38 CFR Part 21

[RIN 2900-AF79]

Veterans Education; Implementation of the Veterans' Educational Assistance Amendments of 1991 in VEAP

AGENCY: Department of Defense and Department of Veterans Affairs.

ACTION: Final regulations.

SUMMARY: The Veterans' Educational Assistance Amendments of 1991 contain several provisions which affect the payment of benefits to those receiving educational assistance under the programs VA (Department of Veterans Affairs) administers. This includes restoring lost entitlement to those reservists called to active duty and certain individuals on active duty during the Persian Gulf War, and an

improvement in payments to these individuals. This proposal will inform the public of the way in which VA intends to implement these provisions of law with respect to VEAP (the Post-Vietnam Era Educational Assistance Program).

EFFECTIVE DATE: These amended regulations, like the provisions of law they implement, are retroactively effective on October 10, 1991.

FOR FURTHER INFORMATION CONTACT: June C. Schaeffer (225), Assistant Director for Policy and Program Administration, Education Service, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233-2092.

SUPPLEMENTARY INFORMATION: Many veterans who are eligible to receive benefits under VEAP are members of the Selected Reserve. Consequently, when reserve units began to be called to active duty at the start of Operation Desert Storm, those reservists participating under VEAP as a result often had to discontinue their training during a term or other enrollment period. VEAP participants on active duty faced similar circumstances as a result of being transferred to a new duty location or assignment, or being required to assume additional duties in connection with the Persian Gulf War. Under the law then in effect, these individuals would have lost the entitlement used in pursuit of those discontinued courses unless their educational institutions discovered a method whereby the individuals could receive a grade for those courses. This could have affected adversely the ability of these individuals to complete their programs of education. Furthermore, in order to pay these individuals to the date they discontinued training, VA would have to determine whether there were mitigating circumstances surrounding these discontinuances.

The Veterans' Educational Assistance Amendments of 1991 was enacted in order to prevent eligible individuals from suffering these setbacks while serving the country during the Persian Gulf War. This Act contains several provisions which improve the educational assistance benefits for those who served on active duty during the Persian Gulf War. These include restoring lost entitlement to those who were called to active duty during an enrollment and to those who received a new duty assignment, went to a new duty location or who assume additional duties due to the Persian Gulf War, and providing for payment to the date these individuals withdrew from their courses. These regulations implement

such provisions of law for those receiving benefits under the VEAP program.

The Department of Veterans Affairs and the Department of Defense have determined that these amended regulations do not contain a major rule as that term is defined by E.O. 12291, entitled Federal Regulation. The regulations will not have a \$100 million annual effect on the economy, and will not cause a major increase in costs or prices for anyone. They will have no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

VA finds for good cause that publishing these regulations for prior public comment is unnecessary and would serve no good purpose since these changes simply implement statutory requirements. Therefore, notice of proposed rulemaking will not be published for these regulations.

Since a notice of proposed rulemaking will not be published for these amended regulations, these changes do not fall within the definition of a rule in the Regulatory Flexibility Act. Nevertheless, these amended regulations will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA), 5 U.S.C. 601-612. Pursuant to 5 U.S.C. 605(b), the amended regulations, therefore, are exempt from the initial and final regulatory flexibility analyses requirements of sections 603 and 604.

The Department of Veterans Affairs and the Department of Defense find that good cause exists for making these amended regulations and the new regulation, § 21.5053, like the provisions of law they implement, retroactively effective on Oct. 10, 1991.

It is necessary to implement these provisions of law as soon as possible. These provisions are intended to achieve a benefit for the individual. The maximum benefits intended in the legislation will be achieved through prompt implementation. Hence, a delayed effective date would be contrary to statutory design, would complicate administration of these provisions of law; and might result in the denial of a benefit to someone who is entitled to it. (The Catalog of Federal Domestic Assistance number for the program affected by these regulations is 64.120.)

