a State could issue CDIPs to trainees domiciled in other States. In all CDIP issuance transactions, applicants and States would follow analogous procedures to those for CDLs in §§ 383.71 and 383.73.

In general, after April 1, 1992, a CDIP could be required for all behind-the-wheel training in CMVs on public roads and highways when a person:

(1) Holds no CDL; or

(2) Holds a CDL qualifying the holder to operate only a lower vehicle group than the vehicle the holder wishes to operate; or

(3) Holds a CDL without the necessary endorsements for the vehicle the holder wishes to operate.

In conjunction with a valid driver's license, a CDIP would allow accompanied behind-the-wheel training in CMVs under specified conditions, but without any limits on the functional or geographic scope of such training or on the types of vehicles driven by CDIP holders. The FHWA recognizes that many public and private entities regularly use accompanied trainees in vehicles transporting passengers and property. The CDIP will allow continuation of this practice and provide "behind-the-wheel" experience for CDIP trainees. For the same reason, the NPRM *per se* would not prohibit trainees from crossing State lines except when video and/or audio communication between the trainee and accompanying driver is substituted for a chaperone's physical presence in the training vehicle.

Although a State could recognize a CDIP (with underlying license) as a "currently valid commercial motor vehicle operator's license" under § 391.11(b)(7), a CDIP holder undergoing accompanied behind-the-wheel training in a commercial motor vehicle in interstate commerce would have to meet all other qualification requirements of part 391. (For this purpose, proposed § 383.71(g)(7) imposes the same certification requirement on CDIP as on CDL applicants.) Thus, the FHWA believes that this proposal, coupled with current regulations, would sufficiently safeguard against abuses, even though CDIP holders would not be restricted to intrastate or nonrevenue movements.

Question 1: Should CDIP holders be prohibited from engaging in interstate commerce, or from conducting any revenue transportation of passengers and property incidental to their training? What statistical and other cost/benefit data is available to support this response?

Question 2: The NPRM would allow the use of CDIPs in all types of vehicles, including those requiring the CDL endorsements specified in § 383.93. Should the range of vehicles in which CDIPs are valid be limited? If so, why? What limitations are needed, and what would be the effects of those limitations on the affected sectors of the transportation industry?

Under paragraph 383.23(b)(1), a State would be able to issue CDIPs either to its residents or to persons enrolled in a CMV driver training program in the State that is "formally recognized" by the State according to its own standards for such programs. The recognition would, however, be "formal" in that the FHWA would expect the State driver licensing agency to possess an authorized list of such programs.

Paragraph 383.23(b)(2) would clarify the chaperonage requirements for CDIP holders, i.e., the accompanying driver's CDL would match the vehicle group and endorsement requirement(s) for the training vehicle.

Paragraph 383.23(b)(3) (limited exception to in-vehicle chaperonage requirement) would establish conditions under which the CDIP holder would *not* need to be physically accompanied by a CDL holder. This exception is based on provisions included by several States in their CDL statutes, which FHWA's

current CMV learner's permit rules would not allow. The Fox Valley Technical College in Appleton, Wisconsin and other driver training schools claim that the absence of such an exception may strain the resources of public vocational education programs for CMV operators. Responding to these concerns, this proposal would allow, at a State's option, substitution of electronic communication for the in-vehicle chaperone under strictly controlled conditions.

To qualify for this limited exception to the in-vehicle chaperonage requirement, the CDIP holder would first pass all CDL knowledge tests required for the training vehicle; the training program performing the substitution would be "formally recognized" by the State (as under paragraph (b)(1)); training trips would be wholly within the State authorizing the substitution, and within the radius of uninterrupted electronic communication; the trips would be solely for training purposes, with no incidental purpose to transport passengers or property; and the training would not occur in a vehicle necessitating a CDL endorsement for double/triple trailers, tank vehicles, or hazardous materials.

Question 3: Does the FHWA's proposed § 383.23(b)(3) strike an appropriate balance between the needs of publicly funded driver training programs and safety considerations? If not, should the substitution of electronic communication for the CDL holder's presence in the training vehicle be dropped, or should the conditions be modified? How?

Paragraph 383.23(b)(4) would require a State to accept valid out-of-State CDIPs for purposes of training in the State. This reciprocity provision would become effective only on October 1, 1993, because "CDIPs" issued under present learner's permit rules may continue to be valid until that date (see analysis of § 383.23(b)(7) below).

Question 4: Should the proposed requirement for reciprocal State recognition of CDIPs be deleted? Why?

Question 5: Should all States be required to issue CDIPs? Why? If so, should the requirement extend only to persons domiciled in the State, or should a State be required to issue CDIPs to trainees who are domiciled elsewhere under the provisions of proposed § 383.23(b)(1)?

