DEPARTMENT OF LABOR

Employment and Training
AdministrationNative American Programs; Proposed
Total Allocations and Allocation
Formulas for Program Year 1991
Regular Program and Calendar Year
1991 Summer Youth Employment and
Training ProgramAGENCY: Employment and Training
Administration, Labor.

ACTION: Notice.

SUMMARY: The Employment and Training Administration of the Department of Labor is publishing the proposed Native American allocations, distribution formulas and rationale, and individual grantee planning estimates for Program Year (PY) 1991 (July 1, 1991–June 30, 1992) for regular programs funded under title IV–A of the Job Training Partnership Act, and for Calendar Year 1991 for Summer Youth Employment and Training Programs (SYETP) funded under title II–B of the JTPA.

DATES: Written comments on this proposal are invited and must be received on or before February 25, 1991.

ADDRESSES: Send written comments to: Mr. Paul A. Mayrand, Director, Office of

Special Targeted Programs, Employment and Training Administration, Room N–4641, 200 Constitution Avenue, NW., Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT: Mr. Carmelo J. Milici, Phone: 202–535–0507 (this is not a toll free number).

SUPPLEMENTARY INFORMATION: Pursuant to section 162 of the Job Training Partnership Act (JTPA), the Employment and Training Administration of the Department of Labor publishes below for review and comment the proposed allocations and distribution formulas for areas to be served by Native American grantees to be funded under JTPA section 401, and JTPA title II, part B. The amounts to be distributed are \$59,625,000 for the JTPA section 401 programs for Program Year (PY) 1991 (July 1, 1991–June 30, 1992); and \$12,726,012 for the JTPA title II, part B, Summer Youth Employment and Training Program (SYETP) for the Summer of Calendar Year 1991. The planning estimates reflect the existing grantees and their currently assigned areas, and are subject to change for such reasons as Administrative Law Judge decisions, the possibility that a grantee will want to have its designation withdrawn, legislative changes, et al.

The formula for allocating JTPA section 401 funds provides that 25

percent of the funding will be based on the number of unemployed Native Americans in the grantee's area, and 75 percent will be based on the number of poverty-level Native Americans in the grantee's area.

The formula for allocating SYETP funds divides the funds among eligible recipients based on the proportion that the number of Native American youths in a recipient's area bears to the total number of Native American youths in all eligible recipients' areas.

The rationale for the above formulas is that the number of poverty-level persons, unemployed persons, and youths among the Native American population is indicative of the need for training and employment funds.

Statistics on youths, unemployed persons, and poverty-level persons among Native Americans used in the above programs are derived from the Decennial Census of the Population, 1980.

Signed at Washington, DC this 14th day of January 1991.

Roberts T. Jones,

Assistant Secretary of Labor.

Delegation of Authority, Cooperative Agreements and Contracts for Oil and Gas Inspections

AGENCY: Bureau of Land Management.

ACTION: Final rule. Providing Procedures for Implementing Certain Provisions of the Federal Oil and Gas Royalty Management Act.

SUMMARY: This final rulemaking establishes administrative procedures for States and Indian tribes to inspect supervised oil and gas leases within the limits of their jurisdictions. These procedures are necessary to implement section 202 of the Federal Oil and Gas Royalty Management Act of 1982.

EFFECTIVE DATE: February 25, 1991.

ADDRESSES: Inquiries or suggestions should be sent to: Director (610), Bureau of Land Management, Room 601, Premier Building, U.S. Department of the Interior, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Susan Pepperney, (202) 653-2127.

SUPPLEMENTARY INFORMATION: This final rulemaking establishes a new subpart 3192 in part 3190, Group 3100 to implement the authority contained in section 202 of the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) (30 U.S.C. 1732) relating to the inspection of Federally supervised oil and gas leases by a State or Indian tribe under a cooperative agreement between the Bureau of Land Management and the State or tribe. This is the second rule implementing the authority in FOGRMA that provides for inspection of Federally supervised oil and gas leases by other than Federal employees. The first, published in the *Federal Register* on July 17, 1987 (52 FR 27180), set forth general provisions pertaining to delegation of authority, cooperative agreements, and contracts, and more specific regulations governing delegation of authority. It has been the policy of the Department of the Interior to implement section 205 of FOGRMA first and then to follow with the implementation of section 202. This final rulemaking provides procedures for cooperative agreements under section 202 of the Act. It therefore covers cooperative agreements between the Bureau of Land Management and States and Indian tribes.

The purpose of the inspection is to determine whether there is compliance on oil and gas leases with the requirements of the mineral leasing laws and FOGRMA.

Section 202 of FOGRMA authorizes the Secretary of the Interior to enter into cooperative agreements with States and Indian tribes for the purposes of sharing oil and gas royalty management information, and carrying out inspection, investigation, and certain enforcement activities, including those activities authorized by section 108 of the Act. The Secretary may not enter into cooperative agreements with a State involving Indian lands without permission of the affected Indian tribe.

