[Ex Parte No. 382 (Sub-No. 7)]

Revision of Rules for the Recordation of Documents Under 49 U.S.C. 11303—Documents Executed With a Declaration, Made Under Penalty of Perjury

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Commission adopts final rules which permit execution of documents with a declaration, made under penalty of perjury under 28 U.S.C. 1746, in lieu of notarization. The purpose of this change is to conform the Commission's regulations to federal law. **EFFECTIVE DATES:** The rules are effective on March 13, 1991.

FOR FURTHER INFORMATION CONTACT: Kathleen M. King, Assistant Secretary, 202-275-7429 [TDD for hearing impaired: 202-275-1721]

SUPPLEMENTARY INFORMATION: The Commission's current regulations (49 CFR part 1177.3), require that documents filed with it for recordation under 49 U.S.C. 11303 be executed or certified with notarization. 28 U.S.C. 1746 allows a party to make a declaration that his/her statement is made under penalty of perjury under the laws of the United States as an alternative to notarization. Specifically, section 1746 states:

"Whenever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath or affidavit, in writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury, and dated, in substantially the following form:

(1) If executed without the United States: "I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed on (date) (Signature)".

(2) If executed within the United States, its territories, possessions, or commonwealths: "I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date). (Signature)".

The Commission regulations (49 CFR 1104.5) already provide for the acceptance in formal proceedings of documents that contain affirmations or declarations under penalty of perjury in lieu of oath. Also, the Commission's application forms, such as Form OP-1 and Form OP-FC-1, and the Commission rules (49 CFR part 1167) relating to submission of notices of intent to engage in compensated intercorporate hauling provide for an applicant's oath under penalty of perjury. There are severe penalties if knowing and willful misstatements or omission of material facts are made in a submission to the Commission. Knowing and willful misstatements or omissions of material facts constitute federal criminal violations punishable under 18 U.S.C. 1001 by imprisonment up to 5 years and fines up to \$10,000 for each offense. Additionally, when made under penalty of perjury, these misstatements are punishable as perjury under 18 U.S.C. 1621 which provides for fines up to \$2,000 or imprisonment up to 5 years for each offense.

The rule change will conform our recordation regulations to federal law.

Therefore, we will modify 49 CFR 1177.3, as set forth below, to provide for submission of documents executed or certified under penalty of perjury.

This amendment to the Commission's regulations has no effect on the substantive rights of parties and merely corrects these regulations to recognize a procedural alternative that is specifically made available by statute. Accordingly, for good cause shown, we find that notice and public procedure is unnecessary under 5 U.S.C. 553(b)(3)(B).

Environmental and Energy Considerations

We conclude that the proposed action will not significantly affect either the quality of the human environment or the conservation of energy resources.

Regulatory Flexibility Analysis

Pursuant to 5 U.S.C. 603, the Commission is required to examine specifically the impact of the proposed action on small business and small organizations. We conclude that this decision will not have a significant impact on a substantial number of small entities.

50 CFR Part 675

[Docket No. 901199-1021]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: The Director, Alaska Region, NMFS (Regional Director), has determined that the first quarter seasonal apportionment of the secondary prohibited species catch (PSC) allowance for halibut for the domestic annual processing (DAP) "DAP other fishery" in the Bering Sea and Aleutian Island management area (BSAI) has been caught. The Secretary

of Commerce is prohibiting directed fishing for pollock and Pacific cod combined by vessels using trawl gear other than pelagic trawl gear in the entire BSAI from 12 noon, Alaska local time (A.l.t.), March 8, 1991, through 24:00 hours, March 31, 1991. This action is necessary to prevent the first quarter seasonal apportionment of the secondary PSC allowance of halibut apportioned to the "DAP other fishery" from being exceeded before the end of the first quarter. This action is intended to implement regulatory measures controlling the bycatch of prohibited species in the trawl fisheries for groundfish.

DATES: Effective 12 noon, A.l.t., March 8, 1991, through 24:00 hours, March 31, 1991.

FOR FURTHER INFORMATION CONTACT:

Jessica A. Gharrett, Resource Management Specialist, NMFS, 907-586-7228.

SUPPLEMENTARY INFORMATION: The Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands (FMP) governs the groundfish fishery in the exclusive economic zone within the BSAI under the Magnuson Fishery Conservation and Management Act. The FMP was prepared by the North Pacific Fishery Management Council and is implemented by regulations appearing at 50 CFR 611.93 and parts 620 and 675.

The final rule for amendment 16 to the FMP (56 FR 2700; January 24, 1991) established PSC limits of red king crab and *C. bairdi* Tanner crab in specific zones of the Bering Sea subarea (BS), and for Pacific halibut throughout the BSAI Area. Under § 675.21(a)(5), the secondary PSC limit of Pacific halibut while conducting any DAP trawl fishery for groundfish in the BSAI during any fishing year is 5,333 metric tons (mt). Furthermore, § 675.21(b)(1) provides that the PSC limit of Pacific halibut be further apportioned into bycatch allowances, one of which is assigned to the "DAP other fishery" under § 675.21(b)(4). Within the "DAP other fishery," the halibut bycatch allowance may be further apportioned on a seasonal basis under § 675.21(b)(2). The final notice of initial specifications of

BSAI groundfish for 1991 (56 FR 6290; February 15, 1991) established the 1991 secondary Pacific halibut allowance for the "DAP other fishery" at 3,233 mt, and the first quarter seasonal apportionment of that allowance at 1,455 mt.

Under § 675.21(c)(2)(iv), if the Regional Director (Director) determines that U.S. fishing vessels using trawl gear will catch the seasonal apportionment of the secondary PSC allowance of Pacific halibut in the BSAI while participating in the "DAP other fishery," the Secretary will publish a notice in the Federal Register closing the BSAI for the remainder of the season to DAP trawl vessels using other than pelagic trawl gear in the combined directed fishery for pollock and Pacific cod.

The Regional Director has determined that the first quarter apportionment of the secondary PSC allowance of Pacific halibut for the "DAP other fishery" will be reached on March 8, 1991. The Secretary of Commerce is prohibiting directed fishing for pollock and Pacific cod in the aggregate by DAP vessels using trawl gear other than pelagic trawl gear in the BSAI from 12 noon, Alaska local time (A.l.t.), March 8, 1991, through 24:00 hours, March 31, 1991. In accordance with § 675.21(c)(2)(iv), the aggregate amount of pollock and Pacific cod must comprise less than 20 percent of the aggregate amount of the other groundfish or groundfish products as measured in round weight equivalents retained by a vessel affected by this prohibition during a weekly reporting period.

Classification

This action is taken under § 675.21 and complies with Executive Order 12291.