Paragraph 383.23(b)(5) would define the "limited time periods" for which a State may issue CDIPs. Initial CDIP issuances would be for periods not to exceed one year; renewals would be for no more than six months. Although the FHWA would prefer to leave this matter to State determination, the current lack of a definition of "limited time periods" has led at least one State to propose a four-year term for its CMV learners' permits—clearly an excessive period. Furthermore, a cap on initial issuance and renewal periods would help to prevent the CDIP from being used in place of a CDL. The specific cap proposed would allow a State far more discretion than would the provisions of the Model Law of the American Association of Motor Vehicle Administrators (AAMVA), section 8(d) of which posits a six-month maximum for initial and renewal issuances with no more than one renewal or re-issuance within a two-year period.

Question 6: Should the FHWA omit or change the proposed cap on the "limited time periods" for CDIP issuance and renewal? Why?

Paragraph 383.23(b)(6) would forbid issuance of a CDIP to, or retention of a CDIP by, a person who holds more than one driver's license or whose driver's license or privilege is subject to any adverse action, including but not limited to adverse actions based on convictions for the disqualifying offenses in § 383.51. Since the CDIP confers a type of commercial driving privilege, a person whose driving record would make him or her ineligible to obtain a CDL should also be ineligible to obtain or hold a CDIP.

Under § 383.23(c) of this proposal, leaners' permits issued under existing provisions could continue to be valid through September 30, 1993. This would allow sufficient time for States to revise their learner's permit provisions to reflect the new CDIP requirements.

The AAMVA Model Law adopted the "CDIP" terminology for learners' permits issued under the current regulations, and several States followed suit. So as not to invalidate those CDIPs, this NPRM would allow, before October 1, 1993, the use of "Commercial Driver Instruction Permit" or "CDIP" designations on documents that are not issued under the terms of this NPRM.

Question 7: What other date, if any, would be more appropriate than September 30, 1993 as the outer limit of validity for learners' permits issued under the existing rules, and for the imposition of CDIP reciprocity? Why?

Paragraph 383.23(d), "Exceptions to domicile requirement," would establish the conditions under which a CMV operator could obtain a CDL from a State other than his/her State of domicile. It includes the exception for foreign drivers already included in the regulations, and would add new provisions in §383.23(d)(2) to allow issuance of a 60-day CDL to a person who has completed a recognized CMV driver training program in, and holds a CDIP from, the State, regardless of his/her State of domicile. This provision would allow a person who completes a driver training program outside his/her home State to obtain a CDL from the State of training and immediately embark on a commercial driving career. To ensure that use of this option is restricted to its narrowly focused training objectives, the proposal would require the State to obtain corroborating evidence of completion of a course of CMV driver training both from the applicant and directly from the recognized training provider. Such a 60-day CDL could, of course, be issued only if the State of training and the applicant meet all the standards of part 383 for CDL testing and licensing. The 60-day CDL would be nonrenewable and would carry the home-state address of the driver. Also, the State of training would obtain the driver's current address, as well as information on his/her employer, if any, and on the recognized training school where the course was completed. This additional information would provide the State of training with at least some means of contacting the driver between the time he/she obtains the 60-day CDL and the time he/she returns to the State of domicile.

Although the proposal would not require States to issue 60-day CDLs, the FHWA believes that States in which significant driver training programs are located would be willing to accommodate the training providers in this manner. This provision is authorized by section 12005(b)(2) of the Commercial Motor Vehicle Safety Act of 1986, which empowers the Secretary to allow persons who have passed CDL tests to drive for up to 90 days without possessing a CDL from the State of domicile. FHWA is proposing a 60-day limitation in order to give drivers and employers an incentive to promptly complete the conversion to a home-State CDL.

Question 8: The 60-day CDL proposal would represent a limited exception to the driver domicile requirements of part 383. Would the likely benefits for nationwide driver training programs, trainees, and the motor carrier industry justify this exception and any costs it might entail for the States? If not, what modifications to this proposal or new options would respondents suggest? Respondents are urged to be as specific as possible in their identification, estimation, and/or evaluation of the costs and benefits of the proposed § 383.23(d)(2).

Question 9: Should the address shown on the 60-day CDL be the permanent

address of the person in his/her State of domicile? Should the additional information proposed for the application (driver's local address; name and address of current employer and training school) be required? If not, why not? What other information should be required on the application and/or 60-day CDL?

Question 10: Should the "corroborating evidence" of completion of a driver training program be required as proposed, or do respondents view the evidence both from the applicant and from the school as redundant? What changes would respondents recommend?

Question 11: Should all States be required to issue 60-day CDLs? Why?

Section 383.71 Driver Application Procedures

This section specifies the procedures and requirements for which drivers are responsible in CDL licensing transactions. The proposed addition would establish provisions for CDIP applicants, as follows:

Paragraph 383.71(g)(1). The existing rule for CMV learners' permits allows a non-driver to obtain behind-the-wheel training in a CMV, and to obtain a CDL as his or her first driver's license. However, because the number of persons applying for a CDL before obtaining an automobile driver's license is expected to be minimal, and because the FHWA believes that the risk of errors in driving judgement is inherently greater among persons with no driving experience than among those who can at least drive an automobile, the FHWA proposes to require CDIP applicants to be licensed drivers.

