14 CFR Part 71

[Airspace Docket No. 91-ANM-25]

Alteration of VOR Federal Airway V-595; Oregon

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action extends Federal Airway V-595 from Deschutes, OR, to Portland, OR. Currently, there is no direct route to Portland from Deschutes. Altering V-595 by extending the airway from Deschutes to Portland will provide a shorter route and save fuel.

EFFECTIVE DATE: 0901 u.t.c., May 27, 1993.

FOR FURTHER INFORMATION CONTACT: Norman W. Thomas, Airspace and Obstruction Evaluation Branch (ATP-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-9230.

SUPPLEMENTARY INFORMATION:

History

On August 19, 1992, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to extend V-595 from Redmond, OR, to Portland, OR (57 FR 37490). Currently, there is no direct airway between these points. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, and the incorporation of the new names of the Rogue Valley, OR, VHF Omnidirectional Range/Tactical Air Navigation (VORTAC) (formerly Medford, OR) and the Deschutes, OR, VORTAC (formerly Redmond, OR), this amendment is the same as that proposed in the notice. Domestic VOR Federal airways are published in Section 71.123 of FAA Order 7400.7A dated November 2, 1992, and effective November 27, 1992, which is incorporated by reference in 14 CFR 71.1. The airway listed in this document will be published sequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations extends Federal Airway V-595 from Deschutes, OR, to Portland, OR. Extending V-595 from Deschutes to Portland will provide a shorter route and save fuel.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Establishment of Jet Route J-183; Texas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes Jet Route J-183 located in the vicinity of El Paso, TX. Establishment of J-183 will provide an additional route for operation between the El Paso and the Houston, TX, terminal airspace areas. The new jet route will relieve congestion in an area where aircraft are usually radar vectored. This action will also reduce controller workload.

EFFECTIVE DATE: 0901 u.t.c. May 27, 1993.

FOR FURTHER INFORMATION CONTACT: Lewis W. Still, Airspace and Obstruction Evaluation Branch (ATP-240), Airspace-Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267-9250.

SUPPLEMENTARY INFORMATION:

History

On July 2, 1992, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish J-183 located in the vicinity of El Paso, TX (57 FR 29454). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. One comment was received. The commenter was concerned about the number of frequency changes that may occur in the area where the jet routes cross. However, there are only two air traffic control facilities involved, Houston Air Route Traffic Control Center (ARTCC) and Albuquerque ARTCC. The alignment of J-183 enters the airspace of Albuquerque, NM, Fort Worth, TX, and Houston, TX, ARTCC's. However, the Fort Worth segment of that airspace has been delegated to the Houston and Albuquerque ARTCC's thereby eliminating the radio contact with the Fort Worth ARTCC. Except for editorial changes, this amendment is the same as that proposed in the notice. Jet routes are published in Section 71.607 of FAA Order 7400.7A dated November 2, 1992, and effective November 27, 1992, which is incorporated by reference in 14 CFR 71.1. The jet route listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations establishes J–183 located in the vicinity of El Paso, TX. J–183 will provide an additional route for en route operations between the El Paso and the Houston, TX, terminal airspace areas. The current congestion between these areas will be relieved by adding a new jet route in an area where aircraft are usually radar vectored. This action will reduce controller workload.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Docket No. 27192; Amdt. No. 375]

IFR Altitudes; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts miscellaneous amendments to the required IFR (instrument flight rules) altitudes and changeover points for certain Federal airways, jet routes, or direct routes for which a minimum or maximum en route authorized IFR altitude is prescribed. This regulatory action is needed because of changes occurring in the National Airspace System. These changes are designed to provide for the safe and efficient use of the navigable airspace under instrument conditions in the affected areas.

EFFECTIVE DATE: April 1, 1993.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS–420), Technical Programs Division, Flight Standards Service Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8277.

SUPPLEMENTARY INFORMATION: This amendment to part 95 of the Federal Aviation Regulations (14 CFR part 95) amends, suspends, or revokes IFR altitudes governing the operation of all aircraft in flight over a specified route or any portion of that route, as well as the changeover points (COPs) for Federal airways, jet routes, or direct routes as prescribed in part 95. The specified IFR altitudes, when used in conjunction with the prescribed changeover points for those routes, ensure navigation aid coverage that is adequate for safe flight operations and free of frequency interference. The reasons and circumstances that create the need for this amendment involve matters of flight safety and operational efficiency in the National Airspace System, are related to published aeronautical charts that are essential to the user, and provide for the safe and efficient use of the navigable airspace. In addition, those various reasons or circumstances require making this amendment effective before the next scheduled charting and publication date of the flight information to assure its timely availability to the user. The effective date of this amendment reflects those considerations. In view of the close and immediate relationship between these regulatory changes and safety in air commerce, I find that notice and public procedure before adopting this amendment are unnecessary, impracticable, and contrary to the public interest and that good cause exists for making the amendment effective in less than 30 days. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

NATIONAL INDIAN GAMING COMMISSION

25 CFR Chapter III

Editorial Amendments to the National Indian Gaming Commission's Regulations

AGENCY: National Indian Gaming Commission.

ACTION: Final rule; editorial amendments.

SUMMARY: The National Indian Gaming Commission is establishing this rule to inform the public of organizational and grammatical changes made to regulations previously published by the Commission. This regulation is strictly organizational and does not affect the substantive provisions of the Commission's regulations.

EFFECTIVE DATE: March 29, 1993.

FOR FURTHER INFORMATION CONTACT: Susan Carletta at (202) 632–7003, ext. 34, or by facsimile at (202) 632–7066 (not toll-free numbers).