(a) *General*. Except as provided in paragraphs (b) through (i) of this section, VA will make a charge against entitlement as follows:

(i) *Entitlement charge may be omitted for course discontinuance (Persian Gulf War)*. VA will make no charge against the entitlement of a servicemember or veteran for a payment of educational assistance allowance when—

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Chapter I

[FRL-4665-9]

OMB Approval Numbers Under the Paperwork Reduction Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency is continuing to consolidate display of the Office of Management and Budget (OMB) control numbers issued under the Paperwork Reduction Act (PRA) for various EPA regulations with information collection requirements.

EFFECTIVE DATE: This final rule is effective June 25, 1993.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at (202) 260-2740.

SUPPLEMENTARY INFORMATION: EPA is continuing to examine its management of the PRA. As part of that review, EPA is today publishing, as an addition to a single table, the current information collection request (ICR) control numbers issued by OMB for various regulations promulgated under the Clean Air Act; Motor Vehicle Information and Cost Savings Act; Executive Order 11735; Federal Water Pollution Control Act as amended by the Clean Water Act and the Water Quality Act; Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act, Hazardous and Solid Waste Amendments, and the Quiet Communities Act; Oil Pollution Act; Toxic Substances Control Act; Safe Drinking Water Act; and Comprehensive Environmental Response, Compensation, and Liability Act as amended by the Superfund Amendments and Reauthorization Act. The affected regulations are codified at 40 CFR parts 33, 35, 51, 52, 55, 58, 60, 61, 63, 70, 72, 73, 75, 77, 78, 79, 80, 82, 85, 86, 112, 116, 117, 122, 123, 124, 125, 130, 131, 144, 146, 147, 148, 233, 258, 260, 261, 262, 263, 264, 265, 266, 268, 270, 271, 279, 280, 281, 300, 302, 307, 310, 311, 350, 355, 403, 501, 503, 600, and 749.

EPA is continuing to present OMB control numbers in a consolidated table format to be codified in 40 CFR part 9 and in each CFR volume containing EPA regulations. The table lists the section numbers or parts with reporting and recordkeeping requirements, and their current OMB control numbers. In conjunction with consolidating display of OMB control numbers, the Agency is removing the existing parenthetical statement identifying OMB control numbers which currently appear in the affected Agency regulations.

The ICRs were previously subject to public notice and comment prior to OMB approval. As a result, EPA finds that there is "good cause" under section 553(b)(B) of the Administrative Procedure Act (5 U.S.C. 553(b)(B)) to amend this table without prior notice and comment. Due to the technical nature of the table, further notice and comment would be unnecessary. For the

same reasons, EPA also finds that there is good cause under 5 U.S.C. 553(d)(3).

For additional information, see 58 FR 18014, April 7, 1993 and 58 FR 27472, May 10, 1993.

Exemption From Pesticide Tolerances for Tomato Pinworm Insect Pheromone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule modifies an exemption from the requirement of a tolerance for residues of the tomato pinworm (TPW) insect pheromone, (E)- and (Z)-4-tridecen-1-yl acetate, in or on all raw agricultural commodities. This regulation to establish an exemption from the requirement of a tolerance for the TPW insect pheromone was requested pursuant to a petition submitted by Scentry, Inc.

EFFECTIVE DATE: Effective June 25, 1993.

ADDRESSES: Written objections, identified by the document control number, [PP 2F4039/R2002], must be submitted to: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: By mail: Phillip O. Hutton, Product Manager (PM) 18, Registration Division (H7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 202, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA 22202, (703)-557-2386.