Paragraphs 383.71(g) (2) and (3). A CDIP applicant would provide the State with the same identifying information as is required for CDL applicants. He/she would be required to certify that there are no adverse actions against his/her license, and that he/she does not hold multiple licenses.

Paragraph 383.71(g)(4), requiring a CDIP holder to surrender the CDIP when applying for a new CDIP, provides for cases in which a CDIP holder leaves one State of training for another. By means of this paragraph, its analogue in § 383.73(j)(1)(iv), and the requirement that CDIPs be entered in the CDIS, the proposal would strictly forbid multiple CDIPs.

Paragraph 383.71(g)(5) sets forth additional requirements for a driver applying for a CDIP from a State of training outside his/her home State. Evidence of training, and a local address, would be required to ensure that the applicant is actually being trained and that the State has some way to reach the driver applicant in case of problems, or in situations necessitating confiscation of the CDIP.

Question 12. Would the benefit of having the local address of the trainee in such instances outweigh the recordkeeping costs to the State for what is by definition transient data? Are there other options for assuring that the State of training can reach the trainee and confiscate the CDIP?

Paragraph 383.71(g)(6) excuses CDIP applicants who already hold CDLs from certain procedures as determined by the State under Section 383.73(j)(3).

Paragraph 383.71(g)(7) is intended to assure, by a certification analogous to that imposed on CDL applicants, that CDIP holders who undergo training in the course of interstate commerce meet all qualification requirements of 49 CFR part 391.

Section 383.73 State Procedures

Paragraph 383.73(j)(1) specifies State procedures for processing CDIP applications. Paragraphs 383.73(j)(1) (i), (ii), and (iv) would require that the State complete the driver application procedures described in proposed § 383.71(g). Paragraph 383.73(j)(1)(iii) would introduce State checks of a CDIP applicant's driving record, the CDLIS, and the National Driver Register (NDR). These checks, identical to those prerequisite to CDLs, would help to assure the quality of CDIP applicants and reduce the risks attendant on their behind-the-wheel training. To issue CDIPs, a State would need a connection with the CDLIS that is "fully operational" as jointly determined by the CDLIS Administrator and the General Manager of AAMVAnet, Inc.

Paragraph 383.73(j)(1)(v) would require the State to make absolutely explicit for CDIP applicants what is already contained in the FHWA's regulations: learner's permit holders are fully subject to the same implied consent rules, and disqualifications, as all CMV operators.

Paragraph 383.73(j)(2) proposes special State procedures for CDIP applicants who are in training away from their home States. Since the CDIP issued under these circumstances is a departure from the principle that commercial driving privileges are to be extended only by the State of domicile, the FHWA believes that additional controls must be in place to ensure that applicants meet the requirements for out-of-State CDIPs. Thus, the State of training would have to verify that the applicant's training program qualifies him/her for this procedure; this "verification" could be a simple comparison of the name and location of the school against a State-prepared list of recognized programs. Similarly, the State would need to obtain corroborating evidence of enrollment in a qualifying program, both from the applicant and directly from the training school itself. Finally, since the State is conferring a limited commercial driving privilege on a transient resident, the State needs his/her current address, and that of the school, so as to be able to reach the person if problems arise or if the CDIP must be confiscated.

Question 13: Should the FHWA require a State that issues CDIPs and/or 60-day CDLs to residents of other States, to retain for a minimum period of time all records and information collected from or on such persons under §§ 383.73 and 383.157? For what time period, and why? Should States be required to make such information available to the FHWA?

Under § 383.73(j)(3), a State could omit certain CDIP application procedures for applicants who already hold a CDL from the State but who seek a CDIP allowing them to obtain behind-the-wheel instruction to prepare for a CDL vehicle group upgrade and/or endorsement testing.

Paragraph 383.73(j)(4) would allow the State to issue a CDIP after all required application procedures are completed. Within ten days of any such issuance or renewal, the State would need to make appropriate notifications of the transaction to the operator of the CDLIS. If the driver holds no CDL, then the State issuing the CDIP must inform the CDLIS of the transaction. If, on the other hand, the driver already holds a CDL, then no CDLIS notification would be required since the driver is already recorded in the CDLIS.

Similarly, if the State issuing the CDIP is the driver's State of licensure, then the State will presumably add CDIP information to the driver's record and no other State need be directly notified. If, however, the driver obtains the CDIP from a State other than his/her State of licensure, then the State of CDIP issuance must notify the State of licensure accordingly so that the driver's record in the State of licensure may reflect the existence, and State of issuance, of the CDIP. (Exhibit 2 illustrates these notification requirements.)

