ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-3826-4]

Environmental Impact Statements and Regulations, Availability of EPA Comments

Availability of EPA comments prepared August 13, 1990 through August 17, 1990 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 382-5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 13, 1990 (55 FR 13949).

Draft EISs

ERP No. D-AFS-J65126-MT Rating EC2, South Fork Complex Timber Sales Road Construction and Reconstruction, Implementation, Lewis and Clark National Forest, Judith Ranger District, Judith Basin County, MT.

Summary

EPA suggests that the final EIS should evaluate additional less damaging alternatives given the preferred alternative's high potential to impact water quality, fisheries, recreation and wildlife. The final EIS and Record of Decision should require water quality to biological monitoring before, during, and after timber harvest.

ERP No. D-AFS-J82013-MT Rating EC2

Bitterroot National Forest Noxious Weed Control Program, Herbicide Use on Eight Sites, Implementation, Ravalli County, MT.

Summary

EPA feels that long-term impacts of herbicide application should be addressed in greater detail in order to provide a higher degree of protection for area resources. The preferred alternative for group 1 site 1 should be re-examined. EPA recommends the use of aquatic ecosystem monitoring.

ERP No. D-COE-G36144-LA Rating LO

Comite River Basin and Tributaries Flood Protection Plan, Implementation, Amite River Basin, Baton Rouge and Livingston Parishes, LA.

Summary

EPA has no objections to the proposed action as described with proper implementation of the mitigation features as described.

ERP No. D-USN-K09804-NV Rating EC2

Naval Air Station Fallon Geothermal Resources for Electrical Power Generation, Phase I and II Development, COE Section 404 Permit and Right-of-Way Grants, Churchill County, NJ.

Summary

EPA expressed environmental concerns on potential adverse impacts to biological resources, water quality and air quality. EPA requested that the final EIS contain a discussion of the need for a Clean Water Act section 404 dredge and fill permit, a permit for injection of geothermal fluids from the State of Nevada, and proposed mitigation or permit conditions to minimize adverse environmental impacts.

Final EISs

ERP No. F-FHA-E36166-MS

ADOPTION-Black Creek watershed, Y-36D Protection Project, Flood Prevention and Drainage, Financial Assistance, Black Creek Drainage District, Town of Tchula, Holmes County, MS.

Summary

EPA notes that while there are a number of adverse environmental impacts associated with this action, the impacts are not significant or likely to be long-term.

ERP No. F-USA-B11010-00

Fort Huachuca, Fort Devens and Fort Monmouth Base Realignment Transfer of Missions and Functions, Implementation, Cochise County, AZ, Worcester and Middlesex Counties, MA and Monmouth County, NJ.

Summary

EPA's concerns were adequately addressed in the final EIS.

ERP No. F1-NAS-E12002-00

Galileo Mission Project, Jovian System Investigation Program and Ulysses Mission Project, Heliosphere Exploration Program, Modifications and Implementation.

Summary

EPA continues to have some concerns regarding the short and long term air quality consequences associated with the combustion products of the solid rocket motor. Studies are currently underway to determine whether this matter will remain a matter of concern.

Other

ERP No. LD-AFS-L61186-WA Rating LO

Upper Klickitat River Wild and Scenic River Study, Designation and Nondesignation, National Wild and Scenic River System, Yakima Indian Nation, Klickitat County, WA.

Summary

EPA has no objections to the three designation alternatives for the Klickitat River corridor.

ERP No. LD-AFS-L61187-WA Rating LO

Upper White Salmon River Wild and Scenic River Study, Possible Designation into the National Wild and Scenic Rivers System, Gifford Pinchot National Forest, Yakima Indian Nation, Klickitat County, WA.

Summary

EPA has no objection to the three designation alternatives for the upper White Salmon River corridor.

Dated: August 28, 1990.

Richard E. Sanderson,

Director, Office of Federal Activities.

BILLING CODE 6560-50-M

[OPTS-62096; FRL 3798-6]

Receipt of Application for Approval to Dispose of Polychlorinated Biphenyls

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of receipt of application.

SUMMARY: EPA Headquarters has received an application from Terra-Kleen Corporation for nationwide approval to dispose of polychlorinated biphenyls (PCBs) using the mobile solvent extraction/distillation system. This approval process is done under the authority of section 6(e) of the Toxic Substances Control Act (TSCA). EPA is notifying interested persons of the request, and comments may be submitted.

DATES: Comments must be received by October 1, 1990.

ADDRESSES: Three copies of written comments bearing the identifying notation "(OPTS-62096)" should be addressed to: TSCA Public Docket Office, (TS-793), Rm. NE-G004, Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

A public version of the record, without any confidential business information, is available in the TSCA Public Docket Office at the above address, from 8 a.m. to noon and 1 p.m. to 4 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Michael M. Stahl, Director,

Environmental Assistance Division (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-543B, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD (202) 554-0551.

SUPPLEMENTARY INFORMATION: Under 40 CFR 761.60(e), the Regional Administrators and the Director of the Exposure Evaluation Division (EED) share the approval authority for permitting alternative PCB disposal technologies. A Regional Administrator determines whether to approve an application when the disposal will take place in that region only or, in the case of research and development (R and D), on PCB disposal methods involving less than 500 pounds of PCB material. The Director of EED determines whether to approve applications for mobile and other types of PCB disposal technologies that may be operated in more than one region or, in the case of R and D, on disposal methods involving 500 pounds or more of material.