SUPPLEMENTARY INFORMATION: In the Federal Register of March 11, 1992 (57 FR 8658), EPA issued a notice which announced that Scentry, Inc., P.O. Box 426, Buckeye, AZ 85326-0090, had submitted a pesticide petition (PP 2F4039) to EPA proposing to amend 40 CFR part 180, under section 408 of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 346a, by establishing a regulation to exempt from the requirement of a tolerance the tomato pinworm insect pheromone NoMate TPW Spiral ([E/Z]-4-tridecen-1-yl acetates). On April 1, 1992, Scentry indicated in a letter to EPA that the initial notice of filing was incorrect. In the Federal Register of June 10, 1992 (57 FR 24647), EPA issued a notice which announced a correction to the initial notice of receipt correcting Scentry, Inc.'s, address as 610 Central Ave., Billings, MT 59102, and that Scentry, Inc., proposed amending 40 CFR 180.1064 by establishing a regulation to exempt from the requirement of a tolerance the insect pheromone containing the active ingredients [E/Z]-4-tridecen-1-yl acetates in or on all raw agricultural commodities. On May 20, 1992, the petition was modified to limit the amount of TPW pheromone applied per acre per year, with the number of applications per year limited to 10. On January 15, 1993, the petition was further modified to limit application of the TPW pheromone to point source dispensers.

Other than Scentry's April 1, 1992 comments, there were no comments or requests for referral to an advisory committee received in response to the notice of filing and correction. The scientific data submitted in the petition and other relevant material have been evaluated. A discussion of the toxicological data considered in support of the tolerance can be found in the rule (PP 1F2464/R432) establishing an exemption from the requirement of a tolerance for the TPW pheromone when used in a chopped fiber or tape, published in the Federal Register of October 13, 1981 (46 FR 50371). The Agency has evaluated the petitioner's request to modify the current tolerance exemption for the TPW pheromone, 40 CFR 180.1064. These modifications include (1) expanding the crops covered by this exemption to all raw agricultural commodities, (2) broadening the allowable method of application from tape or chopped fiber to any point source dispenser, and (3) limiting cumulative yearly application to 200 grams TPW pheromone/acre. These modifications are supported by the existing mammalian acute toxicology and mutagenicity data base, which showed no significant adverse effects in any test.

Based on the information cited above, the Agency has determined that the establishment of the exemption from the requirement of a tolerance by amending 40 CFR part 180 will protect the public health. Therefore, the tolerance is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after the date of publication of this document in the Federal Register, file written objections and/or a request for a hearing with the Hearing Clerk at the address given above. 40 CFR 178.20. The objections submitted must specify the provisions of the regulation deemed objectionable and the grounds for the objections. 40 CFR 178.25. Each objection must be accompanied by the fee prescribed by 40 CFR 180.33(i). If a hearing is requested, the objections must include a statement of the factual issue(s) on which a hearing is requested, the requestor's contentions on each such issue, and a summary of any evidence relied upon by the objector. 40 CFR 178.27. A request for a hearing will be granted if the Administrator determines that the material submitted shows the following: there is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established, resolve one or more of such issues in favor of the requestor, taking into account

uncontested claims or facts to the contrary; and resolution of the factual issue(s) in the manner sought by the requestor would be adequate to justify the action requested. 40 CFR 178.32.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

(a) Application shall be limited solely to point source dispensers or point source chopped fibers containing the tomato pinworm insect pheromone.

Urea-Formaldehyde Copolymer; Tolerance Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is establishing an exemption from the requirement of a tolerance for residues of urea-formaldehyde copolymer (CAS Reg. No. 9011-05-6) when used as an inert ingredient (encapsulating agent) in pesticide formulations applied to growing crops only. This regulation was requested by ICI Agricultural Products.

EFFECTIVE DATE: This regulation becomes effective on June 25, 1993.

ADDRESSES: Written objections, identified by the document control number [OPP-300282A], may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708M, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Connie Welch, Registration Support Branch, Registration Division (H7505W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: 6th Floor, North Tower, Crystal Station #1, 2800 Jefferson Davis Hwy., Arlington, VA 22202, (703)-308-8320.