Question 14: One option for eliminating the interstate notifications envisioned in paragraph (j)(4), and the notifications of adverse actions in paragraph (j)(6) below, would be to have an applicant for a CDIP from other than the State of domicile surrender his/her

home State driver's license and obtain a new license from the State issuing the CDIP. Would respondents view such a requirement as better or worse, from the standpoints of administrative complexity, convenience for the trainee, and adherence to the one-license one-record concept, than that contained in the proposal? Why?

EXHIBIT 2—NOTIFICATION REQUIREMENTS UPON CDIP ISSUANCE (PER PROPOSED 49 CFR SECTION 383.73(j)(4)(ii))

If the driver—	And the state issuing the CDIP is—	Then notify—	
		CDLIS?	Home state?
Does Not Hold a CDL.	The driver's home State.	Yes	n/a.
	Outside the home State.	Yes	Yes.
Holds a CDL.	The driver's home State.	No	n/a.
	Outside the home State.	No	Yes.

(Notification requirements pertaining to adverse licensing actions against, and traffic violations by, CDIP holders are contained in proposed § 383.73(j)(6).)

Paragraph 383.73(j)(5) adapts the language of existing § 383.73(g), prescribing penalties for false information on a CDL application, to apply to CDIP applicants.

Interstate notifications of adverse licensing actions and traffic convictions under sections 12009(a) (8) and (9) of the Commercial Motor Vehicle Safety Act of 1986 (49 U.S.C. app. 2708) will ultimately be covered in a forthcoming regulation on State compliance with the Act and will specifically include holders of CDIPs. In the meantime, § 383.73(j)(6) of this proposal includes a similar provision directed toward States issuing CDIPs to trainees who are licensed and domiciled in other States. In such cases, the State issuing the CDIP (*i.e.*, the State of training) would be required promptly to inform the State of licensure of any suspensions, revocations, cancellations, or disqualifications affecting the driver, and of any traffic convictions.

Section 383.76 Interstate Administration and Acceptance of Tests

To offer States, driver applicants, and training programs additional flexibility to meet the requirements of part 383, the FHWA proposes to allow a State to administer CDL knowledge and skills tests to drivers domiciled in other States, and to allow a driver applicant's State of domicile to accept his/her test results obtained in other States. Third party agreements between States under § 383.75 would not be necessary for a State to use this option, which goes beyond § 383.75 in addressing knowledge as well as skills tests. Under this proposal, the State of domicile may accept the results of skills tests administered on behalf of other States by third parties under § 383.75.

Interstate administration and acceptance of CDL tests would be at the discretion of the States involved, for three reasons. First, some States may lack the capacity to test drivers domiciled in other States. Second, the FHWA recognizes that, although all States must meet the minimum standards of part 383, certain States may have testing requirements that substantially exceed the Federal minima. Such States must retain the right to uphold those higher testing requirements for their own residents. Finally, certain States are establishing fees for CDLs primarily on the basis of tests taken. Such States should be able to protect their own revenue sources by preventing their residents from taking CDL tests elsewhere, perhaps in States which charge less for CDL testing. Thus, the FHWA does not intend to impose the proposed § 383.76 on all States as a requirement: nothing in this proposal would require a State to test another State's drivers or to accept individual tests given by other States to its drivers.

The States themselves would initiate the process contemplated under this section. How and under what circumstances they would inform other States, as well as drive applicants, of their decisions on interstate testing and test acceptance would be a State decision. For example, the State may elect to establish a central information source, perhaps through the existing AAMVAnet network, which would list the States administering CDL tests to out-of-state drivers, and which would name, for each participating State, the types of tests and States of administration which would be accepted. Regardless of the information mechanisms chosen by the States, it would be the responsibility of the driver applicant to ascertain whether a particular test administered in a given State would be accepted by his/her State of domicile.

The proposal includes conditions to protect the one-license, one-record concept. In particular, States testing other States' drivers would have the responsibility to maintain detailed records of all tests passed for one year following the date of test administration. Before accepting a test result secured in another State, the State of domicile would directly verify the test results with the State of testing. The reverse procedure (*i.e.*, a requirement that the State of testing inform the State of domicile upon test completion) has not been adopted because, until the driver actually appears to apply for the CDL, the State of domicile will have no CDL file set up for the driver, hence no place to store the information. Also, in the interval between taking the test(s) and applying for the CDL, a driver could change his/her State of domicile. Finally, the State of testing would earn the revenue from the test, and should therefore bear the expense of recordkeeping.

Under this proposal, a State in which nationwide driver training programs are located would have options to accommodate the programs' needs. For example, it may choose to offer either 60-day CDLs, or CDL testing, or both, to graduates of the programs. In the CDL testing option, a driver applicant would take the skills test in the State of training with equipment provided by the training program and then return to the State of domicile to complete testing and obtain his/her CDL. This scenario assumes that the State of domicile elects to accept skills tests given in the State of training. While this is a reasonable assumption, such interstate acceptance of individual tests prior to CDL issuance is not required under the reciprocity provision of the Act (section 12009(a)(14)), which deals only with completed CDLs.

