

In grateful recognition of the contributions that mothers make to their families and to the Nation, the Congress, by a joint resolution approved May 8, 1914 (38 Stat. 770), has designated the second Sunday in May each year as "Mother's Day" and requested the President to call for its appropriate observance.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim that Sunday, May 12, 1991, be observed as Mother's Day. I urge all Americans to express their love and respect for their mothers on this day; to reflect upon the importance of motherhood to our families and Nation; and to ask for God's blessing upon both. I also direct Federal officials to display the flag of the United States on all Federal buildings, and I encourage all citizens to display the flag at their homes and other suitable places on that day.

IN WITNESS WHEREOF, I have hereunto set my hand this 23 day of April, in the year of our Lord nineteen hundred and ninety-one, and of the Independence of the United States of America the two hundred and fifteenth.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 20, 21, and 73

RIN 3150-AD88

Change in Commercial Telephone Number for Region V

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations to indicate a change in the commercial telephone number for the NRC's Region V Office located in Walnut Creek, California. These amendments are necessary to inform the public of these administrative changes to NRC regulations.

EFFECTIVE DATE: April 26, 1991.

FOR FURTHER INFORMATION CONTACT: David L. Meyer, Chief, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301-492-7086.

SUPPLEMENTARY INFORMATION: The commercial telephone number for the NRC's Region V Office has been changed, effective immediately. This notice is being published to inform the public of the change in the commercial telephone number.

Because these amendments deal with agency practice and procedures, the notice and comment provisions of the Administrative Procedure Act do not apply under 5 U.S.C. 553(b)(A). Good cause exists to dispense with the usual 30-day delay in the effective date because the amendments are of a minor and administrative nature concerning a change in a telephone number.

Environmental Impact: Categorical Exclusion

The NRC has determined that this rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule contains no information collection requirements and therefore is not subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501, et seq.).

[Docket No. 90-NM-293-AD; Amdt. 39-6985]

Airworthiness Directives; Aerospatiale Model ATR42-300 and ATR42-320 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to certain Aerospatiale Model ATR42-300 and ATR42-320 series airplanes, which requires the installation of a reinforcing plate on Stringer 14 at Frame 25. This amendment is prompted by fatigue testing by the manufacturer which has identified fatigue damage in the landing gear bay area in line with Frame 25 and Stringer 15. This condition, if not corrected, could result in collapse of the main landing gear.

EFFECTIVE DATE: June 3, 1991.

ADDRESSES: The applicable service information may be obtained from Aerospatiale, 316 Route de Bayonne, 31060 Toulouse, Cedex 03, France. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Lium, Standardization Branch, ANM-113; telephone (206) 227-1112. Mailing address: FAA, Northwest Mountain Region, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include a new airworthiness directive, applicable to certain Aerospatiale Model ATR42-300 and ATR42-320 series airplanes, which would require the installation of a reinforcing plate on Stringer 14 at Frame 25, was published in the *Federal Register* on February 1, 1991 (56 FR 3983).

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received in response to the proposal.

The economic analysis paragraph, below, has been revised to increase the specified hourly labor rate from \$40 per manhour (as was cited in the preamble to the Notice) to \$55 per manhour. The FAA has determined that it is necessary to increase this rate used in calculating the cost impact associated with AD

activity to account for various inflationary costs in the airline industry.

Paragraph B. of the final rule has been revised to specify the current procedure for submitting request for approval of alternative methods of compliance.

After careful review of the available data, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither significantly increase the economic burden on any operator nor increase the scope of the rule.

It is estimated that 56 airplanes of U.S. registry will be affected by this AD, that it will take approximately 80 manhours per airplane to accomplish the required actions, and that the average labor cost will be \$55 per manhour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$246,400.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.