SUPPLEMENTARY INFORMATION: In the Federal Register of April 21, 1993 (58 FR 21432), EPA issued a proposed rule announcing that ICI Agricultural Products, Wilmington, DE 19897, had requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 346a(e), propose to amend 40 CFR 180.1001(d) by establishing an exemption from the requirement of a tolerance for residues of urea-formaldehyde copolymer when used as an inert ingredient (encapsulating agent) in pesticide formulations applied to growing crops only.

Inert ingredients are all ingredients that are not active ingredients as defined in 40 CFR 153.125, and include, but are not limited to, the following types of ingredients (except when they have a pesticidal efficacy of their own): solvents such as alcohols and hydrocarbons; surfactants such as polyoxyethylene polymers and fatty acids; carriers such as clay and diatomaceous earth; thickeners such as carrageenan and modified cellulose;

wetting, spreading, and dispersing agents; propellants in aerosol dispensers; microencapsulating agents; and emulsifiers. The term "inert" is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

There were no comments or requests for referral to an advisory committee received in response to the proposed rule. The scientific data submitted in the petition and other relevant material have been evaluated and discussed in the proposed rule.

Based on the information cited above, the Agency has determined that when used in accordance with good agricultural practice, this ingredient is useful and a tolerance is not necessary to protect the public health. Therefore, EPA is establishing the exemption from the requirement of a tolerance as set forth below.

Any person adversely affected by this regulation may, within 30 days after the date of publication of this document in the *Federal Register*, file written objections and/or a request for a hearing with the Hearing Clerk at the address given above. 40 CFR 178.20. The objections submitted must specify the provisions of the regulation deemed objectionable and the grounds for the objections. 40 CFR 178.25. Each

objection must be accompanied by the fee prescribed by 40 CFR 180.33(i). If a hearing is requested, the objections must include a statement of the factual issue(s) on which a hearing is requested, the requestor's contentions on each such issue, and a summary of any evidence relied upon by the objector. 40 CFR 178.27. A request for a hearing will be granted if the Administrator determines that the material submitted shows the following: there is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established, resolve one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issue(s) in the manner sought by the requestor would be adequate to justify the action requested. 40 CFR 178.32.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291. Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or food additive regulations or raising tolerance levels or food additive

regulations or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the *Federal Register* of May 4, 1981 (46 FR 24950).

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 74

[DA 93-671]

Broadcast Services; Editorial Amendments to the Commission's Rules

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This Order amends agency regulations on television broadcast auxiliary stations and instructional television fixed service to reflect recent

changes in the Commission's Rules. This action is needed to update these rules, to ensure that they concur with appropriate corresponding rule sections, and to ensure that they are as pertinent and as accurate as possible.

EFFECTIVE DATE: June 25, 1993.

FOR FURTHER INFORMATION CONTACT: Rita McDonald, Policy and Rules Division, Mass Media Bureau (202) 632-5414.

SUPPLEMENTARY INFORMATION:

Adopted: June 8, 1993.

Released: June 16, 1993.

By the Chief, Mass Media Bureau:

1. The Commission revises part 74 of its Rules, to ensure the consistency and accuracy of the Rules. We first amend § 74.602 to correspond with associated regulations in 47 CFR 2.106. Second, we amend § 74.931 to reinsert language inadvertently omitted from the text of

the Code of Federal Regulations. This Order makes no substantive changes that impose additional burdens or remove provisions relied upon by licensees or the public. For this reason, we believe that this revision will serve the public interest. This information is amended as part of the Agency's oversight function.

2. This amendment is implemented by authority delegated by the Commission to the Chief, Mass Media Bureau. Because this amendment only clarifies and corrects the existing language of part 74, prior notice of rule making is not required. 47 CFR 1.412(c). For this same reason, this amendment may become effective upon publication in the *Federal Register*. 47 CFR 1.427(b). Because a general notice of proposed rulemaking is not required, the Regulatory Flexibility Act does not apply.