The FHWA recognizes that this provision could have other implications. Under the proposed § 383.76, a State could rely exclusively on other States to administer knowledge and skills testing of its drivers. Such a State's CDLs would be valid as long as it issues them in accordance with part 383, and as long as all conditions of § 383.76. are adhered to.

Question 15: The proposal requires the State of domicile to verify out-of-State test results before issuing the license. Should verification of out-of-State test results be permitted to occur for a certain period after the State of domicile issues the license? Why? If so, how long should that period be?

Question 16: Should a State's freedom to accept test results obtained by or on behalf of another State be restricted to tests that occur within the georgraphic boundaries of the State of testing?

Section 383.153 Information on the Document and Application

As a technical correction to reflect concerns raised by many State licensing officials as they begin implementing the requirements for the CDL document, this

section would accord States the flexibility to require either the mailing or residential address of the CDL holder on the license.

Section 383.157 CDIP Document

This section establishes the contents of the CDIP document and is analogous to requirements in § 383.153 for the CDL document. The CDIP document would carry the CDIP designation and would not contain the words "Commerical Driver's License" or CDL. The CDIP would state that it is invalid without the underlying State license, the number of which must be displayed on the CDIP.

Regulatory Impact

The FHWA has determined that this document does not contain a major rule under Executive Order 12291 or a significant regulation under the regulatory policies and procedures of the Department of Transportation. The purpose of this proposal is to amplify the level of detail in existing regulations concerning learners' permits for CMV driver trainees and to provide additional flexibilities and options to the States in adhering to existing rules governing commercial driver testing and licensing. While specifying procedures and conditions applicable to those States which undertake to issue CDIPs, this rule does not require States to implement CDIP programs as a condition for avoiding the withholding of Federal-aid highway funds under the Act. Furthermore, the details provided for CDIP programs are analogous to those already developed for CDLs under the rulemaking proceeding for the testing and licensing elements of 49 CFR part 383.

Since the changes in this document are incidental to the CDL program as a whole, the anticipated incremental economic impact, if any, is minimal. Therefore, a new regulatory evaluation is not required beyond that which is already included in the docket for the testing and licensing rulemaking (MC–87–18). For the above reasons and under the criteria of the Regulatory Flexibility Act, the FHWA certifies that this proposed rule would not have a significant economic impact on a substantial number of small entities.

Paperwork

In accordance with the Paperwork Reduction Act of 1980 (Pub. L. 96–511), the reporting or recordkeeping provisions that are included in this regulation are being submitted for approval to the Office of Management and Budget (OMB).

Federalism Impact

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rule would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The regulatory information number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross reference this action with the Unified Agenda.

List of Subjects in 49 CFR Part 383

Commercial driver's license documents, Commercial motor vehicles, Highways and roads, Motor carriers licensing and testing procedures, Motor vehicle safety.

(Catalog of Federal Domestic Assistance Program Number 20.217, Motor Carrier Safety)

Issued on: August 16, 1990.

T.D. Larson,

Administrator.

In consideration of the foregoing, the FHWA hereby proposes to amend title 49, Code of Federal Regulations, chapter III, subchapter B, as set forth below.

PART 383—COMMERCIAL DRIVER'S LICENSE STANDARDS; REQUIREMENTS AND PENALTIES

1. The authority citation for 49 CFR part 383 continues to read as follows:

Authority: Title XII of Pub. L. 99–570, 100 Stat. 3207–170; 49 U.S.C. 3102; 49 U.S.C. App. 2505; 49 CFR 1.48.

2. Section 383.5 is amended by adding two definitions entitled "Commercial Driver Instruction Permit" and "Driver," and placing them in alphabetical order as follows:

§ 383.5 Definitions.

* * * * *

Commercial Driver Instruction Permit (CDIP) means a document that is issued by a State in accordance with the standards and subject to the conditions contained in this part for CDIPs, and that shall, in conjunction with a valid State driver's license or CDL, be considered a valid authorization to operate a CMV for purposes of accompanied behind-the-wheel training. When issued to a CDL holder, a CDIP shall serve as authorization for accompanied behind-the-wheel training in a CMV that is in a vehicle group for which the person's CDL is not valid, or is a vehicle for which the CDL lacks the proper endorsement, or both.

* * * * *

Driver means any person who operates any CMV on a public road or highway.

* * * * *

3. Section 383.23 is revised to read as follows.

§ 383.23 Commercial driver's license.

(a) *General rule.* (1) Effective April 1, 1992, no person shall operate a commercial motor vehicle unless such person has taken and passed written and driving tests which meet the Federal standards contained in subparts F, G, and H of this part for the commercial motor vehicle that person operates or expects to operate.