States and tribes should be aware that the continuation of any cooperative agreement made under this rulemaking will be conditioned upon the availability of the funds for compensation to an entity participating in the program.

The final rulemaking also adds a new § 3190.4 providing that the Bureau of Land Management will make available information needed by States or Indian tribes to carry out activities authorized by cooperative agreements, contracts, or delegation of authority provided for in this part.

The proposed rulemaking was published in the *Federal Register* on November 28, 1988 (53 FR 47904), and requested comments by December 28, 1988. Comments were received from 7 sources: 2 from Federal agencies, 1 from an Indian tribe, 1 from a State government agency, 1 from an oil company, 1 from an industry association, and 1 from an individual. All of the comments were given careful consideration during the preparation of this final rulemaking.

One general comment recommended that the Bureau of Land Management not engage in the practice of entering into cooperative agreements or otherwise delegating its responsibilities for protecting oil and gas resources, stating that the Bureau would be courting problems by involving other agencies and entities that have different priorities and functions than the Bureau does. The comment is not adopted. This final rulemaking implements section 202 of FOGRMA. The rulemaking does not require that the Bureau enter into cooperative agreements; it merely provides administrative procedures so that agreements can be approved.

Two comments suggested that § 3192.1-1(b) be amended to provide that an Indian tribe may only inspect those leases from which the subject tribe receives revenues or, by implication, over which it has jurisdiction. The amendment is not

adopted. It is Department policy to permit tribes to include allotted lands under tribal agreements, provide that the tribe has the consent of affected allottees.

Two comments suggested that § 3192.1-3 be amended by adding paragraphs providing that, within 15 days of determining that a proposal for a cooperative agreement is complete, the Bureau of Land Management will notify operators who may be affected by the proposal of a State or tribe. The notification would request comments from the operators. The Bureau of Land Management would be required to consider the comments, and to reject the proposed cooperative agreement if it is provided with documented evidence of abuse of existing inspection or enforcement authority by the subject State or tribe. The amendment is not adopted. There is not statutory requirement that the Bureau of Land Management notify operators of a proposed cooperative agreement. States or tribes should not be penalized for incidents that occurred prior to the proposed agreement. If a State or tribe is found to be abusing the authority it receives as a result of the cooperative agreement, the Bureau will require corrective action or cancellation of the agreement. Operators can appeal the enforcement actions of a State or tribal inspector in the same manner that it does those of a Federal inspector, through the State Director review process.

One comment suggested the § 3192.1-4(b) be amended to provide that cooperative agreements would be effective for a term of from 1 to 5 years, and that agreements could be modified or renewed annually. The suggestion that the agreement term be changed from a maximum of 3 years to a maximum of 5 years is in keeping with Bureau policy for other types of cooperative agreements, and has been adopted in the final rule. The final rule also recognizes modification of the agreement at any time upon consent of both parties.

Two comments suggested that a new paragraph be inserted in § 3192.1-5 requiring the cooperative agreement to include a detailed description of the lands for which authority to inspect is being delegated, and that the reference to confidentiality of proprietary information in proposed paragraph (f) be amended to include a cross-reference to § 3190.1 of this title, which contains the regulations on proprietary data. This cross-reference is useful and the agreement should have a description of the lands to which it applies. The

suggestions are adopted in the final rulemaking.

One comment requested that § 3192.1-5(f) provide that the cooperative agreement include a detailed description of what constitutes proprietary information, and a provision that confidentiality restrictions would not apply once the proprietary information becomes part of the public record. A definition of proprietary data may be found in § 3190.0-5(f) of this title. It is therefore unnecessary to define proprietary data in each agreement.

Two comments suggested that § 3192.1-7 be amended to provide that the cooperative agreements impose standards on State and tribal inspectors at least as stringent as those the Bureau of Land Management imposes on its own inspectors. The standards referred to in this section of the regulations relate to the overall performance of the State or tribe in carrying out the activities described in the cooperative agreements, including but not limited to, performance of the individual inspectors. Section 3192.4-4 has been amended in response to these and other comments on inspector performance, but no amendment to § 3192.1-7 is necessary.

One comment suggested that § 3192.2-1 be amended to include a requirement that inspectors inspect for compliance with Onshore Oil and Gas Orders as well as Bureau regulations and the mineral leasing laws. The comment has been adopted in the final rulemaking as a clarification.

One comment stated that § 3192.2-1(b) should be amended to allow tribes to require inspections to meet standards that are higher than or different from Federal standards. The comment is not adopted in the final rulemaking. It is important that uniformity be maintained from State to State and tribe to tribe for Federal and Indian leases.

