Food and Drug Administration

[Docket No. 90F-0443]

Hoechst Celanese Corp.; Filing of Food Additive Petition; Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is amending the filing notice for a food additive petition filed by Hoechst Celanese Corp., to indicate that the petitioner has requested that the food additive regulations be amended to provide for the safe use of acesulfame potassium as a nonnutritive sweetener in baked goods and baking mixes, and also in icings, frostings, toppings, and fillings for baked goods. The previous filing notice indicated that the petitioner's request was for use of the additive in baked goods and baking mixes.

DATES: Written comments on the petitioner's environmental assessment by December 20, 1993.

ADDRESSES: Submit written comments to the Dockets Management Branch

(HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Patricia A. Hansen, Center for Food Safety and Applied Nutrition (HFS-206), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-254-9523.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of October 30, 1990 (55 FR 45657), FDA announced that a food additive petition (FAP 0A4225) had been filed by Hoechst Celanese Corp., Route 202-206 North, Somerville, NJ 08876. In the notice of filing, FDA announced that the petitioner had proposed that the food additive regulations in § 172.800 *Acesulfame potassium* (21 CFR 172.800) be amended to provide for the safe use of acesulfame potassium in baked goods and baking mixes. The petition was filed under section 409 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 348).

Upon further review of the petition, the agency notes that the petitioner had also requested that the use of acesulfame potassium be permitted in icings, frostings, toppings, and fillings for baked goods. This additional portion of the petitioner's request was inadvertently omitted from the original filing notice.

Therefore, FDA is amending the filing notice of October 30, 1990, to state that the petitioner has proposed that § 172.800 *Acesulfame potassium* be amended to provide for the safe use of acesulfame potassium as a nonnutritive sweetener in baked goods and baking mixes, and in icings, frostings, toppings, and fillings for baked goods.

The potential environmental impact of this action is being reviewed. To encourage public participation consistent with regulations promulgated under the National Environmental Policy Act (40 CFR 1501.4(b)), the agency is placing the environmental assessment submitted with the petition that is the subject of this notice on public display at the Dockets Management Branch (address above) for public review and comment. Interested persons may, on or before December 20, 1993, submit to the Dockets Management Branch (address above) written comments. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday. FDA will also

place on public display any amendments to, or comments on, the petitioner's environmental assessment without further announcement in the Federal Register. If, based on its review, the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the Federal Register in accordance with 21 CFR 25.40(c).

Dated: November 9, 1993.

Director, Center for Food Safety and Applied Nutrition.