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act (IGRA, or the Act), 25 U.S.C. 2701 *et seq.*, was signed into law on October 17, 1988. The IGRA established the National Indian Gaming Commission (NIGC, or the Commission). The Commission has promulgated several regulations implementing the IGRA. The purpose of this rule is to organize those regulations into subchapters. The Commission also has made grammatical changes to various sections of the regulations. The revisions contained in this regulation do not change the substance of the regulations.

Editorial Amendments to the Commission's Regulations

The Commission has published six sets of final regulations. On August 19, 1991, the Commission published regulations requiring class II gaming operations to compute and pay to the Commission the annual fees required by section 2717 of the IGRA (56 FR 40702). On April 9, 1992, the Commission published a regulation that defines key statutory terms, notably clarifying the distinctions between class II gaming (regulated by tribes and the Commission) and class III gaming (regulated under negotiated tribal-state compacts) (57 FR 12382).

On January 22, 1993, the Commission published final rules regarding its review and approval of tribal gaming ordinances or resolutions, Privacy Act procedures, compliance and enforcement procedures, and management contract provisions (58 FR 5802).

The regulations are contained in 25 CFR chapter III, parts 500–599. This regulation divides chapter III into subchapters A—I and places parts 500–599 into these subchapters. The Commission believes that organizing chapter III into subchapters will provide readers with easier access to related provisions of the regulations. The Commission also replaced the term "chapter" with "subchapter," where appropriate, clarified and made grammatical changes to the regulations. The Commission also deleted paragraph (b) of § 558.2, which was inadvertently included in the final regulation. For a discussion of § 558.2 see 58 FR 5808–5809 (January 22, 1993). Again, the Commission believes that the revisions contained in this document do not change the substance of the regulations.

Regulatory Matters

Executive Order 12291: Non major.

Regulatory Flexibility Act: No significant impact.

National Environmental Policy Act: Exempt.

Executive Order 12778: Meets the applicable standards.

Dated: March 23, 1993.

Anthony J. Hope,

Chairman, National Indian Gaming Commission.

For the reasons set forth in the preamble and under the authority of 25 U.S.C. 2706(b)(10), 25 CFR chapter III is amended as follows:

1. 25 CFR chapter III is amended by designating parts 501 through 519 as subchapter A and adding a subchapter heading; by designating parts 520 through 529 as subchapter B and adding a subchapter heading; by designating parts 530 through 539 as subchapter C and adding a subchapter heading; by adding and reserving subchapter D consisting of parts 540 through 549; by designating parts 550 through 559 as subchapter E and adding a subchapter heading; by adding and reserving subchapter F consisting of parts 560 through 569; by designating parts 570 through 579 as subchapter G and adding a subchapter heading; by adding and reserving subchapter H consisting of parts 580 through 589 and subchapter I consisting of parts 590 through 599 to read as follows:

25 CFR Part 503

Information Collection Requirements Under the Paperwork Reduction Act: OMB Control Numbers and Expiration Dates

AGENCY: National Indian Gaming Commission.

ACTION: Final rule.

SUMMARY: The National Indian Gaming Commission (NIGC, or the Commission) is establishing this rule for the purpose of informing the public of the control numbers and expiration dates assigned to information collection requirements in the regulations of the Commission by the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act.

EFFECTIVE DATE: March 29, 1993.

FOR FURTHER INFORMATION CONTACT: Susan Carletta at (202) 632–7003, ext. 34 (not a toll-free number).

SUPPLEMENTARY INFORMATION: Congress enacted the Paperwork Reduction Act of 1980 (the Act), 44 U.S.C. 3501 *et seq.* in an effort to minimize the Federal paperwork burden for individuals, businesses, State and local governments, and other persons. The Act also minimizes the cost to the Federal Government of collecting, maintaining, using, and disseminating information, and creates uniform Federal information policies and practices. Under the Act, federal agencies are required to display current control numbers assigned by the Director of the Office of Management and Budget (OMB), on each agency information collection requirement.

The purpose of this regulation is to inform the public of the control numbers and expiration dates assigned to information collection requirements of the National Indian Gaming Commission (NIGC, or the Commission) by the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* This regulation is administrative in nature and is intended to comply with all requirements of the Paperwork Reduction Act of 1980. This part, in particular, displays the current control numbers for information collection requirements of the Commission by OMB, along with the expiration dates of those information collection requirements.

The Indian Gaming Regulatory Act (IGRA), 25 U.S.C. 2701 *et seq.*, was signed into law on October 17, 1988. The IGRA established the Commission to regulate class II gaming and certain aspects of class III gaming conducted on Indian lands. The Commission has published several proposed and final regulations containing information collection requirements.

On August 15, 1991, the Commission published final rules (56 FR 40702) requiring class II gaming operations to compute and pay to the Commission certain annual fees. The fee regulation contains information collection requirements that have been approved by OMB and assigned a control number and expiration date.

On January 22, 1993, the Commission published final rules regarding its review and approval of tribal gaming ordinances and resolutions, Privacy Act procedures, compliance and enforcement procedures, and management contract provisions. (58 FR 5802) These regulations contain information collection requirements that have been approved by OMB and assigned control numbers and expiration dates.

Also, on November 24, 1992, the Commission published a proposed rule regarding Freedom of Information Act procedures. (57 FR 55212) This proposed rule contains information collection requirements approved by OMB and assigned a control number and expiration date.

This rule contains a list of information collection requirements contained in the Commission's regulations along with the OMB control numbers and expiration dates assigned to the requirements.