One comment suggested that § 3192.2-1(d) should be amended to add greater emphasis to taking into account tribal priorities, stating that the word "interests" does not sufficiently convey this emphasis. In response to this comment, the word "priorities" has been substituted for "interests" in this provision. Tribal priorities will be taken into account so long as they do not conflict with FOGMA.

One comment requested clarification as to whether or not § 3192.2-2 includes shut-in authority. Language has been added to this section clarifying that certified State and tribal inspectors have shut-in authority, but are subject to the same level of management review as certified BLM inspectors are under District or Resource Area policy. This

section has also been amended in response to a comment discussed under § 3192.3-1.

One comment recommended that § 3192.2-3(c) be removed, stating that determinations of whether losses are avoidable or unavoidable are made by petroleum engineers employed by the Bureau of Land Management, that neither Bureau nor State or Indian inspectors are responsible for making this determination, and that such determinations are not inspection and enforcement functions. The suggestion has been adopted in the final rule, and the paragraph has been removed in the final rule as unnecessary. For purposes of clarification, paragraphs (a) and (b) of § 3192.2-3 have been combined and modified to describe the correct delegation of Secretarial authority for criminal investigations to the Director, BLM, and to remove language appearing to establish rather than merely describe such authority. The final rule still provides that participation of State and Indian inspectors in such investigations shall be as specified in the agreement or at the discretion of the authorized officer.

One comment suggested that § 3192.2-4 be removed entirely, because the regulations already provide that inspections shall be in accordance with the appropriate policies of the State Office, district, and resource area, and argued that oil transporters need not be singled out for special treatment. The comment is not adopted in the final rulemaking. Oil transporter inspections are not covered by the standard inspection checklist employed by Bureau oil and gas inspectors.

One comment asked that § 3192.3-1 be clarified as to whether State and tribal inspectors will be allowed to issue second Notices of Incidents of Noncompliance (INCs) leading to automatic imposition of assessments. Section 3192.2-2(a) has been amended to make it clear that inspectors operating under cooperative agreements have authority only to issue initial INCs. Section 3192.2-2(b) and this section have been amended to make it clear that imposition of assessments and penalties remains the responsibility of the Bureau of Land Management.

One comment suggested that § 3192.4-1(a) should be amended to remove the provision that the authorized officer shall screen a list of nominees submitted by the State or tribe, stating that the Bureau of Land Management should not be responsible for screening nominee inspectors selected by the State or tribe. The comment has been adopted in the final rulemaking. There are no set standards or criteria for selecting

inspectors. States and tribes should be able to select their own personnel without Bureau interference. It is the responsibility of the State or tribe to find qualified people for the program.

One comment addressed § 3192.4-4(a) and pointed out that BLM already has standards imposed on its own inspectors, and stated that State and Indian inspectors should be required to meet the same standards. In response to this comment and the two earlier comments on cooperative agreement inspectors meeting the same standards as BLM inspectors, this section has been amended in the final rulemaking to make it clear that State and Indian inspectors shall meet the same standards as are imposed on BLM inspectors.

One comment suggested addressing recent amendments to the Indian Self-Determination and Education Assistance Act (Pub. L. 93-638, amended by Pub. L. 100-472) in this rule. This comment was not adopted because this rule applies to States as well as Indian tribes, while that Act pertains only to Indians.

In order to reflect current Departmental policy, the reference to 50 percent funding has been removed from § 3192.1-5(f) (§ 3192.1-5(k) in the proposed rule). A new proposed rule that would amend § 3190.2-2, which provides for 50 percent Federal funding of such agreements, to provide for 100 percent funding, is presently under consideration.

Changes on General Services Administration Standard Form 424 necessitated changes in § 3192.1-2(d). Information requested in subparagraphs (3) and (4) of that paragraph are now required in the new forms, and the subparagraphs have been removed as unnecessary.

The principal author of this proposed rulemaking is Susan Pepperney of the Division of Fluid Mineral Lease and Reservoir Management, assisted by the staff of the Division of Legislation and Regulatory Management, Bureau of Land Management.

It is hereby determined that this proposed rulemaking does not constitute a major Federal action significantly affecting the quality of the human environment, and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required.

The Department of the Interior has determined under Executive Order 12291 that this document is not a major rule, and under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) that it will not have

a significant economic impact on a substantial number of small entities. Additionally, as required by Executive Order 12630, the Department has determined that the rulemaking would not cause a taking of private property.

The information collection requirements contained in § 3192.1-2(d)(1) of this rule have been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned clearance number 0348-0040, 0348-0043, and 0348-0044.

The information collection requirements contained in § 3192.1-2(d)(2) and (e) have been submitted to the Office of Management and Budget for approval as required by 44 U.S.C. 3501 et seq. The collection of this information will not be required until it has been approved by the Office of Management and Budget.