(2) Effective April 1, 1992, except as provided as paragraphs (b), (c), and (d) of this section, no person shall operate a commercial motor vehicle unless such person possesses a CDL which meets the standards contained in subpart J of this part, issued by his/her State or jurisdiction of domicile.

(b) *Exception to CDL requirement.* A Commercial Driver Instruction Permit (CDIP), issued by a State to an applicant according to the minimum standards contained in §§ 383.71(g) and 383.73(j), shall, in conjunction with a valid State driver's license, be considered a valid authorization to operate a CMV for purposes of accompanied behind-the-wheel training on public roads and highways under the following conditions:

(1) A State may issue a CDIP only to a person who is domiciled in the State, or who is enrolled in a CMV driver training program that is:

(i) Located within the State; and

(ii) Formally recognized by the State according to State standards for such programs;

(2) The CDIP holder must be accompanied at all times by a person who:

(i) Holds a valid CDL with such vehicle group and endorsement indications as are requisite to the vehicle being driven; and

(ii) Is at all times physically present in the vehicle, except as specified in § 383.23(b)(3);

(3) *Limited exception to in-vehicle chaperonage requirement.* A State in which training occurs may allow the substitution of direct, uninterrupted audio or audio-visual electronic communication between the CDIP-holding trainee and the accompanying CDL holder, for such CDL holder's

physical presence in the training vehicle, if:

(i) The CDIP holder first passes a basic knowledge test (and, if the training vehicle is a passenger vehicle, a passenger endorsement knowledge test):

(A) That meets the standards of subparts F, G, and H of this part for the type of vehicle in which the behind-the-wheel training takes place; and

(B) For which the driver trainee possesses evidence from the State of testing that he/she has passed such test(s);

(ii) The behind-the-wheel instruction is administered by a CMV driver training program that is located within the State and is formally recognized by the State according to State standards for such programs;

(iii) The behind-the-wheel training occurs:

(A) Solely within the boundaries of the State of training; and

(B) Within the radius of uninterrupted electronic communication between the trainee and the CDL holder;

(iv) The behind-the-wheel training occurs while the vehicle is used for training purposes exclusively and not for purposes of transporting passengers or property; and

(v) The training vehicle is not of a type that necessitates a CDL endorsement as specified in § 383.93(b)(1), (3), and (4);

(4) *Reciprocity.* Effective October 1, 1993, a State shall allow any person who has a valid CDIP and underlying driver's license to undergo training in a CMV in the State under the conditions delineated in paragraph (b) of this section;

(5) A CDIP may be issued only for limited time periods as established by the State, not to exceed one year for initial issuances and six months for renewals; and

(6) A CDIP may not be issued to, or held by a person:

(i) Who holds more than one driver's license; or

(ii) Whose driver's license or driving privilege is subject to any suspension, revocation, cancellation, or disqualification.

(c) *Exception to CDL requirement until October 1, 1993.* State learners' permits, including those which carry the "Commercial Driver Instruction Permit" or "CDIP" designation, issued for limited time periods according to State requirements, shall be considered valid commercial drivers' licenses for purposes of behind-the-wheel training on public roads or highways, if the following minimum conditions are met:

(1) The learner's permit holder is at all times accompanied by the holder of a valid CDL; and

(2) He/she either holds a valid automobile driver's license, or has passed such vision, sign/symbol, and knowledge tests as the State issuing the learner's permit ordinarily administers to applicants for automobile drivers' licenses.

(d) *Exceptions to domicile requirement.* (1) If a CMV operator is domiciled in a foreign jurisdiction which, as determined by the Administrator, does not test drivers and issue a CDL in accordance with, or similar to, the standards contained in subparts F, G, and H of this part, the person shall obtain a Nonresident CDL from a State which does comply with the testing and licensing standards contained in such subparts F, G, and H.[1]

(2) A person who holds a CDIP issued under § 383.23(b)(1) by a State which is not his/her State of domicile, but in which he/she has been enrolled in a CMV driver training program that is located within the State and that is formally recognized by the State according to State standards for such programs, may obtain a CDL valid for no more than 60 days from the State of training if:

(i) The State receives, both from the applicant and directly from the recognized CMV driver training program, evidence that the applicant has, within the thirty day period preceding the date of application for the CDL, successfully completed a course of training for CMV operators;

(ii) The expiration date of the CDL is no more than 60 days after its date of issuance, with no possibility of renewal unless the State of issuance becomes the State of domicile of the driver prior to the expiration date;

(iii) The State requires the driver applicant to surrender his/her CDIP and underlying license, to the State prior to issuance of the CDL;

(iv) In addition to the required items in § 383.153, the application for the CDL contains:

(A) The current address of the driver within the State of training;

(B) The name and address of the driver's current employer, if any; and

(C) The name and address of the recognized training program which the driver applicant has successfully completed; and

(v) The CDL document issued under the provisions of this section shows, as the "mailing address" referred to in § 383.153(a)(2), the permanent mailing or residential address of the driver within his/her State of domicile.