In general, EPA may approve alternative methods of PCB disposal if they achieve a level of performance equivalent to an incinerator approved under 40 CFR 761.70 or a high efficiency boiler approved under 40 CFR 761.60 and will not present an unreasonable risk of injury to health or the environment. EPA also imposes some protective conditions requiring the application to address such items as testing of all gaseous, liquid, and solid effluent streams for PCBs and any other contaminants which may potentially contribute to the environmental risk of operating the disposal unit. To obtain a permit for an alternative method of PCB disposal, the applicant must supply detailed technical descriptions and drawings of the site, process and control equipment, monitoring and sampling methods, quality assurance plan, and emergency and contingency measures, as well as a full discussion of all cleanup and closure procedures.

When EPA Headquarters receives a permit application, it reviews the application and determines if the permit application is complete. If the application is not acceptable, EPA lists its deficiencies in a letter to the applicant and the applicant can remedy the application. If the application is acceptable, a determination is made whether a process demonstration is needed. If one is needed, the applicant must submit a demonstration test plan to the Agency. After receipt of the process demonstration test plan, EPA either approves, requires modification or additions to the process demonstration test plan, or disapproves it and notifies

the applicant. Once the Agency accepts a process demonstration test plan, a demonstration test approval is issued by EPA. As part of this approval, the applicant will be required to give advance written notice of at least 30 days to the EPA regional office and State and local governments where the process demonstration will take place. This 30-day period provides the public an opportunity to discuss local issues related to the planned disposal operation and provides the EPA regional office with information necessary for effective monitoring for compliance with the demonstration approval. If the application cannot be approved because the process demonstration test fails, the problems with the process demonstration are addressed on a case-by-case basis.

EPA will grant or deny approval for full scale operation based on a review of the application package, demonstration test results, and other submitted information. Approval for operation will contain special conditions that EPA finds necessary to protect human health or the environment. It also requires compliance with all applicable State, local, or other Federal requirements. The PCB disposal approval decision process (from receipt of the permit application to issuance of a final approval) generally can take from 6 months to 1 year, depending on the quality of information submitted by the applicant and the complexities involved. If a permit is issued for more than one site, 30-day notice is required before operation may begin at any site other than where the process demonstration took place.

The application from Terra-Kleen Corporation proposes to demonstrate the mobile solvent extraction/distillation system by cleaning soil at a site in Tulsa County, Oklahoma. Operating conditions will closely follow normal commercial operations. Tentative schedule calls for operations to begin in September 1990. In determining whether to approve this application, EPA will take into consideration, along with other factors, the comments received on the application.

Dated: August 24, 1990.

Elizabeth F. Bryan,

Acting Director, Exposure Evaluation Division, Office of Toxic Substances.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Office of Training, Board of Visitors for the Emergency Management Institute, Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name: Board of Visitors (BOV) for the Emergency Management Institute (EMI).

Dates of Meeting: September 27-28, 1990.

Place: Federal Emergency Management Agency, National Emergency Training Center, Emergency Management Institute, Conference Room, Building N, Emmitsburg, Maryland 21727.

Time: September 27-8:30 a.m. to 5 p.m. September 28-8:30 a.m. to 12 noon.

Proposed Agenda: The agenda will concentrate on efforts established within the 1990 Board of Visitors Workplan, which include core curriculum, professionalism standards, and use of technology/alternate delivery strategies in training.

The meeting will be open to the public with approximately ten seats available on a first-come, first-serve basis. Members of the general public who plan to attend the meeting should contact the Office of the Superintendent, Emergency Management Institute, Office of Training, 16825 South Seton Avenue, Emmitsburg, Maryland 21727, (telephone number, 301-447-1251) on or before September 17, 1990.

Minutes of the meeting will be prepared by the Board and will be available for public viewing in the Director's Office, Office of Training, Federal Emergency Management Agency, Building N, National Emergency Training Center, Emmitsburg, Maryland 21727. Copies of the minutes will be available upon request 30 days after the meeting.

Dated: August 20, 1990.

Laura Buchbinder,

Acting Director, Office of Training.

BILLING CODE 6718-01-M

Office of Training, Board of Visitors for the National Fire Academy, Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name: Board of Visitors for the National Fire Academy.

Date of Meeting: October 14-16, 1990.

Place: National Emergency Training Center, G. Bldg., 2nd Floor Conference Room, Emmitsburg, MD 21727.

Time: October 14-2 p.m. to 5 p.m. October 15-8:30 a.m. to 5 p.m. October 16-9 a.m. to Agenda Completion.

Proposed Agenda: Old Business, New Business, Annual Report for FY90, Selection of Chairperson and Vice-Chairperson

The meeting will be open to the public with seating available on a first-come, first-serve basis. Members of the general public who plan to attend the quarterly meeting should contact the Office of Superintendent, National Fire Academy, Office of Training, 16825 South Seton Avenue, Emmitsburg, Maryland, 21727 (telephone number, 301-447-1123) on or before October 7, 1990.

Minutes of the meeting will be prepared by the Board and will be available for public viewing in the Director's Office, Office of Training, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472. Copies of the minutes will be available upon request 30 days after the meeting.

Dated: August 17, 1990.

Laura B. Buchbinder,

Acting Director, Office of Training.

Agency Information Collection Submitted to the Office of Management and Budget for Clearance

The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following information collection package for clearance in accordance with the Paperwork Reduction Act (44 U.S.C. chapter 35).

Type: Revision to 3067-0022.

Title: National Flood Insurance Program Policy Forms.

Abstract: To provide for the continued availability of policies for flood insurance, National Flood Insurance Program policies are marketed through the facilities of licensed insurance agents or brokers. Applications for Federal flood insurance coverage are forwarded to an NFIP servicing company which examines the applications and premiums and issues flood insurance policies. The following forms are used for continued sales and servicing of policies under the National Flood Insurance Program: FEMA Form 81-16, Flood Insurance Application; FEMA Form 81-16A, Flood Insurance Application—part 2; FEMA Form 81-17,