4. Section 383.71 is amended by adding paragraph (g) to read as follows:

§ 383.71 Driver application procedures.

* * * * *

(g) *Commercial Driver Instruction Permits (CDIPs).* Prior to obtaining a CDIP, a person must meet the following requirements:

(1) Possess a valid driver's license from a State or jurisdiction;

(2) Provide to the State issuing the CDIP the information specified in § 383.157(a) (2), (3), (4), (5), and (b)(1);

(3) Certify that he/she is not subject to any disqualification, suspension, revocation, or cancellation of any driver's license or driving privilege, and that he/she does not have a driver's license from more than one State or jurisdiction;

(4) If in possession of a CDIP, he/she must surrender such CDIP;

(5) If applying for a CDIP from the State in which he/she is enrolled for training, but which is not the State of domicile, he/she must:

(i) Submit such evidence as is acceptable to the State of training that he/she is enrolled in a CMV driver training program that is located within the State and is formally recognized by the State according to State standards for such programs; and

(ii) Provide the name and address of the training school, and his/her local address while in training.

(6) If in possession of a valid CDL from a State, and applying to the same State for a CDIP for purposes of behind-the-wheel instruction leading to a vehicle group upgrade of, and/or the addition of an endorsement to, his/her CDL, then the person may omit such of the procedures in paragraphs (g) (2) and (3) of this section as are relinquished by the State under § 383.73(j)(3); and

(7) A person who will undergo training in interstate or foreign commerce, or is otherwise subject to part 391 of this title, shall certify that he/she meets the qualification requirements contained in part 391 of this title. A person who will not undergo training in interstate or foreign commerce, and is not subject to part 391, is subject to applicable State driver qualification requirements and must

[1] Effective December 29, 1988, the Administrator determined that commercial drivers' licenses issued by Canadian Provinces and Territories in conformity with the Canadian National Safety Code are in accordance with the standards of this part. Therefore, under the single license provision of § 383.21, a driver holding a commercial driver's license issued under the Canadian National Safety Code is prohibited from obtaining a Nonresident CDL, or any other type of driver's license, from a State or other jurisdiction in the United States.

certify that he/she is not subject to part 391.

5. Section 383.73 is amended by adding paragraph (j), to read as follows:

§ 383.73 State procedures.

* * * * *

(j) *Commercial Driver Instruction Permits (CDIPs)*— (1) *Prerequisites to CDIP issuance.* Prior to issuing a CDIP, a State shall:

(i) Check that the applicant holds a valid driver's license from a State or jurisdiction;

(ii) Require the applicant to provide the information and certifications described in § 383.71(g) (2), (3), and (7);

(iii) Initiate and complete a check of the applicant's driving record as specified in § 383.73(a)(3) to ensure that the person is not subject to any disqualification, suspensions, revocations, or cancellations, does not have a driver's license from more than one State, and does not hold an undisclosed CDIP;

(iv) If the applicant already holds a CDIP, obtain such CDIP; and

(v) Inform the applicant in writing of the following:

(A) Any person who holds a CDIP shall be deemed to have consented to such testing as is required of him/her by a State or jurisdiction in the enforcement of § § 383.51(b)(2)(i) and 392.5(a)(2). Consent is implied by undergoing behind-the-wheel training in, or otherwise driving, a CMV; and

(B) Any person who holds a CDIP and engages in behind-the-wheel training in, or otherwise drives, a CMV is a driver for the purposes of the disqualifications and penalties of subpart D of this Part, and the out-of-service provisions of § 392.5 of this title.

(2) *Additional State procedures for CDIPs outside State of domicile.* If the State is not the applicant's State of domicile, the State shall complete the following additional procedures prior to issuing a CDIP to an applicant:

(i) Obtain from the applicant the name and address of the training school in which he/she is enrolled, and his/her local address while in training;

(ii) Verify that the training program is located within the State and is formally recognized by the State according to State standards for such programs; and

(iii) Obtain, both from the applicant and directly from the recognized training program, such evidence as satisfies the State that the applicant is currently enrolled in a course of training for CMV operators.

(3) *CDL holders applying for CDIPs.* If a person holds a valid CDL from a State, and applies to the same State for a CDIP for purposes of behind-the-wheel instruction leading to a vehicle group upgrade of, or the addition of an endorsement to, his/her CDL, then the State may omit the procedures listed in paragraphs (j)(1) (ii) and (iii) of this section, except for the certification required by § 383.71(g)(7).

(4) *CDIP issuance and required notifications.* (i) After the State has completed the procedures described in paragraphs (j)(1) and, if applicable, (j)(2) of this section, it may issue a CDIP to the driver applicant.

(ii) Within the ten-day period beginning on the date of any such CDIP issuance or renewal, the State shall give notice of same as follows:

(A) If the driver does not already hold a CDL, then the State shall notify the CDLIS; and

(B) If the State issuing the CDIP is not the driver's State of licensure, then the State issuing the CDIP shall notify the State of licensure.

(5) *Penalties for false information.* If a State determines, in its check of an applicant's license status and record prior to issuing a CDIP, or at any time after the CDIP is issued, that the applicant has falsified any information or documentation required of him/her by the State as part of the CDIP application procedure, the State shall at a minimum suspend, cancel, or revoke the person's CDIP or his/her pending application, or disqualify the person from driving or undergoing training in a CMV for a period of at least 60 consecutive days.

(6) *Notification of adverse licensing actions and traffic violations.* (i) Within 10 days of disqualifying the holder of a CDIP from undergoing training in, or otherwise driving, a CMV (or after suspension, revocation, or cancellation of such CDIP or any driving privilege) for a period of 60 days or more, the State issuing the CDIP shall notify the State issuing the underlying driver's license, if different, of such disqualification, suspension, revocation, or cancellation.

(ii) Within 10 days after learning that a CDIP holder has been convicted of violating a State or local law relating to motor vehicle traffic control, the State issuing the CDIP shall notify an official designated by the State issuing the driver's underlying license, if different, of such conviction.

6. Section 383.76 is added to subpart E to read as follows:

§ 383.76 Interstate administration and acceptance of tests.

(a) Conditions for interstate testing and test acceptance. A State may elect to exercise either or both of the options for test administration and acceptance as specified in paragraph (b) of this section, provided that all the following conditions are met:

(1) The driver applicant's State of domicile must issue CDLs in accordance with this part;

(2) The tests administered to the driver applicant under the provisions of this section must meet the standards of subparts F, G, and H of this part;

(3) A driver applicant who takes and passes knowledge and/or skills tests administred by a State other than his/her State of domicile shall receive evidence from the State of testing, and provide such evidence to the State of domicile, that he/she has passed such knowledge and/or skills test[s].

(4) For one year following the date of each test administered and passed, the State of testing shall maintain a record of the following:

(i) Identifying data on the applicant as contained in § 383.153(a) (2), (3), (5), (6) (7), and (d)(1);

(ii) The specific test(s) taken;

(iii) For skills tests:

(A) The vehicle group of which the test vehicle is representative under the criteria of § 383.91, without regard to the classification system adopted by the State of testing; and

(B) Whether the vehicle used in testing was a type of vehicle requiring an endorsement under § 383.93, and if so, what type;

(iv) Whether the applicant passed each test; and

(5) Prior to accepting any passing test results claimed to have been obtained by a driver applicant in another State, the State of domicile shall verify the test results claimed by the applicant against the information recorded by the State of testing under paragraph (a)(4) of this section.

(b) Options for interstate testing and text acceptance. (1) A State may elect to offer its CDL knowledge and/or skills tests to a person domiciled in another State.

(2) A driver applicant's State of domicile may, without any formal third-party testing agreement under § 383.75, accept the passing results of CDL knowledge and/or skills tests administered by any other State, in fulfillment of the applicant's requirements under § 383.71(a) (2) and (3), and the State's requirements under § 383.73(a) (1) and (2).

(c) For purpose of this section, skills tests administered by a State may, at the discretion of the State of domicile, include skills tests administered on behalf of a State under § 383.75.

7. Section 383.153(a) (2) is revised to read as follows:

§ 383.153 Information on the document and application.

(a) * * *

(2) The full name, signature, and mailing or residential address of the person to whom such license is issued;

* * * * * *

8. Section 383.157 is added to subpart J to read as follows:

§ 383.157 CDIP Document.

(a) *Information on the document.* All CDIPs shall contain the following information:

(1) The prominent statement that the document is a "Commercial Driver Instruction Permit" or "CDIP". The words "Commercial Driver's License" or "CDL" may not appear anywhere on the document;

(2) The full name, signature, and permanent mailing or residential address in the State of domicile, of the person to whom such CDIP is issued;

(3) Physical and other information to identify and describe such person including date of birth (month, day and year), sex, and height;

(4) Color photograph of the holder;

(5) The number of the underlying State driver's license;

(6) The statement that the CDIP is not valid for any purpose without the driver's license for which the number is shown;

(7) The identifying number given by the State to the CDIP;

(8) The name of the State or States issuing the CDIP and the underlying license;

(9) The date of issuance and the date of expiration of the CDIP; and

(10) A concise summary of the limitations on CDIP use as stated in § 383.23(b) and any additional limitations or restrictions as required by the State.

(b) Additional information requirements. (1) An applicant for a CDIP must provide his/her Social Security Number (SSN) on the application to the State.

(2) The State must provide the SSN to the CDLIS.

(c) *Tamperproofing requirements.* CDIPs shall be tamperproof to the maximum extent proacticeable.
